The appeal was enough for the kind-hearted old man; and drawing her within the room, he gave her a seat near the fire, and prepared a table, showing the equal price per ba-shel in the U.S. compared with the price per quarter of wheat in England from 35s, sterling to 105s. per quarter-increasing the price 6d. per quarter every time. I am confident that a table of this sort will be of little value to the mercantile the room, he gave her a seat near the fire, and tried to revive her drooping frame. GEN. TAYLOR -- THE PRESIDENCY. SPIRIT OF JEFFERSON.

Friday Morning, August 13, 1847.

WHAT WE BATTLE FOR. The Democratic party, says the Pennsylvanian, have always contended for a certain set of principles-well defined and understood. We claim they are founded upon truth, justice, and equality. They are unchangeable as the laws of the Meder and Persians, and as solitary as they are immuta-

We contend for a simple form, and an ecor cal administration of government, confined within strict constitutional limits, and affording in their operation, equal protection and encouragement to overy legitimate calling, and to everyphonest citi-We contend for a faithful discharge of all our obligations, for an unsullied State faith, and for a constitutional submission to the Federal Government. The rights guaranteed to the States we hold to be sacred and inviolate, and deny the right of the Federal Government to legislate within these limits. We are in favor of a sound currency founded upon a specie basis, and are opposed to the ill defined, vague and uncontrollable financial schemes of the Whig party, because they financial schemes of the Whig party, because they swindle the honest son of toil, and build up an aris-tocracy of ficticious wealth, controlled by a few, worse in its influences than monarchy itself.— We proclaim unalterable opposition to any con-nexion between the government and banks. nexion between the government and banks.

We contend against the creation of a National debt, whenever it can be avoided, and against the assumption of State debts by the Federal governany restriction of the freedom of speech or of the press, and against any interference in matters of conscience. We reward the virtue and the intelligence of the people as the only safe-guards of a republican government, and to establish and perpetuate them, we support a universal system of education, common to all, and exclusive to none and an equality of rights and privileges, believing that an educated people, enjoying the same immunities, will look to the same result. We are opposed to all sectional sentiments, regarding the interests of all the States as identical, and the union of the States as of more value than all else besides. We attach no importance to the accident of birth, but on the contrary, invite to our shores the friends of freedom of every faith and from every clime.

Such are some of the principles of the Democratic party, and for their establishment, the Republicans of this country have battled ever since the formation of the government. Their virtue and efficacy have been well tried, and have came forth, from the furnace of Federal persecution like gold seven times refined. Let us then rally around them to a man, and sustain them, as did our fathers when they planted them in the wilderness, and watered them with their blood;

We have already announced the fact (says the Lynchburg Republican) that the Whigs of Ohio, i their recent State Convention, repudiated in the strongest language, Gen. Taylor as the Whig candidate for the Presidency, and threw cold water upon the whole federal movement to draw the old hero into the strifes of party, merely to secure perhaps, a momentary triumph of men at the sacrifice of principles. Even the Whig papers of that State which had hoisted the name of Taylor, struck it from their must head, in response to and acquiesence in, the wishes, of the whole party of the State. When the Whigs of one of the lar-gest and most influential States in the Union, in heir collective capacity, array themselves in op-

position to one claimed as the candidate of that party, his prospects of success are certainly any thing but flattering. But the Whig opposition of Gen. Taylor is not confined to the Whigs of Ohio. In every section of the Union, more or less, such pposition is seen to manifest itself to the old hero. We do not think we mistake when we say that nuch the larger portion of the Whig party of the

orth are unfavorably disposed towards Gen. Tayfor for the Presidency. In Massachusetts the oposition to him is believed unanimous. The Whig press of that State are the most violent of my in the Union in their denunciations of him. No terms are sufficiently strong to give expression to their hostile feelings and sentiments, towards him. The state of Whig sentiment in other states of the North is not less indicative of similar hostility. The New York Tribune, one of the leading Whig journals of the Empire State, and the organ of much the larger portion of the Whig party of the north, does not hesitate to eschew all connection with the Taylor movement. Hear the explicit language of that journal:

This is indeed, quite decided, but Horace Greely goes still farther. Hear him :

"Let us have a whig candidate concerning whose opinions and views there is no ambiguity ment. We contend against the impolitic and de-moralizing alliance of Church and State ; against whose opinions and views there is no ambiguity, and can be no mistake. Then if the people choose to be fooled again by Kane letters, or to vote for a man who hides his head in the sand, it is their

Thus we see it plainly intimated that Genera Taylor is ambiguous in expressing his" opinions and views. Quite a serious charge we should think

Should Gen. Scott fight another brilliant battle in taking the city of Mexico, there can be no doubt that the entire northern wing of the Whig party will renounce Gen. Taylor, and supplant his name with that of Scott's. Then we shall have the novel and painful spectacle presented us of two of the first military chieftains of the country, even while engaged upon the field, and in an enemy's territory, contending for the reins of government with two strong parties, divided upon sectional grounds, at their heels. History furnishes us with mournful examples of the ruinous effects of such

contentions. May we not look upon such a contest as fatally subversive of our liberties and the permanency of our glorious confederacy? SPEECH OF CAPT. MARSHALL.

Capt. Thomas F. Marshall's (formerly a mem ber of Congress from Kentucky,) late war speech, at Louisville, was delivered in his usual scorching style. A correspondent of the Cincinnatti En quirer says:

SNICHERSVILLE BARBEOUE.

The Barbecue given at this place on Thursday last, by Messrs. Moore & MARSHALL, was one o the most agreeable gatherings of the kind, we have ever had the pleasure of attending. About 800 persons were present-of which number more than 300 were Ladies, embracing to a great extent the beauty and fashion of Loudoun, and some of the adjoining counties. In this particular, at least, it was a feast for the eve and a balm to the heart. and if the smiles of the fair awakened no response

it was no fault of theirs, we are assured. The gentleman who had been selected to deiver the Oration, was necessarily absent, and this portion of the exercises of the Day had to be dispensed with. This, though a matter of regret to many, interfered in no way with the enjoyment of the occasion. The fine Band from the White Sulphur Springs being present, arrangements were made for dancing, at an early hour, and was kept up with only an intermission at dinner, during the entire day. Those who did not participate in this innocent amusement, had abundant sources of enjoyment in other ways, and the entire assem-

blage seemed in every respect gratified during the day, and left the ground at a reasonable hour, in the best spirits. At Dinner, the

IS GEN. SCOTT AT THE CAPITOL. We have nothing as yet, to confirm the rumor that Gen. Scott had taken the city of Mexico.-While, we feel confident that by this time, at least, he has entered the capitol, and without very serious resistance, the statement that he was i Mexico, on the 17th July, wants confirmation, and

for the reasons set forth by the Picayune. That paper of the 3d inst. says :

paper of the 3d inst. says: The brig Mary Jane has also arrived from Tam-pico, having left there on the 26th vit. So far as we can learn, the latest accounts from Tamploo make ne mention whatever of Gen. Scott's victo-ry. Letters of the 26th in abundance have been received in town from Tamploo. They say not a word of the entrance said to have been made on the 17th--eight days previously. It is clear that there was no such story current in Tampico.— Private letters would have mentioned it, and Capt. Hussey, of the Mary Jane, would have heard of it. He heard nothing of the kind. How far com-munications between Tampico and the Capitol have been interrupted by the late expedition of Col. De Russy, we have been unable to learn; we have no later Mexican papers by either of the arrivals. But even were the usual mail entirely broken up it would seem asif so important an event as the fall of the Capitol must inevitably have reached Tampico in 8 or 9 days, transmitted 'from mouth to mouth.' THE CHICAGO COVENTION .- As we anticipated he proceedings of this body have not given great satisfaction to those who were chiefly instrumental in calling it together. The Jefferson (Mo.) Inuirer says :

quirer says : "The Convention being composed principally of men from the Northern and Eastern States, they recommended more particularly the improve-ment of harbors upon the Lakes, and leave the great waters of the Mississippi, as we would infer, to be improved by the enterprising people of the west, and sneakingly beg the General Govern-ment to assist them in establishing harbors upon their lakes and fish ponds."

