The Epidemic Sore Throat, which now desolates several counties not far from the Metropolis, is supposed to be a new disease, and has received many names -- It is the same epidemic which prevailed in this country the last winter, and proved so fatal, until its character was understood. In the Virginia Argus of last April, I described the disease as an Epidemic Catarrhal Fever, or Malignant Influenza, neither coatagious nor mortal if properly treated.

After describing the manner in which it affected the head and breast, I stated -" But there is another mode of attack, more to be dreaded, because of its more rapid progress. The force of the disease is sometimes spent upon the fauces and throat, producing an inflammatory quinsev which threatens and has occasioned suffocation in from 15 to 18 hours from the attack .- This form of the disease, (as well as that attacking the head and breast) is introduced by shivering, headache, snuffing of the pose, hoarsness, and a spitting of white frothy mucus from the throat, with very little cough, and a breathlessness ... The patients rise up from bed declaring they must chook, complain of giddiness and faintness, and sometimes puke. The tumefaction of the throat is not always great enough to account for those alarming sufficating feelings. The muscles of respiration, and particularly of the glottis, must be spasmodically affected. One of the paroxysms could not be survived many minutes. Neither the breathing nor cough, resemble croup. Very large glandular swellings sometimes occur about the

From a congestion or accumulation of blood in the vessels of the throat the done? nflammation looks remarkably dark, and is coated in some parts with inspisated mucus, or coagulatinglymph, which give a most slarming aspect to the disease. It is these appearances which have caused it to be called Putrid Sore Throat .-- Fatal mistake! for the treatment proper in the latter disease, urges the inflammation and swelling of the former to suffocation .--These white crusts do not conceal ulcers, nor is the breath offensive, as in putrid fore throat. Instead of red pepper and lue stone gargles, and washes, found so useful in the Putrid Sore Throat, the mildest and most assumive applications are required in the prevailing epidemic. An infusion of red rose leaves, with a little allum in it; lead-water, or barly-water slightly ascidulated with elixir of vitriol or muriatic acid, make the best kind of gargles, which should never be applied

For the disease, affecting either the nead, breast or throat, the general indications of cure are-1st : To moderate the violence of the fever at the beginning, & thereby to reduce the inflammation, and prevent those fatal effusions of coagulating lymph on the brain, lungs and throat. -- 2ndly: To excite and continue a mo-

derate perspiration—and, 3dly, To restore vigour to the weakened system.

The first indication is performed by blood-letting at the beginning, regulated by the state of the pulse,\* and the violence of the inflammatory symptoms, which seldom last longer than two or three days. To bleed, after this stage, is to destroy the patient, or to plunge him into a state of lingering, typhoid debility.

As a few drops of blood from the nose have often relieved the head, might not a livision of the temporal artery, or openng the jugular vein, be the best mode of \* The pulse at the beginning is small and cor

TO ARMS! TO ARMS! THE ENEMY IN POSSESSION OF POINT PETER

AND ST. MARY'S. Copy of a letter from Capt. Massias to Brigadier General John Floyd, dated

Sweet Water Branch, 13th Jan. 1815. SIR-The enemy moved against Point Petre his morning at half past seven o'clock, with his whole force, (about fifteen hundred.) His operations were simultaneous. I received information of his approach on my picket, near major Johnson's, with about 800 to a 1000 men and two pieces of artillery; aware of his intentions to place himself in my rear, while he at the same ime was advancing in considerable force in front to attack the battery on the St. Mary's, with a view to cut off my retreat ; I made the following disposition of my small but brave force. I ordered capt. Stallings to remain at the Point with about thirty-six effectives, with orders to defend it as long as possible, and if he should be overpowered, to spike the guns, fire the train at the magazine, and retreat to me with the remain-

I moved against the enemy in the rear, deternined to oppose his passage at a narrow defile near major Kings, and make good my retreat at all hazards; at about nine o'clock we came up ith the defile, near Major Johnson's ; it is flanked by a marsh on each side, and has a complete cover for riflemen on the right and left, across which the day previous I had caused some large trees to be fallen; as we entered it on one end, the enemy did so on the other. It was my intention to gain the cross roads near Maj. King's, but finding myself stopped, Lieut, Hall, of the 43d.

