The zephyr on its pinions free, The thunder with its thrilling notes, The peal upon the mountain air, The lay that through the foliage floats, Or sinks in dying cadence there; These all to thee their voices raise, A fervent song of gushing praise.

The day star herald of the dawn, The day star heraid of the dawn, As the dark shadows fit away, The tint upon the cheek of morn The dew drop gleaming on the spray— From wild birds in their wanderings, From streamlets leaping to the sea, From all earth's fair and lovely things, Doth living praise ascend to Thee; These with their silent tongues proclaim, The varied wonders of Thy name.

The melody of Nature's choir,

LYNCH LAW IN VIRGINIA.

The citizens of Liberty, Bedford county, Vaynched a negro a few days ago, under the following circumstances :

"It appeared from the statement of others and his own confessions that he was found in bed with two little white girls on Tuesday night after they had fallen to sleep. Their father (one of the most respectable citizens of the place) was absent on business in the city, and there was no grown person about the house except an old negro woman, who was sleeping in the same room. The boy had broken in at a window, and when discovered was lying very. quietly, and apparently asleep, between the two little girls, and when the alarm was given by them he made his escape. The citizens of the place on Thursday morning, upon hearing his confessions of the fact that he was there and for what purpose, and feeling very indignant for having removed them from the scenes of their troubles to a quiet and peaceful home on the banks of the Delaware which in the full-ness of their hearts and in faith that the spirit of religious persecution would never again reach them nor spring up among them they A slave who was also somewhat implicated was brought out and whipped until the meeting was shaft into the human mind, and developes its hidden gold. how to prepare pure chemicals, analyze soils, mine-rals, marks, &c. A workship is furnished with a Turning Lathe and a great variety of tools for working in wood and me-tal. Hence the students have an opportunity of wit-nessing all the branches of mechanism from the fell-ing of the timber to the polishing and finishing of handsome and costly apparatus, every part of which is familiarly explained. Their attention is not confined to the class book, but they are taken into the laboratory, the workshop, the garden and the field; and they are made acquain-ted with hundreds of operations which every body sees, but few can explain. The design of the Institution is to prepare young men for business. To accomplish this desirable end, neither pains nor expense is spared in obtaining eve-ry thing necessary for foll and complete instruction. The buildings are new and commodious. The labo-ratory is conveniently arranged for all the manipu-lations in qualitative and quantitative analysis, and the location has all the advantages of purity of water, salubrity of atmosphere, and beauty of scenery. . The course of instruction is varied to suit the far-mer, the merchant, the engineer, &c.

Miscellaneous.

THE LIFETIME OF MAN. When the world was created, and all crea tures assembled to have lifetime appointed, the

ass first advanced, and asked how long he would have to live. "Thirty years roblied Nature ;" " Will that be agreeable to thee ?" " Alas," answered the ass, "it is a long while. Remember what a wearisome existence will be mine; from morning until night I shall have to bear heavy burdens, dragging corn sacks to the mill that others may eat bread, while I shall have no encouragement, nor be refreshed by anything but blows and kicks. Give but a portion of that time, I pray " Nature was moved with compassion and presented but eighteen years. The ass went away comfort-

ed, and the dog came forward, " How long dost thou require to live?" asked Na ure.-"Thirty years were too much for the ass, but wilt thou be contented with them ?" " Is it thy will that I should?" replied the dog .-"Think how much I shall have to run about; my feet will not last for so long a time, and when I shall have lost my voice for barking,

and my teeth for biting, what else shall I be fit for but to lie in a corner and growl ?"-

Nature thought he was right and gave him twelve years. "The ape then appeared .--"Thon will doubtless, willingly live the thirty vears," said Nature; "thou wilt not have to labor as the ass and the dog. Life will be pleasant to thee." "Ah, no," cried he, " so it may seem to others, but it will not be .--Should puddings ever rain down I shall have no spoon. I shall play merry tricks, excite? laughter by my grimaces and then be reward- too numerous to mention; most of them afed with a sour apple. How often sorrow lies concealed behind a jest. I shall not be able wholly navigable for the smaller class of steam

to endure for thirty years" Nature was gracions, and he received but ten. At last came man, healthy and strong, and asked the meas-ure of his days. "Will thirty years content. thee ?" " How short a time !" exclaimed man. "When I shall have built a house and kindled a fire on my own hearth; when the trees I shall have planted are about to bloom and bear fruit; when life shall seem to me most desirable I shall die !" "O, Nature, grant me a longer period !" "Thou shalt have the eighteen years of the ass besides." "That is not enough," replied the man. "Take likewise the twelve years of the dog." "It is not yet sufficient," reiterated man; "give me more !" " I give the then the ten years of the

ape; in vain wilt thou claim no more !" Man departed unsatisfied. Thus man lives seventy years. The first thirty are his human years, and pass swiftly by. He is then healthy and happy--he labors cheerfully and rejoices in his existence. The eighteen years of the ass come next, and burden upon burden is heaped upon him, he carries the corn that is to feed

others; blows and kicks are the wages of his faithful service. The twelve years of the dog follow, and he loses his teeth, and lies in the corner and growls. When these are gone the ape's ten years form the conclusion." The man, weak and silly, becomes the sport of children.

MYSTERIOUS AFFAIR.

Last week, the dead body of two boys aged about 17 and 18 years, were found in Staunton watcha, and Silver Spring, are the principal rivers. The creeks of this denomination are river, at the shallow Ford, between Bedford and Franklin. The circumstances attending this melancholy event, are as follows:

Their father, Mr. Wyatt Brown, who resides near the river, having occasion to go to Lynchburg, directed the boys before his departure to cross the river (if it should rain during his absence) and procure some cabbage plants. On Wednesday evening a cloud came up, and supposing it would rain, they procured a basket and proceeded to cross the river, in order to get the plants before the rain began to fall. The river was very low, and at a point just above the ford, the neighbors are in the habit of wading across, the water being not more than knee deep. The boys not returning, their continued absence excited the fears of their mother, who, together with the neighbors, went in search of them. An unavailing search was kept up all night, which was continued the next day until the evening, when their bodies were discovered lying in the bottom of the river, some fessor Agassiz, who says that Florida was 200 yards below the crossing place, and probuilt by the coral worm, and other marine bably 100 yards apart-one being near the Bedford bank, and the other near the opposite animalculæ? and that it took them upwards bank. No marks of violence were found, exof one hundred thousand years to accom-

The supposition that the eyes were closed is sustain ed by the fact that the edges of the lids were not scratched. amounted to \$4,250,000, consisting of \$3,940,000 in The gallant cavaliers who after having persecuted the pilgrims and driven them from the kingdom under Charles I., were in turn routed and pursued by Cromwell, with his invincible army of Round Heads, until they fied to Virginia, where they established the Church of England.

