

its reasoning and fact, or its vast learning and information, but of the impartiality and boldness of its opinions, the correctness of its deductions, its design, and the fairness and liberality of its sentiments. Some object to its works because every line is not a labored argument and every idea an elaborate analysis. Does it need any powers of argument to describe an army rushing into the field of battle? Does it need any process of analysis to delineate the splendor and glory of victory hovering around the triumphant banner? Even though he possessed such faculties in a most eminent degree, yet the very nature of his subjects would not admit of their exhibition. They call simply for great powers of description, and he has displayed them in no ordinary degree. Subjecting those impetuous and daring conquests to stirring and brilliant events, and those grand and diversified campaigns to his own splendid and vivid imagination, he has succeeded most eminently in elaborating an interesting series of the most highly wrought epics. His work called Napoleon and his Marshals, though written by extraordinary ability, an originality of thought, no uncommon depth, or much strength of intellect, yet the terrible splendor, the brilliant success and invincible courage which those Generals displayed in their various and laborious marches, find in his most beautiful and grand delineation a truth—repetition is not a great fault in his writings. But when we calmly and attentively consider his works, the unfairness of this objection is made apparent. For in vain may we look for any writer displaying as little repetition as Heady has done in describing so many events of the same nature.

SPIRIT OF JEFFERSON.

CHARLESTOWN: Tuesday Morning, January 11, 1848.

Our Correspondents, Advertisers, &c. will please bear in mind the change of our publication day to Tuesday. Favors of this kind should be in as early as possible on Monday, to receive attention.

MEETING ON MONDAY.

Our Democratic friends of the County, will bear in mind the Meeting on Monday. We hope there may be a full attendance from the several Precincts, and that all may come prepared to put the Democratic ball again in motion. One of the objects of the meeting, is to appoint Delegates to the Senatorial Convention of this District, to assemble in Winchester on the 1st February next. This contest promises to be a very close one, and every good and true Democrat in the District, must be willing to sacrifice every merely personal preference, for the good of the common cause. Let us all meet together in this county as elsewhere, in a spirit of harmony and concord, and discharge our duty now and hereafter, as we should, and no fears be entertained of the result. A more perfect organization of our party is also desirable, in view of the approaching Presidential campaign. The common enemy are at work. Emboldened by a temporary triumph in the House of Representatives, they are more reckless in their acts, and more Anti-American in their professions, than they have ever heretofore been. The more wily, though less honest of them too, have another string to their bow. Should the people repudiate again, as they have so frequently done before, the infamous acts and high-handed measures of this Anti-Republican party, they are prepared to veil from the eyes of the honest and unsuspecting their true motives, by presenting a "No-Party" candidate for the Presidency. To meet these open or secret machinations of party, desperate to accomplish its purposes, the Democracy of the Union must be up and doing. In entering the contest, we should have our forces marshaled, and our objects clearly defined, and then we need have no misgivings as to the issue.

General Intelligence.

BEHOLD THE EFFECT!—The New Orleans Delta (a neutral paper, but with evidently a leaning towards the Whig party) gives us this startling statement:—"MR. CLAY'S SPEECH IN MEXICO."—The Lexington speech of Mr. Clay has been extensively circulated throughout Mexico, and has created quite a lively sensation among the Mexicans. They were so informed, do not dispute their honor, that the prediction which they made in this country, will result in the withdrawal of our troops from Mexico. They are destined to a cruel disappointment.

MR. CLAY'S SPEECH IN MEXICO.

The Democratic members of the Legislature will doubtless recommend the holding of a Convention at an early day, to appoint Delegates to a National Convention, to form an Electoral Ticket for the State, and perform such other necessary duties as may be found needful. The counties must co-operate in this matter, and this is another of the purposes of the meeting on Monday.

PRECINCT MEETINGS.

