There is a curse-'tis dark and fell, As fallen spirits know; It rings affliction's deepest knell-It stamps despairing wo!

'Tis thou, FALSE HONOR! baleful fiend, That lures with secret guile; 'Tis thou, by tyrant Custom screen'd, That murders with a smile!

'Tis thou that spurns the hallow'd ties, That mutual souls entwine; By Friendship's hand the victim dies, An offering to thy shrine!

The woes that rend the widowed breast, And rise with keen despair-The sigh that speaks the heart opprest, The hapless Orphan's tear-

These are thy triumphs, HONOR!-these .The trophies of thy fame; And such the envied laurel wreaths, That cluster round thy name!

SPRING. Like a maiden, shy and fearful, Hidden now by turns, and seen Frowning now, and now more cheerful, Spring, creation's fickle queen!

WINTER's wither'd clutches hold thee, Doating on thy youthful charms, SUMMER, longing to infold thee, Pulls thee to his ardent arms.

DILEMMA.

A pupil agrees with a lawyer as follows, viz. to pay for his instruction, \$100 for the first cause he wins for a client, after his time is out; that time having expired, and the pupil acting as a lawyer has no cause of-fered to plead upon: The instructing lawyer being uneasy for his \$100, commences an action for the recovery of his debt, upon this supposition-if I win the cause, I recover the money by judgment of court: but if I lose, he wins, and the money is mine by his contract. The young man supposes—if I lose the cause, the lawyer cannot demand upon contract, as we agreed-if I win, he loses, according to judgment of the court.

Quere-How must the judge determine in this cause, without impairing the contract or affecting the consideration of the parties'

Degrees of Comparison An Irishman meeting an acquaintance, thus accosted him: "Ah! my dear, who do you think I have just been speaking to! Your old friend. Patrick: faith, and he is grown so thin, I hardly knew him: to be sure. you are thin, but he is thinner than both of us put together."

Anecdote. - A British General officer con versing with Bishop H. respecting prayers, remarked that the nestest and shortest he ever heard of, was made by a soldier going into the battle of Waterloo, which was, "Great God if there is a God, have mercy. on my soul if I have one" The Bishop concealed the mortification he felt at the impiety of the tale, replied, that possibly such a prayer might have been put up by an ignorant soldier; but that an officer informed him that on going into that hattle, he thus most earnestly prayed -" Heavenly Father if in the battle I forget thee, do not thou forget me ' The officer felt the pungency of

CORRESPONDENCE

[CONCLUDED.] LETTER III.

General Jackson to General Scott. Head quarters, Division of the South. Nashville, Dec. 3, 1817.

SIR-I have been absent from this place a considerable time, rendering the last friendly office I could to a particular friend, whose it may be quite conclusive with yourself, and nion on that public act as any one else; for I eyes I closed on the 20th alt. Owing to this, I have no disposition to attempt convincing your letter of the 4th of October was not received until the 1st inst.

could have descended from the high and dignified character of a major general of the United States, and used language so opprobrious and insolent as you have done, rest assured I should have viewed you as rather too contemptable to have held any converse with you on the subject. If you have lived in the world thus long in the entire ignorance of the obligations and duties which honor impose, you are indeed past the time of learning; and surely he must be ignorant of them, who seems so little under their in-

Pray, sir, does your recollection serve, in what school of philosophy you were taught, that to a letter inquiring into the nature of a supposed injury, and clothed in language decorous and unexceptionable, an answer should be given, couched in pompous insolence and bullying expression? I had hoped that what was charged upon you by my anonymous correspondent, was unfounded; had hoped so, from a belief that Gen. Scott was a soldier and a gentleman; but when I see those statements doubly confirmed by his own words, it becomes a matter of in quiry, how far a man of honorable feelings can reconcile them to himself, or longer set the 20th following, at the same place, at the up a claim to that character. Are you ignorant, sir, that had my order, at which your refined judgment is so extremely made the subject of inquiry, you might, from your standing, not your character, been constituted one of my judges? attendant circumstances, for you to have prejudged the whole matter. This at differ. ent times, and in the circle of your friends you could do, and yet had I been arraigned, and you detailed as one of my judges, with the designs of an a-sassin lurking under a fair exterior, you would have approached the holy sanctuary of justice. Is conduct like this congenial with that high sense of dignity which should be seated in a soldier's bosom? Is it due from a brother officer to assail in the dark the reputation of another, and stab him at a moment when he cannot expect it? I might insult an honorable man by ques tions such as these, but shall not expect that they will harrow up one who must be dead Early white potatoes and round to all those feelings which are the true char acteristic of a gentleman

