

Spirit of Jefferson.

CHARLESTOWN

Friday Morning, September 19, 1845.

Convention Meeting.

The proceedings of the meeting on Monday will be found in another column. We were much gratified at the interest manifested on the occasion, and the unanimity with which the people of Jefferson demand Reform in our State Constitution.

The Hon. Levi Woodbury and ex-Governor Morton are spoken of in connection with the vacancy on the Bench made by the death of Judge Story. Mr. Woodbury's claims are doubtless the first to be considered, yet we should dislike to see his place in the Senate made vacant.

"The Anglo-Mexican Intelligencer." Under this caption, a writer in the "Union" is showing forth the Anti-American course of the National Intelligencer for the last several years, and particularly in its justification and defence of Mexico.

The Martinsburg Republican very appropriately commends the following extracts from Whig journals of 1840, to those noisy, brawling Whigs of '45, who are continually harping upon "Locofoco scrambles for office."

WHERE DID "THE BRITISH GOLD" GO TO? —The progress of reclamation between the different sections of the Whig party is likely to lead to some pleasant and interesting, if not reputable, developments.

MAINE ELECTIONS.—The Augusta Age of the 12th, has no doubt of the election of Governor Anderson, Democrat, by a very decided majority—and of a Legislature, Democratic in both branches.

John P. Scammon, of Saco, Democrat, is elected to fill the vacancy in the first Congressional district, (York and Oxford) for which there had previously been some unsuccessful trials.

Death of Judge Story.

The Northern papers announce the death of the Honorable Joseph Story, L. J. D. one of the Justices of the United States Supreme Court, and Dane Professor of Law in Harvard University.

From the Boston Times we learn that Judge Story was 65 years of age. He graduated at Harvard University in 1798, and was appointed to the Judgeship of the United States Court by President Madison in 1811.

Important from Yucatan. Accounts have been received of a Revolution in Yucatan, and the declaration of her independence of Mexico.

"On the 9th of last month the Yucatecans under Gen. Barneo took possession of a Mexican schooner of war, and having placed on board of her all the Mexican functionaries and soldiers in that State, ordered her captain to sail with them for Vera Cruz, whence she departed immediately.

News from Mexico. The accounts from this country, their doings and their declarations, are so varied and conflicting, that it is impossible to keep pace with them.

It is said, from the Capitol, [Mexico] that the new cabinet is considered as opposed to the war; and, even if it were otherwise disposed, it has not the means to carry on a war; that it is with the greatest difficulty it can raise the means to defray its necessary expenses; and that the war excitement is going down daily among all parties.

The accounts from Vera Cruz of the 29th, state that there has been a retrograde movement in regard to the invasion of Texas—General Paredes absolutely refusing to march with his forces (seven thousand troops) towards Texas; that he has himself repaired to Mexico, and others have followed his example.

Accounts on the following day (30th August) from Vera Cruz, represent that there can be no doubt of a plan being nearly ripe to overturn the present government; and that Gen. Paredes cares nothing about Federalism, but intended to make himself dictator.

The French minister has actually asked his passport from the government having refused to grant him the satisfaction he demanded.

Richmond Medical College. We have received a Catalogue of the officers, students, &c. of the Medical Department of Hampden Sidney College, Richmond.

It is the duty of the South, and of Virginians particularly, to give a helping hand to a Medical Institution in our own State.

From present indications, the fall business is likely to be unusually brisk. Our Merchants will soon be wending their way to the East for the purpose of laying in their supplies.

LATE AND IMPORTANT FROM ST. DOMINGO.—Capt. Dunham, of the ship Claud, which arrived at New York on Sunday evening from Port au Plat, states that the Dominicans were making great exertions to establish a government independent of the Haytiens.

A letter from Soleur, Switzerland, states that M. Loetzelh, gunmaker of that town, has invented a new musket of such a power that although no larger nor heavier than an ordinary musket, and requiring no greater charge, will carry a bullet through an oak plank, four inches thick, at the distance of 500 feet.

A Sudden Death.

