TIX YEARS EXPERIENCE HAS PROV-SEDTHAT FOR THE CURE OF COUGHS, COLDS, CONSUMPTIONS, ASTHMA, spitting of Blood, Pain and oppression of the Breast, there is nothing equal to HANCE'S COMPOUND SYRUP OF HOARHOUND.

POUND SYRUP OF HOARHOUND.

This medicine has now been in use for six years during which time there has been a constant demand for it, and its popularity instead of declining, has been always on the increase.

During this time many new medicines have sprung up for the cure of the above complaints, some of which lasted only a few months; and others not as long; but HANCE'S SYRUP has readily gone on gaining favor with all classes of society until it has now become identified by many families as a

REGULAR FAMILY MEDICINE.

REGULAR FAMILY MEDICINE.

To those who have never used the Compound Syrup of Hoarhound, this notice is particularly directed to, as to those who have once experienced its peculiarly happy effects, any praise of its merits would be superfluous.

Price 50 cents per bottle, or 6 bottles for \$2,60.

For sale by SETH S. HANCE, 108 Baltimore st., and corner of Charles & Pratt sts., Baltimore.

READ THE FOLLOWING WONDERFUL CURE OF DYSPEPSIA!

This is to certify that my wife was afflicted
with the Dyspepsia for twelve years, and tried
both advertised medicines and Thomsonian, but
without effect; and myself attacked with blindness
and my head otherwise affected from hard drinking, so that I was apprehensive of fits; and seeing
HANCE'S SARSAPARILLA PILLS
advertised I went and got a box of them, which,
to my astonishment effected a cure of me and my
wife both as yet, and I do think them without a
rival before the public.

DR. SWAYNE'S Compound Syrup of Wild Cherry THE GREAT REMEDY FOR

THE GREAT REMEDY FOR

CONSUMPTION,

Colds, Coughs, Spilling of Blood-Bronchitis, Difficulty of Breathing, Asthma, Pain in the Sille and Breust, Whooping Cough, Croup, and Breust, Whooping Cough, Croup, and Bustoners of the Liver, and Lungs, Broken Constitution, 4r., 4c.

This "Celebrated Remedy" has now, by its intrinse stitution, 4r., 4c.

This the only temedy that can be relied upon for the speedy and permanent cure of all Diseases of the Lungs, it is literally sweeping Consumption from the land; wherever it is introduced and becomes known, all other dwindle into Insignificance. The public have been "humbugged" long enough, and now resort to a medicine which this to be seen mony of the most sminent physicians in the land has placed beyond the reach of criticism—It requires no bolstaring up, by publishing columns of forged certificates—but, it is anough to let the public know where it can be obtained, and one trial will convince all of its great efficiency in curing those distressing diseases above named, which have baffled the skill of the most learned practifiences for aces herefore.

DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY was the first proparation from that valuable tree which was seri introduced to the public, and ample proof is afforded of its access by the county being flooded with "Balasams," "Candies," and "Mixtures," of Wild Cherry, not one of which is prepared by a regular physician, although they have a sammed the names of respectable physician to give currency to their "Nostrums." Therefore the public should be on their guand, and not have a worthless mixture palmed upon them for the original and genuine preparation, which is only prepared by DR. SWAYNE, N. W. corner of Eighth and Rane streets, Philadelphia.

MONEY TO BE SAVED! The proprietors of this preparation say without any hesistion; that it is the best article in use. It will not only keep harness bright and soft, but will restore old harness that has been taken poor care of, taking off the crust, and making it perfectly soft and pliable. It adds to the wear of harness or leather at least 50 per cent. It is an article that comes cheap, and is worth its weight in silver.

Though the visions of childhood have lost their chiarm.
Though the mind be less buoyant, the boson less warm;
Yet still, 'tis a joy—a joy hallow'd by twars,
To ico', back through the vist of life's vanquished years.
To recall once again these far happier hours,
When our sky was all sunshine, our earth was all flow'rs.
And we love to connect, with those days of bright hue.
The seenes where we revell'd, the friends whom we

what a change should we find, what a tale would they tell!
The tempest of grief, and the calm of despair,
And the dark, gloomy silence of death have been there.
Light hearts have been broken, that dreampt not of gulle,
Bright eyes have grown dim, and fair fips lost their smile,
And the young and lovely, on whose sump b ow,
Shone the gariand of myrile—Oh!! where are they now!
They are gone, and you look for their coming in valu;
To the hannes of lost years they return not again—
On the ocean of life, lifey are loss of to and fro,
With a dark sky above them and wild waves below.

From the Charleston Evening News. "O'er the keys from earliest years beloved, She threw her fingers gracefully, and tones Of melancholy beauty died away Upon their notes of sweetness."

Of melancholy beauty died away
Upon their noise of swestness."

During a residence in New Orleans we became acquainted with a young lady, the recollection of whose melancholy fate is yet fresh within our heart. We met quite casually at one of the Hotels, but from peculiar circumstances an intimacy soon sprang up between us, and we have reason to believe that we enjoyed her fullest confidence. She was very in e esting in manners and appearance, and possessed many accomplishments not common to her sex. Upon the plano she performed most excellently. Her execution was not perhaps brilliant, but she played with exquisite taste, her voice was farmouy itself. Into all her songs she infused the uturnst feeling. There was nothing cold either in her singing or her playing Her articulation was very distinct, and she never failed to do full justice, to the words of the author, as well as the music of the composer. She had early imbilied a taste for music, and as the plano was the first instrument she was taught, she devoted all her releant to it.

dull her talent to its to

separated in silence and in tears, and with yows of devotion and eternal constancy on the tongues of both. For a time the correspondence between them was regularly maintained, but in the course of a few months the letters of the gentleman became like angels' visits, few and far between, and at the expiration of nine months they ceased altogether. It was a long time ere the "forsaken" could believe her lover \$\phi\$ pinfd\$\rightarrow\$. For a dueled of so positive a character was transmitted to her that she was forced to yield oredence. A dueled ensued between her brother and the officer, in which the latter was seriously wounded; but he recovered, and a short time afterwards married a lady of fortune in a South western State. This, then, was the secret of the emotion we had witnessed. The song she sung was a favorite with the "false one," and this circumstance naturally increased her agitation.