as we learn from the Free Press, offer the above re-ward to any one who will produce proof that either the President or any of his Cabinet has either a son the President or any of his Cabinet has either a son or son-in-law in our army in Mexico. The Presi-dent, we believe, has neither sons nor daughters and the Hon. Secretary of State has never been married. As far then as they are concerned, the married. As far then as they are concerned, the Whigs of Georgia have run no risk in offering the \$5,000 reward. As it regards the other members of the cabinet, we are not sufficiently acquainted with their domestic relations, to speak of their ability to furnish this additional test of their patriotism. We venture in the name of the Demo-cracy, however, to offer a similar reward to any cracy, however, to offer a similar reward to any Whig who will prove that either of them have ever given encouragement to the enemy, by wri-ting, speaking or preaching against the justice of the war, and abusing their own country for en-gaging in it. They have always faithfully and firmly stood up in defence of their country,— whilst Webster, Crittenden and Corwin, have been doing all in their power to give aid and comfort to the enemy. Webster and Crittenden have sons in the war, we admit; but that seems to be a very unsatisfactory kind of proof as to the patriotism of the fathers, and if the Secretaries referred to had nothing else to offer they would be in a bad way indeed.— Winchester Virginian. The mor-tality is at present seven times the usual average, and is upwards of 400 a week, or 31,000 a year, in a population of less than 50,000! Hundreds of families have loft the city. The venerable and Rev. Mr. Richards, the father of the Catho-lic clergy in the diocese, known and beloved by all, has just fallen—the *eighth* victim of the cler-gy. Of all the priests, whether of Irish or other extraction, who can speak English, there is but ofe (Rev. Mr. Conolly) able to attend the immi-grant sheeds. The great Cathorlar is literally de-serted; there being no clergyman disengaged from the incessant labors of attending the sick to say mass, or administer the sacraments there.— The Nuns and Sisters of Charity are dead, sick or worn out by fatigue.

The Nuns and Sisters of Charity are dead, sick or worn out by fatigue. The excellent Bishop Bourget and, his vicar general take their turns night and day by the beds of the sick and dying. The clergymen who can speak English even imperfectly, are called in from the country parishes. The Jesuit fathers from our Catholic College, St. John's, have been summoned to Montreal; and already, with a de-votion which is really sublime, the good men have set forth for their mission of death.

 THE GREAT QUESTION."—Under this head, the New York Tribune counting upon a Whig majority in the next House of Representatives, (which we strongly doubt,) takes a deliberate view of the following resolution adopted yesterday by the Board of Directors of the Hranch Bank of Virginia at this place, (says Thursday's Lynchburg Republican.) Should the defalcation not exceed the amount mentioned, the loss to the Bank will be very trifling, as the official bonds of the defaulting officers will cover 30,000 dollars, and the Bank will be able to recover a few thousand dollars from other sources:
 "Resolved, That the editors of the papers in this place be requested to state under their editorial heads that the Board of Directors have been laboriously engaged in investigating the affairs of the papers of the institution for several days past, and that the amount embezzled from the Bank, so far as they have been cashed to access the amount embezzled from the Bank, so far as they

In the future we must accustom ourselves to expect the gradual relaxation of the restrictive principles that have heretofore been applied by the various nations of the earth to commercial in-tercourse. The signs of the times are not to be mistaken by any but those who are wilfully blind to them, and it will prove the worst of folly vainly to strive against them, under the fallacious anti-cipation of some era providious to the recurrence of an exploded thory—exploded by its own prac-tical operation. The best of windom is that which yieds natural prejudices and individual interests to the potency of experience in favor of the gener-al good; and the time has now come when the admonition of reason may be disinctly understood by every man who is willing to listen theremuto. It suggests the propriety of realgning the delianve hopes of trade, that all the consequences and in-fluences evolved, foreseen and unforeseen, may be steadfastly improved : what is evil, carefully avoid-ed, and what is good, seduloualy maintained. The difference between parties now, is more in words and the subtleties of party prejudice, than in active meaning and purpose; and although the day is not yet gone by, perhaps, in which, un-der certain circumstances, some change migh co-cur in legislation upon the matter; yet we appro-hend, there would be on by the precursor of ano-timer. The difference between parties now, is mit in times not long past. Certainly, no such action could possibly be attended with permanent success, and would be only the precursor of ano-timer change " back agair." The address of Nations, our readers are aware, in the centre of commercial Furope, having direct reference to the most liberal principles of national intercourse for the purposes of traffic ; and we may rationally expect from the deliberations and reso-lations of such an assemblage of men as will thus be brought together, an influence that will in time is first, throughout the comprens. The address opens with the following paragraph, which atrikes

