

SPIRIT OF JEFFERSON *Extra.*

CHARLESTOWN, FRIDAY MORNING, DECEMBER 5, 1845.

Spirit of Jefferson.

CHARLESTOWN:

Friday Morning, December 5, 1845.

THE MESSAGE.

We present this document to our readers to-day, entire: It is of extraordinary length; so much so, indeed, as to exclude from our columns, almost every thing else. We hope every reader will give the Message an attentive perusal. The country has anxiously looked for this document, as setting forth the policy that will govern the present Administration. It is written in a plain, perspicuous and familiar style, rather aiming to present the important questions discussed in a manner sufficiently simple to be understood, than to make any pedantic display in composition.

Space will not suffer us to give a review of even the most important questions alluded to, and we must therefore barely remark that the President stands on the broad platform of Democratic principles, as set forth by the Baltimore Convention, which called him from retirement to the head of this great nation.

THE STATE LEGISLATURE

Is fully organized. From the vote on Monday, it would appear that only two Senators and ten members of the House of Delegates were absent. In the Senate, Dr. E. P. Scott of Greenville, the gentlemanly and popular Speaker of several preceding sessions, was re-elected Speaker, and returned his thanks for the high honor, in a few sensible and highly appropriate remarks. The other officers of last session were re-elected.

In the House, George W. Munford, Esq., was re-elected Clerk. Wm. O. Goode, Esq., of Mecklenburg was installed into the Speaker's Chair, having received almost an unanimous vote. This selection, (says the Enquirer,) will have every reason to believe, be hailed with pleasure throughout Virginia. His strong and ready mind, graceful eloquence, courteous and dignified yet firm deportment; his long and distinguished services here and in Washington—all prove him to be admirably qualified for the responsible duties of the Chair. His address, on taking his post, was chaste, eloquent, impressive and eminently proper.

The Sergeant-at-Arms and two Door-keepers of the last session were re-elected; and, here, we would say, that, in making two of these appointments, (Whigs,) the Democrats evinced a forbearance and liberality, which their opponents rarely practise.

The people of Virginia will be rejoiced, no doubt, to hear that a resolution was adopted, on motion of Mr. Bocoock of Buckingham, to proceed on Tuesday to the important election of U. States Senator. It was adopted without opposition.—We may predict with certainty that it will pass the Senate. Thus will one great cause of excitement be removed and the Legislature set to work on State affairs. By this energetic and wise course, moreover, will Virginia be enabled to send on forthwith a sound Republican to the U. States Senate, to vindicate her rights, and speak out her voice. Not many days longer will she be misrepresented in the most honorable legislative body in the world. Her people, we know, will hail with joy this gratifying intelligence.

TEXAS.—The Hon. ABBOTT LAWRENCE and the Hon. NATHAN APPLETON have declined to sign a protest against the annexation of Texas. They consider Texas virtually annexed, and further opposition to that measure useless. Mr. APPLETON considers it questionable whether the abolition movement is reconcilable with duty under the constitution of the Union.

Governor's Message.

This document, like that of the President's, is of unusual length. We have been unable as yet to give it a perusal, but as we shall be unable to lay it before our readers, until our next paper, we clip from the Enquirer the following notice of the principal topics discussed. The Convention question is prominent, and the Governor advocates strongly this all-important measure. The Enquirer says:—

While we shall not at present comment upon upon the views expressed and measures recommended, (for we have not sufficiently studied them,) we can conscientiously say, after a cursory reading, that this Message, the last that will be received from Gov. McDowell, is worthy of the Chief Magistrate of this proud Old Commonwealth. Its language is elegant, chaste and luminous. The Governor discusses every subject fully and with power. He tells the Legislature boldly what he thinks ought to be done, to give new life to Virginia and to promote her honor and prosperity. All must admire the spirit of devotion to the Commonwealth, with which he so solemnly commends the unity and harmony of the whole State. It will be seen that the financial condition of Virginia is peculiarly flattering. On the subjects of Education, Internal Improvements, the Convention and the condition of our finances, the Governor speaks fully and to the point. All may not agree with him, but no one can mistake his views, or disapprove the frankness with which he presents them.

His eloquent and striking language on the Texas question will meet with a hearty response throughout Virginia. His chaste and beautiful and touching tribute to the memory of Andrew Jackson, will thrill through the heart of every patriot in the land. To conclude these desultory and hurried lines, this able and dignified Message deserves to be read and pondered upon by every freeman in Virginia.

The Delegate from Florida.

