

LOOK AT THIS! Those of our subscribers who have receipts for subscription to the Spirit of Jefferson, will please examine them, and see whether the time for which they subscribed has expired. If it has, let them come forward at once and renew their subscriptions.

THE SCHOOL TAX AGAIN.

In our notice last week of the manner in which the tax-payers of Charlestown township had been defrauded of \$80,000, we did Mr. THOMAS JOHNSON the injustice of connecting his name with the Board of Education of the township. We regret this, for we are anxious that the responsibility of this tyrannical taxation and oppression shall rest upon the proper parties, and none others.

When the yankee forces were routed by the Confederates at Cedar Creek, Sheridan, the Atilla of the Shenandoah Valley, was at Winchester, and mounting his steed, proceeded with Gilpin speed to meet his routed forces. The spoils of victory having tempted the Confederate troops, Sheridan was enabled to rally his broken columns, and regain his lost fortunes.

SHERIDAN'S LAST RIDE.

When the yankee forces were routed by the Confederates at Cedar Creek, Sheridan, the Atilla of the Shenandoah Valley, was at Winchester, and mounting his steed, proceeded with Gilpin speed to meet his routed forces. The spoils of victory having tempted the Confederate troops, Sheridan was enabled to rally his broken columns, and regain his lost fortunes.

Some time in the month of August, the radical leaders of the Senatorial district composed of the counties of Jefferson and Berkeley, met at Shepherdstown, and nominated Jos. A. Chapline, for State Senator.

CLEARLY STATED.

At this time there is an angry controversy in the North, and more especially the Northwest, in regard to the Government paying the interest of its bonds in gold, exempting them from all taxation, whilst the masses are paralyzed, business prostrated, and a worse than feudal despotism established by its exorbitant exactions.

OHIO AND PENNSYLVANIA.

The approaching elections in these two States, which are to occur on this day week, are exciting the liveliest interest throughout the country, as upon their results depend the most momentous issues.

Serenade to President Johnson.

After the serenade to General Hancock, in Washington, on Tuesday night, the vast crowd called at the White House and paid the same compliment to the President. After hearty cheers had been given by the large assembly, the President said:

LOCAL MISCELLANY.

WOOD! WOOD!—Our wood pile is very low, and running lower, and we hardly have the money to spare to indulge such a luxury.

SAD FATALITY.—Less than a year since, Mr. MICHAEL E. PRICE, a native of this county, and well known to the people of the Valley generally, emigrated from Staunton to Galveston, Texas.

SEEDING.—Our farmers are now in the midst of their seeding, and the weather thus far has been most propitious, though a moderate rain at this time is much desired.

THE APPLE-CROP of this county has been somewhat prolific, and we believe our farmers generally have been disposed to convert the early fruit to its most advantage, by its manufacture into cider.

PROTRACTED MEETING.—On Saturday next, October 5th, Rev. Mr. TONGUE will commence a protracted meeting at Wiltshire's School House, to continue over Sunday and during the week ensuing.

Baltimore Markets. The regular letter of our correspondent having failed to reach us, we condense from the Commercial of yesterday, Saturday's report:

GOLD.—The anticipated failure of the Corn crop West, has greatly strengthened the market, and for low grades created a brisk demand.

GRAIN.—On Saturday, but little activity, and prices generally lower. Sales of common white at \$2.20. Inferior red \$1.80-\$2.20; fair do. \$2.25-\$2.30; and good to prime do. \$2.35-\$2.45.

THAD STEVENS DYING.—Thaddeus Stevens is again said to be dying. The telegraph says: The Lancaster papers announce that Hon. Thaddeus Stevens was lying dangerously ill on Saturday morning.

THE PRESIDENT'S CHARGE AGAINST MR. STANTON.—A dispatch to the New York World says: "Congress reconvenes in a little more than seven weeks, but long before that time the President will have the charge and reasons for suspending Secretary Stanton from the War Department ready for submission to the Senate, as required by the civil tenure-of-office law."

BIRTH ON A RAILROAD TRAIN.—The Charlottesville Chronicle says: As the Orange night train from Alexandria approached the Manassas Junction, a lady before last, a lady was observed to be in a good deal of distress. She had not been long married—a year perhaps. And about ten minutes before the train reached the station, she gave birth to a child in the crowded carriage.

TEXAS CATTLE TRADE.—The cattle trade between Texas and Illinois, and thence Eastward, has increased remarkably. It sprung up three years ago. The first year two thousand were brought into Illinois; the second, several thousand; the third eighteen thousand, and this year already forty thousand, with a fair prospect of reaching up to fifty thousand.

OHIO AND PENNSYLVANIA.

The first year two thousand were brought into Illinois; the second, several thousand; the third eighteen thousand, and this year already forty thousand, with a fair prospect of reaching up to fifty thousand.

Enfranchisement of White Men.

With Radicals of the ultra stamp, the disfranchisement of white men for opinions sake, goes hand in hand with the enfranchisement of the negroes for political purposes. After reading one of their tracts it is refreshing to pick up such a paper as the New York Journal of Commerce—perhaps the leading daily commercial authority in the country; a paper of the highest dignity of tone; and during the war, as "loyal" as the most loyal of the Radical incendiary press of the present day. Hear the Journal of Commerce on the subject of "The Reaction in Maryland."

DEMOCRATIC GAINS.—In California the Democrats have gained 26,000 votes; they have gained 5,000 votes in Vermont; 14,000 in Maine; 1,080 votes in Connecticut; 20,000 in Kentucky; 2,000 in Rhode Island; 5,000 in New Hampshire; and 1,000 in Montana—in seven States and one Territory, 84,000 votes. These are not mere accidental changes resulting from local causes. They arise from the health that recovery is about to be imparted, as our home dailies, as yet, do not aspire quite so high.