Misp Your own Business.—Yes, mind your own business! What need it concern you if John Snooks is courting Sally Thompson? They are undoubtedly rational beings, and can conduct their own affairs in a becoming manner without any interference? What if Deb Short has got a new dress? It is quite probably paid for, and cost you nothing. Therefore, why need you interest yourself so deeply about it? What if the principal merchant in the village has become insolvent?—You are not among his creditors, and for Heaven's sake, why can't you let the man have a little enjoyment?—Suppose Dorcas Swift does go to a Dancing School, it costs you nothing, and she has a frail constitution, and a little exercise of this kind will benefit her general health. This intermeddling with the affairs of others, to the utter/neglect of their own, is becoming a great deal too prevalent, with a certain class in small villages. There are none of us who escape misfortune, or are free from error; but to be made the butt and bye-word of a set of gossiping intermeddling simare free from error; but to be made the butt' and bye-word of a set of gossiping, intermeddling sim-pletons, merely on account of inevitable misfor-tunes or a single error committed, is far from being agreeable. If this classof beings have any business of their own, we hope that out of shame for themselves, and for the credit of their relations, they will attend to it.

BE READY.—When you lie down at night, compose your spirits as if you were not to wake until the end of time. And when you awake in the morning, consider that new day as your isst, and live accordingly.—Surely that morn cometh, of which you will never see the night, but which of your mornings or nights will be such, you know not: Let the mantle of wordly enjoyments hang loose about you that it may easily drop when death comes to carry you into another, world.—When the corn is foreaking the ground, it is ready for the sickle; when the fruit is ripe it falls off the tree easily. So when a christian's heart is truly weaned from the world, he is prepared for death, and it will be the more easy for him. A heart disengaged from the world he is prepared for death, and then we are ready for heaven, when our heart is there before us.

THE AMERICAN STANDARD.

NO. 26.

. In the London Chronicle, of July, 1776, then American Standard was thus described: then American Standard was thus described:

"The colors of the American fleet have a snake with thirteen rattles, the fourteenth budding, described in the attitude of going to strike, with this motto, "Don't read on me." It is a rule in heraldry, that the worthy properties of the animal in the crest borne shalf be considered, and the base ones cannot be intended. The ancients accounted a snake or serpent an emblem of wisdom, and, in certain attitudes, of codless duration. The rattlesnake is properly a representative of America, as this animal is found in no other part of the world. The eye of this creature excels in brightness that of any other animal. She has no cyclide, and therefore an emblem of vigilanca. She never begins an attack, nor ever surrenders; she is therefore an emblem of magnanimity and true courage. When injured, she never wounds till she has given notice to her enemies of their danger.

she has given notice to her enemies of their danger.

"No other of her kind shows so much generosity. When undisturbed and in peace, she does in appear to be furnished with weapons of any kind. They are latent in the roof of her mouth; and even when extended for her defalce, appear to these anacquainted with her, to be weak and contemptible; yet her wounds, however small, are decisive and fatal. She is soltary, and associates with her kind only when it is necessary for their preservation. Her poison is at once the necessary means of digesting her food, and certain destruction to her chemies. The power of fascination attributed to her by a generous construction resembles America. Those who look steadily on her are delighted, and involuntarily advanbe towards her, and having once approached, never leave her. She is frequently found with thirteen rattles, and they increase yearly. She is beautiful in youth and in age. Her tongue is blue, and orked as the lightning."

Singular Coincidence.—We do not blees

was the first instrument she was taught, she deveload the relent to it.

We remember it was a quiet, evening in June that she was requested to sing for the company with her kind only when it is necessary for their your observed the hesitancy of her manner as sheesary, and the comply with the request, and were almost induced to sak the meaning of it. But delicary and company with the request, and were almost induced to sak the meaning of it. But delicary and she commenced singing. Her voice trembled exceedingly, and it was some moments ere she could be heard, but finally she made a violent of the company in the regulation, and was in part successful. It was a pathetic song, and calculated the same indifferent; but sung by her, under the heart of every one. As she was about to conclude:

How to make Home Harry.—Nature is most industrious in adorning her comains, and munt whom this bounty is addressed, should obey the lesson. Let him too be industrious in adorning his domain—in making his home, the dwelling of his wife and children, not only convenient and comfortable, but pleasant. Let him, as far as circumstances will permit, be industrious in aurrounding it with pleasant objects—in decorating it within and without, with things that tend to make it agreeable and attractive. British Government in Ireland—Starration the midst of plenty.—Nothing can exceed the frightful condition of the poor in Galway district. Without any relief, hundreds of them are at this moment starving in their wretefied hovels, cellars, and garrets; white a much larger number are endeavoring to drag out a miserable existence upon no more so id or nourishing food than raw turnips caten with a little salt in their cabins for the entire of the family. The workhouse is overcrowded, numbers every week denied admission, and no provision as yet made to procuite increased accommodation or to extend out-door relief. The town is infested with crowds of rural paupers whose emaciated appearance too plainly tells the ravages which starvation has made upon them, and against whom the vagrancy act cannot be enforced, as the jail would be quickly over-crowded.

The Brills.—What sort of Book is this, that even the wind and waves of human passion obey it? What other engine of social improvement has operated so long, and yet lost none of its virtue? Since it appeared, many boasted plans of amelioration have been tried and failed; many codes of jurisdiction have arisen, and run their course and expired. Empire after empire have been launched on the tide of time, and gone down, leaving no trace on the waters. But this book is atill going about doing good—leaving society with its holy principles—theering the sorrowful with its consolations—strengthening the troubled spirit—and smoothing the pillow of death. PROGRESS OF AGRICULTURE IN SCOTLAND .-

PROGRESS OF AGRICULTURE IN SCOTLAND.—A British writer, in an able essay entitled "What can be done for English Agriculture," thus briefly and beautifully describes the progress and final triumph of Agriculture in Scotland.

""There was a time when the agriculture of Scotland drept timidly slong, the banks of rivers and locks, or sunsed bersell in the bottom of valleys and in sheltered glades and books, and respect hier scant and sickly crops beneath the protection of armed men; a more peaceful time came, and she still, for many generations, lingered out her unfruitful years by the sides of many streams, or wandered idly around the skirts of wild moore and morasses; now we see her, "with smple burvests crowned," planting her firm footsteps on the quaking bog—boldly climbing the steps of highest hills, her countless flocks of sheep and her sheaves of golden corn—rejoicing in her industry."

AN U. S. SENATOR TO BE SENT TO THE PENT-TENTIARY.—Mr. Remelin, of the Ohio Senate, presented a petition on the 22d inst., from eighty-one citizens of Richland county, of both political parties, asking the General Assembly to invite Thomas Corwin to resign his seat, and to confine the said Corwin in the Ohio Penilentiary until the close of the war.