The protective system is a manifest vio-lation of that divine law which makes all men a single family. According to it, each nation, shut-ting itself within its own frontiers, and prohibiting the introduction of foreign commodities, isolates itself in the midst of its brethren, injures their in-terests and treats them as enemies, instead of en-deavoring to gain their good will. Countries governed by this system are towards others like citadels in a state of siege, holding all those who desire access to them at a distance." Washington, Aug. 9, 1847. Our eagles are now planted in Maxico, and the war is virtually at an end. The fight was not a desperate one, and the City itself afforded no re-sistance whatever. The desperate struggle pro-phesied is reduced to a loss of 300 men, less than that we suffered in taking Monterey. The fierce spirit of resistance has been changed into rejoic-ings of the Maxican population at their deliver-ance. Their only regret is that the military ty-rants who have lived upon the substance of the country have not been destroyed and killed in the last engagement, to ensure them that peace which WASHINGTON, Aug. 9, 1847.

His or-ders were to call upon the Mexican commander, Gen. Garray, and claim from him the American prisoners detained at Huejetla, suggesting reasons why they should be liberated, and in case of Gen. Garray's compliance, bring them back with him to Tampico. On reaching successfully Asuluama and Tanta-yuka, he informed the Alcalde of those towns of the object of his expedition, and stated that, al-though he was accompanied by a military escort, his mission was not in tostility. The attack was made upon him the morning after leaving Tanta-yuka. Col. De Russy awards the highest credit to all the troops under his command, but particu-larly notices the efficiency and gallant conduct of Captain Wyse, and his company, the 3d Artillery, whose single field piece was served with terrible effect upon the enemy. He also praises, in the bighest terms, Captains Mace and Seguine, of the Louisiana volunteers, as well as Lieutenats Tanneyhill, Heimberger, Leindenberger and Campbell. He also notices the gallantry of Mr. Aldridge, proprietor of the pack mules; Mr. Lafier, of the Tampico Rangers, and Mr. Pemberton, who accompanied the expe-dition as an amateur. Lt. "There is a manifest propriety in discussing our domestic differences discreetly and courteous-ty. We do not believe Gen. I promised in my last to give you an account of our celebration of the glorious anniversary of our National Independence, and I now pro-ceed to faufil my promise. Agreeably to previ-ous arrangement, we determined to celebrate the day on Monday, the 5th, (not having yet lest all vaneration for the Sabbath) The Commit-tee of Arrangements engaged with an American gentleman, who keeps a public house in Saltillo, to farnish the dinner at the hastenda on the right fank of our encampment, and 300 yards ontside the chain of sentimels. At 3 o'clock, P M, Gen. Wool and staff assembled at the marque of Col. Hamtramck, and were escorted by the officers of our Regiment to the bacienda. Capt Smith P. Backhead had been appointed orator of the day, but in consequence of sud-den indisposition, was unable to perform that duy. Capt John P. THROR CORRECTED. Mn. EDITOR :- Having seen an article under the title of "PROSCRIPTION AT HOME," published in the Washingtonian of the 16th ult, and after-wards copied by the Richmond Whig and our federal papers, I deem it an act of justice to the party to which I belong to pronounce the asser-tion therein contained *false*. So long as its pub-lication was confined to the sheet in which it first appeared, I considered it unnecessary to give it a *parsing notice*; but since other papers, which may not be apprised of the truth of the case, are endea-voting the make publication and the full factored not be apprised of the truth of the case, are endea-voring to make political capital out of this flagmant misrepresentation, I hold it to be my duty to put the public in possession of the facts; and if those who copied that article are as willing and prompt to correct as they have been willing to circulate this falsehood, they will give this short communi-cation an insertion in their papers. - Now to the piece in the Washingtonian which *purports* to be an editorial: it is there asserted BY THE WRITER that Mr. JONATHAN WENNER, late post master at Lovettaville, has been removed

