NATIONAL ARMORES

The following letter from the Hon. CHARLES J. FAULKNER, the member of Congress from this District, will prove of great interest to those who are in any wise connected with the United States Armory at Harpers-Ferry:

WASHINGTON, August 19, 1852. JOHN C. UNSELD, Esq. - Dear Sir: I received last night your letter of yesterday morning, in which you inform me that you have been requested by the Armorers to call upon me for some explanation, why, in the recent army appropriation bill which passed the House of Representatives. the sum for the manufacture of small arms at the National Armories was reduced to \$250,000, that being \$110,000 less than the amount granted for the same purpose the previous year? Although quite unwell, and suffering from the same complaint which has debilitated me so frequently this summer, I will proceed to answer your enquiry as satisfactorily as I can.

Estimates for all appropriations are now, under a law of January, 1846, made out and printed before the commencement of the session of Congress. So that we are furnished with them in detail on the first day of the session. You will permit me then in the first place to say, that if the Government has erred in its estimates for the National Armories, and that error was one that could have been corrected, you have at Harpers Ferry been very remiss in calling my attention to the subject. For you will remember that early in December, I sent to you the document, containing all the estimates for the National Armories and took the precaution to mark upon the outer leaf & reference to page 210, where these estimates were to be seen, in order to call the attention of all persons interested to them. From that day until the receipt of your last letter, and until after the passage of the bill in the House, I have never heard one syllable from Harpers-Ferry on the subject.

You will thus perceive by reference to that do-cument that the bill which has recently passed he House has not reduced the appropriation for the National Armories, either in the items for the manufacture of guns, or for repairs, &c., one cent below the estimates made out by the Ordnance department on the 28th of October, 1851. and approved by the Secretary of War. This very satisfactorily disposes of one suggestion made by some very sagacious persons at your place, to wit: That the appropriations were reduced at the National Armories because of the movement to abolish the Military system. The estimates were in fact made out before my elec-tion to Congress, and I have yet, besides, to learn that there is any feeling of hostility in the War Department to the reform which I proposed. The Secretary of War, with great good sense, considers it a subject proper for the action of Congress, and to that tribunal is he disposed to sub-

nit it, without any interference on his part. Now as to the reasons which have caused the War Department to recommend a reduction of the estimates. These I can only give you so far as they may be inferred from known events and so far as they are disclosed in the official papers

from the Department. 1st. A practice has grown up of late years and which I am sorrow to perceive is acquiring strength every day in the usages of Congress, of cutting down the appropriations far below the estimates of the proper Executive departments, and thus forcing the continual necessity for Deficiency bills. I recognise in its fullest extent the right of the Committee of Ways and Means, and of Congress, to institute the most rigid examination into all the estimates of the Executive department, and to reject every expenditure which public policy and public necessity do not require. But the practice extends far beyond this. It goes to the extent of cutting down appropriations capriciously and without any satisactory reason for doing so, under a general idea that what is not then appropriated may be supplied by a future deficiency bill. I regard this as a bad practice. A deficiency bill should never be introduced except to meet some contingent and unexpected demand upon the treasury. And yet they are of annual introduction to meet the ordinary and clearly anticipated wants of the government. Last year the appropriations for the War Department were cut down fifty per cent. below the estimates-from six millions of dollars to three millions - and that three millions, after very considerable loss to the government from the necessity of resorting to credit instead of cash, we had to supply this winter by a deficienbill. During the present session the appropriations have been reduced below the estimates in all of the departments, for the next year, four and a half millions of dollars. The appropriations for the War Department alone have been reduced nearly two millions below the estimates. I think this policy unwise, because it relieves the Executive department of a responsibility which should rest upon it. I mean the responsibility of accurate estimates. It has a tendency to generate carelessness, for no respect seems to e paid to their estimates when made. I think it unwise in another aspect; as it stimulates the departments, under the legislative lash thus annually applied to them, to cut down their esti-mates frequently below the amount which the public service actually requires. And I incline to think that the assaults annually made upon the army estimates for the last few years, (the expenditures for which branch of the service. have been very great, but not greater than our vastly increased territory seems to require.) have department to reduce its estimates for the Na-

tional Armories. But really, with the practice which has now become so common of ekeing out by deficiency bills what the regular appropriation bills fail to supply, it would seem no very material matter whether the appropriation for the manufacture of guns was \$250,000 or \$360,000. For whether it be one sum or the other the whole opera tions of those manufactories are under the control of the War Department-and he will give any especial reference to the sum appropriated for the object.

2d. Another reason officially assigned for the reduction of the estimates for the manufacture of arms, is the large stock on hand. On the 19th of April last, a prominent and influential mem-ber of the House, came to my seat to give me notice that he intended, when the bill came up, to move to have the appropriations for the Na-tional Armories cut down to the lowest sum that would keep the machinery in eperation, and he assigned as his reason for so intending, a conversation which he had recently held with the late Adjutant General Roger Jones, who had, as he stated, informed him that such was the true he stated, informed him that such was the true policy of the government and that we now had on hand muskets enough to last for the next fifty years. I immediately addressed a letter to Gen. Jones to learn the accuracy of this conversation, and also to produre an official statement of the number of guns on hand. I was happy to learn in reply that Gen. Jones had not been fairly understood; and the member to whom I refer upon being abown his reply abandoned his purpose to more any amendment to the bill. I herewith amer the letter of Gen. Jones and little well.

accompanying it an extract from Col. Craig's report, which will place you fully in possession of the views of the Ordnance Department.

ADJUTANT GENERAL'S OFFICE,)

WASHINGTON, April 29, 1852. Sin: The answer to your letter of the 19th instant, on the subject of the supply of small arms, (received the 21st) has been delayed in consequence of ill-health, and other unavoidable cause of absence from the Office for several

days past.

The information you desire as to the number of small arms undistributed, will be found in the Report of the Colonel of Ordnance to the Secretary of War, of October 28, 1851, which accompanied the President's Message to Congress, at the commencement of the present session. Understanding that the printed document has not yet been supplied, I have the pleasure to send you an official extract from the Report, by which it will appear that, on the 30th of June, 1851, the number of finished army muskets in the Arsenals and Armories was about 500,000, and of rifles and pistols about 65,000. The number of small arms now in deposit, cannot, it is supposed, be much above that of 600,000.

Touching any remark which I have incidentally made in conversation, relative to the supply of small arms, I have said, we do not, in my opinion, require so many as 1,000,000 of small arms in store, or undistributed; that I thought the annual supply exceeded the wants of the country, and that the number annually fabricated, could be reduced with advantage to the public interest. This, I think, is about the substance of what I have expressed upon the subject.

1 am, sir, very respectfully, your obedient ser-ant, R. JONES, Adj't Gen'l. The Hon. Chas. Jas. FAULKNER, House of Representatives.

