Monte zeau, the 18th of last month. Amiens, Feb. 23 .- On the 20th of February, a body of the enemy, amounting to 800 men, appeared before the town of the Doulens. Judicious means were taken by the under prefect to defend themselves from invasion, but the population of that city not being more than 300 souls, they could not resist so cons derable a force. The garrison, which was composed of only 15 men of the department guard, having retired into citadel, kept possession of it some time, but

were at last obliged to cede to numbers. The enemy were not able to penetrate further than Doulens, all the bridges in the road having been cut down.

It is impossible to describe the ardor with which our troops attacked the enemy in the suburbs of Chambery, and repulsed them from post during the whole of the 18th. The persons who were so easly seduced by appearances, could not recover from the astonishment which the defeat of the enemy caused them. The new conscripts have shewn great zeal. The Austrians were completely defeated, with the loss of between 4 and 5000 killed, 4000 prisoners, 4 standards, and 6 pieces of cannon. The French statement says, "Our loss was not more than 400 killed and wounded, which, though it appears improbable, is nevertheless the exact truth."

NAPOLHON is a beautiful bright bay, seven ears old this spring; full sixteen hands high, ossesses fine bone and muscle, and of just proortion; his action is equal to any horse in the ountry; he never appeared on the turf, having en raised and owned since he was three months d by a gentleman who would never permit him be run, and was not permitted to cover until e was three years old; the mares put to him nce, have produced excellent colts, and it may e safely affirmed that few horses in this country re better bred than Napoleon, as will appear rom the following PEDIGREE.

Napoleon was got by the famous running horse Punch, imported by Mr. Powers of Virginia; Punch was owned by the Prince of Wales, and was sold at his great sale of running horses to sir John-Lade ; Punch was got by Old King Herod, his dam by Mask the sire of Old Eclipse, his grand lam by Cullan's Arabian; Punch was amongst the first running horses in England, as the racing callender will shew. Napoleon's dam was the fullored mare Sinica, she was got by Mark Anthony, sported by Col. Plater of Maryland ; Mark Aniony was owned by the Duke of Buckingham, and his performance on the turf is well known; Sinica's dam was got by the famous imported lorse Venitian, kept on the Eastern shore of Maryland—so that Napoleon, by his dain, as well as by his sire, is of the first blood of running horses