BY THE WRITER that Mr. JONATHAN WENNER, late post master at Loveitsville, has been removed from office, or proscribed, for freedom of opinion. I PRONOUNCE THIS WHOLLY AND IN EVENY PAR-TICULAR UNTILE; for, although Mr. WENNER is a violent Whig and strong partizan, I do not be-lieve that his political opinions were known to the Department which removed him; at any rate, I am satisfied they did not weigh one feather in the matter of his removal; and if THE WRITER had made that particular inquiry into the subject which he profeses to have done, of the proper persons, I imagine he would not have had the unblushing paryDENCE to pen, much less publish, such a mis-

IMPUDENCE to pen, much less publish, such a mis-representation,—although he might be shielded by the hope that it would not meet with a denial. Now, the truth is, Mr. JONATHAN WENNER was removed because he was delinquent in his duty to the General Government, and had FAILED TO FAX into the Treasury of the United States the proceeds of his office, and this, too, after having been reminded of his DELINQUENCY. Can or wil any honest man say that he should not have beer

DREADFUL AFFRAY AT LATTLE ROCK—Three Lives Lost.—We are informed, says the Banner of the 19th inst., that on Thursday, in an attempt to serve a peace process, deputy sheriff Berchfield of Saline county, was killed by the elder of two brothers named Allen, upon whom the writ was to be served. As the Allens had threatened that they would not be arrested, the sheriff summoned a passe and enformed he burge attempting to past they would not be arrested, the sheriff summoned a posse, and, entering the house, attempted to exe-cute the process, when one of the Allens, both of whom were armed, lowered his rifle and shot the sheriff through the body, killing him upon the spot. ATTROTRIATIONS FOR THE SHEMANDOAH.-By an act of the Legislature, passed in March, 1834, the new Shemandoah Company was authorized to increase its capital stock to the amount of \$500,-By an act of March 1837, a subscription of \$46,

By an act of March 1837, a subscription of \$46,-000 to the stock of the Company was made-and an additional \$10,000 authorised for every \$15,-000 raised by private subscriptions, until the whole stock should amount to \$500,000-being in facta pledge of \$200,000 on the part of the State. But the provisions of this act expired in January 1839, the Company not having raised the private sub-scriptions required. This is the act which the Front Royal Convention desires to have revived. A joint resolution, passed in 1839, authorized the Board of Public Works to have a careful sur-vey of the River by a Competent Engineer, but vey of the River by a Competent Engineer, but this survey was not made, owing to some unfa-vorable circumstances existing at the time-and a request is about to be made to have that duty performed, as early as practicable.—Win. EXPECTED RETURN OF THE COMET OF 1556. —We are indebted to John Taylor, Esq., of Liver-pool, for several interesting astronomical notices published by him during the past year in the pub-lic prints of that city; but we believe we have not hitherto referred to the approaching expected re-turn of the Comet of 1556, with the discussion of which one of those notices is occupied. As long since as 1751 Mr. Richard Dunthorne, of Cambridge, England, in computing the elements of the Comet of 1256 that he was led to the conclusion that the two were identical and that its return might be expected about 1848. Subse-gent investigations which have been made by dif-ferent astronomers confirm this conclusion ; and ferent astronomers confirm this conclusion; and there is, therefore, good reason to look for the re-appearance of this Comet during the year 1848, although it would not be surprising if this event should happen a year earlier or later than this