On Friday last, Mr. HENRY LES, an honest and industrious citizen of this county, lost his life from the damp of a well on the farm of Mr. Eason Sliker.

The Register remarks on the occasion—"This article is fully up to the comprehension of John Bull. There are millions of people in England, who would believe the Americans had tails like oxen, if told so.

The meeting at Romney on the 3d inst. was one of unusual interest. A large number of Clergy as well as auditors were present during the sittings of Presbytery and the religious exercises that were incident.

The next regular meeting of this body will take place on the 2nd Thursday in April next, at Gerardstown, Berkeley County.

Law School in Richmond. The advertisement of Judge H. St. George Tucker, proposing to open a Law School in Richmond on the 15th November next, will be found in our columns.

The October No. of this beautiful and always interesting Magazine has come to hand. The Plates are really rich, and no other Magazine in the country equal those which monthly appear in the "Columbian."

In the last Richmond Enquirer, we find a card signed by Thomas G. Denton and six others, citizens of Nansemond county, Va., offering five hundred dollars reward for the apprehension of Hunter Hill, who murdered Maj. Robert K. Smith of that county on the night of the 13th inst.

From present indications, the fall business is likely to be unusually brisk.

"Who Killed Tecumseh?"

It would seem that between the Whig press and the English, the old Soldier, Col. Johnson, is never to have the credit of killing Tecumseh.

The Register remarks on the occasion—"This article is fully up to the comprehension of John Bull. There are millions of people in England, who would believe the Americans had tails like oxen, if told so.

The Cause of Education.

The press and the people of Virginia are at length awakening to the importance of this question. The meeting at Richmond has given a new impulse.

The meeting at Richmond has given a new impulse. Already do we witness the first fruits. Public attention has been called to the subject—a spirit of inquiry and investigation has been infused among the people.

Will not Jefferson speak forth? Will she not second the efforts which are making in other counties, to push on the ball? Will say her intelligent, liberal and enterprising citizens?

The following eloquent appeal by the Winchester Virginian, is as applicable to the people of Jefferson as it is to Frederick.

"We take leave to urge upon the talented Clergy of our town to lend us the aid of their counsel in this important move, and to invite them to attend the proposed meeting in October next.

Let our subscribers not forget our terms.—They will be found on the outside, and we call attention to them in order to avoid future misunderstanding; for in no case will we depart from the terms as published.

A NEW FOUNTAIN OF HEALTH, (the Capon Springs), in the Blue Mountains, Va., is extolled beyond measure by Professor Gibson of Baltimore who has returned from it a new man.

LET HENRY G. GREENE was hung at Troy, New York, Wednesday last, for the murder of his wife. The murder, of which an account has been published in our paper, was one of the most cruel and unnatural on record.

SHORT AND PITTY.—The Boston Times, alluding to the miserable condition of Mexican finances and credit, thus happily hits off the whole matter in a few words.

MARYLAND.—The general election in this State takes place the 1st of October. The accounts are encouraging, and induce us to hope for a democratic triumph.

EXPORATION OF WOOL.—There has been a moderate shipment of Wool from this port to England, and further orders are yet waiting to be filled.—The Journal of Commerce of this morning says: "There have been shipments of wool to England lately to the extent of 100,000 lbs., and there are further orders in market."

EXTENSIVE ROBBERY IN BALTIMORE.—Mr. E. C. Davidson, of Marion, Ohio, had his pocket-book containing about seven thousand dollars, cut from his vest pocket, on Friday night, at the Holiday Street Theatre, Baltimore, by some adroit pickpocket.

THE NATIONAL POLICE GAZETTE.—This is the title of a new weekly paper which we have received from New York, published by Messrs. Camp and Wilkes, which should be in the possession of all the chief catching fraternity in the Union.

A fever of an unusual and very distressing type, has been prevailing the counties of Bedford, Campbell, Charlotte, and Halifax, and we believe, the neighboring counties.

Jas. McDowell, Esq., of Fincastle, Botetourt County, Va., has been appointed by the President, to the Consulate at Londonderry, Ireland.

