Poetical.

A POETIC CONTRIBUTION.

The following letter was written by Hiram Ellis, Esq., President of Shenandoah Manufacturing Company, near Harpers Ferry in this County, to his little daughter who resides at Manassas, Pa. A friend, who was struck with their beautiful simplicity, and the forcible expression of the author's design, as connected with his parental struggle, has procured us a copy for publication. If we are at all judge in the matter, we think the letter most creditable to the writer and that its publication will prove interesting to our readers:

WOULD GET MARRIED.

We have seen many instances of the ingenuity of ardent suitors and their desire to overcome the obstacles which opposed their arriving at "perfect happiness" by the way, by not minding the price, but supposed to be somewhere near Berlin, Pa., and the following story, from the "Ohio State Journal," bears out our opinion.

THE FARMER AND THE POLITICIAN.

Politician—Well, how do you like "Old Zeb?"
Farmer—Well, sir, as a man I can't say I think well of him, and he deserves to be honored by his country, but as a politician, I have no objection to electing him President of the United States.

Political.

BACHING OUT FROM TAYLOR.

We find in the New Orleans papers the two following evolutions of defection in the Taylor ranks:

The two Parties, and the "Question of the Day."

"The Union of Democrats for the sake of the Union" should be in the presence of the present affairs, the rallying word, not only of the Democratic party, but of all the patriots of the land. For the first time, in any considerable measure, since the adoption of the Missouri Compromise, the cry of sectional aggression on the subject of slavery has gone forth, and an extensive party organization, under the sanction of names which have been great in our politics, is openly in progress, and a sectional platform is being erected on a sectional basis, and appealing solely for its support to sectional prejudices. This aggressive movement on the north is met by a similarly aggressive movement on the south, which claims to be the only one, and which, having already been repudiated by the Whig party, and the Democratic party, respectively, in their organization for the presidential election, the Whigs of the north are almost as one man, openly and avowedly, in favor of the Whig platform, and the Whigs of the South, clearly a small minority of their party—are as one man as fully committed against it. The party has nominated as its candidate a southern slaveholder, who, the president and associations all point him out as a resolute protector and defender of the rights of the southern States. But, in order to gain a nomination—extorted reluctantly enough at first from the Whigs—he has consented to pledge himself to a virtual abolition of the veto power—that is, of the only power he can constitutionally wield for the protection of southern interests. The extent of this pledge, as contained in the "Signal" and "Allison" letters, there is perhaps some vagueness and doubt; but, beyond all question, at the north at least the pledge is understood to be, in relation to the doctrine involved in the Wilmot Proviso, absolute and sweeping. "Fear nothing," say the northern Taylor men, "from Gen. Taylor's opposition to your anti-slavery views; if elected he has done so from the very first, and solemnly pledged not to vote the Wilmot Proviso if it shall pass in Congress. Elect good anti-slavery Whigs for your representatives, and with Willard Fillmore (known as a candidate for the Presidency) in the White House, the complete triumph of the anti-slavery principle in relation to the new Territories is by Gen. Taylor's election guaranteed." "No matter what pledges Gen. Taylor has given, or seems to have given; he is a southern man, and will never be recant to southern interests."

NEVER TREAT RELIGION LIGHTLY.

Impress your mind with a reverence for all that is sacred. Not to worship of youthful spirits, nor compliance with the impetuous spirit of others, ever betray you into profane sallies. To despise the sacred, is to despise the sacred, and in a few moments the loving candid for nuptial joys was speeding on the wings of love, and on the back of a good horse, to the arms of his bride.

WORTH OF MADOWS.

"Rich widders" about you, said Nicky Nalokin to his friend "Benny," "though they appear snuffed up so fast. 'Rich widders, Bill, are special provisions, sent here like rats, to pick up the scraps of the poor. They are not to be despised. When you've bin down try 'em, and you're all right again, then comes the widders floatin' around. Why splattered 'em nothin' to it; and when you've bin down try 'em, and you're all right again, then comes the widders floatin' around."

GEN. CASS AND THE SOUTH.

The "Flag and Advertiser," printed at Montgomery, Alabama, says that there is not a single Democratic paper in the South which is in favor of sustaining Gen. Taylor. Its editor strongly contends that the South can entertain no reasonable ground of hope that any man, whom the Whigs will support, will be elected President of the United States.

THE EXTRA ALLOWANCES

We clip from the Washington correspondence of the 21st inst. the following opinion of the recent publication of the "over-pay" book.

Yesterday being referred to Mr. McClelland's triumphant vindication of Gen. Cass from the charge of having received an extra allowance.

It is well known to all who have any knowledge of the political history of the Northwest Territory, that of all the posts of governors of territories, that of Gen. Cass as Governor of Michigan, was perhaps the most important and responsible.

MR. BAKER'S ACADEMY

The Winchester Republican furnishes the following notice of the recent examination of the Rev. Mr. Baker's Female Academy at Winchester.

We were very glad to pass a few hours at the academy, and to witness the progress of the scholars.

The examinations were of a rigid order, and gave no opportunity for mere superficial display.
