

WEEKLY

VOL. 1.

CHARLESTOWN, VIRGINIA, FRIDAY MORNING, MAY 9, 1845.

NO. 43.

SPIRIT OF JEFFERSON.

PUBLISHED WEEKLY, BY JAMES W. BELLEF, (OFFICE ON MAIN STREET, A FEW DOORS ABOVE THE VALLEY BANK.) At \$2.00 in advance—\$2.50 if paid within the year—or \$3.00 if not paid until after the expiration of the year.

No paper discontinued, except at the option of the publisher, until arrears are paid. Subscriptions for less than a year, must be paid in advance.

General Intelligence.

ENGLAND AND OREGON.

Considerable sensation was produced by the circulation of the English Premier's remarks in Parliament, on the Oregon question, in which some lively and timely imaginations fancied that they heard ominous distant mutterings of "drums and trumpets, blunderbusses and thunder."

A SCENE AT THE PRESIDENT'S HOUSE.—An inauspicious party, named Milton Fowler, walked into the President's house at Washington on Friday, the Madisonian says, carrying under each arm a loaf of bread, and in each hand a bottle of wine.

THE LAW AND NEWSPEAPERS.—The subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.

POTATO SUGAR.—We presume that it is not generally known to our readers that for several years past, large quantities of potatoes have been annually manufactured into sugar in France, Belgium, and Holland.

A THIRILLING INCIDENT.—The Reverend Dr. Beecher, in an article he recently furnished for the Young Reader, tells the following touching story.

OREGON.—The United States Gazette of yesterday, commenting on the foreign news, says: "The present question is one of Territory, thousands of miles from the United States; of land in which we have no agreeable associations, in which we have no interest as a nation, and with which there can be little connected to create pride or affection."

FLOWERS AND BIRDS.—Teach your children in mercy to spare the nests of the harmless little birds, and if you have a heart to be thankful, it will raise up in union with the little songster's vale of flowers and singing provided to lighten the toil of labor, and it is only a vitiated taste acquired from a false system of education, that prevents us from deriving a great deal of happiness from such accomplishments of the journey of life.

And our Oregon which we are told is of "no interest to us as a nation," when settled, will be the avenue through which the nations of Europe will, (if we are only true to ourselves) receive at our hands the produce of the Indies.—N. Y. Sun.

EDUCATION IN GERMANY.—The European correspondent of the Philadelphia Ledger makes the following statement with regard to education in Germany:

Germany is the best taught country in the world and yet the most ill advised of any of her neighbors. There are according to a late statistical account, no less than 63,250 teachers of public schools, with 5,000,000 pupils; 4,000 professors of learned institutions, with 78,000 pupils; 1,000 professors of universities, with 18,000 students; 600 professors in the seminaries for instructors, with 6,000 pupils, and 2,000 teachers, with 40,000 pupils in the polytechnic schools. There are further, 36 seminaries, for preachers; and about 20 lycées, 70 institutions for the deaf and dumb, and 21 for the blind.

GENERAL JACKSON'S PAPERS.—The Globe says a letter has been received by Mr. Blair from General Jackson, informing the latter that he has left all his papers to him, and requests him to use them in vindicating his character should it be assailed.

A SCENE AT THE PRESIDENT'S HOUSE.—An inauspicious party, named Milton Fowler, walked into the President's house at Washington on Friday, the Madisonian says, carrying under each arm a loaf of bread, and in each hand a bottle of wine.

MR. JOHN H. PENNINGTON, of Washington city, has placed upon our table a drawing of his "NEWLY INVENTED STEAM BALLOON," 234 feet long, 87 wide and 40 high, which, when inflated with hydrogen gas, possess a buoyant power equal to 36,000 pounds, exclusive of its own material and engine.

THE LAW AND NEWSPEAPERS.—The subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.

IF SUBSCRIBERS ORDER the discontinuance of their papers, the publishers may continue to send them till arrears are paid.

IF SUBSCRIBERS neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.

IF SUBSCRIBERS remove to other places without informing the publishers, and their paper is sent to the former direction, they are held responsible.