The Huguenots who settled in South Caroina were also refugees from religious persecution. Thus it will be seen different colonies were the representatives of the various religious sects in Europe, who had each been persecuted and had nearly all persecuted each other in turn until, by the strange vicissitudes of fortune, they were driven from their native land and forced to seek an asylum upon this continent, where each could be protected in the worship of God in accordance with the faith he had embraced. In proportion as they became tolerant and just in matters of religion they became liberal and enlightened in respect to the true principles of civil government .--When the revolution broke out, in defence of their civil and political rights, each and all of these colonies rallied under the banner of their common country. The revolution establishedtheir independence, by converting the dependent colonies into distinct sovereign States .--Yet it was not until the adoption of the Constitution of the United States that their liberties were consolidated and placed on a firm and ture basis. In the Constitution it was provided that " No religious test shall ever be required as a qualification to any office of public trust under the United States."-

[Immense applause.] The provision was adopted unanimously. was the common ground of justice and equality upon which all religious denominations could stand in harmony and security. It expressed in language the true principles of religious toleration, the correctness and necessity of which had been thoroughly vindicated in the history and experience of each of the colonies. It was heartily concurred in by Protestant and Catholic-by Quaker and Huguenot-each and all of the religious sects and denominations agreed upon this great principle as a platform ; a common ground upon which they and their descendants in all future time could and would stand in the bonds of brotherly affection.

By another clause of the Constitution no man ean hold any office under the government of the United States or under any of the State governments, until he has subscribed an oath to support the Constitution of the United States. This oath must be taken, and ought to be kept, not only by Presidents and governors, and judges, but by mayors of your cities and all their subordinates in office. [Tremendous cheers and applause.]

Now, fellow-citizens, permit me to inquire n all kindness, how can the members of this political society called "know nothings," take upon themselves a solemn oath by which they shall stand pledged to raise up a religious test as a qualification for office, in the very teeth of the Constitution, by proscribing men on ac-count of their religious faith ? Will they excuse themselves upon the ground that they did not know of this clause in the Constitution ? [Cheers and laughter.]

Will they tell us that they did not know the history of their own country-that they did not know of the sufferings and persecutions to which their fathers had been subjected on account of their religious faith-that they did not know that the obligations and principles of their society were at war with the genius of our whole republican system and in direct conave been caused by rubbing against the rocks

BURYING ALIVE.

A paper was read before the French Academy of Sciences, in which the following extraordinary instance was adduced as a reason for abolishing the present custom of burying so soon after death :

" A young female had been twice pronounced dead, when only in a trance, but had recovered in time to prevent from being buried alive. A third trance came on, and in consequence of what had previously occurred, permission was obtained from the consti-tuted authorities for the body to remain above ground so long as decomposition should not take place. A week-ten days passed away-there was still no decomposition; but all the medical men de-clared she was dead, and at length she was laid in a coffin. Only a few minutes before the coffin was to be nailed down, and while the bell of the village was already tolling for the funeral, a female from the adjoining village, who had been a schoolmate of the supposed deceased, came to take a last farewell.— She stooped to kiss the lips of her departed friend, and remained in that position for some time. The bystanders attempted to remove her less her emo-tions should be injurious to her. She waived them away with her hands, and remained in that position, with her lips upon those of her deceased friend, and breateing, as it turned out afterwards, the warm breath of her life into her lungs. At length she exclaimed : "She lives," and then rising from the body she pointed out unequivocal signs of life. She then stated when she was kissing her friend, she fancied she felt her breath, and in a few minutes was convinced of that fact. The female who was suppos-ed to be dend was taken out of the coffin and placed. in a warm bed, and in the course of a few hours fully revived. She stated that she was during her trance, fully sensible of all that was passing around her, and she even heard the death bell toll, but was utter-ly incapable of speech or sign to show that she was not dead."

WHO ARE YOUR ARISTOCRATS?

Twenty years ago, this one made candles, hat one sold cheese and butter, another butchered, a fourth carried on a distillery, another was a contractor on canals others were merchants and mechanics. They are acquainted with both ends of society as their children will be after them-tho' it will not do to say so loud! For often you shall find that these toilng worms hatch butterflies and they live about a year. Death brings a division of property, and it brings new financiers; the old gent is discharged and the young gent takes his revenues and begins to travel-towards poverty, which he reaches before death, or his children do, if he does not. So that. though there is a sort of monied rank, it is not hereditary, it is accessible to all; three good seasons of cotton will send a generation of men up-a score of years will bring them all down. The father grubs and grows rich -his children strut and use the money .--Their children in turn inherit the pride, and go to shiftless poverty; next their children, reinvigorated by fresh plebiean blood, and by the smell of the clod, come up again. Thus society, like a tree draws its sap from the earth, changes its leaves and blo

wholly navigable for the smaller class of steam and sail vessels, throughout the entire distances of their superterraneous courses .--Those that are not, can be made so with comparatively small trouble and little expense .--The same writer also says, that the number of mineral and thermal springs in Florida, is more than two thousand. Their principal solid ingredients are the sulphates of lime, magnesia and soda, oxide of iron and some iodine. Their volatile ingredients consist of

sulphretted hydrogen, carbonic acid and ni-trogen gases. These gas soon evaporate if the water be exposed in an open vessel to the atmosphere; its taste then becomes insight, in some instances either magnesian or acrid. If Florida be so thickly imbedded with mineral ores, will it not clash with the theory of Pro-

THE ALLES.—Here are figures which it will be well to bear in mind. The whole number of French troops sent to Turkey thus far, is 47.310, with 7,858 horses and mules; the whole number of English troops is 31,660, with 5,000 horses and a few mules. The allies, therefore, number nearly 80,000 men. The total of the French land troops to be embarked at Ca-lias under Gen. Baraguay d'Hilliers, will be 40,000 men. This is an addition to the 80,000.

HONOR, TO WHOM HONOR IS DUE. We publish in our paper to-day, what we presume is the closing communication of "Not Ion," on the subject of the National Armories. He was among the first who took the subject in hand, has most ably discussed every point in controversy and is entitled to the thanks of the mechanics of the Nation-We would give his name, but " we don't know." There are other questions of interest which we hope he may find time to discuss, and our columns be selected as the medium.

SICKNESS PREVALENT.

Our Obituary columns will attest the fact, that the ravages of Death is in our midst, and the old and the young are alike its victims. We have never known more sickness, and there is scarcely a family exempt. Dysentery seems to have become a sort of pidemic, and has proved thus far most fatal in its results, though from the untiring exertions of our physicians, and care and caution, many violent cases bave been cured. Great care should be used at this time in both exercise and diet, and the incipient stage of the disease, when it may come, is the only time that ordinary remedies are efficacious .--The Dry Weather and the intensity of the heat, no doubt greatly adds to the mortality of the Epidemic, and increase beyond measure the suffering of those who are so unfortunate as to be afflicted.