Capt Tattnall, of the 43d nfantry, was ordered at the same time to ad vance in close column and pass the defile; at the moment their bugie sounded, and a brisk fire commenced on both sides. We had alread passed some distance, and the enemy had given way twice, when Capt. Tattnall, who steed her received a severe wound which obliged hir to fall back. This produced a momentary pause when the enemy pressed forward, but was re ceived with unequalled firmness. It was at this noment I received unexampled support from Sergeant Benson of the 43d infantry, and private Green of the rifle ; but our efforts were unavail ing their numbers were too imposing-a tho sand to sixty was too much odds and beliver the battery in the hands of the enemy, as be three guns had been fired, it was with retuctan that I ordered a retreat, which I am happy to state was effected in good order. We took a path Mrs. Gordon's on the North River, at which place I had previously engaged a large boat, in the event of not being able to pass by the bridges near Major King's; but some one had defeated that plan-the boat was taken away. I had but or recourse left, and that was to pass at Miller' Bluff with a paddling canoe. I then sent an or der to Capt. Stallings to retreat by that way which he promptly obeyed, the enemy following him close in his rear, and I have the pleasure t state we effected it without the loss of a man .-While I lament the necessity of informing you of the loss of the fort at Point Petre, I console myself with a consciousness of having done my best for its preservation, and of being peculiarly forth nate in making good a retreat, always doubtful, and by none believed practicable but myself. I ordered few horsesmen to reconnoitre their landing .-They reported, that their barges were all gone except two, which were adrift. I immediately fell back on St. Mary's-as I was informed that the enemy were advancing against the town o St. Mary's. I halted my men about a mile from St. Mary's, as I was informed some of the barges were in the North Itiver. I proceeded to town myself. When I arrived, I discovered their barges had got as far as Major Moor's causeway, and that Major Clark and Mr. Sadler had been appointed by the inhabitants to carry a flag to the enemy to capitulate. I hope you will contrive some way to rein force us. I shall never desert this part of the

county, while I can raise a man. While writing, a Mr. Brown made his escape from St. Mary's—he informs me, that the enemy are collecting all the horses and saddles about that place. From the best information we could obtain, it appears that they intend marching by land to Savannah. I shall endeavor to check their march as much as possible, at every advantageous post. Passed the Falls on the 28th ult. the Steam Boat Enterprise, loaded with publie property, consisting of 24 pounders, carriages, shells, small arms, &c. for General Jackson's army.

We have much pleasure in stating that the Keel Boat commanded by Captain Smallman, loaded with arms and ammunition, consisting of about 3000 stand of arms, 8000 pounds of powder, three tons balls, shells, &c. intended for General Jackson's army, that lodged on the Falls on Friday last, has been (through the exertions of Capt. John Nelson) gotten off with little or no damage and proceeded on her voyage on Monday last.

at the head of the government, with the slender means which have been lately voted by the representatives of the people, could not possibly carry on a successul war against our enemy, great as were his talents, both as a military chief and a statesman; and great as was his love of country. How then can it be expected that Mr. Madison is to be every where victorious? If he has neither men to fight the battles of the republic, nor money to pay them with, how can victory against our enemies, be obtained? Let our representatives fill the treasury and fill the ranks; and then, if matters go wrong, let us exclaim against the " mismanagement" of administration. For my part, I am rather inclined to wonder how it has happened, that with such inadequate resources, and such ill judged parsimony, our administration has been able to do so much. DISSOLUTION OF THE UNION. SPIRIT of Washington descend! Again thy country's rights defend From trait'rous usurpation; Transfuse, through ev'ry heart, that fire, Which rous'd a nation's martial ire, As worthy of a nation!

How must thy sainted visage frown, When thro' heaven's glory looking down On a rebellious faction, Whose aim is to dissolve those ties, Which link man's spirit to the skies. And prompt each noble action.

For, in rebellion's horrid train, Come neighbors dragg'd by neighbors

And brothers, too, by brothers; Sires by their sons all wounded o'er! Sons by their fathers drench'd in gore ! And daughters by their mothers!

Is there no arm made bare to save Columbia's honor from the grave, As in our revolution? No vials fill'd with wrath above? No red hot thunderbolts of Jove, In awful retribution,

For those who would a world divide-A glorious empire sever wide, And chain a nation slaves? Those "scribes" and "high priests" of the day, Who bribe a "Judas" to betray The very power that saves?

Is heaven's eternal vengeance spents Or why are not its lightnings sent To blast our country's foes? Must traitors in their plots succeed? Must freedom perish?-patriots bleed, And none to interpose?

No. Hope, which cheers the darkest

Points to that great Almighty Pow'r, Though vengeance seems to pause; Some Washington will yet arise, Sent by a warrant from the skies, And vindicate our cause.

Columbia's sons will e'er be free; "To be," they cry, "or not to be," Is now the rallying word : And rushing from ten thousand hills, Vict'ry's loud shout the battle stills And Justice sheathes her sword.

To the Freeholders of the Dis- | Hon. James Monroe, trict composed of the Counties of Berkeley, Hampshire, Hardy and Jefferson.

