DAWN.

THERE is a soft and fragrant hour, Sweet, frefh, reviving in its power; ?Tis when a rav Steals from the vale of parting night,

And by its mild prelusive light Foretells the day.

'Tis when some ling'ring ftars scarce fied

Over the mifty mountain's head . Their fairy beam ;

When one by one retiring fhroud, Dim glittering through a fleecy cloud, Their laft faint gleam.

deatl (By some frail zephyr's baliny breath) The unfolding rose,

Sheds on the air its rich perfume, While every bud with deeper bloom And beauty glows.

'Tis when fond nature (genial power) Weeps o'er each drooping night clos'd flower,

While softly fly Those doubtful mifts that leave to view Each glowing scene of various hue That charms the eye.

'Tis when the sea-girt turret's brow, Receives the Eaft's first kindly glow,

And the dark wave, Swelling to meet the Orient gleam, Reflects the warmly flrength'ning beam It seems to lave.

'Tis when the refless child of sorrow, Watching the wish'd for rising morrow, His couch foregoes,

And seeks midft scenes so sweet, so To soothe those pangs so keen, so wild, Of hopeless woes.

Nor day, nor night, this hour can claim. Nor moonlight ray, nor noontide beam

Does it betray ; But fresh, reviving, downy sweet, It haftes the glowing hours to meet, Of rising day.

(Miss Owenson.)

Anecdote of Murat, Grand Duke of Berg. ferior kind, he dispatched one of his suit remaining 25 dollars, purchase and ferings. to order the belt baker in the town to at- drink 100 gallons of ftrong beer annually, tend him, to receive from him inftructions with regard to that necessary of and no harm. life. A baker, who had long been establifhed in the place, was selected for dy, thortens life, and deftroys reputa- with all its greatelt evils to the world ? this purpose ; and, upon the aid-de-camp | tion and credit ; and what is worse, nay | The present flate of the world imperiordering him to wait on the prince he ob- cruel, prevents thousands of innocent, ously demands the embargo. CHARLES TOWN, July 1.

CONTRADICTION .-- It appears from ersons, direct from the neighborhood of Woodstock, that the Murder of the Tin Pedlar, as related in our paper a few weeks back, turns out to be a fale report. (Stauntan Eagle.)

We underfand that the Dey of Al giers has lately given grounds to diffruit his peaceable dispositions towards the United States. After having settled with the American consul there the differences which arose, in December laft, including the case of the Algerine seamen who perifhed in the rescue of the American vessel captured by one of the mand about the middle of March for two thousand dollars a man, threatening to put Mr. Lear in chains if not paid in 24 hours. This was resisted. He then gave notice, that two frigates and other cruizers just on the point of sailing, had orders to capture American vessels, proceed to England. Mr. Nourse was out in transports and merchant vessels, which would infallibly go into execution unless the money fhould be immediately . paid. To obtain a recall of the orders, Mr. Lear thought it beft to comply; signifying to the Dey that he fhould communicate it to his government as the result of the force put on him. The day on no account was he permitted to visit there is no longer any necessity for con- before Mr. Lear was threatened, the Da-Paris. Mr. Lewis, who was the bearer | cealing its deftination. turn the prevailing system, and will do | now receive from her. as juffice, we entertain no doubt; but it s absolutely impossible to decide when this will take place. Such is the extreme pressure of the enemies of Britain upon excitement of a spirit of desperate infa- subscribers. tuation in that country, a spirit resolved | Preachers admitted on trial this on trying a completely new plan, and on ftretching vigor to its utmost extent .---Who knows, says the advocate for this svflem, what may turn up? Despair may throw the die; but fortune may crown it with victory. There is good reason to beliève, from recent advices from England, that the orders are there rather popular. - Experience only will remove this delusion. The Well India planters, the enemies of American inflitutions, and the merchants generally who are jealons of our commercial rivalry, are probably prepared to make great sacrifices; there can be as little doubt of the insensibility of avarice and power to the consequent wide-spread calamities of the lower orders of society. Exclusively consulting their own interefts, it will be only when the diffresses of the lower classes thall materially injure them, that they will relax.

the future, we are rejoiced to perceive ! different conferences, viz. our fellow-cirizens generally throughout the union pursuing a course of conduct, which will equally promote their solid interefts, whether our foreign relations become more troubled, or fiall be reflored to their usual tranquility. It is certain that if we are permanently deprived of that commerce which can alone enable us to part with our surplus products in a foreign market, we mull find a succedancum in manufactures and internal improvements; and it is equally clear, that even on the return of an undiflurbed trade, this progress in the cultivation of our internal resources would, notwithftanding, be of valt benefit.

