ON SNUFF. Composed by a Doctor James, of Virginia,

many years ago. The smallest pinch of snuff I take, Helps trade, in some degree,

The smallest drops of water make, The vast, unbounded sea.

Nature, in vain, on distant shores, Pours forth her ample store," To form the curious polished box, If snuff be used no more.

The hand as Alabaster fair, The Diamond's sparkling pride, Could ne'er so gracefully appear, If snuff should be denied.

E'en commerce, name of sweetest sound To each Virginian's ear, Would suffer, sink and droop, If snuff should disappear.

DEATH AND THE DRUNKARD

His form was fair ; his cheek was health, His word a bond; his purse was wealth, With wheat his fields were covered o'er; Plenty sat smiling at his door. His wife the fount of ceaseless joy: How laugh'd his daughter, play'd his boy: His library, though large, was read Till half its contents deck'd his head. At morn 'twas health, wealth, pure delight: 'Twas health, wealth, peace & bliss at night. I wish not to disturb his bliss-

'Tis gone: but all the fault was his, The social glass I saw him seize. The more with festive wit to please, Daily increased his love of cheer .--Ab, little thought he I was near; Gradual indulgence on him stole: Frequent became the midnight bowl. I in that bowl the HEAD-ACHE placed ; Which, with the juice, his lips embraced. SHAME next I mingled with the draught: Indignantly he drank and laugh'd. In the bowl's bottom BANKRUPTCY I placed-he drank with tears and glee. REMORSE then in it did I pour; He only sought the bowl the more. I mingled next joint tort'ring PAIN: Little the less did he refrain. The propey in the cup I mixt:

Still to his mouth the cup was fixt. My emissaries thus in vain I sent, the mad wretch to restrain ; On the bowl's bottom then MYSELF I threw; the most abhorent elf. Of all that mortals hate or dread : And thus in horrid whispers said: " Successless ministers I've sent. "Thy hast'ning ruin to prevent: "Their lessons naught-now here am I "Think not my threat'nings to defy. "Swallow thou this, thy last twill be; "For with it thou must swallow ME. Haggard his eyes; upright his hair; Remorse his lip; his cheek despair; With shaking hands the bowl he grasp'd-My meatless bones his carcase clasp'd, And bore it to the church-yard; where Thousands 'ere I would call, repair. . DEATH speaks-ah, reader, dost thou hear?

Hast thou no lurking cause to fear? Hast not o'er thee the sparkling bowl Constant, commanding, sly control? Betimes reflect-betimes beware-The ruddy, healthful, now, and fair, Before slow reason seize the sway, Reform-postpon'd another day, Too soon may mix with common clay.

Hampden's Sword .- Among the interest. ing objects of curiosity in Carlton-house in the armory, which contains a magnificent collection of ancient arms, disposed with much taste, is the identical sword of the celebrated patriot John Hampden, in the highest preservation; the hilt and scabbard are ornamented with small bronze figures in relief, representing the history of David and Goliah, and from the admirable spirit and skill displayed in their execution, they are suppossed by the most intelligent connoisseurs to be the work of the celebrated Italian artist, Cellini, who flourished in the time of Hampden.-London pap.

TIMES LONG PAST .- The clothes of the Roman Emperor Augustus Cæsar were seldom other than such as the Empress Livia, or his sister Octavia, had spun for him.

Cato rode upon a single horse, without attendance, and his baggage behind him. Aristides, Valerius, Publicola, and several other great names, who had the management of the public treasures of Republican Greece

and Rome, did not leave enough to bury them when they died. But these are heathen examples-not to be adduced for imitation now-a days.

PLEASURE OF PAYING DEBTS "What a pleasure it is to pay one's debts ! -Sir T. Littleton made this observation. It seems to flow from a combination of circumstances, each of which is productive of pleasure. In the first place, it removes that uneasiness which a true spirit feels from a dependence and obligation. It affords pleasure to the creditor, and thereby gratifies our most social affections. It promotes our future confidence, which is so very interesting to an honest mind. It opens a prospect of being readily supplied with what you want on future occasions. It leaves a conscious-

ass of our own virtue. And it is a measure which we know to be right, both in point of justice and sound policy. Finally it is the main support of reputation.

---From the American Centinel.

