FROM THE ALBANY ARGUS. DISSOLUTION OF THE UNION. SPIRIT of Washington descend ! Again thy country's rights defend From trait'rous usurpation ; Transfuse, through ev'ry heart, that fire, Which rous'd a nation's martial irc, As worthy of a nation !

How must thy sainted visage frown, When thro' heaven's glory looking down On a rebellious faction,

Whose aim is to dissolve those ties, Which link man's spirit to the skies, And prompt each noble action.

For, in rebellion's horrid train, Come neighbors dragg'd by neighbors slain

And brothers, too, by brothers; Sires by their sons all wounded o'er ! Sons by their fathers drench'd in gore ! And daughters by their mothers !

Is there no arm made bare to save Columbia's honor from the grave, As in our revolution? No vials fill'd with wrath above ?

No red hot thunderbolts of Jove, In awful retribution,

For those who would a world divide-A glorious empire sever wide, And chain a nation slaves? Those "scribes" and " high priests" of

the day, Who bribe a "Judas" to betray

The very power that saves ?

Is heaven's eternal vengeance spent# Or why are not its lightnings sent To blast our country's foes ? Must traitors in their plots succeed ? Must freedom perish ?- patriots bleed, And none to interpose ?

No. Hope, which cheers the darkest hour.

Points to that great Almighty Pow'r, Though vengeance seems to pause ; Some Washington will yet arise, Sent by a warrant from the skies, And vindicate our cause:

Columbia's sons will e'er be free ; " To be," they cry, " or not to be,"

Is now the rallying word : And rushing from ten thousand hills, Vict'ry's loud shout the battle stills And Justice sheathes her sword. W. R.

The excavations of Pompei are pur sued with the most unremitting zeal by the Neapolitan government. The most recent discoveries have been three new magnificent tombs adorned with sculpture, and a hall which is supposed to have been the court of justice, and which is decorated with a triple row of columns .----Bronze stoves were also found in the same place, of the most beautiful form, with a Faun and Bacchus two feet high and exquisitely formed. Lastly, a small bronze Gladiator, precisely similar to that which has been already so much admired, and which is in the attitude of supplicating life from the spectators. A short time ago, there was also found a besutiful silver vase, which seemed to have been used in religious worship-it is covered with figures in relief, and resembles in form that of the Royal Cabinet of France, which has been published by Caylus and Don Martin. There is a third vase quite similar in the ca-third vase of the late Condinal Borgia binet of the late Cardinal Borgia.----There has been discovered in the Cabinet of Medals at Milan, a Chinese work, published in 1750, by order

of the Emperor Kien Long, containing drawings of upwards of 900 vases, resembling those denominated Etruscan. Scveral appear to be of very remote antiquity.

SIR-The loss of our gun-boats near

the pass of the Rigolets having given the

enemy command of lake Borgne, he was

enabled to chuse his point of attack. It

became therefore an object of importance

to obstruct the numerous bayous and ca-

nals leading from that lake to the high-

lauds on the Mississippi. This import-

ant service was committed, in the first in-

etance, to a detachment from the 7th Re-

giment, afterwards to Col. De Laronde

of the Louisiana militia, and lastly, to

make all sure, to Major Gen. Villere

commanding the district between the ri-

ver and the lakes, and who, being a native

of the country, was presumed to be best

acquainted with all those passes. Un-

fortunately, however, a picquet which

he general had established at the mouth

of the bayou Bienvenu, and which, not-

withstanding my orders, had been left un-

obstructed, was completely surprised, and

the enemy penetrated through a canal

leading to his farm, about two leagues be-

low the city, and succeeded in cutting off

a company of militia stationed there .---

dispositions for the attack. His forces

amounting at that time on land to about

cautiously exposed.

In this affair the whole corps under my command deserve the greatest credit .----The best compliment I can pay to General Coffee and his brigade is to say they behaved as they have always done while. under my command. The 7th led by Major Pierre, and the 44th commanded by Col. Ross distinguished themselves. The battalion of our militia commanded by Major Planche realised my anticipations, and behaved like veterans. - Savary's volunteers manifested great bravery ; and the company of city riflemen having penetrated into the midst of the enemy's camp were surrounded, and fought their way out with the greatest heroism, bringing with them a number of prisoners .--The two field pieces were well served by the officer commanding them.

All my officers in the line did their duy, and I have every reason to be satisfied with the whole of my field and staff .---Colonels Butler and Platt and Major Chotard, by their intrepidity, saved the artillery. Col. Haynes was every where that duty or danger called. I was deprived of the services of one of my Aids, Captain Butler, whom I was obliged to station, to his great regret, in town .---Captain Reid, my other Aid, and Messrs. Livingston, Duplissis and Davizac who had volunteered their services faced danger wherever it was to be met, and carried my orders with the utmost promptitude.