WHO WANTS A PAPER?

As the next ten months will be the most exci-ting, which, perhaps, the American people may ever witness, we propose to furnish the Spirit of Jefferson, from the 15th of February until the last of November, to all who may subscribe for that period, for ONE DOLLAR AND FIRMY titled to the sixth copy, gratis.

STRANGE BUT TRUE.

Is it not a little strange that our Democratic friends of Jefferson have no choice for the Presidency. Ask them who they are for—they will look "as grave as an oyster"—and after revolving the matter over in their minds, will come to the conclusion that they have no choice. Any man that a Baltimore Caucus may feel inclined a dose their country (rigoda with will be traken. to dose their country friends with, will be "taken ror: without much shakin'." It certainly does not without much shakin'." It certainly does not say much to the credit of any party or any set of men, to have no views of their own—to have no choice or preference whether the thing be done this or that way. Whether a caucus shall assert. this or that way. Whether a cancus shall assert, this shall be a democratic principle, and that shall not. There is no sort of independence of sentiment in this way of doing business, and we shall be very much astonished if the reflecting portion of the opposition—those who are not candidates for the public crib—do not assert their independence of all such party action and rally with an unbroken phalanx to the support of Gen. Taylor, who will be to all intents and purposes, most emphatically, the People's Candidate.—Free Press.

If there he one principle ways than another.

If there be one principle more than another that we love, honor and cherish, as identified with the Democratic party, it is the one at which the "Free Press" affects astonishment and surprise. To men of no principles but the spoils-no chart, no compase to guide their frail barque-it may well be imagined that they cannot appreciate the bond of union which has hitherto bound us to gether. Our party regard men but as instruments to carry out those great Republican doctrines laid at the foundation of the Government—the beneficent operations of which, have led us on prospering and to prosper, from infancy to manhood, until we have become a great, a mighty, and a glorious people! What cares any individual Democrat in this county, (but one of five thousand in the Union;) whether his "choice" be the particular candidate for the Presidency or not? He has no choice, if he be true to his faith, and steadfast to his country, but as identified with his principles, and the glory and prosperity of the Union. The Agents that we select must be "capable and honeat;" men of pure principles and firm integrity; of unchanging devotion and strict adherence to the land-marks of the Constitution—and then, and then only, do we rally as one man to their support. The Mongrels of disappointed office-seekers—the "No Partyisms" of political gam-"No Partyisms" of political gamblers, can get no encouragement, no support, no countenance, at our hands. Here and there, limb blasted by the storms, or rotten from its own in-bred corruption, may fall from the noble old De mocratic tree, but the mere riddance of these putrid ty or his self-respect. excrescences will produce a revivifying influence and the summer solstice will find the main trunk more beautiful in its appearance, and more healthful in its growth : Towering heavenward in its strength, and shedding its radiance of life-giving influence to all within reach of its majestic shade.

But, says the Free Press, it "certainly does not say much to the credit of any party or any set of men, to have no views of their own."-Well, this is rich! Why we have thought, here tofore, from the outgivings of the "Free Press," that this very identical doctrine, was Taylorist personified. Are we mistaken, and has the old General at length shown his hand? If so, what becomes of the "No-Party" millenium which was just bursting upon us, with the loud hosannas of the modern prophets and seers!

SCOTT AND WORTH.

The St. Louis Republican has a letter from a officer giving the causes of the disagreement brtween Gen's. Scott and Worth, and also furnishes the proceedings of the Court Martial demande by Gen. Worth. The first cause of complaint on the part of Brevet Maj. Gen. Worth, against the General-in-chief, was the unqualified disapproba tion of the latter of the terms of capitulation entere into by the former with the municipal authorities o the city of Puebla, in his advance upon and occupation of that city.

THE WAR.
The action of the House of Representatives or Monday, (a full report of which will be found in another column,) has taken many Whige, as well as Democrats, by surprise. A correspondent the Baltimore Sun, very justly says :-

"Last seasion Congress voted that the "war existed by the act of Mexico." Mr. Clay, at Lexington, said Congress had voted "a lie!" Yesterday the Whig majority "confessed the corn," sonlessed that they had voted "a lie!" Now the question arises, will the Whig majority of the House, having gone so far as to adopt such a resolution, refuse to vote the ways and means to carry on the war? Dare they do it! We shall see."

The London correspondent of the National In-illigencer, mentions the fact that the cholera had telligencer, mentions the fact that the cholera had advanced to Duneberg, within forty miles of the Prussian frontier, though of a mild character.— The influenza, by some croakers considered the pracersor of the cholera, is prevailing extensively, and in some cross fatally in London. MR. CLAY.

The "Free Press" is profuse this week, in sick-ning, nauseating laudations of HENRY CLAY, the hrice rejected, condemned and repudiated of the American people. Our neighbors, to make atonement for their premature movements in another quarter, are trying to "honey-fuggle" the real friends of Mr. CLAY, by such equivocal language

friends of Mr. CLAY, by such equivocal language as follows:

"That brightest of all the orbs (Mr. Clay,) which has shown in the political firmament will no more occupy a position [how did you ascertain it; others think differently of your same political faith?] from which all the lesser lights gather and borrow by refracted rays. In the council chambers of his own vast mind will he sit and watch our rising country as a revered father watcheth his own homestend—imparting advice, at times, which if followed will be salutary, if disregarded, productive of pernicious results. Disturb not then [ah! that's the point,] the great luminary of the Western Continent, but let the light shine on, purely and brightly, undimmed by the lapse of time—unchecked in its influence by party bias and prejudice."

This is killing with faint praise. The "great

This is killing with faint praise. The "grea luminary" of the West is to go down, that but a dim meteor of yesterday may arise in its stead ! And who, forsooth, is it, that is endeavoring to pluck this bright orb from the political heavens Why his own friends—those of his own household and his own political faith! The abominable Locofocos are certainly not responsible for the us in manuscript, by Monday of each week, to base ingratitude being manifested on the part of the hitherto friends of the great Statesmen of the West. They practice no deception; principle one day does not rally them to his support, and expediency the next drive them from it. They do not call him the "brightest orb in the political firma-ment," and then insult the understanding and intelligence of the people by repudiating, by their

NO DECLENSION.