As it is only designed, in accordance with the usage and custom of this County, to appoint Delegates to the Senatorial Convention, from the Charleston Precinct alone, and the Meeting on Monday, we are requested to give notice that meetings will be held at the several Precincts of the County, as follows, for the purpose above indicated:

For Smithfield, at the Town Hall, on Saturday next, 15th inst., at 3 o'clock, P. M.
For Shepherdston, at Joseph Entler's Hotel, on Saturday, 22d inst., at 2 o'clock, P. M.
For Harpers-Ferry, on the same evening, (Saturday 22d), at 7 o'clock, P. M.

VIRGINIA CONVENTION.

At a meeting of the Democratic members of the Legislature of Virginia, on Tuesday last, a State Convention of the party was requested to be held at the Capitol on the 28th of February next, to form an electoral ticket, and make other preparations for the next Presidential election. We learn from Richmond that the very best spirit prevailed, and the Democratic members of the Legislature, were never more sanguine of a triumphant victory.

A RUMOR.

The Washington Correspondent of yesterday's Baltimore Sun, furnishes the following as the latest rumor at the Capitol:—"In order that you may be in advance of every body, we state as a fact, upon which you may implicitly rely:—"

1st. That all the differences between General Scott and Worth will be submitted to a Court of Inquiry, to be held in Mexico. Both officers will be relieved from command and duty for this purpose.

2d. Gen. Pillow and Col. Duncan will be brought before a Court Martial. These are facts. It may be that Gen. Taylor will be put over Mexico, as commander-in-chief of the army, and having civil powers confined to his judgment.

3d. The friends of Gen. Taylor in this country have determined to try it again, and we notice that a call for a Taylor Meeting on Monday next, is made through the Free Press of last week. We wish them better luck, and a more decided demonstration, than was made at the meeting of December.

A Taylor Meeting was to have been held in Berkeley on yesterday, (Court-day). We fear the visit of the great "Embodiment," threw all the fat in the fire. We have no accounts, however, officially.

Yesterday was the coldest day of the season. Forget not the poor at this trying period.

A word of news from the Seat of War, of the latest interest, since our last issue.

WHAT ARE HIS PRINCIPLES?

To show how ridiculous the position which the friends of Gen. Taylor occupy, who advocate his election to the Presidency on the ground of his "No-Partyism," the following extracts, taken indiscriminately, may very fully shew. All profess to speak "by authority," and yet the old General is presented in as different hues, as the changing chameleon. In this state of things to exist longer, and the American people required, under the pain and penalties of ingratitude, to elevate a man to the Presidency of whom they know nothing? It won't do, and men of reflection and calm consideration will not sanction such ridiculous procedure. Suppose Gen. Taylor be elected as the "No-Party" candidate—without, on his part, any avowal as to the great questions which divide the country, how long can his Administration have the confidence of either party, or the sanction of the people? There are certain great Constitutional questions upon which there can be no compromise. He must be for or against. How will he act then, and what will his Cabinet decide? And if this co-operating department of the Executive Government, be taken from both the political divisions of the country, upon what question can they be agreed, or upon what platform can they meet? Confusion, disorder, open out-break, must ensue. The Cabinet could not exist in unity for a month; and from the highest to the lowest office under the Government, the same distrust, jealousy and dissension, must necessarily prevail. Adhesion to party, it is true, may sometimes be carried too far; but when confined within proper limits, it is the bulwark and security of the Union. The vigilant eye of the press and the people is always ready to detect the mal-administration of those in authority. Self-preservation requires the one party to be watchful of the other, and so long as the fountain of power in this country, the PEOPLE, are pure, the croakings of evil prophets will be but as "tinkling symbols." The cry of "Wolf!" has been raised at too late a day. Men who have so long fattened on the spoils of office, State or Federal; grown gray in their devotion to party, and sacrificed future promotion to gratify present malignity, are the last men of all others, who should be now sounding the tocsin and marshalling the forces for an inglorious surrender, because they have obtained all the trophies which were to be won, and the victories that were to be achieved, under the existing state of battle-array. But the extracts, showing the unity of sentiment and the sameness of purpose, with which the different friends of Gen. Taylor unite in his support.