The main track has been nearly all re-laid with the T rail, and the condition of the company is represented as prosperous, the income baving been increased and the expenses diminished during the

The following Table, which we find in Hunt's Marchants' Magazine, is from the minutes kept at the office of the Van Rensselaer Manor, at Albany, where large amounts of rent are pavable in wheat, or a cash equivalent, on the first of January each year; and as two parties are deeply interested in the price, it is probably the most reliably correct of any record that can be obtained. There is quite a lesson in these figures-look at them:

SEEEING OFFICE ADAM RHULEMAN. We transfer from the Dally Globe of the 10th inst., ome remarks from Mr. Faulkner made in an incllental debate, paying a just tribute to the character of Adam Bhuleman who is well known in this County. It would be well if every public man in the country was as free from the vice of office-seek-. ing as the representative from this District, the statement made by him is worthy of being noted : Mr. FAULKNER. When the gentleman from Mas-sachusetts, [Mr. DICKINSON,] some days ago, submit-ted his resolution asking the information now fur-nished by the War Department, it was objected to by my friend from Maryland, [Mr. VANSANT,] and also by the gentleman from Tennessee, [Mr. CHURCH-wELL] At my request they withdrew their objec-tions and the resolution was adapted by the bet

tions, and the resolution was adopted. I thought the inquiry a very small affair, and scarcely worthy of the attention of the gentleman from Massachusetts, or of the consideration of Congress. Still, as the state-ment had gone abroad, and been widely circulated, that some of the commissioners engaged in the in-vestigation at Springfield had been applicants for the place of Superintendent, as that statement had been denied, and as many unfounded and exaggerated reports had gained currency on that subject, I thought it better that the facts should appear before the country in some authentic form, that those concerned in the inquiry might fearlessly confront the accusation, and have justice done to their character accusation, and have justice done to their character and motives. The inquiry was, in many respects, objectionable in principle, but it did not become the friends of these gentlemen to oppose any obsta-cle to the full development of the truth. So, when the response of the Secretary of War was received a few moments ago, and partially read at the Clerk's table; I asked that its further reading be dispensed with a secretary of the truther reading be dispensed

with, and printed. My friend from Kentucky, [Mr. STAUNTON] now asks that the motion to print be reconsidered; and his remarks sustaining his proposition he has informed the House that my name is alluded to in the report of the Secretary of War, and that a letter of ine is among the papers ordered to be published. Sir, the Secretary of War or any other Secretary, is at perfect liberty to publish any letter of mine ad-dressed to him officially or privately, so far as I care. Certain it is that no letter of mine will be found in any Department of this Government presenting my name for any Executive post or appointment. No, sir; I have the proud gratification to say before this House, that at no period of my life, nor under any Administration which has ever exercised power in this country, has my name, directly or indirectly, been presented to any President or Cabinet Minister for office. The letter written by me, and now to be published, is one recommending a most excel-lent and competent mechanic to the post of master or-morer at Harpers-Ferry. I made that recommendation, not only from my own sense of its propriety, but because urged and instructed to do so by a large body of my constituents. That letter has been evis-

cerated from the files of the War Department, where it has been permitted to slumber for more than twelve months, and is now laid before this House for the avowed and sole object of detracting from the just weight and influence of the evidence of Adceived. am Rhuleman, by seeking to show that he was interested in the change of superintendency at Har-

I cannot see how this fact can support the conclu-sion sought to be drawn from it. His application for the post was made, and his testimony given, under the military superintendency. He did not come forward as a volunteer to testify. He was brought before the committee by the stern mandate of this House, and his evidence is marked by all that clearness, force and caution which distinguish an honest and truthful witness. I know Mr. Rhuleman well, and I know him to possess a reputation for truth not excelled by any of his assailants. I feel proud of the interest which I have taken in his adrancement. I desire him to fill the place of a man at Harpers-Ferry, who had by his partisan conduct. rendered himself unworthy of the post.

The Secretary of War, in my judgment, erred most grossly in permitting him to remain in office one hour after he had pronounced a severe official judgment upon his conduct; and I here assert that the interests of the Government could not have been

TERRISTRE ELEC IOT RIOT AT ST. LOUIS

everal Persons Killed-Large Number The Mililary Called Out, It was briefly stated by telegraph, a few days ago, that a disgraceful election riot occurred in St. Louis, on Monday week last. We yesterday received the

St. Louis Democrat, containing the annexed particulars of the bloody affair : It originated about 2 o'clock in the afternoon at the polls of the fifth ward, between a party who call-ed themselves Americans and a number of Irish who had gathered around the engine. The fight was a general one, which was followed by slight skirmish-ing all along Third street between Vine street and Particle and the street between the

Franklin avenue, serving very much to increase the excitement and draw together a large crowd. Wherever an Irisbman was seen on the street he

was pursued and most cruelly beaten. Finally pur-suit of one was made down Morgan street, where the mob were net by a number of Hibernians, who gave battle by throwing stores and firing pistols, but the crowd of rioters increasing they gave way and re-treated to their houses between Main and the Levee on Morgan. Here, for a while, the mob was a scene of the wildest excitement. The Irish fired as many perhaps as a hundred pistols shots into the crowd, who were breaking in the doors and windows of the houses by showers of stones from the street. At last the shooting was silenced, and the mob proceeded down to the levee, and along it to Locust street, assailing every coffee house or tenement supposed to

contain foreigners with a continued storm of mis-After this the Irish made another stand on Second street, but were driven down past Cherry, the mob still continuing their assault upon the houses and windows. They then proceeded up Morgan and Green streets, above Fourth, and assailed a number of houses, completely riddling the doors and win-dows with stones and brickbars. During the evening a slight assault had been made on the office of the Auzeiger Des Westens, but the party were dis persed without much injury. In the meantime the military and police were out in full force, scattering the excited combatants here and there and doing much to restore quiet to the city. About 10 o'clock at night, however, a company of the rioters, number ing perhaps 20 came marching down Third street rom the scene of assault up to Morgan, with stones in hand, and shouting in the wildest manner, and upon arriving in front of the Anzeiger office, again commenced an assault upon the windows and doors of the house. At this juncture the military came

charging upon the crowd again and dispersed the mob. When we left the scene quiet seemed to be in a very fair way of being restored, the military having complete possession of the street, and seem-ing determined to enforce order. It is utterly impossible to estimate the number of

persons wounded in the whole affair, or even to say now many have been killed. We saw at least twent men lying bleeding and wounded so severely that they were perfectly insensible—their faces cut most horribly and skulls mashed, and some appeared perfectly dead; and then we have learned of three men certainly killed, and of five or six more who are thought to be dead at this time from wounds re-