Who, too, will say whether the zeal with which, under the present pressure, manufactures are pursued, may not be the molt effectual means of moving England to a sense of her own interests, by without her fabrics, but that we fhall find'a greater profit in our manufacturing ellablifaments than in the trade that enables us to part with our surplus agricultural products?

By an official flatement of the exports from Great Britain to the U.S. of A. the annual sum of forty-eight millions of dollars, of which thirty-six millions consift of wollens and cotton goods.

From the TRUE AMERICAN.

REASONS 81 Why I wont vote for JAMES MADI-SON as President.

Because he was an early, and has been an uniform friend to the independence and liberties of this country.

Because he was one of the first propo sers and most ardent advocates of the present Federal Conflicution; and has faithfully observed and supported it, in letter and spirit, ever since its adoption. Because he would not join with Hamilton, in ftriving to introduce a monarchical Government, formed after the model f the Britifli.

Because he was opposed to the Funding Syltem ; by which syltem a few unprincipled Speculators were enabled to reap all the scanty rewards of the toils and sufferings of the poor Soldiers-

Because he wished to introduce a system in lieu of the present, by which the Speculators fhould be reimbursed what they actually paid for the Soldier's Certificates, and even intereft thereon; while the residue fhould be paid to the Soldiers who rendered the service and underwent the sufferings for which they were intended as a compensation. Because he was opposed to the British syftem of measures which Hamilton and Pickering led JOHN ADAMS into, and which, could they have been effectuated would have raised America almost to an equal height in glory and happiness with

Old England herself! Because he drew the famous Resolu- the main ftreet, Shepherds-Town, and tions which the legislature of Virginia | lately in the occupancy of Mrs. Baylor. passed against the Alien and Sedition This house is well calculated for any kind Laws, which thook the Adams-Admini- of public business and a private family

AN OLD TORY. June 15, 1808.

enemies.

From the Mercantile Advertiser.

It happens frequently in spring and summer, after rainy weather, that cattle feeding on green clover swell to an amazing size, and die in a fhort time. That disease is occasioned by a dilation in their ftomach of the acid and mephitical gaz contained in the clover. The cure is a neutralization of that gaz, and is effected by the means of alkali; which is universally used in France, as follows: -Dissolve an ounce of potafh in a quart cure them in one hour.

One quart of ffrong ley given to an ox will cure him in three or four hours. Twelve or fifteen drops of alkali volatil fluor, mixed in a glass of water, are also a sure remedy.

N. B. One half of the above doses is sufficient for theep. The printers in the United States are

invited to publish the above.

DIED, at his plantation on Horse Creek, in Scriven county, (Geo.) Mr. MICHAYL DAUGHERTY, aged 135 years, and was one of the first settlers of that Itate. The day before he died he walked two miles-the day on which he died, he eat a hearty dinner, smoked his pipr, and in two hours after expired, which was on the 29th of May, 1808.

ANECDOTE.

A lady lately married (says a London paper) on coming to that part of the marriage service, " To obey until death do us part," hesitated to repeat the words. and would have passed them over, but on being urged to it by the minifter, fhe at length with reluctance complied. At dinner the minister said to the young lady's father, "Sir, your daughter was very unwilling to promise obedience to her husband." "Indeed. sir, said the lady, "I was loth to tell you a lie in church."

A horrid transaction took place at Middletown Academy (Monmouth county) New Jersey, on the 4th inflant, the following particulars of which have been related to us. The teacher in the Academy, a Mr. Read, had for some time pait paid his addresses to a Mrs. Conover, of that place, a widow of about forty years of age, and of a respectable charatter. His suit had not been successfui. On the day above mentioned, he su gettion the invitation was given,

room-fhe at first refused, but on his tel- | has first been spread : then take the cloth ling her that he had a piece of writing | containing the charcoal by the four corthere which he wanted her to read, and ners, and lay it upon the spot. names in a plain legible flile, without any moderate temperature: Parmentier. flourish above or below it --- Many letters have remained + unanswered, in conse- New Process for obtaining Sugar from. quence of the names of the writers of hem being illegible -- Names thus written are molt easily counterfeited, a fact which is not generally known. Affectation therefore in subscribing them, fhould be avoided upon this account aswell as others.