DIFFICULTY OF APPREHENDING THE VALUE OF HIGH NUMBERS.—As very high numbers are somewhat difficult to apprehend, it may not be amiss to illustrate by a few examples, the value of the words Million, Billion, Trillion and Quadri-

lion. Suppose that a person reckons a hundred pieces to a minute, and continues to do so twelve pieces to a minute, and continues to do so twelve hours in each day, he will take fourteen days to reckon a million. A thousand men would take 38 years to reckon a billion. If we suppose the whole inhabitants of England and Wales have been constantly employed since the birth of our Saviour, they could not have as yet reckoned a trillion. Though we admit the earth from its crea-tion to have been as populous as it is at present, and the whole human race to have been counting-monev, without intermission, they could scarcely

REMEMBER ME. When we two parted all I heard from thee Were these low whisper'd words--'' Remember No vows of faith and passion did I hear ; '' Remember me!'' was all that met mine ear. 1 WELL remember thee—and from my heart The last, sad humble prayer shall ne'er depart, That heart—this hand—another's prize may be; Hiss I may love—I MUST remember thee.

The past is nothing, and our hopes are o'er, Our last adieu is said-we meet no more; Or if we do meet it will be in yain, That past-those hopes-can ne'er be ours again

Yet will I give thee all that thou dost crave, A fond remembrance-strong as is the grave ; All else shall pass away-Love-Hope-Regre I soon shall cease to mourn-yet ne'er forget.

Thou too with me these memories wiltshare, As I have shared (by love and thy despair. Our paths are different, yet where'er they be, As I remember thee—KRMEMBER ME!

DECAY OF THE INDIANS. NY MRS. E. OAKES SMITH. We call him Indian, and we coldly scan Han, who in the garden walked with God, unveiled, Coeval with the morning stars which halled His birth with songs; bright leader in the van Of human thought—Lo, the young breezes fan His cheek exultant! No impulse failed, Nor stateliness, nor strength, nor hue exhaled From elemental strife, to starp him Man. The Poet found him with his morning song, And buoyant grace; and him Apollo called. " Lo the poor Indian,"—he will pass ere long, With all his linkings, to a God ; Appalled, Old Nature shall lament her primal child, And, listening, pine to hear his "native wood not wild." BY MRS. E. OAKES SMITH.

The incorrigible "Dow, Jr," of the N. Y. Sun-y Mercury, in his 338th Sermon, says : My dear friends, I am bound to the conclusion that nothing upon God's green-cushioned footstool was ever intended to mourn. If the world were intended for a house of mourning, every flower would be painted black-every bird would be a crow or black bird-every body would be a negro --the ocean would be a vast ink pot-a black veil be drawn over the face of heaven-and an everlasting string of crape hung around the borders o creation. But 1 do assert, from the nether ex creation. But I do assert, from the nemer ca-tremity of my heart, that man was no more made to go prowling and mourning through the world, than a canary bird was created to sing at a Methodist meeting.

having the bump of caution large, she read of high markets and sagely pondered thereon, and ulti-mately she last week arrived at the dwelling of a civic functionary, in whom she placed implicit reliance, and requested as a most particular favor that he would give her his advice. The question she put was, whether markets were likely to rise or fall? "for," added she in a whisper, "Alick and me intendit to gang thegither at this time, but I cannot make my mind to 't wi' the meal a 2s. 3d. a peck. THE FALLEN BROTHER. THE FALLEN BROTHER. A man posseses an extremely low and grovel-ing mind, who rejoices at the downfall of another. A noble heart, instead of denouncing as a consum-mate scoundrel, one who has erred, will throw around him the mantle of charity and the arms of love, and labor to bring him back to duty and to God. We are not our own keepers. Who knows when we shall so far forget ourselves as to put-forth a right hand and sin. Heaven keeps us in the narrow path. But if we should fall, where would be the end of our course, if in every face we aswa frown, and on every how we read rawould be the end of our course, it in every face we saw a frown, and on every brow we read re-venge 1. Deeper and deeper would we descend in the path of infamy; when, if a different course were pursued, and a different spirit were manifestwere pursued, and a different spirit were manifest-ed towards us, we might have stayed our career of sin, and died an upwright and honest man. Deal gently with those who stray. Draw them back by love and persuasion. A kiss is worth a thousand kicks. A kind word is more valuable to the lost than a mine of gold. Think of this, and be on your guard, ye who chase to the confines of the grave an erring brother.—Portland Tribune.