Extract from the Annual Report of the Colonel of Ordnance to the Secretary of War, dated October 28th, 1851:

SIR: * * * "The number of finished muskets in Arsenals nd Armories, on the 30th June, the end of the fiscal year, was about 500,000; of which about 160,000 were new percussion, about 271,000 altered from flint to percussion, and about 87,000 flint lock. The number of percussion rifles at the same time was about 34,000, and of flint lock rifles, about 7,000, in all, 41,000. Of percussion pistols about 8,700, of altered pistols about 4,150, and of flint-lock pistols about 11,500; in all, about 24,000. In consideration of this stock of small arms, I have deemed it proper to reduce. the amount of the estimate for the manufacture the extension of slavery over Mexico—the un- in the army, immediately upon his return to his of arms much below the ordinary annual appropriation for this object. It cannot be expected, however, that they will be made at as little cost for each one, where few are manufactured, as where the operations are on a larger scale. The use of machinery, which enters largely into this manufacture, will be nearly the same for a small as a large quantity, and the reduction in the cost of supervision, inspection and other standing expenses, necessary for keeping up a manufacturing establishment, will be but in small proportion to the reduced scale of manufacture. The greater economy of manufacturing on a large than a small scale is, however, a fact too well known, and generally admitted, to require any argument to prove it. Although the supply of ms on hand may appear large, I am of opinion that it should be kept up and increased by manufacturing more, annually, than is requisite for ordinary consumption. With the vast extent of territory occupied by this nation, its military supplies, to be available in an emergency, must be divided into many portions, and distributed throughout the various parts of the country; otherwise, although there may be, in the aggregate, more than enough to supply any military orce that may be brought into the field at one time, it may happen that there will be no sup-

plies at or near the very point where they are wanted, and none to be had without great delay in transporting them thither. When the extent of our territory and its rapidly increasing population are considered, as also the equal rights of every part to the use of, and ready access to its share of the means provided by the General Government for the defence of the whole, a stock of one million of arms will be found to be by no means an extravagant provision. They may never be required for use, and it will probably be fortunate for the country if they never are; but the very existence of ample means to meet any such emergency is one of the most effectual ways to prevent

its occurrence. "Moreover, the money to be expended for the rpose is not lost; it is merely converted into National property in another shape, property of more real value to the nation than money. That can be raised at any time, but an emergency, that might find the country unarmed or badly armed, could not be met by means of money only. and might involve a loss of National reputation; a loss not to be measured by or compared with money. With its merely nominal military force, the strength of this country, for warlike purposes, whether of offence or defence, consists in its military arsenals, filled with the products of the ingenuity and skill of its own citizens. strength are, at the same time, applied to give employment to these artizans, and to foster and support that species of mechanical skill and ingenuity which is chiefly, and almost exclusively, applied to the construction of articles requisite for national purposes. Now in my opinion the reasoning of Col. Craig should have brought him to conclusions the very opposite to those which he recommended. And nstead of submitting reduced estimates, the able and conclusive views which he has presented bearing upon the economy of the subject, would have fully justified him in urging a continuance of the appropriations at the standard of past years, and I am therefore the more convinced hat he made his recommendation under the influence of those assaults which have been made in Congress, so fiercely for some time back, upon the expenditures of the War Department. But I knew it was idle for me-when the Comry item of the bill, some twenty, some thirty, and some near fifty per cent.-to ask the Committee or the House to raise the appropriations for the Armories beyond what the Government itself asked. Whilst I condemned the policy so far as the

National Armories were concerned and remonstrated against it, I was forced to be satisfied with being able to retain the appropriations for these objects precisely at what the Government asked, and to prevent any reduction below its estimates. And in this respect, the estimates for the National Armories fared far better than more or less vigor to its operations according to his judgment of the public necessities, without most of the other objects provided for by the bill. I am, truly, yours, CHAS. JAS. FAULKNER.

FROM CALIFORNIA.

Messrs. John H. Hunter and Jacob Seibert arrived here on Wednesday last, in about 30 days from California, where they have been engaged in mining since 1849, we presume with some success, and where they design to return. Mr. H. went from this place; Mr. Seibert from Indiana, in company with his brother Robert, who still remains in California. Mr. Seibert was formerly of this county; after seeing his friends here he will leave for the residence of his parents in In-diana.—Martinsburg Republican.

SCOTT and the OHIO ABOLITIONISTS.

We invite the solemn attention of our readers to the following concluding portion of an Address from an Abolition Committee of the State of Ohio:

We might multiply extracts from Southern papers, all showing the same opposition to General Scott, but our limits forbid. We have laid the whole matter fairly before you, and ask you to decide which of the two candidates you prefer. Scott was nominated by Northern men, opponents to slavery, and is now opposed by the South for reasons fully stated in the above. Pierce received the entire Southern vote, with perhaps, two or three exceptions, and is in every respect, satisfactory to them. Will the North desert Scott, under these circumstances, and suffer the slaveholders to triumph?

Let us reason with you further. The anti-slavery men hold the balance of power in nearly every Northern State. We will suppose they refuse to vote for either Scott or Pierce, and support John P. Hale, or some other person to be nominated by the Free Soilers, in August next.

The Democratic role would not be ween thereby for the far greater portion if them are from the Whig party. Their voting thus would secure nearly every Northern State for Pierce, the favorile of the slave holders; and the South would gain a triumph, such as she never before achieved! Would this be acting the part of consistent men? Would the Free Soilers delight in the defeat of Scott, under such circumstances of triumph to the South?

Again, with Scott as our President, the Fugitive Law may be repealed without being met with an Executive veto. Not so with Gen. Pierce in the Executive chair. He would veto its repeal because its principles "command the approbation of his judgment." Again, the Democratic Platform declares, in effect, that its repeal would be unconstitutional. Pierce says that declaration is correct, and, believing this, he would be compelled to veto its repeal, if he paid any regard to his oath. With Gen. Scott, it may be so amended as to give the fugitive a trial by jury,—for the Whig resolution is not inimical to a change in this respect. Gen. Pierce is pledged to resist any change in the law whatever, that will impair its efficiency, and hence he would veto such a bill. The nomination of Gen. Scott was a Northern triumph, and his election would be regarded so by the slave-holders, while the election of Pierce would be a signal for the dismemberment of and | we believe, to resign the place be now occupies warrantable seizure of Cuba, and a triumph to the South unequalled in the history of the DAMN-ING CURSE OF SLAVERY.

For these reasons, regarding the PRESENT POSITION of Gen. Scott as antagonistical to the further extension of slavery, we feel it to be our duty, as citizens of this Republic, having a due regard for the welfare of the slave, to give him our earnest support in the coming election. The North have triumphed in his NOMINATION let them triumph in his ELECTION and for once let the arrogant demands of the South be denied. This result will surely follow, if anti-slavery men vote as a due regard for their profession demands. We submit these propositions to your judgment, and ask a candid perusal, believing that the prejudice you may entertain against the resolution of the Whigs relating to the Compromise, will not prevent you from supporting the election of General Scott.

Ought the Commander-in-Chief of the Army of the Il States to be transferred from this Command to the Presidency?

