Charles Dickens was a better dressed man years afterwards, though one of the best dressed men about town, with his Parisian waistcoat, and 'the last rose of summer,' it may be, in his coat when he lectures. Novel Discoveries. Buried Cities at the Bottom of the Swiss

Lakes. A late Paris paper contains the following : The peasants who dwell on the shores of the lakes of Switzerland had often stated that, at a short distance from the land. rows of stakes might be seen through the water, emerging from the mud of the bed- No Interest was however, attached to the phenomenon till about eight years since. At the end of 1856, the waters of the Lake of Zurilch sauk considerably, and the thrifty proprietors of land on the bank proceeded at once to add

to their estates the portion of the lake bed left here, by constructing permanent dykes against the retarn of the water. While these works were being carried on, a row, or rather a system, of stakes were discovered at some little depth below the surface. result was to disinter a great variety of objects. which proved that a large number of human beings had once had their dwellings supported over the water by the stakes. Curiosity having been once aroused, researches were prosecuted, not. only at Obmetton, where the first discovery was made, but all over Switzerland. It was gradually established that the mud near the shore of almost every single Swiss lake supplied similar evidence. At some primeval period a population of considerable density had lived in huts constructed on stakes, which rested on wooden supports driven into the bed, just as the Malays in Borneo, and Siathese at Bangkok, may be seen living to this day. A wonderful number of articles pertaining to the daily life of the forgotten races have been brought to light. In some places the materials of the dwellings have been preserved in the mud, the floor of hardened earth, and the twisted branches and the bark which formed the walls. Arms have been discovered in great quantities, tools from a saw in flint to needles in bone, ornaments. children's toys, the remains of stored-up or receptacle full of corn and a loaf of bread -carbonization. Shipments of Gold to Europe.

The New York Post calls attention to the fact that with exchange in our favor, gold is being exported to Europe, and essays the following explanation :

in fact, about the par of exchange. Ninety years ago the American dollar was made of. or was held to be made of, just the same quantity of precious metal as was to be found in four shillings and sixpence of English coin. The coins of both countries have, we believe, suffered changes since then; our own dollar, we know, has had the quantity of gold in it reduced. Still, in exchange calculations we keep up the absurd practice of assuming the value of the American coin, called a dollar, to be four shillings and sixpence sterling. As in the pound sterling there are fortysix pences, and in this assumed value of the dollar, there are nine of the same kind of sixpences, very simple arithmetic will show that by this assume I relative value of the respective coins, the English pound or sovereign is made out worth only four dollars and fortyfour cents. This, in daily practice, is taken to be the par of exchange. Yet if any one here has an English pound or sovereign in his pocket, he can get in Wall street for it about four dollrrs and eighty-four cents in American coin: This last is clearly the true par; or nearly enough so for the argument. Our absurd way of quoting sterling exchange ought to be abandoned; it misleads those not familiar with business, as is shown by the confused state of mind on this subject

It is plain that ten per cent. premium being about the par of exchange, gold ought now with exchange at eight per cent., if it flows either way, to be coming to us, not going out from us. This outward tendency of gold is not a

THE REGISTRY LAW. In commenting upon this infamous shavtment of the Wheeling Legislature, last week we expressed the opinion that the registrars had the right, under the law, to propound any questions they pleased to discover the want of loyalty of applicants for registration. Since then we have learned that the radical members endeavored to incorporate a section in the bill expressly giving this right to in terrogate, but that it was voted down. From this it is clear that the Legislature did not de sign to give the registrars any other mode of testing the loyalty of voters than the administering of the test oath embraced in the bill and, hence, the registrars should not be al lowed to put the 'questions set forth in the circular trom Shepherdstown, or any other.

The oath is only to be administered when the registrar has "a doubt of the loyalty" of the applicant. It is not to be expected that any registrar has perfect knowledge of the politics of the people generally-indeed that he can have such knowledge, without "a doubt," of any man, and therefore he should put the oath to each and every individeal applying for registration ; he should certainly require this oath to be taken by every one of whom he receives any intimation from any responsible citizen that there exists "a doubt of the loyalty" of the applicant in the community where he resides, or that the applicant has said or done things that do not square with the oath. If this course is pursued, there are many men, some of them in high stand ing and office in the radical house of West Virginia, who cannot take this oath without flat perjury ; men who have carried two faces during the past four years of the war, and who have given voluntary aid, comfort, or encouragement to the late Confederate States; and, we confess we should like to have the oath applied to all such and to see the immense amount of hard swearing they would perpetrate.