Take a table spoonful of unslacked Lime, and let it be given with the water, or the feed of the horse, at night and morning, regularly, for three or four days, and it will completely expel the botts.

ANOTHER CURE.

Make a drench, composed of half a pint of new milk, a gill of molasses, an ounce of copperas, two table spoon-fulls of common salt, and half a pint of warm water. Give this to the horse, once or twice a day. for a few days, and it will be sure to relieve him.

SCRATCHES IN HORSES.

This troublesome disorder may be effectually removed by the following simple method .- Make a strong salution of copperas in water, so that the water is completely saturated with it, apply this to the part affected, rubbing it in gently with a cob, each time. A few applications of this kind will generally cure the complaint entirely.

ON TASTE IN FEMALE DRESS

Personal neatness may almost be classed with the cardinal virtues. It wasan observation of Lavatar, that persons habitually attentive to dress, display the same regularity in their domestic affairs. "Young women," says he, " who neglect their toilette, and manifest little concern about dress, indicate in this very particular, a disregard of order, Jan. 14, 1818. a mind but ill adapted to the details of house keeping; a deficiency of taste, and of the qualities that inspire love; they will be care-less in every thing. The girl of eighteen, who desires not to please, will be a slut and a shrew at twenty five. Pay attention young men, to this sign ; it never yet was known to deceive." Husbands as well as lovers are gratified and delighted in seeing their partners handsomely adorned; and I am well convinced that many a heart, now roving in quest of variety, might have been detained in willing captivity at home, by the silken chains of personal decoration. It is one of the moral duties of every married woman always to appear well dressed in the presence 8. Making further provision for repairing of her husband. There are letters in town from Venezuela, from which we expect to give extracts in a day or two. By these it appears, that the report of an action which took place at Hogassa, in August, last year, in which the royal force claimed the victory over the patriot general Zaraza, was in fact a victory gained by the patriots, in which Morillo was novements for three months.

Two vessels with volunteers from Europe had arrived at Angostura, the officers of two corps of cavalry, the colonel of which is represented as of fifty years of age, a veteran, and the major of thirty-six years, the whole commissioned officers, experienced in war, was on board; they have brought complete accoutrements for a great body of cavalry, saddles, briddles, pistols, sabres, and lances.

Two vessels had arrived at St. Bartholo mews, on board of which was a complete field park of artillery. Those vessels were ordered to remain at St. Bartholomews till they received directions for their destination from the head-quarters of the patriot army. An advice boat arrived at St. Bartholomews, directs them to repair to Angostura-it is by this advice boat that the intelligence has been received.

By the same channel, it appears, that lord Cochrane was expected with two ships carrying fifty guns each, and three corvettes. carrying 10,000 stand of arms, that officer having accepted a naval command from several of the new states.

The vessels arrived at the Oronoco and at St. Bartholomews are from four hundred to five hundred tons burthen, and have each or board a portion of experienced soldiers.

Those vessels took on board their armamentand troops in the Thames. Lord Cochrane's squadron rendezvous is at the Isle of Wight .- [Aurora.

We shall drive them hence in a short the sea. After having thus glutted his thirst for blood, he endeavored to prevail on the crew to carry the vessel into a Spanish port and dispose of her cargo. Instead of complying they put him in irons and took the yessel to the port of destination, whence Wyatt was brought to this place in the U. States schooner Firebrand.

We are informed that a gentleman who was ascending the river in a perogue on Monday evening, was followed by some persons. in a boat, who after overtaking him and secompelled to escape by flight, after the loss of curing his servants, robbed him of upwards one third of his whole force in the field; a loss which disabled him from making any willains were discovered, and not only this mouse but property to an inner only this money, but property to an immense amount was found stored in an enclosure in the Fauxbourg St. Mary: Among other valuables. the plate, which had been stolen from the Parfaite Union Lodge some time ago, was found. From the quantity of plunder and the arms discovered on the premises, no doubt can be entertained, that a regular and extensive gang was organized, and that they had for a long period carried on their nefarious practices with success and impunity. We hope this discovery will infuse a little more energy into our police, and induce a vigilant search in every suspicious part of the city and suburbs.

WEDNESDAY, MAY 6.

A valuable barn, belonging to Mrs. Eli tabeth Morgan near Shepherdstown was consumed by fire on the evening of the 29th alt. It is supposed to have been wilfully set on fire by a negro girl.