This is a question now submitted to the American people for their decision; and if the history of all past republics is to be a warning and a guide, the question will be easily answered -From Cæsar to Cromwell, and from Cromwell to Bonaparte, all Republics have been destroyed by entrusting the highest civil power to the Commander-in Chief of their armies. Now, although we believe General Scott could not, if he would, destroy our liberties, yet the precedent may prove highly dangerous in after times, when our people shall have become more corrupt and less jealous of their rights. That the military should be held in strict subjection to the civil power is amaxim indispensable to the existence of all free governments. One of the grievances set forth in the Declaration of Independence, against the King of Great Britain, is, that " he has affected to render the military independent of, and superior to the civil power." Liberty must ever be guarded with watchful jealousy, and our revolutionary fathers, deeply impressed with this truth, took the greatest pains in the Constitution, which they framed; to secure the superiority of the civil over the military power. How would those sturdy patriots have been grieved and mortified, if

descendents would elect the actual Commanderin-Chief of the Army to the supreme civil magistracy!!! No precedent exists in our past history for any such suicidal attempt. Washington, Jackson and Harrison had, for years before their election to the Presidency, been plain farmers and private citizens. General Taylor held a subordinate command in the army; and it was reserved for General Scott to desire to march from the headquarters to the army, his sword by his side, his chapeau on his brow, and surrounded by all the pomp and circumstance of war, into the White House at Washington. He has not had the grace to resign his commission, even at the eleventh hour, though this would not greatly have mory of these great men and their associates!diminished the danger of the precedent. He holds on to the honors and emoluments of the office with the grasp of fate; and we consider this alone, if there were no other objections, con-

hey could have foreseen the time when their

At such a dangerous crisis, ought not the highest military officer to be personally disinterested in regard to the result, and ready to obey the commands of the civil power in its efforts to preserve peace and the Constitution? Instead of this, if you make him s party to the contest, what can you expect? Suppose, at the time of the con-tested election between Jefferson and Burr, the latter had been at the head of an army devoted to his interests, does any person suppose he would have yielded peacefully? We know Gen. Scott to be patriotic, though obstinate, self-willed, and wholly unfitted for civil affairs; and whilst we honor him for his distinguished military services, we firmly believe his election to the Presidency would be a serious evil to the country, and would establish a precedent which may prove destructive to its liberties and its con-

GENERAL PIERCE.

We extract the following complimentary notice of General Pierce from the New Orleans Delta, of Dec. 29th, 1847:

ARRIVAL OF DISTINGUISHED OFFICERS -The New Orleans brought over yesterday, another detachment of the heroes of our late glorious victories in the valley of Mexico. Most of those who came over have been disabled by wounds, or exhausted by hard service they have passed through. They came home to recruit their shattered trames, to revive their spirits and invigorate their bodies, amid the endearments and comforts of their loving relations, and adm mor friends and countrymen, Welcome, brave spirits! A joyous welcome will everywhere greet you as you pass through the country whose honor the you have so nobly sustamed-whose name you have linked with immortality, by your glorious deeds in a distant and hostile land! Your names. the names of each one of you, will be inscribed upon the scroll of fame and upon the page of history, and what is far greater honor, they will be inscribed upon the hearts of your countrymen.

To enumerate all the gallant officers who came over in the New Orleans, and to notice in proper terms their several claims to the praise and honor of their countrymen, would fill our entire paper. We cannot omit, however, to notice some of this gallant delegation from our invincible army, whose names and history are most ia-miliar to us. Among these we regret to perceive the name of General Pierce. We say rehere is in fulfilment of a determination to resign his command in the army. He has been forced to this determination by considerations of a private nature. The Commander-in Chief and the whole army, and especially his own brigade deeply regret his resignation, and parted from him with great sorrow.

General Pierce made great sacrifices in accepting of a command in the army, and he thinks that now, that the hard fighting is over, he can no longer resist the claims of his family, and the demands of his private affairs. The following handsome notice of his services and character we take from the American Star, (the American

paper published at the city of Mexico:) BRIGADIER GENERAL PIERCE -Among the distinguished officers of the American army who return to the United States with the train which leaves the city to day is Brig. Gen. Franklin Pierce of New Hampshire. The Americans in the city will deeply regret the departure of this accomplished gentleman and oilicer, and certain we are that their best wishes for his future happiness will go with him. It is General Pierce's gentlemanly bearing, his urbane and sepublican manners, which have made him so great a favorite with both efficers and men. It is his purpose. residence. Like others of different grades at tached to the army, he left the endearments of home at the call of the Government, to particinate in the battles of his country. He lett, also, a lucrative profession, which none other team a patrotic motive could have induced him to relinquish. The sacrifice, however, was most chasefully met. Gen. P. has won a high reputation . in the United States for his courage and bravery, as every paper that reaches us tears evidence. He left Vera Cruz in the middle of Jole with one of the largest reinforcements for Cen. Scott. and the most extensive trains that have left the city since its bombardment. In the several battles before this city, General Pierce's brigade behaved most nobly, as all our feaders are awafe. and the General conducted himself most gallantly at Contreras, Cherubusco, and Mohno del-Rey, though in the first named action he sustained a severe injury by a plunge and tall of his horse among the rocks of Padierna. During the storming of Chapultepec he was confined to his from by indisposition, or he would have been charging with his men over the precipitous heights where his gallant friend, the lamented

Ransom, fell. But, though General Pierce has flins henorably distinguished himself, he is not ambitious of retaining his high position in the service, and thus acquiring distinction in the army. He prefers the quieter and gentler pursuits of protessional life, and we know that he with be welcomed to his pleasant home in New England, with hearts as warm as ever beat in the human bosom. He will return to his native hills with new laurels, and with the prayers of all that he may long live to enjoy the company and society of those who are dear to him. Many tears, since his departure from New England, have been expressed in the public papers and private letters that Gen. Pierce had either fallen a victim to the climate of the terra caliente, or under the guns of the enemy. His friends and relatives, however, are now assured of his safety and health, and they will greet him with as warm a welcome as any honored son of New England has ever received.

Happiness go with him. LETTER FROM GENERAL PIERCE.

The following letter was written some eighteen months ago by Franklin Pierce, in reply to an invitation to participate in measures which were taking for the erection of a monument to Gen. Stark :

Coxcord, February 22, 1850. GENTLEMEN: Your note of this day, inviting me to " attend a meeting to be held at the City Hall, on the 7th of March, at 7 o'clock, P. M., for the purpose of taking measures to erect a monument to the memory of Major General Stark," has just been received. I fear that my engagements in court in Belknap county, will prevent me from participating with you in this preliminary meeting; but whether present or absent, you will need no assurance of my earnest coroperation in the successful prosecution of an object which must make a strong appeal to the hearts of every patriotic son of New Hampshire. It will, I am confident, Le the work of our whole population,

Fathers and sons, mothers and daughters, will heartily unite in an enterprise around which must ever cluster so many proud and grafeful recollections, and that will make the column worthy of the bravest and most self-sacrificing spirits of the age of heroes. How naturally and inseparably united in association, are the names of Washington and Marion, Stark and Sullivan! and how fresh and delightful on this anniversary the me-They lived and labored in a common cause, with unflinching fortitude, at a period full of discouragement, danger and privation. In what was the crowning element of their final triumph ?-Doubtless, so far as human instrumentalities were concerned, in the bond of brotherhood and the nomination of the Commander-in-Chief of the patriotism, that knit together all hearts and nerv-

ed all hands. A participator in that struggle made this entry upon his military journal- May, 1777: The

most every militia company.' The value of whatever will revive and strengthen this sentiment cannot be over estimated, while every proposition, every act, every idle word calculated to weaken it is a proposition, an act, a

word false to humanity.