In terms polite as I was capable of noting, I asked you if my informant had stated traily -if you were the author of the publication and remarks charged against you, and to what extent: a reference to your letter, with out any comment of mine, will inform how far you have pursued a similar course;how little of the gentleman, and how much of the hectoring bully you have manifested. If nothing else would, the epaulets which grace your shoulders, should have dictated to you a different course, and have admonished you, that however small may have been your respect for another-respect for yourself should have taught you the necessity of replying, at least mildly, to the enquiries I suggested; and more especially should you have done this, when your own convictions must have fixed you as guilty of the abominable crime of detraction-of standering, and behind his back, a brother officer. But not content with answering to what was proposed; your ever weening vanity has led you to make an offering of your advice.\* Believe me, sir, it is not in my power to render you my thanks; I think too highly of myself to suppose I stand at all in need of your admoions, and too lightly of you to appreciate them as useful. For good advice I am always thankful; but never fail to spurn it when I know it to flow from an incompetent

Brevet Major General W. Scott, United States Army, New-York. The foregoing extraordinary letter was laid aside until almost forgotten. When certain of his feelings, General Scott sat down to reply to it. He thought of New Orleans and some other affairs, in which the parties had been respectively engaged, and it appeared to him that a brace of pistols could add nothing to the character of either. He conceived that at the age he had then attained, some little reputation for temper and moderation began to be an object worthy of his cons-deration, however they might be disre- lieving that in an affair with you, it was only garded by his opponent -In fact, it did not | necessary to have right on one's side, in or-

age of either could be put in question; and, erefore, he found himself perfectly at lipriety, rather than his passions. Yet he understands, that, on this point, General Jack- the fact corresponds with my intention. And here let him not be called a fool for boasting," for he may say with one of the greatest of men, . nane enemy has forced me to it." But is it a boast, in an American. to assert his indifference to personal danger? General Scott has commanded some thousands of his countrymen at different times, and does not remember three individuals among them, who were deficient in that almost universal attribute.

But the foregoing letter has been represented as a challenge, and the reply to it a non-acceptance -on the ground of religious scruples.-The double falsehood will not es cape the reader, although it be true, that general Scott, in a playful humour, chose to treat the letter as a challenge. And as to the other point, however repugnant to his principles, it may be, "to do a contrived mur der," either under forms, or in violation of them; or by his own voluntary seeking-General Scott, whenever he shall think it necessary, will be as free to defend his reputation against calumny, as he would be to slay a robber who should attempt his life on the highway. He knows of no code of morals which would disarm him in either case, nor does the promise in the following letter; for as that was made without consideration, so may it be withdrawn, without explanation or apology.

LETTER IV.

General Scott to General Jackson. Head quarters, 1st and 3d military departments,

New-York, Jan 2d, 1818. SIR-Your letter of the 3d ultimo, was handed me about the 22d, and has not been read, I might say thought of, since. These reumstances will show that it is my wish to reply to you dispassionately.