The Taylor Whigs have found no little encour agement in the faint gleam of hope, foreshadowed by the following extract from an anonymous Washington correspondent of the New York Mir-

"I have just had an interview with a warm friend of Mr. Clay, who yesterday received a letter from the great. Harry of the West,' in which that eminent statesman declares that he will not run for the Presidency in opposition to Gen. Taylor."

The New York Tribune discredits the story of the Mirror's correspondent. The Tribune boldly proclaims its preference for Mr. Clay, the "civilian," who will answer all questions, over the military candidate, who declines to answer any question as to his political orthodoxy. That paper assuming to speak by authority, says :-

MR. CLAY AND GEN. TAYLOR .- It can hardly be necessary that we should contradict the report set afloat by the Evening Mirror, that Mr. Clay has written a letter stating that he will not stand against Gen. Taylor as a candidate for the next President. Whoever even slightly knows Mr. Clay, must realize that no such indelicate inter-Clay, must realize that no such indelicate interference with the deliberations of the people in reference to their Presidential candidate ever can or will be attempted by him. That Mr. Clay may have said that he had no desire to stand again for President, and that, in case Gen. Taylor should be selected as the Whig candidate, he (Mr. C.) would heartily support him, is very likely; but who needs any letter from Mr. Clay to assure him on these noints?

or of the Whig party, in any way; declines to say he will support Mr. Clay, if nominated; but says he will run anyhow, nominated or not nominated, Whig candidate or no Whig candidate. To suppose that Mr. Clay, would, under such circumstances, volunteer to decline in favor of Gen. Taylor, it is a supposed to the control of the control in the control

THE CHOLERA.—We are permitted, says Springfield (Mass.) Republican, to quote the fol-lowing extract from Rev. Edwin E. Bliss, mission-ary at Trebizond, as to the spread of that Scourge, at the East, the Cholera. It is dated October 4,

"The Cholera has been raging in our city for three weeks, cutting down 1400 people. In the space of three days, when the disease was at its height, 700 persons died. The crisis has now passed."

A last and vigorous effort is now being made to complete the subscription to this road. The Directors, at their last meeting, recolved to take no farther steps until the remaining stock be taken. What amount is yet deficient, we are not informed, but venture the assertion that it is so comparatively insignificant, that our citizens would blush for shame, should the road be suffered to go down for the want of so triffing an amount. As one last appeal then, let us invoke the Merchant, the Mechanic and the Farmer, no longer to hesitate. Mechanic and the Farmer, no longer to hesitate. You have an opportunity of making an improvement now, of great public utility—of necessary convenience to those on its line—and intimately identified with the prosperity and success of the towns at either end of its terminus. Why hesiate longer? You all admit its importance, and it behooves you to act like men having some regard for your own interest, and the general pros-perity and good of the community. Subscription papers will be found at the places heretofore designated in Charlestown, Harpers-Ferry and Berryville, and those who have them in hand are expected to be active in the discharge of their duty.

NEW YEAR'S DAY.

Among others, we had the pleasure of Dining by invitation, with our friend SAPPINGTON, on New Year's Day. His Table, as usual, was loaded with the richest profusion of Meats, Vegetables, and every delicacy that could be desired. The finest saddle of Venison, in the opinion of several of our best epicures, that was ever served up in our place, was on the table on the occasion.

WHO WANTS A PICTURE? Messrs. HATHAWAY & PARKS are still at Sag bington's Hotel, as will be seen by reference to Advertisement, and will remain for a few days more, only. They have been making some exceedingly good pictures, and all who may feel inclined to hand their beautiful phiz down to posterity, true to life, have a more favorable opportunity of doing so now, than may soon be presented again. For the inspection of the curious, and by way of attraction to the ladies, the operators have kindly taken our own interesting face, as well as that of several others of our more distinguished

SERIOUS LOSS BY FIRE.
The Barn of Mr. WM. T. WASHINGTON, of this County, was destroyed by fire on Saturday night last, consuming about sixty bushels of Corn, a large quantity of Straw, Ploughs, Harrows, Gearing, &c., &c. The Carriage of Mr. W. was also considerably damaged. It is presumed that the barn was set on fire by some negro, but no arrest has as yet been made. It was fired both from the loft, and from where the carriage was situated. Fortunately the horses and cattle, with a single exception were not in the barn, or some of them would have been consumed, as the fire was not discovered until the roof was about falling in-at which time the only horse in the barn made his escape, by rushing through the falling

cinders and flames.

The loss is quite considerable, particularly at this season of the year, and it is to be hoped that the incendiary will be detected.—Free Press.

SERIOUS ACCIDENT.

DEATH OF WM, HARDING. We regret to learn of the death, in one of the ate engagements, near the city of Mexico, of Mr. WILLIAM HARDING, of this county, in about the 40th year of his age. Mr. II. left this county some ten years since, and resided in one of Southwestern States, until the drum-beat for defenders of his country's rights. He immediately proceeded to Ohio, and joined the gallant 1st Regiment from that State, and shared and participated in all the glories won by that Regiment. When the Ohio Regiment was discharged, he again enlisted at New Orleans in the Louisiana Regiment, and proceeded to Mexico in time to take part in the engagements at Chapultepec and the City of Mexidown, whilst following in the lead of his gallant commander, Gen. WORTH. This is the second prother of this family who have fallen, and we are sure we but express the feelings of the whole ommunity, when we offer our condolence and sympathies to the survivors, in this, their afflicting bereavement.

This gentleman has been sojourning for a few days past at Martinsburg, the guest of Mesers. Pendleton, Faulkner, and Conrad. He arrived at Pendleton, Faulkner, and Conrad. He arrived at Martinsburg by Monday's Western cars, and designed leaving for Washington, Thursday noon. A large number of the citizens of Berkeley embraced the opportunity of paying their respects in person to this distinguished citizen of our country. He is represented as being in good health and fine spirits. An important law suit, in which Mr. Clay is engaged as counsel, is the reason assigned for his visit to Washington at this particular juncture.

The history of all the political meetings ever held in our midst, produces no par-allel. But its proceedings had to be witnessed, to be properly appreciated. The recent Meeting at Washington, (which was to have been the grand movement of the day,)

WASHINGTON, Dec. 30, 1847.

The Taylor meeting held last night is the subject of much conversation in the city.

An attempt was made by a few persons to put Mr. Bibb, of Ky., in the Chair. It was promptly resisted, and the motion rejected, and officers chosen who were more congenial to the Whig sentiment of the District, and who had been longer

sentiment of the District, and who had been longer in the Whig ranks as well as older residents.