God forbid, that while at the North and at the South the present generation are erecting monuments commemorative of the events of the revolution and of the services of its leaders, they should, by encouragement or countenance to sectional distrust, cast a pall over all the bright hopes of the future.

In the fortunes of war Molly Stark was not made a widow at Bennington, but the monument will call up saddening but glorious memories of the fields of Lexington and Bunker Hill, Yorktown and Cowpens-and many homes never afterwards gladdened by the sound of a husband's voice .-Will it not profitably remind us of the price at which the present power, freedom and prosperity of this great confederacy were purchased, and

necessarily of the only means by which they can be sustained and perpetuated?

I shall look with much interest for an account of your proceedings.

I am, very respectfully, Your friend and servant, FRANK PIERCE. Hon. R. H. Ayer, J. McK. Wilkins, H. Brown,

This distinguished champion of the Democratic party, and the Elector for the Accomac District, is now on a visit to Western Virginia, and as we learn expects to be in Jefferson on Friday or Saturday next, when he will address the people on the questions at issue, in the Court-House, at Charlestown. We shall endeavor to give timely notice hereafter of his arrival, so as to afford every citizen of the county an opportunity of being present. Mr. Wisz is one among the most remarkable men of the age in which he lives, and as a popular debater has never been surpassed by any man of the State.

Ball will be given at Shannondale on Thursday, 9th of September, which are expected to expel in point of attraction any thing ever before gotten up in the Valley of Virginia. For the Tournament, many gallant and skilful Knights are already in preparation, and many others are expected to be present from our own and the neighbering States. The Fancy Ball will serve to bring together an array of beauty and fashion which has never before been seen at Shanondale. On the part of all, both the grave and the gay, there seems to be a determination to make the ides of September a time memorable in the

history of this favorite resort. HEAVY RAINS.

Never before, in the recollection of the "oldest inhabitant," have we had such weather in the month of August. It has been raining almost without intermission from the time of its commencement, and until Sanday last we have scarcely had one day of uninterrupted sunshine. The creeks and rivers are very considerably swollen. and much alarm was felt as to an apprehended freshet along the Shenandoah and Potomac rivers. The water however is now falling, and but little injury has resulted. The Wheat both in the shock and stack has been seriously injured by the rains, and the farmers considersbly put back with their seeding operations. The Corn and Grass crop never looked more promising, and if there be no front to injure the Corn. the crop will be the largest raised in this county or the Valley of Virginia for many years.

FOSS, FREE PRESS & CO.

We have given our best endeavors, and we think have succeeded to the satisfaction of all men who are in pursuit of truth, to shew the falsity and absurdity of the charge as against Gen. Pierce as connected with the New Boston speech. With the pure and incorruptible Foss, however, as the affidavit man, and his willing echo and sponsor the "Free Press," to "back him up," we must knock under and hand them both over to the upbraidings of their own conscience, and the derision of all fair-dealing men. Salt Petre won't save them from the moral leprosy within, and as like Ephraim of old they are joined to their idols, we leave them with regret to hardness of heart and reprobacy of mind.

AGRICULTURAL FAIR.

The Maryland Agricultural Fair is to take place on the 26th of October, on the grounds of the society in the vicinity of Baltimore, and promises to be one of the greatest ever held in the country. The amount of premiums has been increased one-third over those of last year, and now reaches nearly \$5,000. Competition is open to all the citizens of the Union by membership, and it already has on its lists a goodly number from Virginia, Pennsylvania and the District of Columbia.

MASS MEETINGS IN MARYLAND:

The Democracy of Maryland are preparing for a vigorous canvass, under the confident assurance that their efforts are to be crowned with signal success. The City of Baltimore alone is expected to give to the Democratic candidates 6000 majority, and Maryland for the first time will be ranged in the Democratic eolumn. On Saturday next, a tremendous Mass Meeting will be held at Hagerstown, at which the most eminent and distinguished speak ers of Virginia and Maryland are expected to be present. The Saturday following, September 11th, is the day for the Grand Ralley at Frederick City. A large number is expected, and a most cordial invitation is extended, to the Demo-

cracy of this portion of Virginia. AGRICULTURAL FAIR.

THE CONSISTENCY OF MR. FAULE-NER'S COURSE.

In our paper of the 10th instant, in alluding to the assaults of the Whig Press of the District against Mr. Fankner, we pronounced them "simply absurd and preposterous." We also promised, when room was more at our command, to demonstrate " to the satisfaction of every candid mind that Mr. Faulkner, if he was honest in his canvass for Congress, is the only consistent man among them!" This pledge we will redeem-of that our torgiversating and inconsistent neighbor of the " Free Press" may rest assured. Congress adjourns to-day, and our attention to its proceedings will be relieved, and our columns more free for the discussion of other subjects of more immediate and general interest. We shall have plenty " of room at our command" to sustain Mr. Faulkner folly, and hold up the mirror to our neighbor as often as he may desire to see how ridiculous and inconsistent an editor looks in vituperating one whom he but a few months since so zealously supported, and for no other reason than that he refuses to stultify himself and give the lie to every sentiment which lie uttered in both his oral and written addresses to the people of this District, when before them as a candidate for Congress. Every position which he assumed in that canvass he has faithfully, honestly and scrupulously carried out in his Congressional service so far, and this we mean to prove from the record before we dismiss the subject from our columne. Our neighbor is welcome to an examination

of our files for all that we said of Mr. Faulkner and his views, while he was a candidate and after his election. It is not our consistency not what we said before or after his election—that is involved in qur enquiry. But what Mr. Faulkner said when a candidate-and what he has said and done since his election -and, what the " Free Prees" and other Whig revilers said before the election and what they are now saving and have been saying for severa! weeks past in relation to him. This is the point-this the issue-and there shall be no dodging from itno special pleading to get around it. We shall show that Mr. Faulkner is the only consistent man among the whole crew, and that the disgraceful course now pursued towards him by his quondam supporters, is utterly indefensible and without a single shadow of excuse to cover and

A FAILURE.

The Grand Scott and Graham Ratification Meeting, which was to have been held at Win chester on Friday week, 20th instant, was a most signal and complete failure. Not one solitary speaker beyond the confines of Winchest er was present, though Gov. Jones, and a dozen Ex-Governors, U. S. Senators and distinguished Whig champions were confidently promised. I numbers, the meeting was as meager as speakers, and in passing through Winchester the day after the meeting was to have been held the visages of our Whig friends were elongated a foot, and we would not have dared to mention "Whig Ratification Meeting" except at the peril of pistols and coffee for two.