On Sunday morning, we had the pleasure of shaking hands (says the Rich. Enq.) with Mr. Brockenbrough, just from Florida, who went on to Washington the same morning, to contest Mr. Cabell's seat. He was in fine spirits, and confident that Right and the People were on his side. He assured us, that a mistake had been made in the returns actually received by the Secretary of State, and that, according to the correct vote, he had a majority of over 100. In this new aspect of things, the work will soon be ended, and all things "set right."

Whig Predictions again Falsified.

The Whig press have been predicting, that on the meeting of Congress, there would be a regular outbreak among the different "factions of the Locofocos." Thus far, and it will doubtless be the case until the end of the session, these gratuitous predictions recoil upon the authors, with the stamp of falsehood indelibly marked. A Speaker and a Printer, a Clerk, and most of the subordinate officers, have been chosen, and the most complete unanimity was displayed in their selection. What next will be predicted, as the rock on which the noble ship of Democracy is to be stranded, and the proudest monument of the civilized world, broken to pieces?

Frederick Contested Election.

In the House of Delegates on Monday, Mr. Edmonds, of Halifax, presented the memorial of James H. Carson and Jonathan Lovett, complaining of the undue return of Messrs. Wall and Cather, as delegates from the county of Frederick.

That the contestants from Frederick will be successful, there can scarce be a doubt. Gen. Carson has already proved sufficient illegal votes to secure his seat over either Wall or Cather.

Mr. CALHOUN has been elected a Senator from South Carolina, to fill the vacancy occasioned by the resignation of Mr. HUGER. The vote for Mr. CALHOUN was nearly unanimous—135 out of 139. The correspondent of the Charleston Patriot says that Mr. CALHOUN consented to be run for the Senatorship with the distinct understanding that his friends are not hereafter, on any terms, to couple his name, as a candidate, with the Presidency of the Union.

The tavern house of Mr. John Corkery, in Martinsburg, was destroyed by fire on Sunday morning last.

Winter is upon us.

On Sunday night last snow commenced falling, and it has continued, more or less, every day since. The merry sleigh bells enliven our streets, and a more favorable time for enjoying the pleasures of a sleigh ride, has not occurred for several winters.

Whilst so many are gay with the sports of the season, a kind thought of remembrance should be given to the poor and the destitute, the widow and the orphan. Many there are who must suffer, even in this community; and those who are so amply provided with every comfort, should seek them out and minister from their abundant stores a supply equal to the demands of the necessitous.

Interesting Lectures.

By reference to advertisement, it will be seen that Professor Briggs, designs giving a lecture on Astronomical and Philosophical subjects, in this town, on to-night. Professor B. has delivered several lectures in other parts of our county, and we are authorized by those who have been present at his exhibitions, to say that he is fully competent to perform all that he may promise. His Apparatus is very complete, and his illustrations and experiments, cannot fail to be highly interesting.

American Farmer.

This valuable Agricultural journal now appears in a new and improved style. It is published monthly, in pamphlet form, at the low price of one dollar. Samuel Sands, N. E. Corner of Baltimore and Charles Street, Balto., publisher.

The "Farmer" is well known to the Agriculturists of our county, and as they have heretofore appreciated its worth, it is only necessary for us to say, that it is now, more than ever, worthy of their support.

The "Constitution."

This able, dignified and thoroughly Democratic journal has been removed, as we stated last week it would be, from Washington to Baltimore. We doubt not the Democracy of Baltimore will give a cordial welcome to so able a defender of their rights. To those Democrats, in this region, who may wish to procure a paper from Baltimore, the "Constitution" has the very strongest claims. A due portion of the paper is given to commercial intelligence, and the editors will have ample means for making their sheet of interest not only to the politician, but business men of all parties. The daily "Constitution" is \$6.00 a year, and the weekly, \$2.00, in advance.

Important from Oregon.

The New York Sun gives the following important items of news from Oregon.

The Hudson Bay Company's bark Cawlit, at Honolulu, brought intelligence from Oregon City to the 28th of July, inclusive. The Americans have full possession of the country south of the Columbia. Being in the majority, and under a republican constitution similar to that of the Territory of Iowa, the Americans in Oregon elect all officers of government, appoint Judges and administer the laws. The servants of the Hudson's Bay Company favor independence, and a number of influential Americans have taken the same side.

Parties are said to be very nearly balanced on the question of maintaining a separate government, independent of the United States and England, and if a sufficient number of Americans can be persuaded to join the independents and turn the scale, it is proposed to issue a declaration of independence, taking in the whole territory in dispute, the Hudson Bay Company to cede the forts and trading ports to the new government. This movement is sustained and justified on the ground of the settlers having occupied and improved a wilderness, in which the Hudson Bay Company of London has been a mere hunter or temporary resident, and over which neither the government of the United States nor that of Great Britain exercises the rights of sovereignty.