Mr. Duff Green was understood to be the getter up of the meeting, and his very name conjured up the strongest opposition, on the part of those who remembered his influence and proscriptive course during the Administration of Gen. Jacksom.

There was some sparring between Mr. Gayle of Alabamr and Mr. Sherman, as to whether citizens of the U. S. in the District, or citizens of the District alone, should participate in the meeting. Much was said, of no particular interest, on both sides, but enough to give rise to considerable feeling.

The meeting, (said Mr. Gentry,) was premature The meeting, (said Mr. Gentry,) was premature, and after advising all who wished to be on the strong side to raily under the Taylor flag now, and predicting that in six weeks there would be nobody but Taylor men, he moved an adjournment, which was carried by acclamation.

The meeting was strong as to numbers, and all the proceedings amusing. It will probably lead to a Taylor meeting under some other lead than that of Messrs. Green and Bibb.

The correspondent of the Baltimore Argus, in furnishing a full and highly amusing description

of the meeting, says:

The whole affair was a farce. It is due to members of Congress to say that they did not originate the meeting, and I know that some of them purposely staid away. The meeting was gotten up by a few individuals who are seeking notoriety; no matter by what political means. As Mr. Gentry said, the meeting could not help the cause of Gao. Taylor.

Gen. Taylor. Oh! I had almost forgotten to inform you wh Oh! I had almost forgotten to inform you who occupied the Chair, who acted as Secretary, and who offered the resolution to which Mr. Sherman was speaking when we entered. In the first place, at hall past seven o'clock, five or six castoff politicians, belonging to no party in particular, cosied together in a private corner, and agreed upon a Chairman. But before their plans were matured, the crowd pressed against the door, and it was opened. Immediately, Judge Bibb was named for the Chair—he who wears short breeches, and dresses in black; a gentleman of the olden time. But the assembly voted down the nomination. Mr. Halliday, a printer, and a member of the City Councils, was then called to occupy the station. Mr. Henshaw, a disappointed seeker for a clerkship in the House of Representatives, was acting as Secretary.

It was known some months since by the Treasury Department that a sparlous note was in preparation, but the information was too vague for action. The tout ensemble of the note, however, is so entirely different from the genuine that no one in the habit of handling Treasury Notes would be deceived.

MR. J. W. Beller - Dear Sir: — The enclosed letter from Col. Hamtramck, to a friend in Virginia, will give you the best idea of the position we at present occurrence.

Besides the wish of Col. II to be upon the other line, he has made application by this mail to Gen. Wood to advance and take the city of Durango, some ten days march from hence. We all wish it, and have no doubt of the practicability of the attempt. I fear, however, there is very little prospect of the General's consenting. The post we hold here can be defended by a handful of our troops.

To provide for these the commissioners have assessed a tax just double of that for 1845, embracing precisely the same subjects of taxation; which, with the annual appropriation by the court, (the same in amount as last year,) together with our portion of the Literary fund of the State will be, we think, amply sufficient.

The schools commenced in January last, and are all in successful operation. The branches of education taught in these are such as are usual in the best English schools; and we have found no difficulty in obtaining the services of very competent and exemplary teachers. One thousand and fourtees children have received instruction at our schools since the commencement, most of whom never before had opportunities of going to school. Heretofore we have had not more than eight schools in the county at any one time, with an aggregate perhaps of one hundred and fifty pupils, and these irregularly taught. Now we have one thousand pupils in our several schools, few of whom have to walk more than two miles to a schoolhouse. These facts speak strongly in favor of our system, and the people generally look upon this as the dawn of a new era in the history of our county. Although we are highly taxed, yet few complain, believing as we do that our contributions are tending towards a general improvement of our condition, and will ullimately make us a wiser and happier people. The benefits to be derived by future generations are incalculable.

Preparations for the reception of Mr. Clay—Something grand expected—The Whigs and the Army Bills—Gen. Cass' letter—Gen. Worth a Candidate for the Presidency, &c.

Mr. Clay is to arrive here on Tuesday, and preparations have been talked of for giving him a public reception. Arrangements for this purpose will no doubt be made, and in handsome style. I shall not be surprised to witness a very enthusiastic demonstration by his friends. Mr. Clay, if he has not put himself in the field as a candidate for the Presidency, has not put himself out of it, and his friends declare that he will not withdraw his name as a candidate, even should all the whigs desert him.

his name as a candidate, even should all the whigs desert him.

No man has a greater command over those with whom he comes in contact than Mr. Clay, and it is to be expected that he will rally and inspirit his acatered and desponding forces. It is to be remarked that Mr. Clay's visit to this city is so timed as to coincide with the declarations and demonstrations made in his favor in the city of New York. That there is a connection between the two circumstances there is little doubt. He comes at a time, too, when Taylorism is leading off from his camp nearly all his Southern followers. Not only Maryland and Virginia have deserted him, but we now hear that he has been nominated by the Georgia Legislature without distinction of party.

by the Georgia Legislature without distinction of party.

The Whigs are in a quandary as to their course on the military bills, now before the Senate. All will not follow the lead of Mr. Hale and Mr. Webster. I think it likely that Mr. Johnson, of Md., Mr. Clayton and Mr. Crittenden, and perhaps others, will vote for those bills. So, in the House, the whigs will divide on that subject, and the bills will ultimately pass, but not with the promptness that is desirable. If Gen'l Cass's ten regiment bill gets through the House by the middle of March, it will be as early as can be expected.

The event of the day is the political demonstration made by Gen. Cass and his friends, in the manifesto of his views on the subject of the war and the Wilmot proviso. The signers of the letter, by which Gen. Cass's views have been elicited, have been known, for some time, as advocates of his election as the next President.—The doctrines upon which Gen. Cass plants himself will unquestionably be very popular with a

self will unquestionably be very popular with a large portion of the country. I have no idea, however, that the New York bara-burners will some into those views, and, in the course of six weeks, you will see a movement by that wing of the northern democratic party, in favor of some other candidate.

General Worth is to have many friends as a candidate, in the democratic ranks. Some correspondence has already been held with him on the subject, and he has avowed very decided democratic principles. The difficulty with General Scott will certainly help him, by creating a general sympathy for him; and more especially will it be the case if he should be court-martialed.