This gentleman through a communication the Washington Union, endeavors to explain away the language imputed to him in regard to Mr. Webster, at his recent speech in Winchester. He says :

We do not know in what "sense," or for what 'ourpose" the disgraceful language imputed to Mr. Lee was used, but very certain it is, many of the best citizens of Winchester will testify that the exact language imputed to him by the " Democratic Platform," is the precise words used by him on the occasion. DRAYTON AND SEAVRES. These notorious individuals, who were con victed some years since of enticing away from their masters in Washington and Georgelown a number of slaves, have recently been pardoned by President Fillmore, and set at liberty. In the language of a good Whig whom we heard speak. ing of the matter lately, we say: "Fillmore would not have dared to do such an act if he had been a candidate for the Presidency." H., Aug. 18, 1853.

To John White, Esq., Milwaukie, Wis: has obtained to a considerable extent, and espe-cially among that portion of your people that are Catholics, that General Franklin Pierce of this State, was unfriendly to Catholics, as a religious sect, and that an attempt has been made to hold him responsible for the odious religious test conteined in the constitution of this State; the undersigned Catholic citizens of Concord deem it our duty to say that the Catholics of this State. and of New England, and especially that portion of them that are of his political opinions, entertain for him the highest respect as a politician and a man. Especially do they feel under great obligations to him for his powerful efforts in the convention to expunge that odious " test" from the constitution of New Hampshire, and for his efforts before the people to have the amendment to the constitution adopted which provided for striking out the religious test. Any impression of the kind indicated, does Gen Pierce great inustice, and we regret that for partizan purposes

he has been thus misrepresented. We send this to you not for electioneering or partizan purposes, but as a simple act of justice o one of the strongest opponents the odious"test" has in N. Hampshire, and to one of the most libe ral and telerant of its citizens.

We have been present in several meetings, and at the last town meeting, when this proposed amendment was submitted to the people, and have heard General Pierce address the people in favor of bolishing this " test;" and any repre-sentation that he is opposed to striking out that test, or that he has not exerted himself to have that test abolished, must proced either from pro found ignorance, or malicious misrepresentation of the man, his character, and course, in relation to this test question.

August 16th, 1852. Catholic Pastor. CORRECTION.

We incidentally stated in our last paper, that Messrs. Letcher, Faulkner and others might address the people of Harpers-Ferry on Wednesday night ensuing. We are requested, however, by Mr. Faulkner to say, that owing to a prior engagement, he feels himself committed to visit Reading, Pa., at the grand demonstration which is to be held there during the present week, and therefore requests that we will withdraw the appointment made. He promises to visit Harpers-Ferry at an early day, and commencing at Berkeley Court on the 2d Monday of September, desires no respite from his labor until the morning of the election. He boldly avows that both his enemies and friends shall have the pleasure of meeting him to their hearts content, though we pity the Whig champion who first encounters his ire.

BRATOR WADE.

A declaration was made from the stump Ohio, as it was said on the authority of this gen tleman, that Gen. Scott had declared" he would cut off his right arm before he would lend it to the support of slavery." This statement Senator Wade, an Abolitionist from Ohio, denies hav ing made, and we therefore take the earliest op portunity of giving to Gen. Scott the benefit of the retraxit. We should be exceedingly loth to follow the disgraceful example which has been set us by the Whig press, in connexion with the New Boston calumny.

the expectations in relation to crops; there is almost a universal cry of short harvests and poor quality. In Eng and the crops of wheat have been seriously injured, and on the continent, in Brance and Germany, a similar result is almost universally reported. At the same time the potato crop in England and Ireland, and tye on the Continent, constituting the food for the people, are admittedly abort, and the demand for Indian corn must meet both these deficits.

In France a proposition has been made to modify the tariff in view of a stort barvest, and there is every indication of an active demand for American provisions, particularly, Indian corn—that most universal and influential crop in the United States. quality. In England the crops of wheat have

GEN. PIERCE AND THE CATHOLICS. MR. FAULKNER and the FREE PRESS.

To the Editor of the Spirit of Jefferson : SIR: I observe in the Free Press of the 12th betant, which I have just seen, some editorial comment upon the con you a fortnight ago. I imagine the answer of the editor to the alle-

gations then made, does not require any notice at my hands, especially as he seems to have learned from some source, the wisdom of changing his course toward the Representative of this District. I hope his newly donned mantle of propriety may rest easily upon his shoulders, though I am apprehensive he will, from want of habit, wear it but awkwardly.

The editor, however, says that the "writer in the Spirit, who signs himself (V. V., " is, " perhaps, the Representative himself or some mort-

gaged hireling."

The unspeakable meanness which prompted the low insinuation that Mr. Faulkner was the author of anonymous communication in defence of himself, can only be equalled by the contempt with which every honest man, be he Whig or Democrat, must regard so miserable an effort tovillify a gentleman, who has never found it necessary to repel his assailants in any other than the boldest and most open manner. As to the writer being a "mortgaged hireling," the editor of the Free Press can, by demanding his real name, satisfy himself who he is. He will find him ready to rebuke impudence and strip the mask from presumption, whenever he may deem it proper so to do.

The lordly and arrogant tone with which the ditor of the Free Press has judged of men far better than himself, added to the reckless personality which has characterized his assaults upon their characters and their motives, lead more than one to ask with me-

"Upon what meat Has this our Casar fed, That he has grown so great?" Filtreore. Webster and the North.

Horace Mann, one of the ablest men in New England has recently made a speech in the House of Representatives. We take some extracts from this speech for the purpose of enlightening the Southern Whigs, as to the true sentiments and feelings of the North. How long! oh, how long will it be before Southern Whigs shall see the awful gulf into which their party prejudices are now rushing them.

In speaking of the President, he says: As to Mr. Fillmore, on whom the South were more unanimous than on any one of all the other candidates, his bloody right hand had signed the fugitive slave land; and therefore it was ascertain, as anything future can be, that he could not obtain a single electoral vote north of Mason & Dixon's line. The infinite mercy of God may wash that blot from his name in another world but it can never be forgotten in this.