The crops are most abundant. There is a great want of vessels.

The two sailing packets running between Oregon and the Sandwich Islands, cannot accommodate the commerce of the Columbia. Freight it was supposed would advance fifty to a hundred per cent. when the crops came to market.

Among the delegates from Kentucky to the Memphis Convention, we notice the name of Dr. Samuel C. Snyder, formerly of this town.

THE MARKETS.

In consequence of the failure of the mail on yesterday, we are without our Report of the markets. At the last quotation in Baltimore, Flour was \$5.87½ to \$6.18½; Wheat, white, 128 a 130 cts., red, 120 a 125 cts.; Cattle at \$5.25 net; Hogs \$5.25 a 5.50 per 100 lbs.; Corn 68 a 70 cts.; Rye 72 a 75, and Oats 39 a 41 cts.

Ocean Steamers.

The steamer Cambria has been fifteen days out to-day, and is consequently due at Boston. After her arrival, there will probably be none to arrive from Europe until about the middle of January, as they only make one trip per month in winter. A letter from St. John's, N. B., states that the *Hibernia* left that city on the 9th inst., for Liverpool.

NEW YORK FLOUR MARKET.—At New York, late on Saturday night, 10,000 barrels of Genesee Flour were sold in one lot (afloat) at \$6 87½. On Monday, 1000 barrels were taken in store at \$7. Nothing doing in other descriptions on account of the inclemency of the weather. The sales of Flour as above, have been purely speculative, and part with the privilege of paying 12½ cents per barrel, not to take the flour if the news per next steamer is unfavorable. 7400 bushels of Barley for export were taken at 60 cents; 1000 bushels of Northern Corn sold at 85 cents.

THE CORN LAWS OF ENGLAND AND THE PRESENT RATE OF DUTY.—The New York Express publishes the following table, showing the rate of duty in England on the sliding scale of Sir Robert Peel, prepared by Edwin Williams:

Price per quarter of 8 bushels	Price per bushels.	Duty per qr.	Duty per bu.	Flour on Duty.

FLOUR AND WHEAT.—The advance in the price of Breadstuffs, has occasioned an immense shipment of Flour and Grain via the Erie Canal within a short time. During the third week in the present month, the excess of transportation by the canal over the corresponding week of '44 was of Flour, 100,797 bbls., and of Wheat, 122,837 bushels; or by reducing the wheat to flour, 125,364 bbls., of flour. The following is a comparison of the amount of flour and wheat received at tide for two years up to the 22nd of November:

	1844.	1845.
Flour	2,137,200 bbls.	2,308,269 bbls.
Wheat	1,238,111 bbls.	1,418,292 bbls.

By reducing the wheat to flour the receipts for the present year, to the 22d of November, inclusive, compared with the same period in 1844, show an increase equal to 207,171 barrels of flour.

THIS IS "A GREAT COUNTRY."—1,200,000 barrels of flour have arrived at the Hudson river from the West in two months past. It is said that Michigan alone could send 1,000,000 barrels to market. That is probably an under estimate.—Wisconsin and Iowa united could probably export as much, Illinois and Indiana, at least each double, Ohio four-fold. This would be ten million, exclusive of New York and Pennsylvania, and the other grain growing States. During the present season 2,800,000 barrels have passed down the Erie canal. Our American wheat is said to be decidedly superior for bread to that raised in England. Besides the flour, nearly one and a half million bushels of wheat have reached tide water by the canal this season. Of the flour, 210,580 bbls., or nearly one quarter of a million barrels arrived in eight days.

VIRGINIA SENATOR.—In addition to the Democratic candidates we have already named, for United States Senator from Virginia, the Hon. Henry Bedinger is also mentioned.—*Balt. Sun.*

Charles Cist, of Cincinnati, offered a Resolution at the Memphis Convention, that the United States seat of Government be removed to the West. It was rejected almost unanimously!

THE WITHERED FLOWER.

Oh! dying flower that droop'st alone,
Erewhile the valley's pride,
Thy wither'd leaves, disordered strown,
Rude winds sweep far and wide.
The scythe of Time whose stroke we mourn,
Our common doom shall bring;
From thee a faded leaf is torn,
From us a broken wing.

Life glides by, oh! who but sigh
Some time some short, some long,
Some never to return, some
Some in a moment's wing.