It is a wonder to us when we remember the number of shots fired and the exposed position of the mob, that there were not double the persons killed and wounded. A - man by the name of Shanaon was stabled in the back of the neck, from which he very probably died last night. A hand from the steamer lenry Chouteau was killed instautly, and a man by the name of Joe or Frank Freeman was shot through the heart, and fell dead without uttering a word. He was standing near a lumber pile at the foot of Morgan street, on the levee, with his arms folded, watching the affray without at all participating, when he recieved the fatal shot from a window of a nouse on Battle Row

We hear of one man being shot in the leg, another in the hand, one in the abdoman and another in the. shoulder. We cannot pretend to give a correct statement either of the number killed and wounded, or the true origin and continuance of the mob. The

immense excitement throughout the whole city prevented the procurement of any reliable account of the disturbances:

We have still another new party, who are to signated as the "Iron Heads," having its pat at White Post in our neighboring county of Clar As contra-distinguished from the "Know Nothing this new party has the Constitution for its cha and neither afraid or ashamed to emblazon its prin-ciples to the world. My DEAR Sm:--I transmit to you for publication in the Spirit of Jefferson, a preamble and set of reso-lutions upon which we have organized, what we hope is destined to prove a strong party in Virginia if not the Union. The principles set forth are invulnera-ble and will stand the test I think of political scrutiny, and should they expand, inducing the many to unite in a common cause to defend the Federal Contitution, maintain the Rights of the States, to protect civil and religious liberty, and preserve our glorious Union, much will have been accomplished for

the good of our country. There is a secret political party availing itself of the present discord and confusion in the two great parties of the country springing up in our midst, whose principles and objects are concealed from the public eye and from what we can by accident and inference learn, that they are in conflict with the Constitution of the United States and its present progressive prosperity; and it is incumbent on all good and patriotic citizens to unite together in a great onstitutional party to prevent the secret aims and bjects of it from overriding the State and country. hen again these sectional parties which more paricularly infest the North we oppose utterly and en-

The progress of America as a nation, has surprised the world, and has it not moved on under excessive foreign emigration? furnishing us with means to build our railroads, construct our canals, improve us in the arts and sciences, and to fill the chairs of our colleges! Then, why, in the face of this national fact exclude them from our shores? Forgetting as we must the vital aid too they rendered us in our revolutionary struggle, securing to us a country blessed with all the comforts a free people could de-sire. Ingratitude ! did we do this thing, like the rainbow in conspicuity, should be written on the heavens with liquid fire, that the earth in its diennial revolutions might display it to all nations, to the indellible disgrace and shame of the American characters.

I am glad to say our party is taking like a Western prairie fire and by next spring, when the polls begin to open to us we will make ourselves to be heard, felt and respected.

I discover the papers dont know what to say or do as it regards the "Know Nothings." Most of them are silent while this unnatural and inhospitable party is secretly increasing its numbers daily and mus prevail unless the prosperity of the "Iron Heads" can prevent it. . Take out the vote of the "Know Nothings" and " Iron Heads" next spring and I should like to see what in the name of heaven the Democratic and Whig parties proper will do. We have already driven several out of the "Know Nothings" into our party and I hear there will be "a few more of the same sort left,"-they are coming 1 Many go into that party to get out of the confusion and want of concert of action which prevails in their own, without knowing what principles or what ends their aid may be required to promote. The principles of the "fron Heads" are to be, as you see, published to the world; and I do say they afford the firmest plat-form, the broadest and most unexceptionable, a great party actuated by the general good of a country and not by narrow, selfish ends, ever stood upon. And it will afford you editors a weapon to fight with while at this time you can rely on nothing certain from the two great parties in their present state of infidelity among its members, discord and confusion YOUR FRIEND

Truly, MEETING IN CLARKE.

At a meeting of the citizens of White Post and neighborhood, called by public notice, and held on. HON, B. M. T. HUNTER'S LAND BILL

FROM .THE WASHINGTON SENTINE Messne, Epirones: The clamor which has been raised by a portion of the democratic press agains Mr. Hunter's substitute to the odieus Homestead bill is as usjust as it is uncalled for. Denouncing the substitute as a frand upon the people, they indirectly attack its author. Will these brave sticklers for strict construction of the Constitution, point out in the bill any violation of that instrument? Does i distribute the proceeds of the sale of the public lands? Does it divide out the lands themselves am Does it divide out the lands themselves among the different States? Does it give one foot of the terri-tory of the United States to the indigent insane, or to the homseless immigrant? By allowing the State to come into the market as a pre-emptor, is she not afforded an opportunity of obtaining the entire con-trol of all the territory situated within her limits, and that, too, not by taking of an unconstitutional enactment of the federal Congress, but by paying into the federal treasury a valuable consideration for property which she purchases, and which Congress

into the redersa treasury a valuable constant and the property which she purchases, and which Congress constitutionally disposes of? Surely if Congress has the power to dispose of the territory belonging to the United States, a safer and wiser disposition of it could not be made. Allow the States to become the legal as they are

now the equitable owners of the public lands, and a question which for years has been a bone of contention between the State and federal governments will be taken from the federal authorities, and given to those who are legitimately entitled to its distribu-tion. Under the operation of this bill, men will discover in the increasing wealth and prosperity of the States a more honorable and lucrative road to dis-tinction and emolument than that which is at present leading them in swarms to the federal Capitol. The citizens of the States will look to the States for

The citizens of the States will look to the Shates for honors and protection. Their allegiance to the one will be strengthened, and their dependence upon the other in a corresponding degree abated. The ten-dency to consolidation and centralization will be checked, and the Union may yet be brought back by the aid of similar enactments to a fulfilment of the designs of its patriotic founders. Diminish its power and increase that of the States and it will again be the obedient agent and no longer the arrogant and dictatorial principal. In decreasing the number of federal officers the necessity for the large amount o revenue which is at present collected will be, in a measure, obviated, whilst, at the same time, the capacity of the State to bear a heavier taxation will be

greatly enlarged. The chief objection urged against the bill is, that it contains the homestead principle. If this be true it is true, only as regards the title of the bill. rule and oppression-the more keenly felt because in a land of freedom-and from which they are but now relieved?