THE COURTS have decided that refusing to take a newspaper or periodical from the office, or removing, and leaving it uncalled for, is "prima facie" evidence of INTENTIONAL READ.

POTATO SUGAR.—We presume that it is not generally known to our readers that for several years past, large quantities of potatoes have been annually manufactured into sugar in France, Belgium, and Holland.

A Summer Dirge.

The summer wind is in the trees,
Blowing their branches quiver;
The linnet seems to sleep upon
The rippling of the river.
Amid the fountain's trembling spray,
Bright pebbles are being played;
Yet they but tell the lonely heart,
Its summer dreams are faded.

Miscellaneous.

Mountain Scenery.

There is something in the wildness and sublimity of mountain scenery that tends to remind us rather of eternity than decay.

THE LIGHTNING of a thunder storm, the blowing tempest, the engulfed flood, the overspreading avalanche, have effaced from the surface of nature, the marks of time and left no vestige of change to remind us of age.

"OF AGE."—James, in his beautiful novel of Morley Erastin, thus speaks of the age of twenty-one:

"It is a beautiful age, full of the spring, with all the vigor of manhood, without one touch of decay; with all the fire of youth, without one touch of its feebleness! Oh, one and twenty! bright one and twenty! wilt thou never come back to me again? No, never! The chord of the brow has been so often drawn that it has lost its elasticity; the vigor of time and left no vestige of change to remind us of age."

THE COURTS have decided that refusing to take a newspaper or periodical from the office, or removing, and leaving it uncalled for, is "prima facie" evidence of INTENTIONAL READ.

Home.

There is something in the word home that wakes the kindest feelings of the heart. It is not merely friends and kindred that render that place so dear, but the very hills, and rocks, and rivulets throw a charm around the place of one's nativity.

TAKING A NEWSPAPER.

A Practical Story pleasantly told.

"A pleasant day this, neighbor Gaskill," said one farmer to another, coming into the barn of the latter, who was engaged in separating the chaff from his wheat crop by means of a fan.

"Very fine day, friend Alton. Any news?" returned the individual addressed.

"No nothing of importance, I have called over to see if you would not join Carpenter and myself in taking the paper this year. The price is only two dollars."

"Nothing cheap that you don't want," returned Gaskill, in a positive tone, "I don't believe in newspapers, I never heard of their doing any good. If an old story one happens to get into our house, my girls are crazy after it, and nothing can be got out of them until it's read through."

"But think, neighbor Gaskill, how much information your girls would get if they had a fresh newspaper every week filled with all the latest intelligence. The time they would spend in reading it would be nothing to what they would gain."

"And what would they gain, I wonder? Get their heads filled with nonsensical notions. Look at Sally Black, isn't she a fine specimen of one of your newspaper reading girls? Not worth to her father, three pumpkin seeds. I remember well enough when she was one of the most promising little bodies about here. But her father was foolish enough to take a newspaper. Any one could see a change in Sally! She began to spruce up and look smart. First came a bow on her Sunday bonnet, and then gloves to go to meeting in. After that she must be sent to school again, and that at the very time when she had begun to be worth something about home."

"Then you won't join us neighbor?" Mr. Alton said, avoiding a useless reply to Gaskill.

"No, no. That I will not. Money thrown away on newspapers is worse than wasted. I never heard of their doing any good. The time spent in reading a newspaper every week would be enough to raise a hundred bushels of potatoes."

"No newspaper in my opinion, is a dear bargain, at any price."

"Mr. Alton changed the subject, and soon after left neighbor Gaskill to his own fancies.

"Have you sold your wheat yet?" asked Mr. Alton.

"Yes, I sold it day before yesterday."

"How much did you get for it?"

From the Knickerbocker for May.

FANNY. Through the broad rolling prairie I'll steadily ride, Though father may frown, and mother may chide,...

Then her soft snowy arms round me fondly will twine, And her warm dewy lips will be pressed close to mine,...

So father may grumble, and mother may cry, And sister may scold—I know very well why,...