HAPPINESS AND RICHES.

It cannot be too early or too deeply instilled into the minds of the young and inexperienced, that the means and happiness of riches are, in a great degree, in every man's power. A blind be-lief in destiny or fortnee, eate as a powerful stim-ulus to indolence and indecision, and makes men sit down and fold their hands in spathy. Nothing is more common in the world than for proceeds to is more common in the world than for people t excuse their own indolence by referring the pros-perity of others to the caprice of fortune. Success very capricious man knows, is as generally a consequence of industry and good conduct, as dis-appointment is the consequence of indolence and indecision. The difference in the progress which men make in life, who start with the same prospects and opportunities, is a proof that more de-pends upon conduct than fortune; and if a man, pends upon conduct than fortune; and if a man, instead of envying his neighbor's fortune, and de-ploring his own, should inquire what means he has employed, or those he has neglected, he would scure a result to his wishes. But the great mis-fortune is, few have courage to undertake, and fewer candor to execute, such a system of self-examination. Thousands thus pass through life ungry with fate, when they ought to be angry with themselves—too fond of the enjoyment which rich-es procure, ever to be happy without them; and too indolent and unsteady, ever to pursue the legiti-mate means by which they are attainable.

A SABBATH ON LAKE MICHIGAN .- A COTTES pondent of the New York Commercial writing to that journal from the steamer Nile, while she EFFECTS OF THE HIGH FRICE OF CORN ON MA-THINONY.—The following anecdote is related in a Scotch journal, showing how the price of meal prevented a couple "buckling too:"— "A buxom country girl in Ayrshire left the place where she had been at service, with the kind determination of putting a matrimonial period to the doubts and sighs of her stalwart swain; but

tables were cleared away and the cabin was fitted up for church. At ten o'clock the large bell was rung and tolled in imitation of church bells, and the passengers assembled and listened to a very excellent sermon by the Rev. Mr. Stimson, of East Greenbush, N. Y. It was a novel and in-teresting incident of our journey. There, gath-ered in the saloon of a then floating Bethel, were nearly four hundred people from almost every kindred, nation and tongue, who were never again to meet together this side of eternity, never again to listen to the voice that addressed them, and never to unite in the same song of praise or prayer. It was a solemn thought, and if the Per-sian monarch wept when he looked spon his army of a hundred thousand men and thought, in

a hundred years they were all to lie beneath the a hundred years they were all to lie beneath the sod, cold and lifeless, surely the Christian might weep when he gazed upon that assembly and re-flected that on that beautiful lake, floating like "Noah and Family" above the world and shut out from all things visible upon it, were assem-bled a company listening to the words of eternal life, who were to meet again only at the call of the last tumo.

The child soon became very fleshy, and has continued to grow rapidly ever since, it is now past one year old.— If attacked by cholic, which has not been for some time, a dose of the cordial invariably gives relief. Yours, Respectfully, JOHN McCOLLUM. Liberty District, Frederick Co., Md., August 5, 1846. MR. C. HEASTONS:—My infant baby for about six weeks from its birth was much afflicted with Cholic. The attacks were so often repeated, and the sufferings of the child so distressing, that as parents our feelings were sensibly alive on the occasion. We had tried many things but all failed until a friend on a visit recommended Drs. Dresbach, Kuhn and Pryor's Dyspeptic Cordial.— The first dose gave relief in a few minutes, the child from that period began recovering, and by occasionally using the cordial was perfectly re-stored to health. The Dwelling commands a beautiful view of the Blue Ridge and North Mountains, and is very healthy, but few cases of sickness having ever oc-curred, arising from its local situation. The land is of the best limestone. From its location,—be-ing convenient to all the improvements, so that all the produce raised upon the farm can be easily conveyed to market at little expense,—this estate is one of the most desirable in the county. This land can be divided into two farms, giving both wood and water to each. both wood and water to each. The subscriber respectfully invites a call from those desirous of purchasing land, as he is pre-pared to accept a price that would make the pur-chase a valuable investment, even as a specula-

tion, to any disposed to engage in such an enter-prise. To a gentleman of fortune, who desires a country residence, an opportunity is now offered rarely to be met with. WM. T. WASHINGTON. Near Charlestown, Jefferson Co., Va., December 18, 1846.