THE WASHINGTON CORRESPONDENT OF THE PHILADELPHIA SPIRIT OF THE TIMES, SPECULATES AS FOLLOWS:

"A letter has been received from Gen. Taylor, stating that he will accept with thankfulness the Whig nomination, as coming from a portion of the people, and containing such other matter as to induce the Whigs to throw up their caps for him, regardless of their late vows to remain faithful to Mr. Clay while he lives. The bargain is, I believe, clinched. General Taylor has given assurances, that if elected, he will appoint a Cabinet, and the members of the same, as he may see fit. Three prominent members of the Senate have already a promise either expressed or implied, that they shall have cabinet appointments. This is counting a little too soon, but their thirst for power has rendered them perfectly blind to every consideration but how they can best gain the ascendancy in the government. Mr. Clay's Lexington speech diminished his chances exceedingly. They have been forced, much against their will, to take up General Taylor, because they had nobody in their own party for whom there was any prospect of success. But their admission was not given in the oath of fealty, not spoken, until they received assurances that they themselves would be cared for by the General in the event of his election. The Department of State is to be offered to Mr. Clay for a sake, and in case of success, as he will of course, it will be given to Mr. Crittenden. Then Mr. Evans is to be Secretary of the Treasury; the man who stands by the tariff of 1842, and would restore it to-morrow if he had the ability. John M. Clayton is to be Secretary of War, &c., &c. Mr. Corwin has consented to bridge his tongue during the session, as the utterance of his sentiments will not, it is supposed, be conducive to the General's success."

MR. CLAY.

The Hon. HENRY CLAY passed through Harpers-Ferry on Thursday last, on his way to the East, after having spent some two or three days with his friends in Martinsburg. Mr. CLAY proceeded to Baltimore the same evening, and after having spent a few hours at Barnum's City Hotel, in receiving the congratulations of his friends, he then went to the residence of CHRISTOPHER HOOVER, Esq., where he remained until Monday, and on the evening of yesterday, proceeded, we presume, to Washington City. His arrival in the latter City is watched with jealousy and distrust, on the part of the friends of Gen. TAYLOR. Rumor, vague and indefinite though it be, says that he declines to give any interviews, and that Mr. CLAY will issue his manifesto from Washington, defining his position as to the Presidency. The following version of the General's position is from the Philadelphia Evening Bulletin:—"I learn that letters have recently been written to old Zach, by prominent men, declaring they were by inclination Taylor men, and urging upon him in strong terms, the necessity of a declaration of principles. I also am informed upon reliable authority that if these letters fall in their purpose, stronger letters imposing upon him the necessity of a declaration, signed by many prominent and influential men, will be sent."

WHERE DO YOU STAND?

Assuming that Gen. Taylor is to be the Whig candidate, we should like to know (says the Richmond Enquirer) what are his principles. If we look to the Taylor organs we are lost in chaos. "The Richmond Republican says that he is a 'no-party' man—yet the National Whig asserts, that he 'has never yet occupied this no-party platform. He is a Whig—and we prophesy that he will receive the unanimous vote of the Whig General Convention for President.'"

OUR LOSS.

The Whig press have put forth many grave homilies, upon the immense loss of life to our Army, in the war with Mexico. According to their accounts, oceans of human gore have been made to flow, and whole hordes of precious lives have been offered up, to gratify the ambition, or atone for the indiscretion, of the President of our Nation. The "Free Press," if we mistake not, stated a short time since, that more men had been killed, than there were voters in the 10th Congressional District of Virginia. Now, contrast for but a moment, this bold and reckless assertion, so well calculated to deceive the honest and unsuspecting of the District, with the Official Report of the Adjutant General of the United States, who says that our entire loss, in all the battles in Mexico, has been thus far, 1,177 and our wounded 3,669! The Mexican killed has been 12,866, and the wounded 18,900. This needs no comment—the fact speaks for itself.

OUR LOSS.

The Governor of New York, in his Message to the Legislature, thus refers to the Mexican War. His patriotic example of proclaiming allegiance to his country, and devotion to her interests, might be followed with propriety by many of the same political faith as the Governor, who have heretofore voted pro-recent—

OUR LOSS.