The Constitution is not violated or the rights of the States trampled under foot by a gratuitous donation Who that has felt the sting of injustice and expeof the public lands. No man can occupy one foot of rienced no pleasure when righted? Who that has the territory for which he is not bound to pay a fixed been crushed by oppression and felt no relief, no joy, government price. Doubtless the bill would have been more acceptable had it been possible to affix a higher price to these lands. Yet what is lost in this when it was removed ? Or, who that claims to be an American that has felt no triumph, experienced espect is more than compensated for by the provisno sensation of pleasure and delight, when tyranny ion which grants to the States the pre-emption has been baffled, defeated, or humbled?

The government of the United States holds this Territory in trust for the States. The object of its agency is to make such a disposition of the trust property as will best supply the fiscal wants of the general government and relieve the States from taxion. Under Mr. Hunter's bill I contend that this Penal Colony of England, Meagher and Mitchell, with object is attained without any violation of the Constitution. Under it the wants of the 'tax' consumer no recommendation but the broad chart of hatred to are diminished because their numbers are diminish ed, while the burden of the tax-payers will be de creased by the enlargement of his taxable land. If the actual settler pays only a nominal price, so also to the States.

the murderous grasp of Austrian stupidity and cruel-As a measure of expediency, the bill strongly re ty, by the intrepidity of Ingraham, was hailed by thecommends itself to popular favor. Fail to pass it, and at the next session of Congress, or certainly, at united voice of the American people as an act of the some future session we may expect to witness an un-constitutional donation of the public lands to railloftiest heroism and worthy the highest commenda-. tion, and our National and State Governments, in road and other companies, incorporated for purpo-ses of public plunder. On the contrary, pass the bill, and we may soon see the Atlantic and Pacific their legislative capacity, united to do him honor and to affirm the deed. And shall not we, the sons oceans united by railways built by a corporation in of freedom, born and nurtured upon its soil; shall not which sovereign States will be the corporators and we express our feelings of gratitude and admiration stockholders. These railroads spanning the western toward those who have aided or been instrumental and south-western States, from one extremity to the her, will furnish an almost in revenue, while, as a means of national defence, they will eaable us to laugh to scorn all attacks upon our rights, come they from a foreign or iomestic source I believe that when the history and objects of this bill are understood by the public it will command public approbation. The republican party of Virginia, and of the south have an abiding confilence in the virtue and partriotism of Mr. Hunter. By introducing this bill he has done nothing to betray that confidence. Those who see but half the pattle-field are scarcely equal to the direction of the fight; yet let the battle be lost or won, and the men who are brave at a distance, not unfrequently point out mistakes which have incurred disaster, and suggest methods by which advantage might have been gained In speaking of those who occupy exalted stations, Dr. Johnson well remarks, that "if it were possible that a man should always act rightly, yet when such numbers are to judge of his conduct, the had will censure and obstruct him by malevolence, and the good sometimes by mistake." From the malevo ence of the one class and the mistake of the other; Mr. Hunter has nothing to fear. The people of the south have fresh in their memory the services which he has already rendered them. Even had he com mitted an error in this particular instance, a gener ous and confiding constituency, a grateful and magnanimous people would not paralyze his influence by deserting him at the beck of the capitous critic vho distributes his type in vehement vindication of the Constitution only at a time when the Constitution is not threatened with invasion. The people remember that when many of these sun-shine triots fell off, he stood firm. When they crouched, he resisted ; when they clutched their pay, he spurned the bribe: when traitors from the democratic ranks hey forsook their ancient faith, and deserted their flags when the tide of battle pressed hardest against it; when, in 1850 they advocated measures more unconstitutional and anti-republican than any which ever disgraced the legislation of the country, R. M. T. Hunter, fighting side by side with the mighty Calhoun, caught up the sword as it fell from the withered hand of the expiring statesman, and has wielded it ever since with a power and skill not unworthy of its former master. "He never did fall off ; then let him not be slandered with revolt."

[FOR THE SPIRIT OF JEFFERSON.] "For freedom's battle once begun, Bequeathed from bleeding size to son, Tho' baffled oft, is ever won."

WE HAVE TRUMPHED AND WE

It was very beautifully and appropriately remark-ed by Franklin Pierce, either in his inangural ad-dress or immediately preceding it, that the "hour of triamph is the hour of magnanimity." We know of no sentiment more fully fraught with manly dignity or more worthy of admiration than this. It is one that will touch a responsive chord in every heart, unless utterly deatitute or dead to every just, generous or honorable emotion; a scntiment alike creditable to the head which conceived, and honorable to the heart which prompted its utterance; and whilst we readily yeild our convictions of its truth and feel the full force of its strength and dignity, we trust that we shall detract nothing from its beauty by adding that

it is also the hour for rejoicing. Believing then that the hour of triumph is the hour for rejoicing, as well as the hour of magnanimity, we should do injustice to our feelings and feign an indifference we do not feel, and not only lay ourselves open to the charge and imputation of hypocrisy, but prove false, utterly false, to the course we have pursued and to the principles we entertain; false not only to our principles and to our actions, but false to the judgment of our brain and to the dictates of our heart, if we falled to rejoice in this the long sought hour of our triumph, or to congratulate you, our firm and constant friend, on the successful issue of the struggle, in which for a long series of years we have been engaged.

Either of these plaus if practicable, on a large scale, will enable the head of the Ordnance Department to lessen his already paltry requisition upon Congress, and in the course of time doubtless supersede the necessity of any appropriation at all. Intelligencer says the cholera is making a sad havoc in the country adjacent, being informed by a visitor to Manchester, a day or two since, that five cases were taken out of one house during the same day.

There were six deaths from cholera at Cleveland Ohio, on the 6th inst.

Ninety-eight permits of admission to the City Hor pital were granted last week by the clerk of the Board of Health of St. Louis, being the largest number sent out any single week for two or three years. Only five or six were cases of cholera.

Nine new cases and five deaths occurred at Providence, R. I., during the torty-eight hours ending on Tuesday.

The number of interments at Buffalo, N. Y., the month of July was 429, of whom 159 died of cholera. The interments for the week ending on the 5th inst., numbered 155, of whom 70 died of cholera.

From the present state of distraction which prevails in the two great political parties of the country. out of which have sprung up new political organizations believed to be adverse to the constitution of the United States and therefore injurious to the best interests and welfare of this Republic, we in a spirit of patriotism, do solumnly unite together to form a olitical association under the impregnable name of fron Heads, whose object shall be, the defence of the Federal Constitution, the maintenance of the Rights of the States, the protection of civil and religions liberty, and the perservation of our glorious Union : Resolved, 1st. That in becoming members of this

association, we renounce our allegiance to all other political parties or associations to which we may have been heretofore attached, and pledge ourselver to be alone responsible to the principles and government of this association.

2d. That the Constitution of the United States, the sacred charter of American Liberty, and the supreme law of the land, we solemnly pledge ourselves to support and defend.

