HISTORRY OF THE CAMPAIGN IN CANADA. Communicated to the Editor of the Albany Argus

To correct the many partial and contradictory private statements which have been published ; to supply important details omitted in certain official reports ; and to gratify the venial ambition gentlemen who have deserved well of their country-I propose giving you a brief but impartial sketch of the occurrences of the present campaign, not unmarked by brilliant and interesting events. The capture of York, April 27, 1815.

THE RUSSIAN MEDIATION ONCE MORE! Our readers will recollect that we quoted, a day or two ago, some remarks of Mr. Grundy respecting the time at which the overture of Russia to mediate was first made. In reply to those remarks, Mr. Goldsborough made some remarks, purporting that Mr. G's explanation did not refute the statement made in secret session by his colleague (Mr. Hanson) viz. that, the mediation had been suggested to the president in person by Mr. Daschoff, and by him had been ungraci-ously received, some weaks prior to the official communication of it. To those observations Mr. Eppes replied, in substance, that "in addition to the remarks which had fallen from the gentleman from Tenuessee (Mr. Grundy) he was authorized to declare, that no conversation of the kind, heretofore mentioned by a gentleman from Ma-ryland, Mr. Hanson.) had ever taken place between Mr. Daschoff, the Russian minister, and the president of the United States, either six weeks before the adjournment of the last Congress, or at any other time. He would state farther, may become the dupes of intrigue, the mask that no conversation, either formal or informal, on the subject of the Russian mediation, was ever held by the Russian minister with the president of the U.S. or with the secretary of state, until sfter his note on the 26th of February, requesting a conference. The reason is plain and obvious-Mr. Daschkoff did not receive his authority to tender the mediation until the 25th or 26th of February. In October 1812, the first intimation of the emperor to interpose his mediation between the United States and Great Britain, was communicated to our minister at St. Petersburg. A similar communication was made about the same time to Lord Gathcart, the British minister at St. Petersburg. It is to be presumed that the American and British ministers at St Petersburg communicated as early as possible this information to their respective governments. Mr. Adams's first communication on this subject was received by the American government on the 26th of February. The same vessel brought to Mr Daschkoff his instructions to offer the mediation of the emperor of Russia. At what period the information transmitted by lord Cathcart avrived in England is not known; probably, however, much sponer than the same information was received by the American government In a letter received from Mr. Adams since the 26th of February, he states that lord Castlereah, on receiving the communication of lord Catheart, had declared his belief that the Russian mediation would not be ject were perfected. There was consi- ing the session, passed several laws, hav- to return the enemy's fire to advantage, accepted by the American government. It is derable difference of opinion, even a- ing for their object to release the claims of and succeeded in driving them some disvery possible that this information might have been transmitted to this country through British of tarations, but there differences been transmitted to this country through British of tarations, but there differences been transmitted to the woods. Mr E. concluded by saying he had no object in rising but to state in explicit terms, that he was authorised to say that no conversation of the character alluded to had taken place between Mr. Daschkoff and the president of the U.S. either six weeks before the rising of Congress, or at any other time. The mediation was tendered at the time and in the manner stated by the gentleman from Tennessce (Mr. Grundy,) and in no other form; and it appears from all the circumstances that the charge of an indisposition on the part of government i accept the mediation, cannot be supported."

The party leaders and themselves so confront ed and refuted at every turn, that we almost wonder at their boldness in attempting new flights. . This statement by Mr. Eppes only was wanting completely to dissipate all the mists they have attempted to throw over the conduct of the executive in relation to the mediation of Russia Nas. Intel.

BREED CONST

FROM THE NATIONAL ADVOCATE. THE RUSSIAN MEDIATION.

