the common market. This brief exposition will enable the reader to comprehend clearly the scope of the intended publication; which, taking its name from its most prominent feature, will bear the title of "THE AMERICAN FAR-MER," and addressing itself to the interests of all classes, it will not in any way interfere, in mere parly contentions. There appears now, happily, to be a growing fondness throughout our country, for agricultural research and experiment; and there can be no doubt that a publication of this nature which should communicate the efforts making, and the lights already acquired by ex perience, in other states and countries, would excite a feeling of emulation, and give an impulse to public spirit in Maryland, from which the best consequences might be expected to result. "THE AMERICAN FAR MER" will open a new ground, and is not intended, or, in its nature, calculated to inter-

fere with any established publication. For the manner in which his undertaking will be executed, the subscriber can offer only the pledge of some little experience in, and an ardent predilection for, agricultural pur suits. Besides a valuable collection already made, he has taken measures to be supplied with the new publications of our own country and of Europe, and he expects to be aided by the correspondence of intelligent land-holders. With these explanations, offered in sincerity and truth, he informs those who may feel disposed to subscribe, that "The American Farmer" will be published for \$4 per annum, payable half yearly in advance. And on several other points, the * Those officers were examined by the commitcommittee were divided, three disapproving the conduct of the commanding general, and two justifying or excusing it.

The decision of the committee being thus had, the chairman was ordered to prepare a report, in conformity to the principles estab-lished by the committee. About this time, however, another, circumstance took place, which necessarily occasioned some delay in obtaining further evidence.

Mr. Eaton informed the chairman of the committee, that he had heard gen. Jackson

States should accompany and be taken notice of in should be subject to this kind of discipline, the report. If further evidence be necessary to convince the most incredulous "that no improper or unnecessary delay was observbody, if for the proper authorities to deter. ed in making the report," it will be furnishmine. ed by the following facts: The Senate of the United States is connected, by the constitution, with the Executive, in the exercise

of the treaty making power. On the 9th or 10th of February, the chairman of the committee was confidently informed that the treaty with Spain would probably be brought to a favorable result in a short time; and a suggestion was made, that a report on the subject of the occupation of Florida, might, by possibility, affect the negociation, if made previous to the signing of the treaty,

These facts and suggestions were immediately communicated to a mejority of the members of the committee, and more especially to Mr. King, whose experience in diplomatic concerns gave him a full opportunity of forming a correct judgment on the

This gentleman, with two other members of the committee, besides the chairman, agreed that the report should be kept back a few days, until the treaty was received. On Monday the 22d of Feb this treaty was sent to the Senate; on the 24th it was ratified, and on the same day the report was made. And this accounts for the only delay that was not occasioned by the difficulty of obtaining the evidence proper to an understanding of the ease, and which it was impossible for the committee sooner to obtain.

Thus it appears that the charge, in the strictures, that the report was kept back to injure gen. Jackson, is totally without foundation. And it is equally untrue that "his friends" on the committee had no opportunity of making a defence. The same time was afforded them to make a defence, that was given to the chairman to write the report. They were present when the decision of the committee was made, and the chairman received his instructions. A counter statement might have been prepared and offered, in the manner pursued by Col Johnson, in the House of Representatives, or, if this course should have been thought ineligible or irregular, when the report was made to the Senate, it might have been called up at any time, and a resolution offered approbating or excusing the conduct of gen. Jackson, and this resolution might have been prefaced by reasons at large, in opposition to the reasons offered by the committee, and thus the minority on the committee would have had a full opportunity of laying before the public the result of their deliberate opinions on the subject. Neither is it true "that the chairman declined annexing the customary resolutions to the report " But, on the contrary, the fact is known to every member of the committee, that, when the chairman presented the report, the question was put by him, whether resolutions should be annexed, and the committee decided unanimously in the negative. But it appears by the strictures, that the chairman of the committee has been almost the sole actor on this occasion, and has had the entire

control of the committee and of the Senate. The author of the strictures, in thus giving importance to the individual concerned, has unintentionally done him too much honor, the acceptance of which, at the expence of the Senate, he begs leave to decline, desirous, as it relates to himself, of being only considered what the Senate had constituted him-the chairman of the select committee. As their organ, he was subject to their control, and acted in conformity to their instructions; as, in like manner, the committee was controlled by the Senate, and bound to observe the instructions received from that

And it was a source of no small gratification to the committee to find that their conduct in the investigation was approved by the Senate, and that it was so approved is manifest from the following facts:

On the 17th February, 1819, Mr. Forsyth, a member of the select committee, resigned his seat in the Senate, and of course was no longer a member of the committee; and, on the same day, a resolution was offered in the Senate proposing that another member should be added to the committee in the

Thus it appears that the select committee decussion on a subject of such delicacy to of the Senate was appointed by the unani-mous voice of that body: that they were with But, to the same unanimity vested with powers to send for persons and papers, and specially instructed to make the investigation; and that, after the investigation had been made, the facts disclosed and the substance of the report, then prepared, were made known to

That body, by a strong majority, refused to release them, and held them to a discharge of their duty: so that it is not the committee alone, but the Senate of the United States, that should be considered, as they really are, responsible for this transaction, not, fortunately, to a military chieftain, or subalterns in the army, but to the American people.

The words selected by the writers, and which are tortured into such a charge, are these: "The tendency of these measures of the commanding general seems to have been to involve the nation in a war without her consent, and for reasons of his own unconnected with his military functions."

In these observations there is no charge of the nature complained of, either expressed or implied, nor was any such designed; and it must have been extreme sensibility on this subject that could have induced the author to have drawn such an inference. The plain and obvious meaning of these words | are, that gen. Jackson, as a military officer, had no right to judge of what was cause of war with a neutral, and his attempting to reason and act on this subject was an usurpation of the civil powers of the government, ven the letters in question to Mr. Eaton, of and, of course unconnected with his military functions

Gen Gibson then stated, that "he had githe committee, some considerable time before, and requested him to lay them before a magnanimous people, who still remember the committee and have them attached to with gratitude and pride, their former servihis deposition." To the People of Berkeley, Hampshire, Har dy and Jefferson Counties.

FELLOW CITIZENS - The period for which was elected your Representative in Congress is ended, and I am again a candidate for your suffrages. During the term for which I have served you, I have endeavoured, as far as possible, to pursue what I conceived the best interests of the nation and yourselves - I contributed by my vote to releve you from the pressure of the internal taxes, advocated the laws to shelter the de clining years of our Revolutionary Heroes from want, and to protect the widows and children of those who fell in our late war from helpless, poverty-and have always endeavoured, as far as my judgment would serve me, to make the Constitution of my Country the rule of my conduct, her prosperity my guide-Whatever would contribute to this in any way, and particularly by appropriating a part of the National resour-ces to the internal improvement of the country, I have uniformly advocated. Money expended in such works as the Cumberland road, redound not only to the union and prosperity, but to the glory of a country. Dur-ing the present session, my labors have assisted in muturing a scheme, by which that road would have been united with the seat of government, and a large sum appropriated to other roads, materially benefiting every part of this large district. Time alone was wanting to complete it, but if again honoured with your confidence, I shall pursue the same scheme at an early period of the next session, with the strongest hopes of success.

With regard to politics, mine consist in consulting what appears to me the true interests of the Nation—Party spirit has, thank Heaven, so far subsided, that we can judge of men and measures with something like impartiality. I am disposed and uniform-Heaven always preserve it to you) to change your representative; but if my general conduct has met your approbation, I trust your confidence will not be withdrawn from