Cen. Cass is out in the Union of last evening with a letter "defining his position." It refers in the main to the opinions held by him in relation to the war—to the acquisition of territory and the Wilmot Proviso. It is very creditable to the head and heart of Gen. Cass as a public man, though the sentiments are simply a repetition of those already laid before the country by Messre. Walker, Buchanan, and Dallas. Indeed General Cass in his letter draws upon the very language of these distinguished statesmen. They are all agreed upon the inexpediency of agitating the Proviso? or any similar "fire-brand of freedom" in Congress—that such questions should and must

seens vists, now suffering from the severe wound received on that glorious field, had been included in this complimentary arrangement. If any man deserves such a compliment, surely it must be he to whom Gen. Tapior has given the honorable fame of "saving the day" at Buena Vists, with his fire-eating 1st Regiment Mississippians. In saying this much we detract not one jot or title from the hard and well-earned fame of any other man who has periled life in defence of the right and honor of his country.

The Herald, for some days past, has been predicting a revulsion in the money market, consequent upon the anticipated demands of the Treasury for loans to carry on the war. The fears on this head are groundless. If the Trersury should want one hundred millions, the money would be forthcoming, and at as reasonable rates as those of the last loan, the greater portion of which was taken from the capations aske and sagacious bank-ers, Corcoran & Riggs: They can repeat the ope-

ration, and have ample backers. Besides, the banks in New York are daily strengthening themselves. The seceipt of specie from the South and West is greater than the drain from abroad.—The banks will coon be in position to meet any crises short of general failure and roin, such as was predicted to result from the tariff and sub-treasury. So may it be.

Correspondence of the Baltimora Son.

Washington, Jan. 2,11848.

The next week will, I think, determine the course of the Senate upon the subject of the Mexican war. To-morrow there will be an expression of sentiment on the expediency of pressing to a vote the ten regiment bill and the volunteer bill, without regard to Mr. Callioun's precautionary resolutions. It is supposed that the Senate will go on with Gen. Case' bills and, after a week's debate pass them. We shall see. If the Sonate do not perform their duty with promptness and decision in this case how can it be expected that the House will do it? The simple question is whether the new recruits shall be sent to the interior of Mexico before the sickly season commences and in time to participate in the next campaign, or whether their enlistment and organization shall be delayed till late in the Spring, and the troops then sent, in the sickly season, to crowd the now overburdened hospitals.

Mr. Calhoun's resolutions, should they be taken up in advance of the army bill, will consume a month in debate. After all, these resolutions merely declare that, if we strike a further blow at Mexico, it shall be a blow without any object or effect. The majority of the Senate, on the other hand, seem inclined to strike the blow, and leave the consequences to destiny.

Senator Johnson of Maryland, declared, at the Quitman and Shields' dinner, on Saturday, that he would support the war, even if it led to conquest, and that his votes in the Senate would sonn show it, and his declaration was received with inbounded and enthusiastic applause. After this demonstration from a leading Taylor Whig Senator, no one can doubt what wil

volunteers, and without the Government aid.—Com. Stockton has declared that, if the Government give up the Californias, he will take possession of them, as a private job.

Perhaps the best way to settle the matter will be, as some of the officers of the army have proposed, to send fifty thousand volunteers, every year, into Mexico, and, after the first year's service and maintenance in the country, disband them and send a new army. Our men will marry and settle in the country and devote themselves to industrial pursuits in it, and, in five years, relieve us from the trouble of occupying and governing it.

The Chancellor of the Exchequer said, in a late speech, that England must draw twenty millions in specie from this country, and the effort was commenced with considerable success. But the money will soon come back again for breadstuffs, which, it is evident, Great Britain must draw supplies of, from this country, very freely, next spring. If Congress should pass another Treasury not or loan bill within two or three months, it is supposed that it will greatly relieve the money pressure, and prevent the panic which some people are evidently disposed to get up. The pressure and panic are all to be laid, by the Whigs, at the door of the new tariff and the Mexican war. Ion.

Mr. Hudson, of Massachusetts, offered a resolution providing for an inquiry by the Committee on Military Affairs into the expediency of requesting the President of the United States to withdraw to the east bank of the Rio Grande our armies now in Mexico, and to propose to the Mexican government forthwith a treaty of peace on the following basis, namely: That we relinquish all claim to indemnity for the expenses of the war, and that the boundary between the United States and Mexico shall be established at or near the descent between the Nuccea and the Rio Grande; that Mexico shall be lield to pay all just claims due to our citizens at the commencement of the war; and that a convention shall be entered into by the two nations to provide for the liquidation of those claims and the mode of payment.

Mr. Calhoun said that in offering his resolutions for consideration, be had been governed by the reasons which induced him to oppose the war when it was presented to Congress for recognition.

tion.

He then went on to argue that the defensive line was the best policy that could have been pursued at that time—that when he suggested it we held in possession of our army ample territory for indemnity—that we were better situated then than we are now, or ever will be in the progres of the war, in relation to indemnity—and that the force that has been employed, and the treasure expended, in pushing our conquests, would have sufficed to maintain this line, while the lives of our galant topos that have been sacrificed in these con-

has restored the LIVER to a healthy action, and in many instances effected PERMANENT CORES!

after every known remedy had failed to produce this desired effect.

Hesides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years standing.

It not only emanates from a regular physician, but has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to clock it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavour to give a brief statement of its usefulness, and flatter myself that its surprising effector will enable me to furnish such proofs of its virtues, as will satisfy the most incredulous, that Consumption may and "CAN BE CURED," If this medicine be reserted to in time.

Philarrinopic Request.—C. Wallace Gooke, Esq., of Philadeiphia, who died in that city a few ays ago, has left an estate valued at \$100,000, thich at the death of certain annultants, is to be ivided between the Pennsylvania Hospital and he Pennsylvania Institution for the instruction of the Blind. The amount which will finally come to the treasuries of the institutions above named till not, it is said, fall below the present value of the cestate.

The Markets.

BALTIMORE MARKET—

Reported weekly for the "Spirit of Jefferson," by Watter & Co., Flour and Commission Merchants and General Produce Dealers, Baltimore.

BALTIMORE, WEDNERDAY MORNING, Jan. 5, 1848.

J. W. BELLER, Esq.:—Dear Sir.—In Howard Street Flour buillittle was done on Wednesday fast. Some 200 bbis sold at 86, and 200 bbis. in small parcels, extra brands at 86. Many Shippers declined buying unless at a further reduction, in price of 124 cis. On Monday and yesterday sales of 1000 barrels in tota at 86 and 700 barrels in the part of shippers to buy at 86. Several parcels of City Mills have been sold for each at \$6.

