Friday Morning, October 25, 1844.

THE DEMOCRATIC TICKET.

FOR PRESIDENT, COL. JAMES K. POLK. FOR VICE-PRESIDENT, Hon. GEORGE M. DALLAS.

Election on Monday, 4th November.

Table of Democratic Electors with names and districts.

DEMOCRATS, BE READY.

The day of the great battle approaches, and we cannot too urgently impress upon you the necessity of action, speedy and efficient.

The last hope of the Whigs is now turned to Virginia. They had vainly hoped that the recent elections would indicate a preference for Mr. Clay.

BALTIMORE ELECTION.

A Democratic Mayor and thirty Democratic Councilmen to 12 Whigs.

This is a glorious result, and one, when all the difficulties we had to contend against are considered, assures us that Baltimore will be good for 1000 for Polk and Dallas.

FOR MAYOR.

Table listing candidates for Mayor: Dem. Whig, Dem. Whig, Davies, Law, Marriott, Law.

Showing a Democratic gain of 804 since the Mayors election of last October.

We are requested to say that the Meeting advertised to take place in Shepherdstown on tomorrow, will be postponed.

The Executive Committee at Washington, offer one hundred dollars to any person who will produce a copy of the "London Atlas" containing the article upon which the Whigs found their "British Gold" humbug.

THE ELECTIONS.

We have delayed our paper to the latest hour, in hopes we should have received something official from the Pennsylvania, Ohio and Georgia elections.

In Pennsylvania, Shunk's majority will reach near, if not quite, 5,000. The Whig papers have put it less, but they do it upon mere surmise.

NEW YORK NATIVE MEETING.

The Whigs have been looking with deep anxiety and high hopes, to the result of a meeting of the "Natives" of New York City, which was held on Monday evening last in the Park.

All kinds of pretty things were said of the "Natives" by the disinterested Whigs—they were button-holed for hours, and held in earnest conversation at every corner.

They treated them, flattered, and coqueted with them on all occasions, and such billing and cooing, was never before seen, since the days of Clay, Adams and Co.

But night came—the meeting was held—Whigs, Democrats, natives, all assembled to hear the result, when the latter looked the Whigs full in the face, and placed their fingers on their noses, and

We learn from the Herald, that the meeting was very numerous, and that the "Natives" declared their unalterable purpose to be to go out their own hook—to make no compromise or coalition with any party.

From the New York Plebeian. The American Republicans had an extremely large meeting in the Park last evening.

The most reliable estimates of the popular vote, place the majority at 3,000. Congressional ticket, 4 Democrats and 4 Whigs.

In New Jersey, Stratton, (Whig,) has a majority of 1310. The Democrats have a majority of the popular vote, by comparing either the Senate or Delegate ticket.

ARKANSAS.—An election took place in this State on the 7th inst. for Governor, members of the Legislature, &c.

PENNSYLVANIA. The Whig labor had to prove that the Democrats have been disappointed, as regards the result in Pennsylvania.

THE BREMEN BREAD.—We have obtained a small sample of this last humbug of the Whigs. How it reached here, we do not know.

PHILADELPHIA, Oct. 24, P. M. "Gen. Markle will go out of the city and county with a majority not far short of 2,000."

Tremendous Gale at Buffalo.—Great Loss of Property and Awful Destruction of Life.

Buffalo, Oct. 16, 1844. The terrific gale last night has crushed some forty houses in our city—has flooded all the stores between the canal and harbor.

FOREIGN. The Steamer Acadia arrived at Boston on Sunday last. But little of interest is brought by this arrival.

It is said, the British Ministry intend to attack the Irish Repeal movements again. Rumors exist that a treaty has been entered into between Brazil and England.

MILLERISM.—This is the last day of the world—agreeably to the calculations of Mr. Miller—and we are ashamed to say that hundreds of our citizens appear to be insane upon the subject of the absurd supposition.