I regret that I cannot accept the challenge ou offer me. Perhaps I may be restrained from wishing to level a pistol at the breast of a fellow being, in private combat, by a sense of religion; but lest this motive should excite the ridicule of gentlemen of liberal habits of thinking and acting, I beg leave to

It seems that you are under the further impression that if you had been brought to trial for publishing that order-(an idea that I never heard, any other suggest,) and I appointed one of your judges, that, assassinlike, I should have approached the holy sanctuary of justice, &c. such is, I think, your language Now, like you, (without believing one word of it,) it would be as easy for me, (manually.) to retort all this abuse, as it was for you to originate it; but I must inform yeu, sir, that however much I may desire to emulate certain portions of your history, I am not at all inclined to follow the perni-

No reply has ever been given to the roregoing, and of course general Scott has never seen the original anonymous letter. His suspicions and the whole correspondence were fully communicated in January, 1818, to a particular friend of governor Clinton, who was perfectly at liberty to give notice thereof to that personage. Whether he did so or not general Scott is not informed. A copy of the correspondence whould have been sent to Mr. Clinton, but for the prohibitory regulation above cited, and which came out before general Jackson had had time to reply to the letter, if he had been so disposed. General Scott, until his opponent had set him the example (a precedent not disapproved by the War Department) supposed that the first sentence of the regulation "all publications," &c. interdicted manuscript copies as well as others. Until then a distinction of this sort appeared to him absurd: for how easy would it be for any of the numerous persons to whom general Jackson has delivered add, that I decline the honour of your invita-tion from patriotic scruples. My ambition to print them. The moment they passed out

After all, it is possible, that the suspicions above expressed are unjust, as it respects one individual; although there is not room to doubt, that the anonymous letter was writen to serve the views of Mr. Clinton, and that those views have been effected, at least so far as they respect general Jackson. Should general Scott ever discover or find cause to believe, that Mr. Clinton neither wrote nor dictated the anonymous letter, there is no apology which one gentleman may prescribe to another, that shall not be promptly and cheerfully rendered.

And here, general Scott must, in candour, state, that sometime during the summer or fall of 1818, when a threat of general Jackson's (that he meant to visit New York for the purpose of "calling out" general Scottpublished in a Georgia paper, on information derived, as was said, from an officer direct from Florida) was mentioned in the hearing of Mr. Clinton, the latter replied-"General Jackson would have enough to do, if he undertook to fight every body who thinks with general Scott, on the subject of the famous order,"-intimating thereby, that he (Mr. Clinton) was still one of those persons. General Scott's informant who had previously heard of the suspicion entertained in respect to the anonymous letter, was certainly impressed, in that incidental conversation, with the idea, that Mr. Clinton had no agency in dictating the letter-General Scott would be very well content to yield himself to the same belief.

#### LATEST FROM ENGLAND.

By the arrival last evening of the ship Rosalie, capt. The Duke of Richilieu has appropriated the gratuity which was given to him by the legislature to the endowment of an hospital at Bordeaux. The sum was 50,000 francs. The Duke in presenting this donation observed "I desire to see this endowment employed to the advantage of a town which has acquired so many claims to the esteem of all good Frenchmen. I cannot refrain from attributing much of the cordiality which I have received from the inhabitants of Bordeaux, to the respect which they retain for the memory of my grandfather, and their reception will ever remain deeply graven on my heart."

Some delay having occurred in finding the constable, who was out with the watch, when they arrived at the house, the company had all dispersed and the doors were closed, it being then past 11 o'clock. The next night the constable went to the same house, and affecting to be intoxicated, threw himself carelessly down in a corner where he remained for some time unnoticed, when he saw a person come in, who, from his appearance, he took to be Way; soon after, as it had been preconcerted, Mr. Long entered, and seeing Way he presently introduced him to Cherry, who with somewhat less politeness than Lord Chesterfield prescribes on such occasions, took his new acquaintance very soberly by the arm and marched him off to the Mayor's office, where, after he had got his despatches he was escorted to prison.