Has been so often and so variously misrepre-sented by the venal and factious prints, that probably our readers are weary of hearing it. Bu the interests of truth are too important to permit us '. pass over these misrepresentations in silence. We had thing since exposed the profil rate and impudent attempts to destroy the effect which the promptitude of our government in accepting the Russian overture was justly entitled to produce, by representing it as a more unauth mised act of the minister; and we then predicted that it would turn out to be not only fully authorised by the Russian court, but that they had been moved to take this step by the British cabinet. This prediction is now verified. The instructions to the Rassian minister here were written at a time when the arms of Britain's allies on the Eu- | which is to be appropriated to the service | ropean continent were unprosperous. These of the present year, for expences (of miliarms have since been crowned with temporary success; that success has been again reversed : and we hazard the assertion, that if the British cabinet had not rejected the mediation before they learnt the news of the battles of Luizen & Wurtzchen, a negociation will be entered upon with our ommissioners. It was under the impression of this temporary success, that the London treasury journals anticipated the rejection of the mediation

Not only has this subject been misrepresented in the manner we have stated above, but it has it heen asserted that Mr. Dashkoff had made an in: formal offer of the mediation in a conversation with the president before the close of the last ses-

ephed, that he was fully authorised to state, that no such overture was ever made to the president until after the rising of the last congress, when it was inimediately accepted ; and that it was appa-Lord Cathcart, the British ambassador at St. Petersburg, having communicated the intention of it had, through that channel, got into certain prints here, before our government received notice of it. Time will determine whether the British goernment have refused the mediation of their own ally, and we may then appeal to the American people, and to an impartial world to determine. which of the two governments is most sincerely lesirous of honorable and permanent peace .-fer of the emperor Alexander, all the blood which may be shed in this war will be upon their heads. The Russian sovereign will learn how far he may depend upon the respect and confidence of a government whom he has made the depositories of his navy .- As for the leaders of the Opposition party in this country, they have their cue, and move as they are ordered by their times mistake the "warmth of profession" for sincerity of intention, they cannot err when they do as they are bid. To mar every attempt at honor. able negociation or efficient war, is their object. To this they wo ld sacrifice all that is most dear o the nation. The magnanimity of appointing a rederalist in the mission to St. Petersburg, is thrown away upon them, and a reciprocal liberality was not to be expected from men who showed themselves, when in power, incapable of setting such an example. But as sure as Providence is just, the day of their humiliation and abasement will arrive; and though the Senate which covered the visage of hypocrisy from 'the view of the geople has fallen off, and they will not submit to a King.

GENERAL DEARBORN.

[FROM THE ALBANY ARGUS.]

From Fort George .- On the morning of the 15th, there was considerable agitation in camp in consequence of a report that gen. Dearborn had received orders to retire from the command of the army at Fort George. This report, on enquiry, was found to be well grounded, and gen. Boyd and all the field officers immediately assembled and addressed to the senior general the following warm and carnest solicitation for him to remain in command ; to which he made the subjoined reply.

FORT GEORGE, July 15, 1813. To Major-General Dearborn, commanding, Sc.

SIR-We, the undersigned general and field officers of the army, who have served under your orders in the present campaign, having heard with regret that it is your intention to retire from the present command, beg leave respectfully to address you upon the subject. We are far from presuming, sir, to interfere with arrangements made by authority, when announced; but humbly conceive the present circumstances of this army are such as will, when taken into serious consideration; convince you that your longer continuance with us is of the first importance at this moment, if not absolutely indispensable to the good of the service.

We are now in a hostile country, and in the immediate neighborhood of a powerful though beaten enemy-an enemy whose strength is daily recruited by the arrival of reinforcements. In our ownnumbers, too, we have strength and confidence ; our position has been well chosen for defence, and the moment for advancing upon the enemy may soon be expected to come. But to operate with success it is necessary we should have | following paragraph': tion.

Fredericksburg, Aug. 11.

" I wrote you by the last mail, informng you that the British had landed on Kent Island. If we are to judge from appearances, it must be their intention to make it their head quarters, as they have now four encampments there. One is at the Narrows, where they have planted artillery; and three or four brigs and from this town; the last fire was about of which were returned.) They have a second encampment at Broad Creek, a third at Parson's Point, and a fourth at Kent Point, where it is said they are crecting fortifications. These circumstances lead us to believe that they mean to make a considerable stay on the Island, and it is certainly an eligible position for their predatory warfare, as they can plunder with equal facility Kent, Queen-Anne's, & Talbot counties, along the shores of Chester, St. Michaels and Wye Rivers. They have not vet attempted to advance any distance upon the Main ; the whole of the lower Regiment in Queen-Anne's' is on duty under the command of Major Nicholson (Col. Wright being sick); and I suppose the upper Regiment will join them immediately."