That we declare unremitting war against every political "ism" of the day which opposes or attempts to override the Constitution of the United States, to foster sectional prejudices, and to embitter and array against each other the citizens of a common country; also, against all secret political parties whose principles and aims are withheld from public scrutiny, as dangerous to the rights of the people and to the public morals. 5th. That we in uniting to form the political as-

sociation of Iron Heads discard all old, backnied and bsolete issues which have distracted and dismembered the two great leading parties of the country, and take our stand on the broad platform of the Con stitution and the principles set forth in these resoluions; and to secure harmony and unity of action at the polls, the candidate of our choice shall be a mem-

ber of this association. 6th. That in the selection of men to represent us in the National and State councils, we solemnly pledge ourselves to be alone influenced by acknowladged ability, honesty and fitness to discharge with efficiency the duties of their appointments. 7th. That each member of this association shall with his own hand subscribe his name to the series of resolutions above set forth, to be preserved as recorded evidence of his sacred pledge to conform to and abide by the great and important principles they contain; and that he furthermore pledges himself to use every honorable effort in his power to preserve the integrity, promote the interests, and insure the successs of the party we have this day organized.

A FACT FOR THE ABOLITIONISTS .- We noticed says he Staunton Spectator, a few days since, in the marole yard of Mr. J. Marquis, a large and tastefully decorated marble slab, with the following inscription

upon it: "Sacred to the memory of Billy Martin, the faithful servant of John Merritt.

"This stone was erected by his young masters E. A. and J. W. Merritt, in token of respect for his

This simple inscription on the tomb-stone of an numble servant, is a whole volume of reply to the exaggerated accounts of Mrs. Stowe, and her assoriates in misrepresentation. The stone could not have cost less than thirty or forty dollars, probably more than Aunt Harriet has given for the relief of suffering black humanity during her lifetime.

TUCKER THE BROOKLYN MURDERER.-The West Chester Republican says that John N. T. Tucker, the author of the terrible tragedy in Brooklyn, was formerly pastor of the Vincent Baptist Church, in Ches-ter county, Pa. He came, professing to be a Baptist minister, and was employed to fill the pulpit, which was temporarily vacant. He was dismissed for

KILLED BY A SNAKE .- Late California papers tells. us that a miner, named Geo. Thompson, was sleeping one night in his cabin on the North Fork of the American river, when he was awakened by a sharp pain in his arm. He rose, and lighting a candle, looked into his bed, and found there a raitlesnake.

THE LAND GRADUATION BILL.

A VIRGINIAN.

The land graduation bill, which passed Congress t its late session, and is now a law, provides that all lands which have been in market for ten years or upwards shall be subject to entry at one dollar per acre ; fifteen years and upwards, at seventy-five cents twenty years and upwards, at fifty cents; twenty-five rears and upwards, at twenty-five cents; and thirtyyears and upwards, at twelve and a half cents pe acre. Upon every reduction the occupant and settler to have the right of preemption at such graduation prices until within thirty days preceding the next graduation, but not to interfere with any right which has heretofore accrued to actual settlers. Any person applying to enter any of the aforesaid land s required to make affidavit that he or she enters the same for his or her own use, and for the purpose o actual settlement and cultivation, or for an adjoining farm owned or occupied by him or her self, and that together with such entry, he or she has not acquired from the United States under the provisions of this act more than three hundred and twenty acres.

INDIAN CORN OR ROASTING EARS.

Who don't know how to cook roasting ears? but t every body does know how to cook them, we seliom find green corn upon the table with all its good qualities preserved. It is no wonder that our ne groes are so greedy for pot liquor, when in nine rases out of ten, it contains all the best of the vegetales. Corn boiled in the ear should be dropped into boiling water with salt to season. Corn cut from the ear, and boiled in milk, seasoned with butter pepper and salt, is an excellent dish. Corn cut from the cob after boiling, and mixed with butter beans, seasoned with butter, pepper and salt, makes succo-tash, a capital dish. Corn oysters is a delicious dish -grate the green corn from the cob, season with salt and pepper mix in batter and fry in butter.-Green corn pu dding is a great delicacy ; grate the corn from the cob, mix sweet milk and flour until of the consistency of paste; season with anything the taste may dictate, and bake in a hot oven; it should bake quick .- Soil of the South,

DIABOLICAL OUTRAGE .- On Sunday last Mr. Joeph Logan, residing three miles from Alleghany city, Pa, went to church in company with a por ion of his family; leaving at home a boy, aged 12,

n ridding us from the stern, tyrannical and inflexible rule of a military domination, under which, in the language of one of the investigating committee, deeds have been done that would arouse the indignation of every American heart, and bring a blush of shame to the check of the advocates of the system;" or may we not be permitted to rejoice, when conscious that we are free, and as we trust forever, from the infliction of its arbitrary and irresponsible sway? If not then it were better-far better-to be he outcast representative of freedom from a foreign shore, an outlaw and an exile from the land of Pctentates and Kings than to be a denizen of this! But we can and do rejoice, and whilst we rejoice in our triumph, it is without felicitating ourselves

upon any of the supposed advantages, personal or pecuniary, which by some it is anticipated will flow by a change from the Military to that of a Civil Superintendency or of any expectation of exemption from the rules and regulations necessary to the interest of the

Government, the safety and efficiency of the Armories, and the welfare of the operatives. Not so-we rejoice, but it is from no such sordid views or disorganizing considerations; our vision is bounded by no such contracted horizon as this, we look far above and beyond, and to that which we deem the true interest of the people and of our beloved country ; and to the fact that whilst those who are engaged in the service of the Government shall be held strictly responsible for the performance of their duty as citizens in the service of the Government. The Superintendent, whoever he may be, will be held responsible at the bar of public opinion for the performance of his duty (on behalt of the Government) with a due regard to their rights, privileges and immunities as citizens of a land in which they are co-equals, and not as heretofore, as if by taking service in the Government employ they had forfeited their social

.and political rights, or that they had accepted as a bounty for their freedom the remuneration due as a compensation for their toil. . "We triumph!" exclaimed a dying warrior, as he sank to rest upon the field his blood had helped to win, conscious in his last expiring moments that he had done well, and that from the field on which he found a grave would spring the flower to wreathe his rich inheritance of earthly fame. We too have triumphed-but ours has been a

bloodless field, but not devoid of strife. A field sown with the seed of oppression, and from whence sprang a rank luxuriance of kindred fruit, of care, of sorrow, and of cringing abject fear. Aye-and of tears wrung by the hard hand of an iron rule from eyes unused to weeping. A rule which fostered no merit, rewarded no industry, stimulated no ambition or energy, associated with independence of mind or freedom of expression-but which crushed and paralyzed them all, so that thrift could only follow fawning.