We made one Major, two subalterns, and sixty-three privates prisoners; and the enemy's loss in killed and wounded must have been at least -. My own loss I have not as yet been able to ascertain with exactness, but suppose it to amount to 100 in killed, wounded and missing. Among the former I have to lament the loss of Col. Lauderdale, of General Coffee's brigade, who fell while bravely fighting. Colonels Dyer and Gibson of the same corps were wounded, and Najor Kavenaugh taken prisoner.

Col. De Laronde, Major Villere, of the /Louisiana malitie, Major Latour of engineers having no command, volunteered their services, as did Drs. Kerr and Hood, and were of great assistance to me.

The letters were from Com. Decatur to his lady, and other officers to their friends; and none, official. The officer who came with the flag declined making any verbal communication. A letter from an officer to his friend was read and forwarded. It was written on board the Pomona. It briefly stated that the President was captured in the afternoon of the 15th inst. after an action of four hours and a half, by four British ships. That the 1st, 4th and 5th lieutenants were killed, and the sailing master and two midshipmen wounded, with a great loss of men. The lieutenants killed we understand are Messrs. Babbit, M. C. Perry, (brother to Com. Perry) and Hamilton, son of the

On Monday they were brought before a court of enquiry, where an examination was had; but whether upon the evidence they are to be holden for trial remains undecided. PHILADELPHIA, Jan. 27. FRIGATE PRESIDENT.

A letter from Com. Decatur, to his wife, states, that in going out of Sandy Hook, the pilot ran his ship on shore, by which he lost her trim, and by which her sailing was much injured ; he had not regained her trim when he fell in with the enemy's squadron.

He engaged the Endymion during the chase, and in two hours silenced her, and left her like a log on the water. He then endeavored to make his escape by lightening the President, but the other enemy's vessels at length reaching him with their broadsides, he was under the necessity of surrendering. He lost 3 lieutenants and 25 seamen killed, and 75 wounded.

CAPTURE OF THE PRESIDENT.

Various statements have been given of the circumstances attending the loss of the frigate President. The following. may be relied on as the substance of a brief letter from Commodore Decatur to his lady, who is at present at Frankford.

On passing Sandy Hook the frigate struck on the bar, where she remained thumping for two hours, until the tide rose. Early in the morning she fell in with a British squadron consisting of the Majestic razee, the Endymion, Pomona and Tenedos frigates, and the Despatch brig. Every effort was made to escape, but in vain, the frigate having lost her sailing trim in consequence of the gentleman, who was taken prisoner at injury sustained at the Hook. FROM GEORGIA.

Savannah, Jan. 19.

A letter from Wayne county dated 17th inst. says, " the enemy still occupy St. Mary's and Point Petre, and have promised to respect private property-if they do I shall be very agreeably disappointed-it is said the notorious vagrant Fitzgerald holds an important command in the service of the enemy, and is now with them in St. Mary's; and that he has put his step son James Osborn in irons already. The most alarming circumstance. however, is that the noted colonel Woodbine is in our rear at the head of six hundred Indians, in consequence of which, all the settlements on the St. Mary's and Satilla rivers to the Altamaha are breaking up, and the inhabitants fleeing preciitately to the interior of Georgia-many of them leaving nearly all they possess for the merciless savages. Hundreds of inhabitants are now on the road between this place and Satilla river."

It was reported in town last night that the enemy had advanced as far as Darien (about sixty miles from Savannah) and haditaken that place-We have endeavored to trace whence the report came, but have not been able to do so. It is therefore idle.

A schooper, prize to the Yankee privateer, with fish, flour and figs, ran into St. Simon's inlet on the 15th inst. mistaking it for Savannah river. In a few. hours after the schooner came to anchor she was boarded by two or three British barges, and taken possession of.

SHIPWRECK OF THE STLPH.

By several gentlemen from the cast end of Long Island, in the stage, yesterday morning, who reside near the scene of this melancholy event and were on the spot shortly after, we have obtained the following particulars of the uncommonly distressing occurrence':

The Sylph is a British (ship) sloop of war, rated at 18 guns and carrying 22 and was commanded by Capt. Dickens, with a crew amounting, with himself and officers, to 117 souls, of whom 111 have perished. On Tuesday morning, the 17th inst. at half past 2 o'clock, previous to the snow storm, the weather being thick and the night dark, the wind at N. E. standing to the northward under a close reefed topsails, she struck on Southhampton bar, at Shinecock bay, or Canoe place, 4 miles west of the town ; and soon beat over and drove head onwards to within a few rods of the shore.

By day-light she was perceived by the inhabitants, and a number immediately collected and hastened to attempt the relief of the people. From the height of the surf and the violence of the sea however, as the storm approached and increased, it was impossible to get to the vessel. The crew were all safe, 60 of them in the tops and on the rigging, until half past 8 o'clock, when the purser parted with the captain in the mizen top and came to the windward gunwale, which was then as high out of the water as her tops. Directly after, a tremendous sea capsized the ship and broke her in two between the fore and the main masta; the fore part rolled over and lies keel upwards, and the after part, split length-wise, went to pieces and drifted to the leeward.

