lenge the patience of the meeting.

THE COTTAGE MAID. (From a collection of original Welsh Airs, published by G. Thompson, F. A. S.)

I envy not the splendor fine, That glitters in Sir Watkyn's hall; I ask not for the gems that shine On lady fair at Wynnstay ball; I wish but for a ribbon gay,
Which I might on a Sunday wear; Unseen which I might kiss, and say, "Twas Owen's gift from Wrexham Fair

O. Owen! I believe thee kind, And love is surety on thy tongue.— But would that I could read thy mind For hope betrays the maiden young.

Last night I saw thee both to part,

I watch'd thy looks—so bright the moon— And know not but my simple heart Might own too much, or own too soon.

Unhappy fate of doubtful maid! Her tears may fall, her bosom swell, But even to the desert shade She never must her secret tell. And is it love-his softer mien? And is it love-his whisper low? And does he much, or nothing mean? Ah! she that loves, how can she know?

With Owen I the dance have led, And then I thought that sure he seem'd Oh! was it so-or have I dream'd? To-day he goes with merry glee, And all are going to the fair, He thought of one that was not there

From the American Farmer. LETTER FROM AN OLDER TO A YOUNGER

I am very happy to learn that you have commenced business for yourself. You have now entered upon the solid realities of life, near Charlestown, Jeff county, Va. to wit. and you will soon find, that all those vain and illusory prospects which present themselves to every young and ambitious mind, will be dissipated and give place to sober reason and chastened experience. What you have hitherto viewed only in perspective, you will now realize, stripped of all the gaudy tinsel, and deceptive drapery, which (although illusory) captivate and enchant the youthful mind, and stimulate him to laudable enterprising, and meritorious achievements.

It is however, a lamentable fect, that whatever our acquisitions may be, howevermuch we may excel in any art or profession, self love, or in other words, vanity, is so predominant a quality in the human mind, that we seldom or ever realize, to the full extent what our busy imaginations would seem to promise us. Experience, is the only standard, by which we are enabled duly to appreciate the extent of our own powers; she is invariable and impartial, and however bitter the pill, we have all got to subject ourselves to her admonitions.—She is indeed the mother of wisdom," and he who obeys her precepts will seldom err. Riches, honours, and preferment, are not the beings of unyielding perseverence, is the price they exact from us, and we have no right to complain, as there is no exception to the rule. Fortune is pretty uniform in the dispensation of her favours, and they all lie more or

less within the compass of our own powers. I have thought proper, thus far, to moralize, and philosophize, lest you might have. started into life with false notions, either of 1 will give liberal wages to a man who improving the complexion. yourself or of the world, for either will be can come well recommended to manage a productive of chagrin and disappointment; I merchant mill. A single man would be prespeak experimentally, and you are entitled ferred. to the benefit of it. I commenced life with prospects as flattering and illusory, perhaps, as ever amused the vanity of a young man. My youthful efforts appeared to be crowned with success. Honors and preferment lay before me, it was a bed of roses. I suffered myself to be flattered by fools. I was, in fact absorbed in self love; a moving, ridiculous mass of vanity. I basked in the sunshine of public favor, and from 18 to 35, had not a rational idea of myself. At that period of maturity, 1 fortunately, (though very much to my own mortification,) became convinced that I was a FOOL, that I had been deluded by empty visions and fantastic dreams; from that day forward I at least/became lucid; and if I have any thing of solidity to boast of in my character, at this time, I am confident I acquired it, subsequent to the period I have mentioned. I don't know that you stand in need of example or precept: Horses, milch cows, young cattle, sheep, if you do, the picture which I have drawn of hogs, a set of blacksmith tools, farming myself, may serve as a standard, by which | utensils, geers, beds and bedding, household to graduate your own character; let it serve | and kitchen furniture, and many other artias a beacon, by which you will be enabled to cles too numerous for insertion. A credit of

was enveloped. capable of appreciating your worth, and who tendance given by will regard it according to your merits. You must not be disappointed, if you do not im mediately succeed to your wishes; the time of commencement, is rather inauspicious and you are not yet established; for the present therefore, you ought to be content with a comfortable subsistence. Patronage, you will acquire by acquaintance and good conduct -It is a good maxim of Marmontel, "never to despair of your own efforts, nor be too confident, of success" Let your deportment at any rate, be such as to deserve it.

2222222

The pain which is felt when we are transplanted from our native soil-when the living branch is cut from the parent tree--is one of the most poignant which we have to endure through life. There are after griefs, which wound more deeply, which leave behind them scars never to be effaced which bruise the spirit, and some times break the heart; but never do we feel so keenly the want of love, the necessity of being loved, and the sense of utter desertion, as when we first leave the haven of shome, and are, as it were, pushed off upon the

NATCHEZ, AUG. 10

" A number of Patriots are daily arriving and departing for the Texas expedition. They are all in good spirits, and look like robust country fellows. Gen. Long is now en campad a few miles below the Sabine river and has upwards of 500 men with him, well equipped. Vesterday news reached here that 500 men had arrived at Galveztown, on their march to Texas, to join Gen Long. It is said they have been sent there by Dr. Ro binson, formerly of Natchez. It is generaly believed the expedition will succeed, provided it be managed in a right manner. Some of our most respectable citizens have offered their services to assist the Patriots.