EELLOW CITIZENS,

I offer myself to your consideration as a candidate to represent you in the next Congress of the United States. It is possible the curious may be disposed to inquire, why I have become a candidate without the sanction of a committee? To this interrogatory, I answer; that the recent method of nominating caudidates by committees, however highly I may incline to appreciate the practice, is, nevertheless, as it seems to me, no way preferable to the ancient custom, which every one understands. Again, I have been induced to declare myself at this time, and in this way, by request of my friends, who think with me, it is the wish of a majority of the Freeholders of the District. If, however, we should be mistaken in this particular, whatever the result may be. I will cheerfully submit to, when fairly ascertained on the day of the Election. All I desire is to give the people an opportunity of making a selection, and all I ask, is an unbiassed expression of public opinion, This manner of proceeding appears perfectly congenial with the first principles of our government, with all our political institutions, and consequently can be liable to no rational objection.-Here, perhaps, it may not be improper to premise, that I trust my deportment on this occasion will be found fair, and manly; and that if I should meet with an opponent, he shall receive from me, all the politeness and decorum, due from one gentleman to another.

To those gentlemen in the upper parts of the district, with whom I have not the I left General Carrol's force and the mili- Hon. Citizens of the District, if an ardent attachment to my native soil; if many friends and relatives, whom I esteem and venerate; if a numerous progeny interwined with every moral perception of my heart; if either, or all these considerations combined, can rivet a man to his country and to liberty-These motives, these inducements, which in my estimation, are the most powerful that can operate on the human mind, shall be left by me, as pledges in your hands, that I will stedfastly adhere to your interest, and the honor of the nation.

ANDREW JACKSON, Maj. Gen. Camd'g. Hon. JAMES MONROE,

Secretary of War Washington. FROM OUR CORRESPONDENT.

Office of the Mercantile . Idvertiser, New York, January 28. From the N. London Gazette of Wednesday. CAPTURE OF THE PRESIDENT. On Monday afternoon a flag came up from the enemy's squadron of this port, was brought too off Port Trumbull, and delivered a letter of which the following | The Endymion being the fastest sailer

Rear Admiral Hotham also begs leave to commit the accompanying letters to the care of Gen. Cushing, which were received from persons late of the Presi-

The letters were from Com. Decatur to his lady, and other officers to their friends; and none official. The officer who came with the flag declined making any verbal communication. A letter from an officer to his friend was read and forwarded. It was written on board the Pomona. It briefly stated that the President was captured in the afternoon of the 15th inst. after an action of four hours and a half, by four British ships. That the 1st, 4th and 5th lieutenants were killed, and the sailing master and two midshipmen wounded, with a great loss of men. The lieutenants killed we understand are Messrs. Babbit, M. C. Perry, (brother to Com. Perry) and Hamilton, son of the late Secretary of the navy.

It appears that the enemy prohibited any particulars of the action from being communicated; from which we must infer that although they gained a frigate, they have reaped no laurels from the cap-

The President sailed from New-York on Saturday evening, and on Sunday morning before sun-rise, the Majestic razee, which lay near Plumb Island, got under way in the greatest haste, and proceeded to sea, leaving her water-casks principally on shore. A remarkable circumstance, which leads to the suspicion that information of the sailing of the President was received by traitorous communication, in 12 hours after her sailing :-

which, not improbably, led to her capture. The action must have been principally a running one, and nearly parallel to the coast of Long Island, as the firing was distinctly heard at Stonington and New-

It appears, before the brave commodore struck his flag, he was assailed by the frigates Pomona, Forth and Endymion, and the razee Majestic; and we have no doubt, that in this bloody and lamented action, a new glory perched on the American standard.

The private armed boat Retaliation, John Rogers, commander, on the 21st inst. brought in a boat from Lyme, with two men on board named Russel and Gilbert, on suspicion that they were bound on a trading trip to the enemy's squadron. Her load consisted of sheep, turkeys, geese, soap, candles, pepper, cheese, eggs, &c. On Monday they were brought before a court of enquiry, where an examination was had; but whether upon the evidence they are to be holden for trial remains undecided. The men in the intorim are committed to gaol.

NEW YORK, JAN. 28.

U. S. Frigate President captured. This vessel sailed from this port last Saturday week in co. with the brig Macedonian, brig Venus, and sehr. Hollies bound on a cruise. The day after she sailed she found herself chased by 3 enemy frigates, the Endymion, Pomona and Majestic razee, who had been watching her. The and a half, when perceiving the other frigate and razee coming up she struck. - The following letter from an officer on

board to his friend in this city, sent in by in thing from the squadron off New-London, furnishes all the particulars that have come to hand.