RYE FLOUR—The stock has increased largely and prices have declined 75 cents to \$100 per barrel. Sales at \$475.

GRAIN—The receipts of wheat have been very light. Good to prime reds command 130 to 135, and white 135 to 145 cis. Corn is in good supply—white has ruled at 36 a 23 and yellow at 60 a 63 cis. Clovensed.—Sales at 425 a \$4624. Flarscol—Sales at \$130. White Beans—Sales at \$100.

BEESWAX—Sales at 25 cis.

WOUL—Common tub-washed 30 cis.

WHISKEY—in barrels 27 cis.

LARD—Sales at 71 a 71 cis.

CATTILE—There was a larger supply of Beevex on Monday last than on that day week, and prices a little lower. About 730 head were offered of which 300 were sold at prices ranging from 225 to \$25 0 per 100 lbs., on the hoof.

HOGS—Sales of live hogs are making at 5 to \$5 25.

The steemer Caledonia arrived at Boston, at 100 clock last night, and it is too late to transmit news.

Yours, &c., W. & CO.

DEAR SIR:—Since my last, the Flour market has undergone considerable change, under the action of the news by the Steamer Hibernia. Howard Street Flour has gone down to \$5.93t. Testerday, inowers, sales to he amount of 600 barrels were made at \$6. The Calcionia's arrival, (being announced late last evening,) has uspended operations. I have not yet been able to assertain the character of her news. Before I close my atter I may be able to give it in a postscript.

GRAIN—Wheat remains about the same as when last wrote you, viz:—Prime red \$133. Corn, prime clow 62 cents.

Provisions generally on the decline.

Flast wrote you, viz:—Prime red \$1.33. Corn, prime yellow \$6 cents.

Provisions generally on the decline.

GATTLE—There is an improvement, with sales at 2,55 to \$3 124 per 100 lbs on the hoof.

HOGS—Sales of live hogs at \$5 22—very prime would be found to be selected by the sales of the hoof.

No improvement has taken place in our money market yet. We arxiously look forward to a better state of things in a few days.

Howard Street Flour is worth in Boston \$6 62½; in New York and Philadelphia \$6.37½.

No news yet of the Union, now out 40 days.

P. S.—No news yet of the Caledonia.

HATHAWAY & PARKS respectfully inform the Ladies and Gentlemen of Charlestown and vicinity, that they will continue to be at Sappington's Hotel for a few days only. Having a good Apparatus, and materials of the finest quality, with a thorough knowledge of all the latest improvements in the art, they are fully prepared to execute

Daguerrectype Likenesses,

pared to execute

Daguerrectype Likenesses,
not to be surpassed by any other artist in this
country; giving to the Miniature a bold relief
from that deaduess usually seen in Daguerrectypes, and fully developing the eye, (the imperfection of which has so long been an objection to
this class of Miniatures,) and giving to the whole
picture a life-like appearance unusually seen in
Daguerrectype Miniatures.

Likenesses of Children as young as two years,
taken in exquisite style; and where is the parent
who would not pay the paltry sum of \$1 50 for a
correct likeness of a child at that interesting age.

Family groups taken in splendid style and at
moderate prices.

Single pictures, medium size, colored frue to
life, and warranted not to fade, for \$1 50, including a fine Morocco Case.

As our stay will be limited to a few days, those
wishing to procure Miniatures or examine specimens would do well to call soon.

Tho one will be required to take a Picture
unless perfectly satisfied.

Miniatures made, without regard to the state of
the weather, between the hours of 8 o'clock, A.

M., and 6, P. M.

Full instructions, with all the latest improvements, given in the art for \$50.

ANSWER.

By Bob what you Please.

Dear Kitty I'm the man for thee,
I'm neither tail nor slender.

Nor young, nor old, come treat with me
I'm ready to surrender.

Nor grously fat nor ghostly spare,
Nor sedulous, nor slack miss.

Like puny boy I am not fair,
Nor like an Indian Black miss.

Like puny boy I am not fair,
Nor like an Indian Black miss.

Plain common sense I do not lack,
And that's a lawful tender;
Yet I ne'er made an Almanack
Nor saw the witch of Endor,
Nor sober smock fac'd lump am I,
That deems the bottle treason;
I'll stick to Bacclus till I die,
But will not drown my reason,
A decent bowl inspires the soul,
And makes us better spunk miss.

But he's a brute beyond dispute,
Who grogs it 'till he's drunk miss.

So Kuty if I please your mind,
With you I'd like to winter.

And when you wish my place to find,
Enquire of the Printer. By Bob what you Please

A QUICK RETORT.—Whoever undertakes to put a joke on the "Razor Strop Man," is sure to get floored in the long run. Last Monday, while selling his strops in Plymonth, and expatiating the while on the evils of run drinking, a typsy fellow cried out "If run made me lie as fast as you in selling your strops, I'd quit it to-day."

"Very good," replied Smith; the only difference between your lying and mine, is this: My strops enable me to Lie in a good warm bed, while rum makes you Lie in the gutter.

The typsy man sloped, evidently lying under a very great instake, in supposing that he could get the upper hand of the "Razor Strop Man."

LEAVING IT OUT ALL NIGHT.—A loafer, having got a heavy load on, "fetched up" against the side of a house which had been newly painted.— Shoving himself clear by a vigorous effort, he took one glimpse at his shoulder, another at the house, and a third at his hands, and exclaimed, "Well, that's a darned careless trick in whoever painted that house, to leave it standing out all night for people to run grainst!" night for people to run against!"

A Dutchman once wanted to wed a widow, and his manner of making known his intention, was as follows:—"If you is content to get a better for a worse, for to be happy for a miserable, and if you smoke and drink ale, I shall take you for no better and much worse," Upon which the lady said, "Yaw."

The celebrated Exra Doolittle, Esq., says that a pretty gal is enough to make a feller forsake father and mother, twist himself right up into a double-breasted molasses dough-nut, and have warts on his disposition as big as pertater balls!—Think of that.

THE DIFFERENCE.—The question "why printers do not succeed so well in business as brewers," was thus answered. "Because printers work for the head, and brewers for the stomach; and where twenty men have a stomach, but one has a head."

"If Christians must contend; says an eloquent writer, let it be like the clive and the vine—which shall bear the most and best fruit; not like the aspen and elm, which shall make the most noise in the world."

Good BAIL .- A blacksmith named Osborn, of Good Ball.—A blacksmith named Osborn, of-fered himself as bail, at the court of sessions, for a prisoner whose trial was put off till next term.