The war with Mexico has imposed new and delicately interesting duties upon you. It may, and probably will, in its progress, claim further sacrifices from this State, and I will rely with the utmost confidence upon your readiness, as the representatives of a gallant and patriotic people, to discharge with alacrity any duty that may be cast upon you.

OUR LOSS.

The country, always indisposed to war, would receive with joy, intelligence of an honorable peace. But to render peace honorable, I think also would demand, and has a right to require, that it shall be accompanied with such indemnity as upon the page of history will be evidence of an acknowledgment by Mexico, of the superiority of our arms. But the character and extent of such indemnity, I may not speak of in this communication.

OUR LOSS.

With the return of peace will come a season for calm deliberation and searching inquiry. The accurate conduct and results of the war, may be then properly and usefully investigated. But until our enemy shall have been subdued, discussions involving collisions of opinion at home, cannot fail, by exciting false expectations in Mexico, to embarrass negotiations for peace. I confidentially trust, that such discussions will not be allowed to distract your deliberations. So long as there is an enemy in the field, I feel assured that we should look only to the honor of our flag.

OUR LOSS.

The Governor of Maryland, as is well known by all who have read his address, takes a bold and decided stand for the country. Thus the only Governor of States that have spoken upon the subject, this year, patriotically sustain the war, and the Administration's views as to the prosecution of it.

OUR LOSS.

Gov. STUDD, of Pennsylvania, also takes high and patriotic ground on the War question, and the Governor of Maryland, as is well known by all who have read his address, takes a bold and decided stand for the country. Thus the only Governor of States that have spoken upon the subject, this year, patriotically sustain the war, and the Administration's views as to the prosecution of it.

OUR LOSS.

But until our enemy shall have been subdued, discussions involving collisions of opinion at home, cannot fail, by exciting false expectations in Mexico, to embarrass negotiations for peace. I confidentially trust, that such discussions will not be allowed to distract your deliberations. So long as there is an enemy in the field, I feel assured that we should look only to the honor of our flag.

OUR LOSS.

The Governor of Maryland, as is well known by all who have read his address, takes a bold and decided stand for the country. Thus the only Governor of States that have spoken upon the subject, this year, patriotically sustain the war

DR. SWEETZER'S PANACEA.

THIS Medicine is warranted, on oath, not to contain a particle of Calomel, Corrosive Sublimate, Arsenic, Chloride of Gold, or any deleterious minerals. The principle upon which this medicine acts, is by assisting and harmonizing with nature's efforts to drive out all acrimonious humors from the blood and body, and by assimilating with and strengthening the gastric juices of the stomach, it acts as a digestive, in short there is not a vein, artery, muscle or organ in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the bones and joints.

FOR EFFLUENTS OF THE SKIN.

Scoury, Scrofula, Swellings, Tumors, Scrofula or King's Evil, White Swellings, Erysipelas, Ulcers, Cancer, Running Sores, Scabs and Blisters, time and a determined perseverance in Dr. SWEETZER'S PANACEA, will effect a cure.

FOR INDIGESTION.

Rejection of food, Nausea, Vomiting, Nervous affections, Bilious complaints, Head-ache, Paleness, or Female Irregularities, Dr. SWEETZER'S PANACEA will effect a cure; but I caution, if attended with gripes, Swellings, or Blisters, should be increased, and the cure will soon be effected. Let not the patients frighten themselves with the idea that they are too weak to take much medicine; but bear in mind that this mildly operating medicine puts not weakness into the frame, but most certainly draws weakness out, gives strength in its place, and by giving composed sleep at night, and an appetite for any kind of food, re-animates the whole frame with vigorous action, improving the mind and clearing the sight.

SCROFULA AND GLEETARY AFFECTIONS.

Scrofula is said to be hereditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and the neglected frequent purification with Dr. SWEETZER'S PANACEA will effect a cure. The corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state, the body is not able of being purified and cleansed by a long course of medicine, Dr. SWEETZER'S PANACEA restores them to sound and proper action. Scrofulous persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance they will even cure hereditary disease.

