### DIALOGUE

Between a Peace-party-man-a Federalist-a Democratic Clintonian, and a Republican.

Peace party man. Mr. Clinton's claims to the Presidency are very strong. At this period, we must have peace made immediately; and I am authorised to say, that the election of Clinton would directly lead to it.

## NEW YORK, October 22. Letter to the Editor of the Evening Post.

ALBANY, October 16, 8 o'clock, P. M. Captain Dox as just arrived express from Lewistown. He confirms every thing contained in gen. Hall's account of the disaster which has befallen our army. Dox was in the action. Eight hundred men are prisoners, and among them are colonels Christie, Scott and Fenwick, and mai. Mulhany of the regular troops, and 300 of col. Schuler's regt. The militia have been released on parole not to serve during the war. Our troops on their landing took possession of the British battery, which they retained till the afternoon, when the British were reinforced, and our men obliged to surrender. The number of killed and wounded is about 400. The number of our troops which crossed are not particularly mentioned. Col. Van Renselear was wounded on the first landing. General Wadsworth and col. Stranahan of the militia are also prisoners. We have lost many brave officers.

Gen. Van Renselear, Lovett, &c. were at Queenston with the army, but they returned and are well.

### LATEST.

From the Albany Gazette, October 20. The following is the most accurate account which we have been able to obtain of the late attack on the heights at Queenston, by the American troops.

At four o'clock in the morning of the 13th int. Col. Solomon Van Rensalear at the head of 300 militia, and lieut. colonel Christie with 300 regulars of the 13th regiment, embarked in boats to dislodge the British from the heights at Queenston-They crossed under cover of a battery of 2 eighteen and 2 six pounders-Their instant of their departure from the Ameunder a heavy fire of artillery and mus- theman of New-York. ketry-Col. Whereupon the General perceiving that a strong reinforcement was advancing to support the British, ordered a retreat ; but before the order reached Brigadier Gen. Wads worth, the battle was renewed by the enemy with great vigor and increased numbers, which compelled the Americans, whose strength and ammunition were nearly exhausted by hard fighting for eleven hours, and with very little intermission, to give way. The number of killed is considerable on both sides : but the Americans have lost many prisoners, including about sixty officers, most of whom are wounded. Among the prisoners are Lieutenant Colonels Scott, Christie and Fenwick, of the U. States troops, Gen. Wadsworth and Col. Stranahan of the militia. Maj. Gen. Brock, of the British, is among the slain, and his Aid de Camp mortally wounded. The whole number of Americans said to be engaged is about 1600, of whom 900 were regular troops and 700 militia.

On the 14th, an arrangement was made tia prisoners on parole, not to serve during the war.

Further particulars will be given as s that our troops behaved valiantly, and were overcome by superior numbers, in consequence of the indisposition of a large body of militia to join them in the

OF PITTSBURG, (PA.) Pittsburgh in an inland town in the state of Pennsylvania, situated at the confluence of the two rivers Monongahela and Alleghany, which make the river Ohio, or Le Belle Riviere, (so called by the French,) in lat. 40, 30, long. 30, 300 miles nearly west of Philadelphia, and 250 miles from the city of Washington. It contains 1000 good houses, and about 6000 inhabitants; a compact town, surrounded by mountainous grounds, very healthy, with most romantic views. It has nine handsome churches and places for public worship, which are well filled on the Sabbath, and attended with great decorum. There are two banks in high reputation and which afford the government great aid in its present operations. The mountains near this place are filled with the finest coal, delivered, at five cents per bushel, and stone of different kind, for building and for the grind stone. They have also marble, which receives the most elegant polish, and equal to any in the world. It is also surrounded by a very rich agricultural country, and the abundance brought to market surprises and delights for its cheapness and variety, while the rivers supply a profusion of most delicious fish. The inhabitants are little more than half of them native Americans-the others are from various parts of Europe, some of whom came to the attached to the 49th, were detached to country before the revolution.