"Are you surely worth \$500 above all your debts?" inquired the Recorder.

"Why, sir, I hold my wife to be worth \$500 without counting property."

"The court is satisfied; take his bail," replied the Recorder.

"Wall," said a soft-hearted blubbering Jona-athan, the other day, "Suke has gin mathe sack, by gravy! I've lost her." "Lost her, how?" in-quired his sympathizing friend. "I laid the soft soap into her so darned thick, that the critter got so proud she wouldn't speak to me."

Somebody, who writes more truthfully than po-etically, says: "An angel without money is not thought so much of, now-a-days, as a devil with a bag full of guineas."

GROWTH OF BALTIMORE.—The Baltimore as-sessors' returns show that nineteen hundred and fifty-nine new houses have been effected this year in that city, the assessed value of which is up-wards of two million six hundred thousand dol-

REAL ESTATE of the late John Strider, lying on the Great Falls of the Shenandah River, in the county of Jefferson and State of Virginia, in the immediate vicinity of the flourishing towns of Harpers-Ferry, (the site of the extensive National Armory, where at least \$180,000 are annualy expended by the General Government, and where constant encouragement is offered to a great number of Mechanics of nearly all trades,) of East, West, and South Bolivar, (all of which are in rapid progress of improvement,) and last but not least, Virginius, situated on a beautiful Island of that name, near the mouth of the Shenamlosh river, and on which there is in successful operation an from Foundry, a very extensive Flouring Mill, and perhaps the best Saw Mill in the Valley of Virginia; also, a splendid Cotton Factory, nearly finished. The said property consists of Two Tracts of Land,

STOVES, STOVES.

WHOLESALE AND RETAIL.

THE subscriber most respectfully informs the public, that he keeps constantly on band a general assortment of Farlor and Cook-ing Stoves, of the most approved patterns.—He is now manufacturing and receiving a splendid assortment of Air-tight Sloves, for parlors and chambers. He has recently obtained a Patent for a Ventilating Air-tight Slove, which keeps up a constant circulation of air in the room, and when the Stove is closed up, the ventilator is opened at the same time, and the close, oppressive air passes off through the ventilator, and the same pleasant, healthy heat is produced as from a fire-place or open Stove. He is sole agent for Pierce's American Air-tight Cook Stove, the best offered in this market. There are five sizes, for coal or wood. House keepers and farmers should by all means examine this superior Cooking Stove. There is a great saving of fuel, and the own possesses an advantage over almost any other kind of Stove now in use. It is every large, and the top being fire-brick, the moisture is absorbed during baking, and combines the advantages both of a Brick oven and a Cook Stove. He keeps, also, Air-tight Cooking Rangers, and a superior assortment of Grates for fire-places. Also puts up Fornaces for heating dwellings, banks, churches, stores, &c.

Spring and Summer Medicine.

DR. TOWNSEND'S SARSAPARILLA, THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This extract is put up in quart boules; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without comiting, purging, sickening, or debilitating the patient.

The great beauty and superiority of this Sareaparilla over all other remedies, is, while it eradicates disease, it invigorates the body.

IT HAS PERFORMED

MORE THAN 15,000 course this body.

1,000 Cures of Rheumatism,
1,000 Cures of General Debility, and want of Nervous Energy.
3,000 Female Complaints, and over 7,000 Gures of diseases
Of the Blood, viz:—Ulcers, Scrofula, Piles, Erysipolas, Salt Rheum, Pimples on the face, &c., together with numerous cases of Consumption, Liver Complaint, Spinal Affections, &c. This we are aware, must appear incredible, but we have letters from physicians and our Agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq. one of the most respectable druggists in Newark, New Jersey, informs us that he can refer to more than one hundred and fifty cases in that place alone.—There are thubsands of cases in the city of New York, which we will refer to with pleasure, and to men of character well known.

to men of character well known. UNITED STATES OFFICER. UNITED STATES OFFICER.

Captain G. W. McLean, member of the New Jersey Legislature, late of the United States Navy has kindly sent us the following certificate. It tells its own story: Rahway, Jan. 25, 1847.

A year since I was taken with the influenza and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attributed it entirely to the said Sursaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration. G. W. McLean.

The Editor.—John Jackson, Esq. Editor of the Rahway Republican, published the above certificate, and remarks in an editorial as follows:

The success of Dr. Townsend's preparation of Sarsaparilla appears to be of the most extraordinary character. We publish to day two certificates in its behalf one from Capt. McLean, of this town, and one from Rev. Mr. White, of Staten Island, a gentleman well known in Rahway.—Capt. McLean believes the medicine to have saved his life, and Mr. White seems to entertain an equally strong confidence in its efficacy. Intelligent men like these would not praise so strongly what they did not fully believe to deserve it.

what they did not fully believe to deserve it.

Scroyula Curen.—This certificate was handed into Dr. Townsend's office this week, and conclusively proves that his Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

Three Children.—Dr. Townsend—Dear Sir: I have the pleasure to inform you that three of my children have been cured of the Scrolula by the use of your excellent medicine. They were affilicted very severely with had sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation.

Yours respectfully,
Isaac W. Crain, 106 Wooster St.
New York, March 1, 1847.

RHEUMATISM AND THE PILES.—Dr. Townsend
—Dear Sir: My wife has been for several years
afflicted with rheumatism. She has tried many
different remedies to obtain some relief, but all to
no purpose. She was finally induced, by seeing
your advertisement, to give your Sarsaparilla a
trial. We procured some of it from your agent,
(Mr. Van Buskirk) and it gives me pleasure to
state that after using it she experienced great relief, and was in a very short time periently cured,
I was also (together with another man in my employ) badly troubled with piles, and by using a
small quantity of your Sarsaparilla, our complaint
was completely cured. I consider it one of the
best of medicines, and would advise all who are
afflicted to give it a trial.

GARRIT GARRABRANT.

ence., It immediately cointeracts the nervices, ness of the female frame, which is the great canes of barrenness.

It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases, where families have been without children after using a few bottles of this invaluable medicine, have been blessed with healthy offspring.

Dr. Townsend—My wile being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of hearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also heaving it recommended for such cases as I have described. I obtained a bottle of Extract of Sarsaparills, and followed the directions you gave me. In a short time it removed her complaints and restored her to health. Being grateful for the benefits ahe received, I take pleasure in thus acknowledging it, and recommending it to the public.