MILLERITES IN BOSTON.—Last week hundreds of these deluded people went into Boston to attend the meetings at the Tabernacle, bringing with them children and infants.

WHIG TRICKS TO GULL THE PEOPLE.

We have just been shown a sample of saw-dust and bran. It is said that the Whig committee in this city have a quantity of it on hand, which is to be distributed through the country.

But it indicates the desperate shifts to which they are driven, and the foul means which they are using, and will use, to influence and mislead the people.

From the Winchester Republican. The editor of the Winchester Republican, gives the following as the probable result of the Presidential Election.

THE PROSPECT. The elections the past year, and other unerring indications, enable us now to set down with certainty, the following Electoral votes for Clay and Frelinghuysen:—

Table of Electoral votes for Clay and Frelinghuysen by state.

As this would not quite do, the editor then goes on to name Pennsylvania, New York, Michigan, Mississippi and Virginia, from which the Whigs may possibly get another State.

From the Winchester Virginian. The following letters, received by several gentlemen of Winchester, from their friends in Harrison and Preston co., show what reliance is to be placed upon the boasting of the Richmond Whig and his satellites.

Gentlemen: I have deferred a reply to your letter of the 21st ultimo, in order to obtain more fully the information you seek.

You inform me the Whigs are boasting of the changes in this part of the State to the Whig cause. In reply to this I have only to say I do not know of any myself except Wilson K. Shinn, and I know of 77, in this county, who were Harrison men of 1840.

N. B. I should have informed you, that we have in the lower end of Randolph county 37 changes in our favor.

From the Virginian. Kingwood, Preston Co., Va., October 8th, 1844.

Gentlemen: I received your letter of the 22d day of last month, in which you say you have been induced to address myself and others in Western Virginia, to know the truth of the report among the Whigs, in your part of the State, viz: "that many are leaving the Democratic party and intend voting the Whig ticket."

In September the Whigs lost Maine by 10,000, and immediately they began to crow over Virginia. Now they have lost Pennsylvania and Georgia, and they again raise a shout of victory over the Old Dominion.

MISSISSIPPI.—The Vicksburg Sentinel says: "Meetings are every where being held, attended by hundreds and thousands of the sturdy yeomanry of the land, who in the midst of the busiest season nobly and patriotically sacrifice a portion of their valuable time to devote to their country and the success of their glorious cause."

LOUISIANA.—The New Orleans Herald gives us a cheering account of spirit that is up in arms in this State likewise. It says that great excitement prevails there—that "the Democracy of New Orleans is breaking."

NEW YORK.—Our friends are in high spirits in the Western part of the Empire. The last N. Y. Post publishes a letter from Rochester, of Oct. 15, which states that the Democrats of the "infected district" will give the Whigs such another fight as they never before encountered.

WESTER A PROPHET.—In his speech before the Whigs in Philadelphia, a short time previous to the late election, Daniel Webster said: "The election of a President of the United States depends on the next gubernatorial election of Pennsylvania."

Well—the Whig candidate has been defeated by about 5000 votes. We had the prediction of the great Daniel, who has come to judgment, to some purpose.—Philadelphia Times.

DEMOCRATS, BE ON THE WATCH!

The Whigs are becoming desperate. Much of the infamous and scandalous means resorted to by the Whigs to carry H. Clay's election has recently come to light.

As this would not quite do, the editor then goes on to name Pennsylvania, New York, Michigan, Mississippi and Virginia, from which the Whigs may possibly get another State.

ARITHMETIC OF THE LATE ELECTIONS.

In the calculations of chances, as well as in every species of business, there is no surer guide than figures. Give certain data, and figures will work out the result of moral causes as truly as forces about which natural philosophy is conversant.

It is in this mathematical mode that we have come to our conclusions that the federal party will be defeated by at least 68,000 votes in the presidential election in November.

It will be seen from the following statistics that we do not state our accounts after the fashion of our neighbor of the National Intelligencer.

Table of State election results for 1844, showing votes for Polk and Clay.