We are the sons of toil and we blush not to own it, but we are no " Gurth, the son of Beowulph, the born thrall of Cedric of Rotherwood," or of any other man, whether a graduate of West Point, a member of the Ordnance Department, or of a Civilian, be he the highest, the haughtiest, or the richest in the land.

We are, thanks to God and to onr sires, the born thrall of no man, and, by our own voluntary act and will, no man's man, and rather than be such "we'd make our home a hollow tree, our fare a crust with Liberty."

We have struggled, but not for ease; we have ought, but not for fame; we have triumphed, but no glory awaits us; for these we ask not-but for rest,

undisturbed by the sword of Damocles; for bread, unembittered by the leaven of oppression; for security for the future, not indemnity for the past; and to these we are entitled by every consideration of justice, truth, and honor. If these are not conceded

us, then, indeed-The bud which looked and seemed so fair Blighted, will vanish into air.

We have triumphed and our cause it is just. It has been a triumph of truth and of justice, of right

This Machine, for thresh-ing, separating, cleaning twice, screening and bag-ging, (by one simple operation,) all kinds of Grain-the greatest labor saving machine estant, for simpli-city, durability, cheapness and capacity, it has no rival in the world. It is apable of turning out, ready for the mill or for seed, from 300 to 500 bushels of Wheat per day, with 6 or 8 horses, and 8 hands-or from 500 to 500 bushels with 12 horses and as many hands, doing the work cleaner, and breaking less grain, thai aby machine now in use. This machine received the first premiums at the Maryland State Fair, Balt., in 1852, and 1853 the Washington Co., Md. Fair; Valley Agricultural Fair, of Va., in 1852 and 1853, its Rappahannock Agricultural Society, at Fort Royal, Va.; the first premium at the Illinois State Fairs 1355, at Springfield, and a Silver Medal at the Indiana State Fair, at Indianapolis, 1863. This machine is so simple in construction, that the one fan and shoe completely cleans and bags the grain, dispensing with all the complicated machinery (and consequent liability of derangement) in all oth-er separators, thus making it more desirable to the faire. THE VIRGINIA WHEAT DRILL WITH GUANO ATTACHMENT

AND SEED SOWER. AND SEED SOWER. The undersigned manufactures the above Machine at his Factory in Charlestown, Jefferson county, Vir-ginia, and is desirous of still farther introducing them to the farmers of the State. The Virginia Drill has acquired a reputation plac-ing it here not all compactition it has a charlestop place.

ing it beyond all competition, it being the only guano drill in the United States, and performing its work in a style not only gratifying to the skilled agricul-turist, but in a way remering a wast return for the amount expended in its purchase and use. These Drills were exhibited at the Richmond Fair and draw forth fatteding encoursions and obtained

and drew forth flattering encomiums, and obtained orders for over one hundred machines from some of the most practical and energetic farmers in the State. As some evidence of the real merits of the Drill, the owing certificates are offered. The first from Mr.

following certificates are offered. The first from Mr. Msade, of Clarke county, Virginia: "I take pleasure in informing the public that I pur-chased of Mr. Hunt one of his Virginia Drills with the compost attachment, and have used it two sca-sona, and I have found it to be the greatest implement I have ever seen. I put in four-fifth of my fallow with one, and one-fifth in the usual way, broadcast-guano sown broadcast on that My drilled wheat, with forty pounds, was at least 13 bushels the best. I put another field in with the Drill and guano, and believe it was at least 15 bushels the best. Upon an-I put another field in with the Drill and guano, and believe it was at least 15 bushels the best. Upon an-other field I tried broadcast, guano and wheat, and ploughed in; and part I drill d, and put on 42 lbs. of guano with the Drill, and the Drill with 42 lbs. of guano was at least 5 bushels better than where I sow-od 200 lbs. broadcast. With Hunt's Drill I believe that the poorest land can be made to produce 20 bush-els to the acre. The use on five acres will pay for the Drill; it is (ruly the farmer's friend, and none should be without one. Respectfully, Natura area, B Means

9, Jury C. My Patent Premium Threshing, Separating, Cleaning and Bagging Grain Machine, is for sale, which received the first premium at the Crystal Pal-ace, New York, over all Threshing, Separating, Cleaning and Bagging Grain Machines on exhibi-tion--thus proving conclusively that simplicity in construction, cheapness in price, and durability in my machine, is being fully appreciated, and the old and new costly, inferior, complicated separating Ma-chines must yelld their places to a superior Labor Sa-ving Machine. The celebrated Machine for Thresh-ing, Separating, Cleaning twice, Screening and Eag-9, Jury C. What amount is due to Julia Van Swearengen and others, under the Deed of Trust to Henry Herry, Trustee, of date of June 1st, 1840, and whether any fund other than the land purchased by the plaintiff of John W. What is now the amount of the lien upon said lands under the Deed of Trust to John W. Kennedy, dated September 27th, 1850, in the bills named, and

screenings to itself, and the smut and cheat to itself. Everything has a place, and everything is in its place to suit the conveniences of the farmer. For sim-plicity, durability, cheapness and capacity, it has no equal in the world. As for what has been stated in the different papers concerning Mr. Zimmerman's Ma-chine receiving the first premium at the Crystal Pal-ace, New York, is false, and not true. What is the amount due from the plaintiff in each of said suits, for the lands purchased by them respectively, with any matter that the Commissioner -perhaps he did; but it is very easy to win the race, as the boy said when he ran by himself. But my or any of the partics may deem pertinent, and report honorable friends, this was not the case at the World's Fair, New York. Mr. Zimmerman had a number of other boys to run with, besides himself, which made the race more difficult for him—so much so, that he, Mr. Zimmerman, was unither the first nor second—so. TO MAUL. FROM THE BOSTON COURSES. Come set with me, my child, awhile, Thom of the sunny hair ! And from my weary heart beguile, The sudness resting there; For ever as I gaze on thee, Thon sweet, fair child of mine! Another's fact I think I see, Soft-shadowed forth in thine. TO MAUD.

When, stealing silently to me, Thou standest by my side, nother form thou dost not see, Between us seems to glide. When with the smile I seek to win, Thy soft blue eyes meet mine, Dark hazel tints seem shaded in The saphire light of thine. As from thy sister's forehead fair The waving curls fell down, I see, upon thy golden hair, The shadows of the brown; So in thy presence we, anew, Visions long past behold; And, in our saddened hearts review The memories they enfold. Sweet little maid I thy "evening prayer" Still nightly, chaunting, say I Still beaven-ward keep, beneath its care, Thy "calm' unruffled way I" Loved anget-spirits near the float, On Life's inquiet ware; And safely guide the little boat, Its troubled waters lave.