"It is very authentically reported that 1500 or 2000 Spaniards, under the command of General Aradonda, were on their march to Nacogdoches, to defend the country. It is generally believed here?"

DAN. ANNIN.

TWILIGHT. There is a mild, a solemn hour, And oh! how soothing is its power, To smile away care's sombre low'r. This hour I love: It follows last the feath'ry train, That hovers round Time's rapid wane-'Tis then I rove.

'Tis when the day's last beam of light, Sleeps on the rude tow'rs mould'ring height, Where many an age's moss benight The dreary home Of some sad victim of despair, Who from the world finds shelter there-'Tis then I roam.

'Tis when the west clouds fairly blush, And his last vesper sings the thrush, And soft mists veil gay nature's flush, And not a ray From the morn's cloud embosom'd crest, Silvers the green wave's swelling breast-'Tis then I stray.

'Tis the soft stilly down of night, When many an elf and fairy sprite. Pursue the glow worm's furtive light, Like me fonder, Of the soft, pale mysterious beam, Which lures wild fancy's wizard dream, While I wander.

Day cannot claim this charming hour, Nor night subdue it to its power, Nor sunny smiles, nor gloomy low'r Does it betray; But blandly soothing, sweetly wild, Soft, silent, stilly, fragrant, mild, It steals away.

From the Boston Gazette.

THE CASUAL REMARKER This tale a Sybil nurse had read, She softly stroked my youngling head, And when the tale was done, Thus some are born, my son, she cries With base impediments to rise, And some are born with none:

But virtue can itself advance To what the favorite fools of chance By fortune seem'd designed; Virtue can gain the odds of fate And from itself shake off the weight, Upon the unworthy mind.

The moral contained in these concluding been removed from it to the museum at Na- | high cheek bones, small legs, and tawney lines of Parnell's Fairy Tale, deserves more ples. FROM THE NEW HAMISHIRE PATRIOT.

Messes. Hill and Moore: - I have lately

observed two novel productions issued from the Cabinet at Washington. The one is an invitation for the several banks, in the differseveral applicants make a discrimination in price between the western or interior banks,

probability that any thing like a fair statement will be known by it. Those banks. that are strong may report; but those that are made without funds (as it is probably the case with a great many, will not be very solicitous to give a solemn record of their poverty. The Executives of the different States would more willingly supply the infrom the United States, for the purpose of | find no little jealousy existing between the long; where they will know the Lord to be | formation than the banks, had the resolve

These considerations have induced me to turn my eye to the tenth section of the first rists and legislators of our nation to determine and resolve the questions that grow out

"Section 10 No State shall enter into any treaty, alliance, or confederation; grant letters of marque and reprisal, coin money; emit bills of credit; make any thing but gold and silver a tender in payment of nebts; pass any bill of attainder, ex post facto law, or law imparing the obligation of contracts, or grant any title of nobility.

The first question that presents itself is, are not the notes issued by incorporated banks, bills of credit? After they have so long pasted as the currency of the country in the purchase of estates and merchandize and in the payment of debts, it must be a fine specimen of logical powers that can make it appear they are not "bills of credit." This then, I will take for granted. But the states have not issued them They have, however, authorized certain incorporated companies to issue them. This authority invites another question, viz. Can the several States grant that power to an individual or company, that they are constitutionally or. I have also visited a of the wilderness, cominge to be stondy and | cle of this very important section may not be evaded, and in short almost every other secand have been enabled to make a tolerante by a cheering degree of success. > The frequent deaths of some and sickly condi ion of other banks. has a very alarming effect on trade and confidence, and clearly poin s out to the nation the necessity of some more safe and effectual standard of public currency

I am not informed of the number of banks in the United States I have only the history of those of Massachusetts before me In January last, there were returns of forty one banks made to the Legislature, with a capital of \$11.870,000, and supported by a specie capital of money in their vaults of \$1.037,537, 25, which is between eight and nine per cent, of the returned capital Notwithstanding these slender means, I have not heard of a failure of any of their banks for the last year. This proportion of specie to capital has not varied very materially for ten or twelve years, except at some periods of the late war, when the vaults were literally crowded with specie

This paragraph was introduced for no other purpose than to shew by what smallmeans a bank may be supported, if carefully and prudently managed, and not to put out of sight the constitutional question before quoted, which I hope may be satisfactorily explained to thousands of anxious citizens, as well as to your constant reader.