On Saturday night the 25th ult. a barn belonging to Mrs. Rachel Brown, near Keyes' Ferry, was destroyed by fire. This was also wilfully done by a small negro girl.

We are sorry to understand, that Spring Garden, the elegant Seat of Judge Roane in Hanover County, was on Saturday last reduced to ashes. The wind was uncommonly high on that day, and no efforts that could be made were sufficient to arrest the progress of the flames. The roof caught fire from the chimney while the family were at dinner. -Most of the valuable furniture was saved FORREST has gone on to Washington, with | from destruction .- The out-houses escaped. -The dwelling House was insured. RUNAWAY PATRONS.

The Bath paper gives notice to his patrons that he will publish the names of all such as runaway without paying the Printer; and will procure the publication of cautionary notices in all other newspapers, to guard Printers from imposition. INDIAN BATTLE.

MILLEDGEVILLE, APRIL 17. Captain Callis, who has just arrived in furnished us with the following highly important intelligence:

About the oth inst. General Jackson attacked and burnt the Mickasukee town, with their resources (among which were 1000 head of cattle) were taken or destroyed. The celebrated prophet Francis, and one of the principal chieftains, were hanged. General Jackson afterwards proceeded to

St. Marks, and took possession of the fortress without opposition. It is the impression, the Georgia militia will soon return to their homes

FURTHER PARTICULARS.

We have a few further particulars of the ate progress of the Indian war. The Tennessee detachment had one man killed and four wounded in the skirmish with the Indians at Mickasuka.' Of the Indians seven were killed; how many wounded, not known. Five negroes were taken the next day. The commander of the Spanish post of St. Marks, taken possession of by General Jackson, protested against the measure, but did not oppose its execution by force. The Georgia militia will be marched to Trader's Hill, and in a few days discharged. Captain Arburthnot, a British officer, was captured at St. Marks, and is supposed to have been the same who, some time ago, commanded the negro fort on the Appalachicola, which was destroyed by our forces under Col. Clinch. St. Marks, when taken, was strongly fortified, had twenty pieces of heavy ordnance mounted, and was garrisoned by about fifty men, who have since embarked for Pensacola .- M'Intosh, whose vigilance and enterprize are said to merit commendation, has captured about one hundred more Nat. JUDGE TUCKER'S FAREWELL TO THE MUSE.

As by some tyrant's stern command, A wretch forsakes his native land, In foreign climes condemp'd to roam. An endless exile from his home; Pensive he treads the destin'd way, And dreads to go, nor dares to stay; Till on some neighb'ring mountain's brow, He stops and turns his eyes below: There melting at the well known view, Drops a last tear and bids adieu ! So I, thus dom'd from thee to part, Gay queen of Fancy and of Art, Reluctant mov'd with doubtful mind. Oft stop and often look behind ! Companion of my tender age, Serenely gay and sweetly sage. How blithsome were we wont to rove, By verdant hill or shady grove; Where fervent bees with humming voice, Around the honied oak rejoice And aged elms, with awful bend, In long cathedral walks extend. Lull'd by the lapse of gliding floods-Cheer'd by the warbling of the woods; How blest my days, my thoughts how free, In sweet society with thee! Then all was joyous, all was young, And years unheeded, roll'd along. But now the pleasing dream is o'er, These scenes must charm me now no more! Lost to the field and torn from you-Farewell! a long-a last adieu! Me wrangling Courts and stubborn Law, To smoke and crowds, and cities draw. There selfish faction rules the day, And Pride and Av'rice throng the way ; Diseases taint the murky air; And midnight conflagrations glare. Loose Revelry and Riot bold, In frighted streets their orgies hold ; Or when in silence all is drown'd, Fell murder walks her lonely round No room for peace-no room for you, Adieu, celestial nymph, adieu !

Restract of a letter to a gentleman in Levington, dated N. Orleans, March 10, 1818.

" This city is destined at no distant period to become to the United States, what Alexandria was to Egypt, or what Paris is to France; the emporium of its commerce, its wealth, its population, and its political greatness, in relation to the rest of the world; and also the hot bed of contagion, luxury, effeminacy, crime, treachery, and civil dis.