CONVENTION MEETING.

Pursuant to notice given through the newspapers of this place, a very large meeting was held at the Court-house on Monday, the 15th of September, 1845, composed of the most respectable and intelligent citizens from every part of the county, without distinction of party, assembled for the purpose of considering the propriety of adopting measures to procure amendments to the constitution of the State; which was organized by calling Andrew Hunter, Esq., to the Chair, and appointing A. J. O'Bannon, Secretary.

Various resolutions were offered for the consideration of the meeting, by Messrs. C. B. Harding, A. J. O'Bannon, and W. C. Worthington; and after some remarks by these gentlemen and Jacob Morgan Esq., as to the steps most advisable to be taken in order to obtain the object desired, the following, on motion of W. C. Worthington, Esq., were adopted—to the first were only two dissentients, and the latter by a unanimous vote:

Resolved, That it is the opinion of the majority of the people of the county of Jefferson, that the General Assembly of Virginia, at its next session should provide by law, that the sense of the voters of the State be taken upon the question whether there shall be a convention of Delegates of the people to reform the defects of the present Constitution of the State.

Resolved, That it is the opinion of this county that a majority of the voters of this county are in favor of such Convention.

Resolved, That a committee of three be appointed by the chair to prepare a suitable petition to the next General Assembly of Virginia, upon the subject of our grievances; and that the chair appoint a committee of fifteen to obtain signatures to said petition.

Whereupon, the Chair appointed Wm. C. Worthington, A. J. O'Bannon, and William Lucas, the committee to prepare a petition, and gave notice to the meeting that he would announce through the papers the committee, of fifteen.

Loss and Discovery of Mr. Gough.—Most of our readers remember Mr. Gough, the eloquent speaker on Temperance, who delivered a series of Temperance lectures last winter in our city.

PURCHASE OF THE ISLAND OF CUBA.—A great meeting has been held in St. Clair county, Illinois, at which the following resolution, offered by the Hon. JOHN REYNOLDS, late Governor of the State, and for many years a distinguished member of Congress, was unanimously adopted:

Resolved, That the chair appoint five persons to make a report to an adjourned session of this meeting, on the propriety of passing an act of Congress to authorize the President to purchase the Island of Cuba, with the consent of the white population thereof.

THE VIRGINIA MILITARY INSTITUTE has commenced the session with 100 cadets—a larger number than it has ever before had.

These are highly gratifying evidences of the prosperity of our schools. May they long continue in the enjoyment of that prosperity which they now possess.—Valley Star, Sept. 11.

FROM TEXAS.—The brig Maria Spears arrived at New Orleans on the 8th inst., having left Galveston on the 3d. Captain Felt reports that the Convention had not adjourned when he sailed, and no further news had been received from Corporal Christy.

On Saturday last Mr. Jacob L. Middlekauff, near this place, while engaged in cleaning a well, was seized with unpleasant feelings and called to those about to hoist him up. After being drawn some 10 or 12 feet, he fell and remained in the well in a state of insensibility for some time.

THE GREATEST SPEED EVER MADE IN AMERICA.—The Long Island train reached Brooklyn from Boston, at half past three o'clock on Monday afternoon. The run was made from Greenport to Brooklyn, 36 miles, in 2 hours and 40 minutes, including all stops, or the running time without stops, was 2 hours 29 minutes—bringing one hundred passengers and making three stops.

For the Spirit of Jefferson. CONVENTION. Mr. Editor:—The Governor of our State, instead of being the most important officer in it, is one of almost the least importance. This fact is owing, in part, to the manner in which he is elected under our constitution. A man may serve his time as Governor, live to an old age, and die without being known in any way to a large portion of the citizens of the State. It is true, that the fact of his being known or unknown is a matter of but little moment so far as the discharge of the duties of his office are concerned, but it is actually a matter of great interest, to say the least of it, to the great mass of the people to have some knowledge of their chief executive, and to have his character and capacity canvassed before them. It may be said that it is the duty of all men to inform themselves of the competency of their public officers, or they are advanced to office, but this, as it regards the Governor, they cannot do, for the same post that brings the name of the candidate, brings also, most frequently, the name of the Governor. To show in a few words how the election of Governor is provided for, I give you an extract from the 4th Article and 15th Section of our Constitution: "The Chief Executive power of this Commonwealth, shall be vested in a Governor, to be elected by the joint vote of the two Houses of the General Assembly."