3. Take care to leave a vacant space in that part of your letter in which the seal or wafer is to be fixed -- By neglectng this caution, very important words in a letter have often been effaced.

4. In directing a letter, mention the fate in which the person resides to whom it is addressed, except he lives in a large town, or in the capital of a-ftate. From a neglect of this caution many letters have been delayed or perifhed in a poll office.

5. Never fail to pay the postage of your letters, when you write upon your own business. Be assured your business will be done the better for attending to this direction. The contrary practice is presuming, indelicate and unjust.

Method of removing spots of Grease.

M. Lenormand has discovered a new and easy method of inftantly removing spots of oil, grease and tallow, from any kind of fluff whatever, without changing requelled a woman who lived in one part its color. Take five or six pieces of of he building, to invite Mrs. Conover | lighted charcoal, about the size of a walto see her that afternoon. This the did. | nut; wrap them in a piece of white and M s. Conover, not knowing at whose very clean linen, which has been previ- in the neighborhood of ously dipped in water, and squeezed in Charlestown. Inquire of ca ne. Mr. Read took occasion of the the hand to press out the superabundant absence of the landlady, to ask Mrs. Co. water. Extend the fluff that is spotted the printers. nover to go up flairs with him to his on a table, on which a very clean naptin

disappear. When the spot is consideraspot, a thick vapor rises from it, which has the smell of the subftance that caused it. Hence it is to be presumed, that the heat diffused by the burning charcoal volatilizes the water of the cloth in which

Process for restoring its original luster to Wood painted with oil.

To clean wood work, or any other obect painted with oil colors, a brush dipbed in fresh urine is used with success. By this method the disagreeable smell of a new coat of paint is avoided. After the operation, wath with clear water, to take away the smell of the urine.

Manner of clarifying Writing Quills.

The bird which affords the greateft quantity of writing quills is the goose ; a single one may yield them of ten different qualities : but there always remains upon their surface a fatty matter, from which they must be freed, in order to render them pure, transparent, fhining, and clean ; in a word, to give them the qualities which they ought to possess. This preparation is principally performed by the Dutch. Hence the expression in French, hollander les plumes, to denote the operation, which the quills are made to undergo. I availed myself of the circumflance of the war, when several apothecaries, instructed in the arts and sciences, were employed in Holland, to solicit them to collect some information respecting this process, hitherto unknown. The following is what they have communicated to me. I with that by repeating them a satisfactory result may be obtained.

The process consifts in plunging the quill, as drawn from the wing of the fowl, into water nearly boiling, letting it soften there suffici ntly, compressing it, turning it on its axis with the back of the blade is effected by means of the fore finger 2. Subscribe your first and second and thumb. It is then put to dry in a

the Beet Root.

M. Achard's process for extracting sugar from the beet-root was so expensive that no advantage could be expected from it for ordinary uses. M. Hermbstadt, a celebrated chemist of Berlin, has discovered a method more easily executed, and by means of which it is expected that sugar will be produced at a rate considerably cheaper than that of the Weft-Indies. It is as follows : After pounding the beet-roots in a mortar, subject them to the press, to extricate the juice, which is then put into vessels, and clarified with lime, like that of the sugar-cane. This operation being com- by any respectable person or persons, pleted, evaporate it to the consistence of who are sufficiently responsible for the syrup ; leave the liquor to become cold, annual rents, which are quite reasonable. when you obtain raw sugar of a dark colour, and the syrup, which is left at the bottom of the vessel, may be applied to various purposes of domeftic economy. other would suit a tradesman : and they From 100lbs, of raw sugar you obtain by the first refining solbs. of a well-chrystal- for pleasantness of situation, extent of ized sugar, inferior neither in quality nor whiteness to that of the W. Indies. Two days are sufficient for accomplifiing the whole operation.

To be harvested on shares, the whole or part of a large field of wheat, June 10, 1808.