A philosopher standing on an eminence at the source of Alleghany or Monongahelia, and casting the eye of fancy down the stu pendous plain inclining to the Gulf of Mexico, would recognize New Orleans as the great reservoir of its overflowing opulence; the Ohio, Illinois, Missouri and Mississippi, together with all their constituent branches, would only be regarded as so many natural highways, through which the tributary fruits of those vast and fertile countries that they water, must be poured into this depot of the commerce of a continent.

The more we contemplate the present and prospective resources of New Orleans, the less will we be prepared to set the limits to its increase. This communication, though at present but little, if at all used, was evidently intended to answer some wise purpose, as nature never exerts herself in vain; and may, in the course of human events, become a chain of social upion, and a high road of commerce, between those remote sections of our vast and growing republic.

FOREIGN NEWS.

Mill, Esq. in three vols. quarto, has been recently published in England. The work is much extolled.

MARCH 26. We understand that one of the expedients fallen upon by the Spanish government to enable it to fit out the Russian squadron, is to allow the merchants permission to ship on board two thousand tons of merchandize, at low duties, the receipts of which, it was expected, would afford considerable aid. The exact destination is not told the merchants, but they are given to understand, that the force will be so overwhelming that to whatever point of the ultramarine dominions it is bound, resistance on the part of the Patriots must be vain. The scheme, however does not meet with support. The fate of Morillo's expedition, much larger than any Spain can now send out, is not forgotten. The Spanish Clergy murmur a good deal. They think that the benedictions of Heaven on the Hispano Russian enterprize cannot be secured, unless the Heretical character is taken from the ships by a solemn baptism. which ceremony, it is thought, will take place previous to their putting to sea.

The Bourbons have followed the example | take' of other countries in recognizing the succession of the present king of Sweden. He is now acknowledged by every civilized power. This is an wra, and a very important one, in the history of the monarchs of Europe. It stands forth as a precedent and an example, that the absurd notions, hitherto imputed to kings and cabinets, of the indefeasibilityof legal rights, have happily passed away, and that the good of the people is acknowledged to be of equal importance with the rights of descent. As this principle is a real gain to popular liberty, and on the other hand does not encourage any source of anarchy, we must again express our satisfaction with its recognition.

They have succeeded in drawing out of the ruins of Thebes the colossal bust of Memnon; it has been embarked at Alexandria for Malta, thence it will be transported to be deposited in the British museum. > BOSTON, MAY 1. FROM INDIA. By the ship Union, which arrived on Wednesday from Calcutta, we have received papers to the 12th of January.

CALCUTTA, JAN. 7. A dispatch has this day been received from Nagpore, conveying the agreeable information, that the army under Gen. Doveton had gained a complete victory over the Nagpore. forces. It appears that the Rajah voluntarily came into the British camp, and concluded a treaty with Mr. Jenkins, by which he agreed to deliver up his guns and stores .---The troops of the Rajah refused to allow the stipulations of the treaty to be carried into effect; when Gen. Dovaton attacked them about 12 o'clock at noon; and by half past one succeeded in driving them from every position, capturing 16 guns, and 45 elephants; besides a quantity of warlike stores. After the action, the Arabs threw themselves intothe town, and Gen. D. had given them 24 hours to surrender at discretion; and it is said, if they did not, the town would be assaulted, and given up to pillage. We are

been wounded, and our loss is not considerable. Accounts have been received of the defeat of Holkar, by the troops under the Generals steady, but not animated demand, and last Hislop and Macolm, and of the capture of 100 guns. We were not altogether prepared to hear of this success, our previous information not having led us to look on Holkar as hostile to our measures; although his advance, on hearing of the revolt of the Peishwa indicated at least a disposition to break with us, which it is the wisest policy to crush in

January 12. Official accounts have reached the Governor General, hastily written by Sir T. Hislop on the field of battle. From the letter, it appears that our loss in Officers killed does not exceed three, and that 22 were wounded. 3000 of the enemy are said to have been killed; and when the despatches left Sir T. Hislop the pursuit had not terminated.

On the 19th of Dec. Gen. Hardyman gained a victory over the Nagpore troops, and took the forces of Jubblepore. The British force is stated at about 1000, and only ten or 12 killed or wounded. The opposing force is stated at about 5000, and 400 men killed ; and their commander and the Governor of Jubblepore, were among the wounded .--Gen.