Thus the chief officer of the State, (in name at least,) and one to whom the weighty interest of the people is entrusted in the administration of the government, is chosen and elected without their preference being consulted. The manner in which the election of Governor is conducted by the Legislature can never insure a reflection of the wishes of the people. As that body is at present constituted 84 are a majority of both houses, and these 84 may be returned, as is frequently the case, with an aggregate majority of the popular vote not exceeding 1500, and the 83 being a minority in the Legislature, may be returned by 9 or 8 thousand votes, and yet the popular vote will be disregarded, and the 84 members will elect the Governor. This provision in our Constitution has not only done great injustice to the popular will, but there is an increasing liability of its doing so, from the fact of the inequality in the representation, and the refusal of the Legislature to re-apportion it. And the enormity of this provision is especially felt by Western Virginia. But there is another view of this subject, in which the criminal disregard to the rights of majorities may be still more strikingly shown. Some of the delegates, and Senators too, represent from three to five times greater numbers of the constituent body than others do, yet all classes are placed on the same footing; (and I grant it could not well be otherwise, under the present mode of election,) in voting for Governor. Thus a Chief Executive may hold office by the voice of not more than one third of the people. It may be said that our Governor being invested with but limited powers, it cannot be a matter of much consequence by whom he is elected,—but it must be borne in mind that the exercise of those powers is the immediate concern of the people. And in the discharge of his duties, he should act in view of a direct responsibility to the people. But instead of this being the case, he is not made to look beyond the immediate source whence he derives his authority, and hence he is to be considered less the Governor of the Commonwealth, than the mere agent or servant of the Legislature. We would do well to follow the example of our sister States upon this subject. In every instance in which the constitutions of other States have been recently amended, with perhaps but one exception, the election of Governor, and Lieutenant Governor, has been reserved to the people. We ourselves now constitute almost an exception to the prevailing fundamental laws of other States in regard to this matter. And why should we hesitate to make an effort for reform? Longer indifference and apathy will be discreditable to us.—The provision in our Constitution for a Council of State, I conceive to be entirely useless and uncalled for. And in connection with this subject, we find the appointment of a Lieutenant Governor provided for, which is not only singular, but is liable to the same objections urged against the manner of choosing a Governor, with the additional objection, that he, who may be required to act as Lieutenant Governor, is elected less in contemplation of the responsible duties that may devolve upon him, than his acting in a different and less responsible capacity. This provision is contained in the 15th Section of the same Article, as follows: "There shall be a Council of State, to consist of three members, any one or more of whom may act. They shall be elected by joint vote of both Houses of the General Assembly, and remain in office three years." * * * * * "The Senior Councilor shall be Lieutenant Governor, and in case of the death, resignation, inability or absence of the Governor from the seat of government, shall act as Governor."

The Councilors, it is true, receive a compensation for their services, but they generally follow some pursuit in connection with the affairs of government for a livelihood, unless they are men of fortune. These are the only legally constituted advisers of the Governor, without whose advice, he can exercise no discretionary power conferred on him by the Constitution and laws of our State. The folly of this clause in our Constitution and the expense attendant upon it, is apparent from the fact that the Governor is not bound, if he does not see proper, to follow the advice of the Council when given. And indeed it may be well that he is not so bound, for these advisers not participating in any of the active duties of the department, and not being the least responsible for their proper management, have no means of judging of the practical expediency or inexpediency of a measure, except through the information derived from others, who are in the discharge of the various duties of the department; and they have no inducement, apart from whatever of honesty they may have, to a faithful performance of their duties, except the hope or prospect, by incurring the favor of the Legislature, for re-election. The Council, therefore, could, I humbly conceive, be well dispensed with; and in their stead, let those who have charge of the various branches of the department, be substituted. But, it is needless to say, all this can be done without the Constitution's being amended; and unless the people show more energy and determination upon the subject of a Convention, I fear it will never be done. It is time that we had awakened to a proper sense of the imperfections of our Constitution. A PLOUGHMAN. SNOW IN JULY.—An English paper mentions that on a day in July there was snow to the depth of upwards of three inches on the surface of a tract of country, three miles in extent, at Bangor, Wales.