Of the unconstitutionality of the law we have seen nothing to change our formerly expressed opinion. We are fully satisfied that the law is in violation of the constitution of West Virginia, and that of the United States

NON EST JOCUS. The Hon. Charles James Faulkner, quondain Lieutenant Colonel in the late Confederate army; has been admitted to practice his profession in the circuit court of Berkeley, by Judge Hall. In order to do this Mr. F. has been obliged to take the stringent West Va. test oath; has had to swear that he has not

since the 20th day of June, 1863, "voluntarily borne arms against the United States, &c.' Mr. F. doubtless experienced no sort of difficulty in taking this part of the oath, for we are inclined to think that although he was on the staff of that terrible fighter, Stonewall Jackson; he never, voluntarily, involuntarily, or in any other way. "bore arms" against the United States. It is true, we take it for granted, that he bore arms, while on that staff, but he never used them with any hostile intent. But Jackson died before June 20th 1863, and the martial valor of his Lieutenant Colonel seems to have died with him, for the oath he has just taken makes him swear that he has never, since that day, given, voluntarily, "aid, comfort, or assistance to persons engaged in armed hostility against the United States." We do not believe that he has .--It is reported that in 1864 he attended upon old Jubal's army, and went into Martinsburg

with his uniform on his back, but this one pomp of glorious war was never regarded by those who saw it-by those who were engaged in real armed hostility to the United States, as any aid, comfort, or encouragement to them. or of the slightest value to the cause for which they were risking their lives. The oath also required the Lieutenant Colonel, of peaceful intentions, to swear that he never, since that same 20th of June, 1863, "sought accepted, exercised or attempted to exercis any office or appointment whatever, under any authority or pretended authority hostile of inimical to the United States." We have heard it said on our streets, by some of our returned soldiers, that some time in 1864, the peacefully inclined gentleman in the gray uni form, did apply for a position, "office or ap pointment" on the staff of another sturdy fighter, General Ewell, but gave way, volun tarily too, to somebody else that had "hostile ntent" in his arms-bearing ; but, of course these "returned soldiers" of ours have been mistaken-for there's the oath at Martins

burg to prove the fact ; but people will talk and some will swear, naughty though it be. THE BROOKS' CONTESTED ELECTION The seat of the Hon. James Brooks of New York, in the House of Representatives, is

men of better days. Let them go on, how

ever, to the end of their rope. It will not

take much more of such outrages, as have

characterized their actions during the past

winter, to rouse the indignation of their con-

stituents to that pitch that will end in their

being hurled from place and power. We

publish the following interesting developments

of this contest from the Philadelphia Age:

contested elections is the brief prepared by Hon. James Brooks, in the contested election case of Dodge vs. Brooks, now pending before the Election Committee. Mr. Dodge, who is a very rich man,

having an income of one thousand dollars a day contests Mr. Brooks' right to his seat on the ground

of fraud on the part of Mr. B.'s friends in conduct

ing the election. There has been a great mass of

testimony taken on both sides, covering nearly one thousand printed pages. Mr. Brooks sums it all up, however, in a little brief, which for pith and unan-

THE CONNECTICUT ELECTION.

All doubts about President Johnson's position with regard to the Connecticut election are put to rest by the following explicit correspondence which even Forney can't twist to mean anything but what appears on the face of it. We obtain the correspondence subjoined from the Intelligencer, which effectually settles the question. POST OFFICE, Hartford. Conn.,) March 22 1866.

Sir .- I am now engaged in publicly advocating the election of James E. English as candidate for Governor of Connecticut, a gentleman who is openly committed to the support of your veto; to the defence of your seech of the 22d of February, and of your policy of restoration in opposition to the Disunionists of Congress: I am opposing the election of Gen. Joseph R. Hawley, who openly disapproves f your veto and your 22d of February speech, and declines to support your policy, as op-posed to the Radical majority in Congress. If my political action is not satisfactory to you. I beg you to receive my resignation is postmaster in this city.

I have the honor to remain as ever, your friend and obedient servant, E. S. CLEVELAND. His Excellency President JOHNSON. To this the President replied :---

AFFAIRS AT WASHINGTON.

The following despatches are dated the 22d instant.