The crew being thus dashed into the sea, were chiefly drowned immediately. A few were seen on spars and pieces of the wreck, and every exertion made by the spectators on the shore to save them. The purser, Mr. William Parsons, with 2 of the seamen, were taken off the spars about 2 o'clock in the afternoon, and 3 more sailors, sometime after, saved from the wreck by a boat. The next (Wednesday) morning the bodies of the 2d lieutenant and 2 seamen were found on shore at Southampton and buried, and 10 others have drifted up with part of the wreck as far west as Babylon, near Fire Island inlet.

The snow came on about noon, and the storm raged with great violence through the day. The inhabitants of the neighborhood, however, in considerable numbers repaired to the place, and made the greatest efforts to relieve the unhappy sufferers, to the extreme risque of the lives of a number of the citizens who distinguished themselves, by. their zeal and intrepidity on the occasion. Their humanity and exertions were gratefully acknowledged by Mr. Parsons, the purser, in a letter to Com. Hotham, (of the Superb, off New-London) who returned a polite and friendly answer, and promised the release, if in his power, of a captured vessel and crew belonging to the place, for which purpose the flag that carried the letter was sent.

The men saved remained at Southsmpton prisoners of war. The wind and tide set almost directly along the coast, with a strong undertow off shore, or probably a much greater proportion of the crew would have survived.

The purser states that capt. Dickens, is a young gentleman of fortune lately married; and mentions that one of the saved seamen held a little son in his arms until he was chilled to death, when he dropt him overboard, and a number of other affecting incidents .- Col.

HUDSON, (N. Y.) JAN. 24. LEAD MINE.

We have heard with great pleasure that a very valuable Lead Mine has been discovered in the town of Ancram, in this county, on the estate of John Livington, Esq. of Oak-Hill, and that preparations are making for working it upon an extensive scale in the spring. The ore, of which a very considerable quantity has been got out, is said to be very rich, and there is every indication that it is inexhaustible. We also understand that the proprietor contemplates creeting a rolling machine for making sheet lead ; end the manufactory of white lead we presume will follow of course. The vast importance of this discovery to our country induces us to wish the working of it may be attended with all possible success. The present high price of lead, and particularly white lead, renders this discovery particularly interesting, at this moment -and we indulge a very strong expec-tion that this state at least will in a short time no longer be dependent for these necessary articles on foreign importation.

Copy of a letter from Major General Jackson, to the Secretary of War, dated

9th Jan. 1815. During the days of the 6th and 7th, the enemy had been actively employed in making preparations for an attack on my lines. With infinite labor they had suctheir boats across from the lake to the river, by widening and deepening the canal on which they had effected their disembarkation. It had not been in my power to impede these operations by a general attack : added to other reasons, the nature of the troops under my command, mostly militia, rendered it too hazardous and well disciplined army.' Although d by the arrival of the Kentucky divi-Compelled thus to wait the attack of the nemy, I took every measure to repel it when it should be made, and to defeat the object he had in view, Gen. Morgan with the Orleans contingent, the Louisius militia and a strong detachment of the Centucky troops, occupied an entrenched camp on the opposite side of the river, rotected by strong batteries on the bank, ected and superintended by Com. Pat-

In my encampment every thing was ready for action, when, early on the morning of the 8th, the enemy after throwing a heavy shower of bombs and greve rockets, advanced their coumns on my right and left, to storm my ntrenchments. I cannot speak sufficientin praise of the firmness and deliberaion with which my whole line received their approach-more could not have been expected from veterans inured to war.

ined. The artillery, too, directed by flicers who displayed equal skill and conage, did great execution. Yet the comns of the enemy continued to advance ith a firmness which reflects upon them e greatest credit. Twice the column hich approached me on my left, was repulsed by the troops of general Carroll, hose of general Coffee, and a division of the Kentucky militia, and twice they formed again and renewed the assault. At length however, cut to pieces, they fled in confusion from the field, leaving it covered with their dead and wounded. The loss which the enemy sustained on this occasion, cannot be estimated at less than 1500 in killed, wounded and prisoners. Upwards of three hundred have almy men are still engaged in picking them p within my lines and carrying them to he point where the enemy are to receive hem. Major Carmick, who I informed you yesterday was wounded likewise in the battle of the 28th ult. deserves a particular mention. He received at the same instant three balls in his hat, one of which scratched his head, a fourth went through his right arm, a fifth broke the thumb of his right hand, and the sixth killed his horse under him. I am happy to hear that he is in a fair way of recovery, although I fear we have lost his services

for the present. Since the 1st inst. nothing material had occurred. On the 6th, at night, except constant and almost uninterrupted skirmishing between picket guards, and on our part a perpetual firing from our batteries on the right, shore of the river, and