FATAL DUEL IN KENTUCKY.—By a letter from Harrodsburg, Kentucky, of the 8th inst., by a gentleman in Washington, the Union learns that a duel was fought near Harrodsburg, on the 5th inst., between Dr. John L. Taylor of that place, and his brother-in-law, Mr. John Harrison, of Danville; and that Harrison fell at the first fire, mortally wounded in the abdomen. The difficulty, it is supposed, originated in some domestic misunderstandings; and, as the parties were "highly respectable," considerable excitement prevailed at Harrodsburg and Danville in consequence of the melancholy result of the meeting. RELIC.—The Dayton Transcript says:—Mr. Robert Jameson has in his possession a very queer and antiquated watch. It weighs two or three pounds, and is a very curious looking concern. It is covered all over with a strong net work of brass. The wheels are made of steel, and the watch strikes on a bell like a clock. Although the old thing has been ticking over 200 years yet the works do not appear to be worn.—The ingenuity of the work in this watch shows conclusively that there has been less improvement in this branch of art in the last 200 years than in almost any other. Mr. Webster appeared in a case which was argued before the Supreme Court, in Bristol county, last week. This case involves a claim of about \$20,000, and has been in court fifteen years, the plaintiff in the mean time having been reduced to the verge of bankruptcy, by the expenses and delays. Mr. Webster set forth the wrongs and injuries, which the plaintiff had suffered by reason of the alleged evasive conduct of the defendants, and a long and vexatious delay, in the most impressive and powerful manner. In conclusion, he declared if the rule of common sense was not to govern courts in their deliberations—they might be looked upon as nuisances, rather than the exponents of Justice. This is a truth which we are glad to see inculcated by such high authority. [Newburyport Herald.] CHURCHES IN PHILADELPHIA.—We believe the following to be a correct account of the number of places of worship in Philadelphia: Presbyterian, including the Associate, the Reformed, and the Associate Reformed, and the Independent, 34; Methodist Episcopal 23; Protestant Episcopal 21; Baptist 17; Roman Catholic 13; Colored 12; Friends 12; Methodist Protestant 5; Lutheran 5; German Reformed 3; Maritimes 3; Unitarians 13; Jews 3; Dutch Reformed 2; New Jerusalem 1; Moravian 1; Christian 1; Disciples 1; Unitarian 1—total 154. NAIL BUSINESS.—The amount of nails made in the United States is estimated to be fifty thousand tons. Forty thousand cases, or four million pounds of nails are annually made by the Boston Company, at the Mill Dam. Estimating the number of nails at 160 to the pound, the number here made daily will be about two millions; and estimating this number to be but the 25th part of those made in the United States, fifty millions are made, sold and used per day. What looks worse than to see young men loafing about a church door? "Short visits are the best," as the fly said when it lit on a hot stove. The Markets. BALTIMORE MARKET.—September 18, 1845. BEEF CATTLE.—Prices during the past week range from 3 50 to 4 75 net, per 100 lbs., which shows a decline on last week's rates. HOGS.—There is a fair supply of live hogs in market, and the demand is good. Sales have taken place at 4 50, 5 and 5 10 per 100 lbs., the latter price being procured for very choice lots. FLOUR.—There is very little activity in the market for Howard street flour, and small sales only are being made at 4 75 net, which is now the ruling price. Receipt price \$1 37 1/2, with light receipts. Sales of City Mills at \$4 50. Last sales of Susquehanna at \$4 50. GRAIN.—The supplies of wheat at market continue small, and prices are steady. We quote No. 1 white Corn at 47 1/2 cts. per bushel, and ordinary to good 83 a 83 cts. We quote white wheat, for family flour, at 1 a \$1 05, and fair to good white at 92 cts. A lot of Pennsylvania prime red brought 92 cents. We quote Mid. white Corn at 47 1/2 cts. and yellow at 50. Maryland Rye 63 cts, and Oats 30 a 31. There is no change of moment in Bacon, which is only in moderate demand. We quote Shouder's 7 a 7 cts; Sides 7 a 8 cts; assorted 8 a 8 1/2, and Hams 8 1/2 a 10 cts. Lard is in limited request at 81 a 84 cts for No. 1 Western, in kegs, and 74 a 81 in bins. WHISKY.—Sales of whisky are being made at 24 cents, and of hogsheads at 23 cents per gallon. The stock is very light. NEW YORK AND PHILADELPHIA MARKETS. At New York, on Monday, the cotton market was quiet, as the merchants were busy with their foreign correspondence. Genesee flour was in demand, and the bulk of the sales were at \$4 87 1/2; Ohio and Michigan brought 4 75 a 5 14; Southern kinds were dull at 4 62 1/2 a 5 17 1/2. Delaware wheat sold at \$1 per bushel, and Southern corn at 51 cents, measure. Whisky was taken at 23 1/2. At Philadelphia, on Monday, there was a fair export demand for flour, with sales of common brands at 4 50 a 4 64; and subsequently fair mixed brands were sold to a considerable extent at \$1 62 1/2, which is an improvement of 12 cents since last week; the market closed firm at 92 cents. From the New York Evening Mirror.
TO MY MOTHER.
If there be, as there is, in this "valley of tears,"
One remembrance more sweet than another,
It is that which runs back to our infancy—
The remembrance of those—dearest mother!