STATISTICS OF NORFOLK .--- We learn from the Norfolk Argus that the population of that town is about 18,000; its real estate is estimated at \$5,000,000; capital invested in manufactures \$600,000, from which the annual product is about \$60,000. It has 12 churches, 6 banks, 4 hotels, 9 seminaries and high schools, 40 wharves, 6 weekly, 3 tri-weekly and 1 duily newspaper, besides factories, shipyards, &c.

IMPRISONMENT FOR DEBT IN ENGLAND,-A man named William Miller, who was imprisoned in Winchester jail, England, thirty-nine years ago for debt, still yati, ingtand, thirty-nine years ago for deor, still remains confined on the same charge, though he has now become seventy-one years old. The last three years and eight months of his stay in the Winchester jail were spent in solitary confinement. Some hu-mane person hearing of his case, had him transferred to the Queen's prison, London, where he now enjoys comparative liberty. -

LET HER BE .-- One of our mercantile gentlemen, who was traveling eastward, a short time since, went to the clerk of one of the Ontario boats to be shown to his state room. The clerk handed the applicant a key, at the same time pointing to the door at some little distance. Our friend went in the direction indicated, but opening the door next to his own, where he discovered a lady passenger making her toilet, who, upon the stranger's appearance, uttered a low scream.

"Go away ! go away !" screamed the lady. " Letter B," screamed the clerk. "I am not touching her at all !" cried the indignant merchant.

STABLER'S DIARRHEA CORDIAL, THE valuable medicines above named, are not em pirical, but are prepared in agreement with the experience of some of the most learned and judicious practitioners, and are not scoret, further than is ne-cessary to protect the proprietors and those who use them from loss and imposition, as the component parts have been made known, confidentially, from time to time, to perhaps 500 Physicians !!! in Maryland, Virginia, District of Columbia, Ohio, and other places, all of whom, without a single exception, have approved of the formula, and most of them acknowledge that they are the best remedies that they have ever known for the cure of the diseases for which they are recom-mended. Our confidence in the excellence of these medicines, added to our desire to avoid the just preju-dice of the medical profession against secret and quarks. dice of the medical profession against secret and quick nostrems, induced us to adopt this candid course.— We append a few of the notices we have received from

We append a few of the notices we have received from Physicians: From Dr. Wm. H. Forrew, Sneukill. Md. GENTLEMEN. I have frequently in my practice pre-scribed your "Stabler's Anodyne Cherry Expecto-rant" and "Diarrhese Cordial," with great satisfac-tion to myself, and to the entire relief of such diseases as they profess to cure. I consider them happy com binations of some of our most valuable and safe thera-peutical agents, and must be of infinite worth to the afflicted and mainkind at large. In furnishing the medical profession with these active and concentrated preparations, so convenient for administration, and of a standard quality, you have rendered them an emi-nent service, and I can do no less than emnessly recom-mend these preparations to practitioners, and especialmend these preparations to practitioners, and especially in the country, where the impurity of commercial Drugs is one of the greatest obstacles to the success of the Physician. lieve Hampton's Vegetable Tincture will even react these causes. Having found out, myself, what it is, I recommend it to others in such cases, as I have described, and I have done if upon the "no cure no pay system," and I have yet to have the first bottle returned, or the first objection about the pay. It is a great pity it cannot be more extensively ercuda.ed among the people. * * * I warrant it in the following cases .-Gout, Rheumatism, Inflammations which proceeds from the stomach, Sores, Scrotha, Dyspepsia, long stand-ing cases of Ague and Fever; first stop the obill, and then give the Tincture—the difficulty in this case is motin stopping the chill, but the return of it, this the Tincture will certainly do. In general debilitations, I warrant it, and as I said before, I have procured a trial of it in this way, which otherwise I could not; the people have been humbugged by patent medicines so long, that they are afraio of all. This is clearly a stomach medicine, it works all its wonders there, and in all such cases it is a specific, if anything in the world is.

Having given the Tincture a fair trial with myself, in my family and neighborhood, I think I am warrant-ed in what I say about it, and which I do without any other interest than the wish to see it in general circulation, and in every man's family, where it ought to

be. If what I say be doubted by any of the afflicted, and they will write to me af Sandy Bottom Post office, Middlesex county, Va., stating the nature of the dis-ease, and I recommend it for such a case I will war-rant it, and if it don't do good I will pay for the me-dicine. work of what had once been a horse. Riding up to the door of a country inn, he enquired, of the landlord the distance to the next town The host coming out was so forcibly struck with the appearance of the animal upon which the querist sat that he walked around him twice before giving the enquired information. He then enquired :

"Who might you be, if it is a fair question ?"

"I am a follower of the Lord," he answered.

"Follerin' the Lord, eh !" demanded the host. "Well I'll tell you what it is, old fel ler," (eyeing the horse again) there is one thing sartin-if you stop often on the road, you'll never ketch him with that hoss !"

No CHANCE FOR YANKEES .- One correspondent from Nebraska tells "a story" which is rather hard. He says : It seems to be a over the Missouri river they have a cow tied, and a committee to watch all immigrants .-The committee ask of each immigrant what animal that is. If he says "a cow," all well -he goes over. But if he answers " a kcow," they turn him back.

THE HEIGHT OF MEANNESS .- The Knickerbecker tells of a man who stole a five dollar bill out in Indiana. His counsel tried to prove that the note was not worth five dollars, it being at a discount. The prosecutor said he knew that the thief was the meanest man in the State, but he did not think he was so allfired mean as not to be willing to steal Indiana money at par.

ALL RIGHT .- "Boy," said a visitor at the house of a friend to his little son, "step over the way and see how old Mrs. Brown is."-The boy did the errand, and on his return reported that Mrs. Brown did not know how old she was.

AN EXPENSIVE "NIGGER,"-Among the other bills that have been rendered to the U.S. Marshal for services rendered in case or Burns-are one for military services amounting to \$9,000; one by the City of Boston for extra Policemen, amounting to \$7,900; H. D. Parker's bill, amounting to \$4,000; and the steam-tug John Taylor, \$420. These are but a small number .-- Boston Mail.

They are determined to conduct their business on the most libtral principles, and to use every effort to merit the public confidence and patronage. Whatever they sell shall be of the character represented, and invariably re-duced to such prices that none may hope to undersell. They have established such extensive arrangements as will enable them to supply the market with every article they deal in at the very lowest prices. They feel confident an examination of the variety, quality, and prices of their goods will convince the public that money may be saved by purchasing at their house. They will give particular attentions to the GRO-CERY AND PROVISION BUSINESS, for which

they have made ample room, by an enlargement of the premises, and families may rely with confidence upon being supplied by them with articles in this line, of fresh and superior quality. They purchased their Grocenes, mostly in large quantities and al-