THE CONNECTICUT CAMPAIGN. General Hawley and Acting Vice President Foster, called on the President this af-ternoon, and informed him that there was a general impression in Connecticut that he was apxious for his defeat: The President denied this assertion, and said that he had not turned against the Republican party, and did not intend to; that if any office holders were opposing him, it was without his orders. General Hawley left to-night in company with Senator Morrill, for Connecticut. Secretary Welles gave General Hawley a letter: stating that he desired his election, and would vote for him if he was at home.

[The above is telegraphed by the Radical correspondent of the Philadelphia Inquirer; and is doubtless incorrect. Another special says the President told Hawley he desired the election of those who favored his policy: the fact that he is endorsed by the people of which Hawley does not.]

THE FINANCIAL QUESTION.

No conclusion has been arrived at by the Ways and Means Committee on the Finance bill. The Committee will take a vote on the matter to-morrow, with a probability of rejecting Hooper's bill, and again reporting the bill which came so near passing on Monday. Secretary McCulloch contends that he must have complete control over all the securities:

SENATE CONFIRMATIONS.

The Senate to-day confirmed the nominaions for lieutenantcies to the regular army. THE SEAT OF REPRESENTATIVE BROOKS. The House Election Committee, to-day, voted, six to three, that James Brooks, of New York, is not entitled to a seat in Congress, and that William E. Dodge is.

GOLD TRANSACTIONS IN NEW YORK: Secretary McCulloch has carried on all his transactions in New York by issuing criders to Assistant Treasurer Vandyke, to pay or sell gold or bonds as he desired, and Mr. Vandyke chooses his own time and agents.

SEBIOUS ILLNESS OF SENATORS. Senator Dixon is very sick to-night and the chances are against his recovery. Senator Foote is rather easier to-day, but can hardly get well.

THE REWARD FOR THE ASSASSINS. The President has finally approved of the distribution made by the official board of the rewards offered by the Government for the arrest of Booth, Liarold and Atzeroth. The papers are now in the hands of the Secretary of War, and the commencement of payment will probably be made soon.

ANOTHER VETO THREATENED.

The last rumor is that the President has decided to veto the civil-rights bill. This negroes are loafing about the village, refusing comes from a leading friend of his in the House, and is believed to be correct:

BREAKERS AHEAD.

Senator Saulsbury, of Delaware-who is one of the ablest men in the Senate-made an admirable speech a few weeks ago on amend ing the constitution, in which he took occasion to comment on the persistent refusal of the majority to admit the Southern members. and put this plain case before his house :-"Suppose you, for the accomplishment of mere party purposes, exclude representatives from these eleven States from admission to the Halls of Congress until after the next Presidential election ; suppose the party opposed to you in the States which have never been in revolt nominate an electoral ticket; suppose that these excluded States also nominat an electoral ticket-and they will, undoubtedly; and suppose those who are opposed to your policy shall have a majority of the Electoral College; suppose you simply, because you have kept out Representatives from the Halls of Congress, should refuse to count these votes, and should declare that a minority candidate of the whole people of the United States shall act as the chief executive officer of this Government for four years more. do you believe the people would submit to it? ' I do not know what they will do, but I know you had better not attempt it."

The Senator, of course, believes, and meant so to intimate, that the people of the North would not submit to any such practical disunion as must follow the plans of the radicals, and we agree with him. The people of the South fought their best to get out of the Union, and they may join the conservatives of the North in a fight to get into it again; but they will never begin it.

It is evidently the determination of the majority in Congress to keep the Southern States out of the Union till after the next Presidential election-certainly until they come before Congress with a clean bill for negro suffrage. Negro suffrage is the ultimatum ; and the South will stay out of Congress forever on these terms. We do not believe that there is a single Southern State that will vote suffrage to the negro-though it should never get into Congress ; but every Southern State will certainly nominate an electoral ticket and vote for it, and if these votes make a majority for a candidate opposed to the radicals, there will be a row in the North ; and Mr. Saulsbury's hint had better be heeded.