Scott, it appears had taken a trip into the country, and did not return until after his companion was committed-when feeling no inclination to prolong his stay in Norfolk he made a precipitate and rather a clandestine retreat in a boat to Lambert's Point; but our police officers were so pressing that they could not permit him to depart so unceremoniously: they traced him to his hiding place and literally hunted him out from aout troops to South America. Next, True persuaded Mr. B. to take a portion of the above described Lobelia, which he called pukeweed; it operating but little, he gave him a second dose of the poison. That producing no satisfactory effect, she said quack rigourously forced Mr. B. to swallow the third and fatal dose, by holding his nose, and pouring it into his stomach through a common tun nel. Mr. B. by that time, became exhausted, and pathetically begged True to desist: for, said he, if you do not, my soul and body must separate. To cap the climax of his villainy, True forced Mr. B. to swallow a large quantity of pearl-ash and red pepper, which immediately deprived him of reason -3 o'clock P. Here he preached his first sermon; and here too, with almost his dying breath, he ratified and confirmed the doctrine which he had taught. For nearly five years he may truly be said to have laboured in this portion of his Lord's vineyard, daily manifesting, that, for the love with which Christ first loved him, he was determined to spend and be spent in his service Refusing, though tempted by the offer of superior advantages, to leave his beloved flock, he watched with tender solicitude over their progress, and has now been enabled to say of some of them, with undissembled joy. On Sunday the first of March, 1818, he preached at both his churches; and in the evening, at his own house, examined the children, and afterwards expounded to about sixty persons the first of the Thirty-nine Articles of our church; intending to go through the whole of them on succeeding Sabbaths. But the next Sabbath had scarcely intervened, ere his sorrowing and disconsolate flock followed him to the grave. His last sermon is now before me: it contains in itself nothing particularly worthy of observation. Like the generality of his compositions, it is the plain, orthodox, unstudied address of a faithful minister. The subject, however presents a coincidence with his own immediate call to the reward of his pious labours. His text is from St. Matthew xvi, 27: "He shall reward after he preached this his last discourse, he had scarcely rode from his own door to attend a Bible Society Meeting at Wilton. when he was seized with the complaint that terminated his life, and immediately returned. A Shad was caught in the Delaware, near Trenton, a few days ago, which weighed fourteen pounds and a quarter, and measured two feet eight inches in length.

In England, the law does not disdain to reach the most petty offences. In Norwich, in England, Susan Hunt, dairy maid, was convicted of wilfully neglecting to milk her master's cows in a proper manner. After the cows were turned out one morning, it was discovered that they had not been properly milked; they were again taken up and milked, when six pints of milk were taken from one cow. She was committed to the House of Correction for one month. A slave who had been "convicted" of a like offence in this country, would probably have been work in a most masterly manner, and with admonished to take better care for the future. He would at least have been deemed a cruel master who should have awarded confinement or stripes for an offence of that des-

On the third Monday of March, about 800 men from the towns of Murray, Gaines, Barre, Ridgeway and Shelby, encompassed about 150 square miles, on 3 sides, lake Ontario being on the north, who marched towards a given point in the Centre-driving bears, wolves, and deer. When the party arrived at the centre, they had enclosed and surrounded one rabbit, at which more than 200 muskets and rifles were discharged but without effect. The rabbit made its es-

This is the way our ministers prove the thriving condition of our trade, from the entry at the custom house. The goods are exported, it is true, but they are brought back because our manufacturers cannot sell them at the price offered so as to live. We have not half the American merchants in England as some time back. They look into our manufactories, but purchase

Peace to his shade, who sunk to sleep, Where earth a sepulchre denied; Entomb'd beneath the stormy deep, And coffin'd in the restless tide:

COLONIZATION SOCIETY. Address of the Board of Managers of the American Colonization Society

to the Public.

The period has arrived when the American Colonization Society is called to increased activity and extended operations. The attention of the society has hitherto been principally engaged in collecting and diffusing information. The information thus collected is sufficient to satisfy every candid and judicious inquirer, that the establishment of a colony on the west coast of Africa is safe and practicable, and that it will be of great benefit both to this country and to Africa. We believe, likewise, that there is a debt of justice and of moral obligation due from the people of this country to Africans, and their descendants in both continents, which can be discharged more satisfactorily and beneficially to each in this way, than in ony other. The board of manager's, therefore, some time since, came to the resolution of commencing the colony as soon as funds could be procured, and the necessary arrangements made. The board have since been engaged in preparatory measures for these arrangements, a brief statement of which it is proposed to lay before the public.