In speaking of Webster's support of the fugi-

tive slave law, he says: I am about to speak of his downfall in no spiri of personal exultation, though he has done me the greatest wrong. Because, when sitting on the top of his political Olympus, he hurled his shafts at me; I scorn to retaliate when he lies deserted and despairing at its base. The man does more poignant grief at his ruin than was felt in this heart of mine. But it was not on the 21st of June last, and at Baltimore that he fell; but on the 7th of March, 1850, in the Senate of the United States. It was then that he sunk his beaming forehead in the dust, never again, I fear, to be litted up. It was then that he tore from his brow the glorious diadem of Fame and cast its clustered stars away-a diadem richer than ever plazed upon the brow of royalty; for its gems were not gathered from rock or mine, but from the more precious treasures of wisdom and eloquence. Ten thousands of hearts were wrung with anguish, as cold, relentless, and blaspheming those apostate doctrines fell from his lips; I

that moral ruin than mine. The grandeur of Mr. Webster's intellect-the first point always made in his defence-I readily admit. On this point I give his friends carte

say no bosom, save now perhaps his own, was

ever more deeply saddened at the spectacle of

blanche of concession and agreement-the whole argument their own way. But, on the next point, I claim to have the whole concession and argument my own way : that though his intellect were fitted to fill "Dome of Thought," vast as one of those Egyptian statues that have been lately found on the

banks of the Nile, from whose craniums the natives have long been in the habit of cutting millstones without sensibly diminishing their bulk, yet if he could exchange it all to blot out the hisfory of that 7th of March speech, he would make a divine speculation. So certain has been the fate of Mr. Webster.

for the last eighteen months, that I and all those with whom I am politically associated, have foreseen it and predicted it with as much confidence as an astronomer foretells an eclipse. Let us trust that the fate of such victims will not be lost for the future upon northern men.

TROUBLE IN CAMP.

The Washington correspondent of the Balti more Daily Times, under date of Thursday last,

"Mr. Mangum has made a very pointed assault upon the Secretary of State, condemning some act of his-sending official advertisement to be published in Brownlow's paper, which is the leading organ of Whig disaffection in Tennessee or a trick upon the Whig party, and hint-ing that it would soon be out of Mr. Webster's power to injure it. He was supposed to intimate that Mr. Webster was about to retire from the cabinet, and place himself at the head of a movement of his friends for the Presidency.

PENNSYLVANIA.

The last number of the Pennsylvanian, contains the following in reference to the Grand Council of the Democratic Masses to be convened at Reading, Berks county, Pa., on Saturday next, 4th of September:

The Democracy of Pennsylvania will meet in general Mass Meeting for the first time in the present campaign, at Reading, on the 4th day of September next. Old Berks has been well chosen as the scene of this important gathering. Her massive majority for the right, and her devoted and consistent Democracy, render her soil peculiarly the place for an assemblage of the Demo-

cratic people of Eastern Pennsylvania. Already have invitations to speak at this meeting been positively accepted by Hon. Stephen A. Douglas, of Illinois; Hon. John B. Weller, of California; Hon. Charles J. Faulkner, and Hon. Richard K. Meade, of Va.; Hon. Colin M. Ingersoll, of Connecticut; Hon. James B. Bowlin, late M. C., from the St. Louis (Missouri) District; with others .-The Democrats of Pennsylvania need not doubt that there will be present at Reading, on the 4th proximo, a number of the ablest and most eloquent advocates of Democracy in the whole Union .-The State Central Committee, which have taken charge of the meeting in Berks, are laboring energetically to render it worthy of our candidates and our cause.

GRAIN AND FLOUR.

Prices on Friday and Saturday gave way under enhanced supplies, and the unwillingness of speculators to move freely in advance of the actual orders received from abroad. Flour is quoted 124 to 19 cents the barrel below the extreme rates of the week, and wheat from 3 to 5 cents the bushel less. THE WEBSTER MEN OF BOSTON -The friends

of Mr. Webster in Boston held their sixth meeting on Tuesday evening, when Mr. Torrey, a delegate to the Baltimore Convention, came forward and gave in his adhesion to the Webster movement. Mr. Winslow, in addressing the meeting, stated that he had it from the Hon. Rufus Choate himself that he would also support Mr. Webster. Mr. Winslow further stated that he knew Mr. Webster's sentiments in regard to a nomination. He knew that Mr. Webster would not go for General Scott, and that he would not decline a nomination from his friends of that or any other section of the country. It was resolved to postpone the general meeting at Fanuell Hall until the State at large should have time to respond to the movement, when it is proposed to hold a State convention in Boston.—

SECRETARIES. Samuel T. Walker. James W. Beller,

The President having called the immense assemblage to order, proceeded to read the following Ratificatory Resolutions, accompanied by an eloquent and beautiful speech on the part of Mr. Harris. The bold and manly position assumed n these resolutions by the Democracy of the Tenth Legion, will elicit the warmest approval of the Demecracy of the State, and but serves to rove that the old Tenth is as true as the needle o the pole.

The citizens of the counties of Shenandoah, Page and Rockingham, here assembled in geneal mass meeting, for the purpose of confirming and ratifying the nominations for the presidency and vice presidency, made by the Democratic National Convention, in the city of Baltimore in June last-have considered, and now unanimously adopt the following resolutions: 1. Resolved, That we cordially, heartily, and

to the fulls ware of our partiotic zest ratify or President, and of Col. WM. R. KING, or Vice President of the United States. We hail them, and accept them, as worthy the high onors reserved for them, and as possessing every attribute of talents and experience, purity of life, and purity of principles, to fit and qualify them to be the successful standard-bearers of the great national Democratic party; and we hereby ledge our most zealous and untiring efforts, to secure their triumphant election.

2. Resolved, That we adopt and ratify, in all is parts, and to the fullest extent, that series of resolutions called the DEMOCRATIC PLAT-FORM, as adopted by the Baltimore Convention not only as broad enough, and strong enough or the whole Democratic party to stand upon, but as the safest, soundest, and the truest expo-sition of the real principles, policy and doctrines of the great Democratic party, which has ever, peretofore, upon any similar occasion, been given to the country. We therefore, ratify them, and adopt them—and will now, and always sustain he principles which they contain, and the policy hey declare, by all and every honorable and pa-

riotic means in our power. 3. Resolved, That under our proud title of the TENTH LEGION OF DEMOCRACY"-a title of hoor accorded to us, by the great Apostle of Liberty himself, for our fidelity to Democratic principles, in one of the severest struggles in our poitical history-we will again, from this day forth. ourselves to the glorious and patriotic work, of making good the hopes and wishes of the Democracy of the Union, by securing the success of our candidates, and by placing the Government

again in the hands of its only true friends, the Democratic party. 4. Resolved, That we hereby declare our un diminished confidence, our warmest regard, and our devoted attachment to those shie and expeienced statesmen, James Buchanan and Lewis Cass. Their long and faithful services, their idelity to Democratic principles, commend them o the enduring attachment of their party; and o the expression of hope, that their talents, their experience, and their eminent public services, will long be continued to their country, to sustain its honor, to promote its welfare and to gather to themselves new and unfading laurels. '5' Resolved. That although the Virginia and Kentucky-resolutions of '98 and '99, have been sneeringly and contemptuously denounced, as a string of unmeaning abstractions, and every effort which malice, corruption, or a mad lust of power could command, has been used to lessen heir moral force, and to weaken their influence, vet we still believe them to be the only true and aithful exposition of the Constitution, and declare our enthusiastic devotion to every dectrine and rinciple which they contain: We believe-that they have stood, and still stand, as a great bar rier and safe guard to keep off the swelling waters of corruption and consolidation, which have often threatened to break over all constitutional retraints, and to sweep away the sovereignty of the States, and destroy the dearest rights and liberties of the people. For these reasons, we again declare our immovable adherence to them. and that we will forever support them, as the

wisest and most sacred commentary upon the Constitution, and fully equal to preserve both the General and State Governments in the full exercise of all their lawful power, so long as truth, and justice, and patriotism, have any influence upon the minds of men.