Religion with her was not a specula-tion, but an all-animating and controlling power, h ringing every 'hodght into captivity to the will of Christ, and making '' love, joy, peace, meckness, gentleness, long-suffering, goodness and faith '' real, divinely created attributes of the soul. She was blessed in the latter years of her life with the constant companionship of Mrs. Bunn, who, tho' verging on a century of years, still retained in re markable visor, her mental faculties, and with verging on a century of years, still retained in re-markable vigor, her mental faculties, and with wonderful sweatness, daily illustrated the spirit of that Gospel which for more than " three-score years and ten" had been to her the power of God unto salvation. These holy women were not long sep-ted by the the power on to their Redeemer ated by death; but both presed on to their Redeemer within the space of two weeks. Mrs. Grantham was a devoted wife and mother, and while ever anxious for the temporal comfort of her family, h r deepest concern was for their eternal good. I feel assured that she labored not in vain-and that the dark stream of death separated her from her loved ones only for a time, and that ultimately they shall join her in the kingdom of Christ above. OUTRAGE AT NEW MADRID, MISSOURI-TWO NE-GROES SHOT AND ONE HENG BY THE ENBAGED CITIZENS. -We learn (says the Memphis orgus) that a most distressing occurrence happened at New Madrid, Missonai, on the 11th instant. The difficulty arose, it seems, by some negroes becoming offended at a gentleman, and proceeded to his residences, where they fired a number of shots at the windows. Conaderable excitement ensued. The citizens became enraged, and went in , ursuit of the negroes. Several

The Troops in Service.

The Secretary of War has communicated a document to the House of Representatives in reply to a resolution, showing, among other things, that on the 9th of January, of the troops in certice, 10,890 were employed in Missouri : 4,641 in Virginia ; 3,106 in North Carolina; 4,768 in South Carolina; 1,093 in Georgia; 10,198 in Mississippi; 10,623 in Alabama;10,684 in Tennessee; 8,567 in Arkansas; 10,153 in Louisiana; and 26,248 in Texas. Orders have been issued for the further reduction of 18,654 whites, and 23,uvu colored, or, in all, 41,744 men. The troops comprising the regular army number 26,421. The regiments, excepting the Seventeeth Infantry, have been assigned to military departments, and as fast recruits are made, the unorganized companies are formed and put en route tor the departments where their regiments are serving. Recruits are also being sent to fill up other companies already organized. About 3,000 recruits per month are now being enlisted.

The number of general, staff and retired officers of the regular army is 569, and off generals and staff officers in the volunteer service 1,018. Twenty-one major generals and one hundred and one brigadier generals, ordered to be mustered out by general orders, are not included. The exhibit shows that three regular officers and 699 volunteer officers

-are receiving pay but are unemployed. The grand total of officers and men in the army is 152,611. The estimate of the annual expense of the army, as now organized and distributed, is \$120,302,878. Deduct estimate for troops ordered to be mustered out, \$32.940,118, and this leaves an aggreate of £87,362,759.

A wedding was awkwardly interrupted at Bristol, England, last month. A young woman who was to have been married next morning, was taken into custody on a charge of stealing articles of millinery, the property of a firm by whom she had been employed Her intended husband vainly pleaded for a remand, in order that the marriage might take place. The magistrates, inexorable, sent the damsel to jail for two months.

FUN IN THE HOUSE OF COMMONS.-It is seldom that anything like fun occurs in that grave assemblage -the British House of Commons. We may well imagine how even so parsi nonious a boon from Mo mus as that which follows was received in so dry and circums ect a conclave:

THE MAN WHO HAD THE BINDERPEST.—In the House of Commons: on Thursday night, Fe ruary 1st, the most amusing speech was contributed by Sir F Crossly, who slowly and besitatingly uttered the starting words, "I've had the rinderpest—' and when the burst of laughter following the incomplete sentence had subsided, added, "I immediately sent for the Government inspector." The report in the Times is as follows: "Sir F. Crossley begged to state what had occured in his own case. -to appear and cheer no more those disconsolate ones who survive her. Alas, how uncertain is life! How frail that body, subject continually to death and dimensional the solution of the solut and decay ! For many months past, Mary Miller had been a child of affliction; but, in the midst of all, she was a child of God; and therefore, endured her far more than ordinary sufferings, with patience and with christian fortitude. She had been, for more than twenty years, an exemplary and worthy member of the Methodist Church. She died in peace and

triumph, confidently anticipating the reward of the faithful in that better land, where

"Sickness and sorrow, pain and death, Are felt and feared no more." Being nearly deprived of speech for sometime previous to her death, she was not permitted to con-verse freely with her tamily and friends. Just be-fore leaving the world, however, she spoke audibly, and exclaimed in the presence of grief-stricken ones around her death couch. " Meet me in Heav-en ?" Thus has passed away this christian wife and

mother, leaving a deeply afflicted family to mourn their irreparable loss How true the words: "Friend after friend departs; Who hath not lost a friend? There is no union here of hearts. R. S. That finds not here an end."