In the number of circumstances which have since occurred to strengthen their hands and encourage their hearts, to anithey gratefully recognise the smiles of Pro- and as there is not time to make personal vidence on their humble efforts.

It is already known to the public, that the managers laid before Congress, at the last session, a great variety of documents, and other valuable information, relative to the proposed colony and the slave trade, selec tions from which have been published by that body, with the Second Annual Report of the Society. The shortness of the session, and the mass of other important business before Congress, did not leave sufficient time for the discussion and consideration of the question of colonization. At the close of the session, however, an important law passed, entitled, "An act, in addition to the acts prohibiting the slave trade." This law was zealously supported by the friends of the Society, and shortly after its passage a committee was appointed by the board to wait on the President of the United States and the heads of departments, to tender the services of the managers in any way in which they might be useful in carrying it into effect. From the measures adopted by the executive, it is probable, that there wil be a number of captured negroes to be provided for, before the end of the year; and assurances having been given that if the society would procure a proper situation in Africa, the captured negroes should be put under its care, and be provided for at the public expence, the course to be pursued by the board could no longer remain doubtful. A number of free people of color in different parts of the United States have already of fered themselves for the colony. To select those best qualified to lay the foundation of this infant establishment, the managers feel is of the utmost importance to its future character and prosperity. To aid in this and other important preparatory measures, the board has appointed the Rev. Wm. Meade, of Virginia, agent of the society. To those who know Mr. Meade, the value of his la bors, and the importance of his pastoral services, this appointment will be one of the highest pledges which the managers can give to the public of the importance of the duties in which they are engaged, and of their zeal and perseverance in their discharge. The managers have entered upon these

duties, and engaged in these measures, with an humble dependence upon Divine Provi dence, and a firm reliance on the justice, humanity, and liberality of their fellow citizens, that the necessary pecuniary aid will be afforded for the prosecution of their plans. For the purpose of collecting funds, and of giving and procuring information, agents will be sent to the different cities in the U. States, and to such other places as will be convenient. It is hoped that associations will be formed in different parts of the U. States to aid the society. Over so widely voluntary exertions of the people.

Distant subscribers will be required to pay the whole in advance—no paper will be discontinued, except at the option of the Editor, until arrearages are raid. Vice Presidents of the society, transmitted trade (1) The law of Georgia, directing these sales, passed Dec. 19th, 1817, and may be found in the appendix to the Second Annual cents for every subsequent insertion. All adver-tisements sent to the office without having the num-the third section of that law, it is provided, "That if, previous to any sale of any such persons of colour, the society for colonizing the free persons of color, within the United States, will undertake to transport them to Africa, or any other foreign place, which they may procure as a colony for free persons of color, at the sole expence of said society, and shall likewise pay to his excellency the governor all expences incurred by the state since they have been captured and condemned, his excellency the governor is authorised and requested to aid in promoting the benevolent views of said society in such manner as he may deem expedient."

The Board unanimously determined to avail themselves of the privilege contained in this law, and to send an agent to Georgia to comply with the conditions, and to take charge of these unhappy victims of violence and fraud for the purpose of returning them to their native soil. Preparations are making with the aid of the government, for a safe asylum, (2.) where they will be provided for and instructed till the colony can be prepared for their reception. Providence has thus enlarged the sphere of usefulness and the field of exertion for the Society. The managers are called to a more active duty, and an opportunity is thus given to the public, in the commencement of our operations, to test the sincerity of those expressions of detestation so frequently uttered against the slave trade, and of those frequent professions of sympathy for the abused and oppressed Africans. The call is urgent, the occasion pressing, the time short; much is to be done in a few days, or these unhappy beings will be beyond our reach. It is supposed that about five thousand doll rs may be required for this object application to individuals, it is requested that the Auxiliary Societies and individuals favorable to this object, will make immediate exertions to raise funds to enable the board.