December 18, 1846. { Oil of Transin for Leather. MONEY TO BE SAVED! The proprietors of this preparation say without any hesita-tion, that it is the best article in use. It will not only keep harness bright and soft, but will restore old harness that has been taken poor care of, tak-ing off the crust, and making it perfectly soft and pliable. It adds to the wear of harness or leather at least 50 per cent. It is an article that comes cheep, and is worth its weight in silver. DAVID REINHART. Mechanicstown, Frederick County, Md., Sept. 30, 1846. Ma. C. HERSTORS:—As a friend to the afflict-ed I feel it my duity to offer you my name as a tes-timony to the good effects of your Drs. Dresbach, Kuhn and Pryor's Dyspeptic Cordial. I have for the last two years been suffering with what some call Liver Complaint, others, Dyspepsia—be that as it may, I did not dare to take a drink of cold water, or cat any thing but very light diet, and even that at times would lay on my stomach occasioning much misery. Dur-ing this time I had taken many things recommend-ed, but none of them did any good. Happening to be a juryman at Frederick court one of the jury had got a bottle—I asked him to let me try it, he did so, and I found it was the very thing I wanted. I got it, commenced using it according to direc-tions—to my great satisfaction after taking three doses of the cordial I was so fully satisfied of its good effects, I continued the medicine until I had used several bottles—and can now, say I am en-tirely relieved of this distressing complaint. Mechanicstown, Frederick County, Md., September 30, 1846. From the Proprietor of the Falling Factory. I was for many years afflicted with cramp cholic and dyspepsia, so that I was unable many times to attend to my business. I have used five bottles of your Dyspeptic Cordial and am perfectly re-lieved—I had likewise during the time a severe attack of Rheumatism in one of my arms, and between the shoulders cured. I ascribe the cure to the same medicine. JOHN ARTHUR.

Yours respectfully, SAMUEL HEARD.

sired effect.

The proprietor has no hesitation in saying that he never heard of any thing acting so promptly in giving relief. The following cases are amongst others confirming the statement.

Maryland, July 4, 1844. Maryland, July 4, 1844. Mr. C. HERSTORS:—Sin—One day last week in my harvest field one of my hands was seized in a violent manner, believed to be cramp cholic, and became convulsed in his entire system—his bands force there for accurated and all his in a violent manner, believed to be cramp cholic, and became convulsed in his entire system—his hands, fingers, toes, &c., contracted and all his limbs disorted in an unnatural way. Eight men were employed in rubbing his hands and lege— using whiskey in the act—and bathing his face and temples with liquor. For two hours or more the process was continued without any abatement in the disease, the man during the time screaming with agony. I then sent a boy to Mr. J. E. Hol-lyday's about a mile off, to try if anything could be got there to afford relief. They sent me about two spoonsfuls of your medicine, named Drs. Dresbach, Kuhn and Pryor's Dyspeptic Cordial. His extremities had by this time become quite. cold—the pulse had ceased to beat—indeed I did not think he could live ten minutes:—such an object I never before witnessed. During the paroxism large knots would run up and down his legs—men rubbing him constantly. I now com-menced giving about one third of the Dyspeptic Cordial—soon after which I thought I perceived seme change for the better ; in ten or filteen min-utes I gave the same quantity of the medicine, and found his pulse had comewhat returned. I then gave the balance of the cordial at about the same interval ; soon after taking the last portion-he was entirely relieved of the spasm—the disease. was now conquered and a state of case ensued. The contortion he was thrown into made him quite sore in his body and limbs. We continued the rubbing process some time after the spasm.

ceased. Dr. Skinner arrived some time after the last dose of the cordial had been given, and after the spasms had subsided, the man was now relieved and lying before him—on hearing the whole state-ment of the case very candidly said the cordial had saved his life. Dr. Maccubbin came scon-after Dr. S. and his opinion coincided on the sub-ject with him. I think it a duty to the public to make this circumstance known. MICHAEL B. CARROLL. For sale by J. P.