In the wide span of memory now circling the past,
There are loved ones lost to each other,
And as thou wert the first, so thou still art the last,
To smile fondly on me—dearest mother!

Though endeared, as it is—think much as we may
Of the love of a sister or brother,
Yet it borrows the warmth of its brightening ray
From thy Heaven of Love—dearest mother!

Then be this my love—"is a spark of that flame,
Which age upon age cannot smother,
Thy unkindled above—from Heaven it came—
Oh, be it, then, mine—dearest mother!"

The Humorist.
SOMETHING FUNNY.—At the Chatam Theatre New York, more than in any other city in the Union. They recently produced a Drama in which a famous robber is taken and beheaded, and his head is exhibited to the audience by being placed on a table in the centre of the stage. To accomplish this the life, the robber's body is fixed in the centre of the table, and his neck is fitted into a whole in the centre of the table, so that the audience it looks precisely as though the man's head had been cut off and stood up in a pool of its own blood upon the table. On the fifth night of the exhibition, a wag got into the third tier of the stage boxes, and by some unexplained maneuver, managed to blow a lot of S. O. C. S. over the stage just at the time the head was placed upon the table. As soon as the snuff had begun to settle down the head commenced sneezing, to the no small amusement of the audience; and as the sneezing could not be stopped, the curtain fell amid roars of laughter and confusion.

Several years ago, a young gentleman went to consult a certain attorney, how he might carry off an heiress. "You can't do it with safety," said the counselor; "but I will tell you what you may do—let her mount a horse, and hold a bride and whip; do you then mount behind her, and you are safe, for she runs away with you." The counselor, however, was sufficiently punished for his glibbling advice, when next day he found that his own daughter had run away with his client.

A YOUNG FOP.—About starting down to New Orleans, proposed to purchase a life preserver. "Oh, you'll not want it," suggested the clerk—"bags of wind won't sink."

GOOD.—It is recommended that at all railroad crossings, the following sign be nailed up in place of those already there:—"Surgical Head Quarters—amputations of legs and arms performed with despatch, every fifteen minutes, by the 'In-gin doctor.'"

WHOLESALE PUNING.—"Jane, how do you like marriage?" "Very much. My husband is such a dear man that he is always fawning upon me." "Quite?" "The woman in her dotage, or did Jane marry a brick?"