6. Resolved. That the Democratic party, is the only party of progress, and amelioration, and of civilization; that its principles, are the principles of eternal justice and truth, as applied to the affairs of men, in their social state; that it knows no North, no South, no local divisions, nor secional lines, but only seeks, by equal legislation, and by all just means, to secure the largest amount of liberty and happiness to the greatest number of people; that, this it does, by equally protecting all in the enjoyment of their rights, and leaving all equally free to pursue the direction of their own judgments, with all the energy and zeal which true freedom inspires; that whilst Whig measures, and Whig principles, even when they have had only a temporary ascendancy, have ever resulted in confusion, detriment and injury to society, -on the other hand, every real step of progress, which has been made in the advancenent of our great and wonderful country, has been made as the result of democratic measures and principles, and under the auspices of democratic administrations; wherefore, we again declare our firm, enthusiastic, and undying attachment to the great democratic cause; and in the spirit of fraternal confidence and zeal, stretch out our arms, and send forth our hearts, to the North and to the South, to the East and to the

The building, which has b age on Broadway and Prince streets of r nearly one-tenth of a mile, is fice height, and is beautifully decorated with rich fresco painting, of every shade and variety of style. Nearly one hand ors, with bath rooms and chambers ! are richly overlaid with velvet carpet most costly kind, and overhung with a of a design and shade corresponding fresco painting of the walls, which is in apartments the same. Besides these, about 200 gentlemen's rooms, finished in but little inferior, with hot and cold is every other convenience. All the rooms are provided with rosewood form variously colored heavy silk brocate ! entire building will accommodate from 5 700 guests. Mirrors, both manteland piers es, are placed in the main parlors, the expense of which is not far from 818.00 largest are 91 and 81 feet and are with any previously imported. One of these is in the bridal parlor, which is the most y furnished in the building. The alone, cost \$1,000; and the bedspread, of canary-colored satin, embruidered wit work, cost \$300. The drapery in this with its suite of rooms, cost \$2,500. net furniture is covered with gold and in brocatelle. In decorating the parlors and halfs, from \$10,000 to \$12,000 has been pended."

-Mr. Soule, the distinguished Sent Louisiana, in a private letter to thus speaks of Gen. Pierce:

"I have seen the man, and a man he mien, of winning manners, and easy and speech, of great directness of purpose, d speech, of great directness of purpose access, and yet dignified and imposing I tell you, who will grace the President add to the credit of our party, and do not nation. Principal.

Aug. 24, 1852-tf. CHARLESTOWN ACADEMY. THE trustees of this Institution having anpointed as its Principal, PHILIP H. POW ERS, a thoroughly qualified and accomplished instructor of youth, take pleasure in announcing that the Academy will be re opened under the most favorable auspices,

on Wednesday, 1st of September, 1852. The trustees have exercised every precaution and their best judgment in making a judicious selection of principal, and they believe they may now assure those interested in the thorough education of their children, that no Academy in the country offers greater advantages in accomplish-

ing that important object.

They have determined to give their personal attention to the exercises of the school, and to co operate with the Principal in securing good order and proper discipline, and at the same time by exciting in the pupils a proper spirit of emulation, to render their studies agreeable, or at least as little irksome as possible. The course of inst ruction will comprise every branch connected. with a thorough academical education, especially the Latin and Greek languages and the higher Mathematics, including Elecution and Composition; at the same time, particular attention will be paid to pupils in the department of a plain English education. Monthly reports will be made by the principal

to parents or guardians, of the standing and progress of each pupil. TERMS .. English Department, per Session 5.00 French extra, Classical and Mathematical, French

Students from a distance can be accommodated with board and lodging in private families on very reasonable terms, and the location is entire-Should the number of pupils require it, an assistant will be employed. Persons wishing to enter their sons will please o so as early as possible to the Secretary of the Board, Mr. N. S. White, or to the Principal. ANDREW HUNTER,

WINCHESTER, Va. THE REV. WILLIAM JOHNSTON, A.M., Principal. THE Trustees of the Winchester Academy take pleasure in stating that this Institution has been under the care of the Rev. Mr. Johnston for the last twelve months; and they are fully persuaded, from their personal knowledge of Mr. Johnston and his mode of teaching and governing the boys committed to his care, that for efficiency and sound scholarship and tact in discipline he has few superiors. We have seldom known a trentleman who possesses to as great a degree the qualifications of an accomplished teacher and disciplinarian. His government'is mild, but firm. His method of teaching is thorough. The recent public examination of the pupils, together with an occasion attendance upon the school during the year, has given us a high opinion of the advantages of this Institution. It is our candid and deliberate judgment that no private school or Academy in the State affords greater facilities for a complete academical education. Mr. Johnston will be assisted by BENJ. F. Bunton, A.M., a graduate of Princeton College, who has had experience in teaching. and is highly recommended as an instructor of youth. The Academy building is spacious, and the pupils boarding in the Academy will be under the special direction of the Principal. Circulars containing particular information will be furnished to those who apply for them to

the Principal or any of the Trustees. TRUSTEES: Robt. Y. Conrad, Pres't. Philip Williams, David W. Barton, Sec'y. Hugh H. McGuire, John Bruce, Thomas A. Tidba'l, Joseph H. Sherrard, James M. Marshall, A. 11 H. Boyd, James M. Mason, Robert T. Baldwin, Charles P. Krauth,

INTERESTING TO IRISHMEN.

From the New York Express, a Whig paper, during the Old Tip, Hard Cider, Log Cab in, campaign, 1840:

"Our population has among its members, emigrants from all European nations, including the LOW and UNEDUCATED IRISH, to whom the soil and climate appear no way congenial. They no sooner arrive here than their moral and mental faculties are thrown in great confusion; MISUN-DERSTANDING ALL AGREEMENTS WRITTEN OR VER-BAL-MISTAKING THEIR NEIGHBOR'S PROPERTY-FOR THEIR OWN; and when they think themselves free from all restraint, run a rapid career of vice and wickedness, ending in poverty and disgrace." But there is another paragraph worthy of a fiend, and cannot but call a blush to the face of Whiggery itself. It is the language of Mathew L. Davis of New York, well known as the "spy in Washington," and was written on the receipt of the news in Washington City of the great Democratic victory in the city of

"Had I the power, I would erect a gallows upon every wharf of the City of New York and hang every d-d Irishman as they come on shore." The same spirit pervades that same old "Coon party," revived under the" Soup Party."