IN CASE OF JAUNDICE, AILMIA, LIVER COMPLAINTS.

The Dolorous, Rheumatism or Rheumatic Gout, Dr. SWEETZER'S PANACEA cannot be too highly extolled; it searches out the very root of the disease, and by removing it from the blood, makes a cure certain and permanent. For diseases of the Bladder and Kidney, Strictures, Gravel, Stone, Piles, Fistula, Urinary Obstructions and Extreme Constiveness, Dr. SWEETZER'S PANACEA is the best remedy ever tried; it removes all the morbid humors from the blood, and by keeping the blood in a pure condition, insures health.

FOR DROPPY, FILLING OF THE BOWELS, IMPURITIES OF BLOOD.

Mercurial Ailms, Weakness of the Spine, Flow of blood, or the morbid humors, or Singing or Buzzing noise in the head or ears, Dr. SWEETZER'S PANACEA will give certain relief; in all severe and chronic cases, the patients cannot be too often reminded that larger doses and perseverance will effect a cure. In Childs and Evers, bilious fever, affections of the eyes and ears, sperry, and bleeding gums, Bronchitis, and recent coughs and colds, Dr. SWEETZER'S PANACEA will be found purely and certain in its effects.

GRAVEL AND URINARY COMPLAINTS.

These complaints are generally attended with the most fatal consequences, and are seldom or never cured by the present mode of treatment; they usually accompany the patient to the grave, after enduring the most excruciating pain and torture, and increasing the morbid humors of the blood. The cause of these complaints is a diseased blood, which gives rise to the above diseases, and by keeping the blood in a pure condition, insures health.

DISEASES OF THE LUNGS—CONSUMPTION.

This is a very prevalent and fatal disease; it results mostly from neglected coughs, colds, and bronchitis, also from improper treatment in many other cases, such as measles, fevers, inflammations, and small pox, and a look of other bad treated diseases; where the cause, instead of being thoroughly removed from the blood and body, have only been palliated or removed from one part to break out in another. By divesting your bodies from all foul humors, through the medium of Dr. SWEETZER'S PANACEA, the cure is a sure one, and the blood with its impurities, and the impurities of the blood, this is the reason that consumption is so prevalent.

BILDS, SORES AND ULCERS.

Which you see on the exterior, come from, and have their source in the interior, and might just as well have settled on your lungs, liver, or any other part; which we know they frequently do. The humor which occasions these diseases is a highly acrimonious burning nature. We know from the pain it gives in forming, and afterwards from its rapidly ulcerating and corroding the flesh and skin of the part where it breaks out. This humor is the cause of frequently prying the blood with Dr. SWEETZER'S PANACEA, and by purifying the blood with Dr. SWEETZER'S PANACEA, you remove the cause of the disease, consequently it cannot exist any longer, after sufficient perseverance in its use has deprived the blood and body of all acrimonious humors and impurities.

SPINE DISEASE.

Spinal affections, enlargement of the bones and joints, white swellings, hip joint complaint, rickets, falling of the bowels and womb diseases, will find a speedy cure in Dr. SWEETZER'S PANACEA. Where the disease has been of long standing, the time required to make a cure will be longer, but the patient may rest assured that a determined perseverance will effect it. BRONCHITIS, ASTHMA, AND DISEASES OF THE THROAT.

DR. SWEETZER'S PANACEA.

These diseases proceed from the serenity or corrupt humors of the blood, having settled itself on the throat and lungs, and stopped them up, so that they cannot draw sufficient air for respiration. Dr. SWEETZER'S PANACEA will give immediate relief, and the cure is a sure one, and the blood with its impurities, and the impurities of the blood, this is the reason that consumption is so prevalent.

DR. SWEETZER'S PANACEA.

These diseases proceed from the serenity or corrupt humors of the blood, having settled itself on the throat and lungs, and stopped them up, so that they cannot draw sufficient air for respiration.