Greene, the Reformed Gambler, is lecturing at Cleveland. In a speech at a temperance meeting he gave the following answer to one who asked him where he received his education:—"Born a Buckeye, raised a Hoosier, took a lesson in Cincinnati Jail, studied and practiced gambling for twenty years on the Mississippi, and graduated in Texas."

"You are always in a bustle, Martha."—"It's the fashion, ma."

SAPPINGTON'S HOTEL.
THE undersigned, having no other ambition than to serve that of paying his honest debts and those for which he is liable, and supporting himself in an honorable way, begs leave to inform his numerous friends, and the public generally, that he has taken charge of his
LARGE and very commodious three-story BRICK HOTEL, in Charlestown, Jefferson county, Virginia.

This Hotel is well known at home as well as abroad for the comforts of its pleasant parlors, its delightful chambers, and its very healthy and agreeable location—situated in the centre of the town—the front presenting a southern exposure, adjoining the public square, near the market house, and a few steps from the Court House door, having a good pavement leading to the latter—nearly opposite the post office—and in all respects decidedly the most desirable and convenient location for all business transactions in the town.

It has also acquired much notoriety and celebrity by being known as Abell's Hotel, and without flattery or unmerited applause to Capt. Joseph Abell, the public (and especially his patrons) will bear testimony with me to the fact—it is therefore the privilege and pleasure of the undersigned to express a fond hope for the success of his predecessor, and for the undisturbed happiness of his amiable family in their new abode at Harpers-Ferry.

The undersigned deems it only necessary to add, that it will be the constant desire of his heart to keep a genteel, orderly and dignified house, and to spare no exertions or expense on his part to make it equal, if not more agreeable, than heretofore.

The chambers are all large, airy and comfortable, with fire-places in each, and boarders can have choice of wood or coal for fuel.
The bar shall at all times be supplied with choice liquors, and (except upon Sabbath days) may be dealt out in moderation to the weary and thirsty. Having procured from Bushrod Taylor, Esq., of Winchester one of the best cooks in the Valley, the undersigned can, with great confidence, promise to his guests, dishes rare and palatable. And lastly, relying upon his unlimited acquaintance with the good people of his native county, his own unremitting exertions to please, and the liberality of a just and generous public, he flatters himself that he will merit, and hopes to receive, a bountiful share of patronage, with the further assurance, however, that none who favor him with a call shall go away dissatisfied. His charges will be moderate, and all sorts of country produce will be received in payment of bills now due or contracted heretofore at the Hotel.

PERSONS who have thin hair, or whose hair is falling out, have here an article that will keep it from falling out, and increase the growth of it to a remarkable degree. THE MOST COMMON SAYING
I would not give one bottle of Dr. SWAYNE'S Compound Syrup of Wild Cherry, for half a dozen of any other preparation. I have tried all the popular ones, but this stands unrivalled for the cure of the following diseases, viz: Influenza, Coughs, Colds, Consumption, Spitting of Blood, Palpitation of the Heart, Whooping Cough, Tickling and Rising sensation in the throat, Bronchitis, Asthma, or weakness of the Nervous System or impaired Constitution arising from any cause, and to prevent persons from falling into a Decline, this medicine has not its equal.

And when too much calomel or quinine has been used, this medicine will prevent its evil effect on the system, and repair the bilious functions. As a proof of the above medicine giving great strength and clearness to the voice, a gentleman from one of our large auctioneering establishments in Philadelphia, who has been using this Syrup, says that it is the greatest medicine to cry on he ever saw. Of course, the minister or lawyer, who have to exert their voices, would be equally benefited. Reference will be given to the auctioneer, by calling at my office.

Caution.—All preparations from this valuable tree, except the original Doct. Swayne's Compound Syrup of Wild Cherry, are fictitious and counterfeit. Prepared only by Doct. Swayne, whose office is now removed to N. W. corner of Eighth and Race streets, Philadelphia.

For the above valuable Compound Syrup is for sale by