SCOTTS'S REFUSAL OF OFFICE. .The two following "digs," from the Boston Post, are directed at a story some of the most ro-

mantic of the Whig editors have deliberately hinted at rather than told "The letter in which Mr. Madison offered the Secretaryship of war to Gen. Scott is not published, even in the campaign lives !" "The letter in which Gen. Scott declined the secretaryship of war when offered by Mr. Madi-

son has not yet appeared." A waggish Democrat suggests, as the possible foundation of the legend, that Scott may one day have called on the President, and, being obviously wearied down with carrying his feathers, may have been asked to "take a seat." His vanity enlarged the courtesy into an invitation to enter

It is reported that eleven negroes, ran away from their masters in Pendleton county, on the night of the 28th ult. Among those who left were three belonging to Z. Dyer, Esq., late clerk of the county, two were owned by Cyrus Hopkins, Esq., and one by Elijah Stonestreet. It is supposed that they were enticed away by a white man; if the supposition be true, we hope the fellow may be arrested and suffer the penalty he so richly deserves.

-The revenue of the Baltimore and Ohio Railroad Company for the month of July, 1852, from both roads, was \$135,58763, of which \$106,922 06 were from the main stem, and \$28,-668 51 from the Washington branch. An increase, compared with the corresponding month of last year, of \$11,973 81 on the former, and \$4 550 38 on the latter.

-What kind of Whigs are those who believe that Scott will be elected? Soup-erstitious ones of course.

-A young gentleman asked a young lady what she thought of the "marriage state in ge-"Not knowing can't tell," was the reply;

"I have turned many a woman's head," boasted a young nobleman of France.
"Yes," replied Talleyrand, "away from you."

-If you don't wish to fall in love, keep away from the women. It is impossible to deal in honey, and not taste it. -A sailor being about to sail for India, a citizen asked him where his father died?

"In shipwreck."

"And where did your grandfather die?"

"As he was fishing, a storm arose and he with his companions perished." "And your great grandfather?"
"He also perished from shipwreck."

WHEAT FANS. THE WHEAT FAN, known as the "Gener see Farmer," has superseded the use of al-most every other Fan in the State of New York and other Wheat growing States. It is adapted to cleaning every description of seed, and as a Clover Seed or Timothy cleaner has no superior. This Fan has been most fully tested, and every where elicited the highest commendation. It has taken the premium at several of the best Northern exhibitions, and for superiority of construction, expacity for working, and economy of price, stands unrivalled. The following certificates from some of the most intelligent and successial agriculturists in the Valley of Virginia, attest its merits wherever tried. This list, were those offered not deemed sufficient for all reasonable men, could be extended to an indefinite ex-JAMES RUNYAN.

Charlestown, Nov. 11, 1851-1f. Gardner & Rohr's Wheat Drill,

SEED PLANTER. HE undersigned having purchased the right L to manufacture and sell this unequalled Drill in the counties of Loudoun, Clarke, and the southern half of Jefferson, are now fully prepared at their establishment in Charlestown to furnish to order any number of Drills, made in the.

most substantial manner. All orders promptly attended to. This Wheat Drill performs the triple work of Drilling, Sowing and Covering by the same movement, thereby saving much time and labor. It will plant point rows, and all irregular shaped fields, with a saving of from 10 to 15 per cent. in labor, it will, with ease for two horses, plant from 8 to 10 acres per day of Wheat, Barley, and other small grains. This Machine has been in use two seasons, and wherever it has been introduced has given entire satisfaction. This Drill took the first premium at the Valley

Agricultural Exhibition in October last. Also, the first premium at the Agricultural Exhibition for Belmont county, Ohio, October 23, 1851. O'BANNON, HENSON & HUNT. March 23, 1852:

We have in our possession a large number of certificates, recommending this Drill to the farmer as having no superior. Among the number the following I have used on my farm and am still using one of the Wheat Drills, patented by Gervis S. Gardner and George Rohr, and now sold by Messrs. Henson, O'Bannon and Hunt. I do not suppose any intelligent farmer would now dispute the advantage of drilling over broadcast sowing; I also consider the above Drill altogether equal to any drill now in use, and the advantage of apply. ing a compost box to it, makes it very desirable-The compost part of the drill acts well in every particular and is one of the greatest inventions of

farmer's friend, as it saves both time and labor.

DR. JOHNSON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS. This grand and important Remedy has restore strength and vigor to thousands of the most debilinated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the nervous system, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an amaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion.

Such persons before contemplating MARRIAGE. should reflect that a sound mind and body are the most necessary requisites to promote concubial happiness.— Indeed, without this, the journey through, life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. WHATEVER concerns the health and hap-piness of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; i you have an appetite continually changeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular-remember that all these

denote WORMS, and you should at once apply the remedy :-Hobensack's Worm Syrup, An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the mast tender Infant with decided beneficial effect, where bowel complaint and diarrhea have made them weak and debilitated the Tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines, in giving tone and strength to the Stomach, which makes it an Infallible remedy for those afflicted with Dyspepsia, the astonishing cares performed by this Syrup after Physicians have failed, is the best evidence of its superior

efficacy over all others. The Tape Worm. This is the most difficult Worm to destroy of all that infest the human system, it grows to an almost Indefinite length becoming so coiled and fastened in the Intestines and Stomach effecting the health so sadly as to cause St. Vitus Dance, Fits, &c., that those afflicted seldom if ever suspect that it is Tape Worm hastening them to an early grave. In order to destroy this Worm, a very energetic treatment must be pursued, it, would therefore be proper to take 6 to 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm, which must be taken in doses of 2 Tablespoonfulls 3 times a day. These directions followed have never known to fail in curing the most ob-

stinate case of Tape Worm. Hobensack's Liver Pills. No part of the system is more liable to disease than the LIVER, it serving as a filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver of foots the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c. with pleasure I can testify to the great healing powers of HAMPTON'S VEGETABLE TINCTURE. My wife had been afflicted for three years, laboring under a constant lacking cough, with a most violent pain in ner right side, neuralgia in the head, and a dimness of sight; very little rest day or night, and much emaciation, and to all appearances a rapid consumption inevi-table. We had the most eminent physician in Annapolis, but his medicine did not give her any relief at all, but growing worse if any change in the least; and afterhaving read one of your pamphlets, in July last, she concluded to try Hampton's Vegetable Tincture, and after taking but two bottles of which (under a kind Providence) we perceived a great change for the better: her appetite improved, her skin became quite clear, cough, pains, neuralgia, &c., entirely left her, and by the time she had taken a few bottles more she was comlately cored, and is now in the enjoyment of most ex-I have seen also its beneficial effects on several other ladies of Annapolis, and I think I can say from what I have seen of the Medicine, I do not believe its curative powers can be equalled. The patient was three years old; and had the scrofula—(his father was scrofulous.)— The boy was a moving mass of sores from head to foot, the upper lids of the eyes were much swollen, and turned inside out, exhibiting horrible mattering ulcers that protruded over the eye balls so as to produce blindness. It is strange, yet true, this child, that I felt resigned to see die as a relief from suffering, has been re-stored to liealth under the treatment of Dr. Hampton.
