Mr. Pierpoint said. "Mr. Speaker, I intend to do right, and will allow my vote to remain." The bill was rejected, yeas 23, nays 26.

Mr. Davis moved a reconsideration to allow the bill to be put in proper shape and passed. The motion prevailed. The bill was then referred.

The bill was then ordered to engrossment. THE CONSTITUTIONAL AMENDMENT. The Joint Resolution offered by Mr. Flick.

mending the Constitution so as to enfranchise both rebels and negroes, came up on second reading. Mr. Davis offered a substitute, restoring the ballot to all who were disfranchised for participation in the rebellion.

Mr. Flick spoke in opposition to the substitute. It was effered when the ratification of the Fifteenth Amendment was a certainty. It proposed, not universal suffrage and universal amnesty, but universal amnesty without universal suffrage.

Mr. Davis discussed the proposed amendments at length. He had offered his substitute to meet the requirements of the people of the State. Mr. Flick's amendment was offered in view of the alleged ratification of the Fifteenth Amendment. He denied the ratification of that Amendment. His argument covered the following points:

The Federal Constitution could only amended within the scope of the powers del egated by the States to the Federal Government, and the control of suffrage having been one of the rights reserved by the States, it was not competent for three-fourths of the States to strip the remaining one-fourth of their control of that question, or of any other which they had resolved to themselves. The internal affairs of the States were theirs to regulate, from the formation of the Government, and not one State could be stripped of its powers, without its own consent. Any other theory would allow three-fourths of the States to subvert the Republic and establish

He denied that this amendment had been proposed by two-thirds of Congress. When the Consitution provided that two-thirds of both Honses of Congress might propose a Constitutional Amendment, it meant two thirds of a Congress representing every State in the Union. Yet this amendment was proposed by a Congress in which a number of the States

were denied representation. Upon the theory of the Republicans that the Southern States were not in the Union until Congress so declared, the Amendment was not ratified, for a number of States, held by the Republicans to be out of the Union, had been counted as ratifying. If they were son, heart and culture, and skilled in the phinot in for purposes of representation, he losophy of entertainment, his society was most

in for purposes of ratification.

After discussing these points, and concluding that the Fifteenth Amendment could not be held as adopted. Mr. Davis considered the effect of negro suffrage, as proposed to be brought about by Mr. Flick's amendment. Instead of elevating the pegro, it would degrade the white. Good government would be impared, for no government can prosper where there is a mingling of races in its management, served that my interest in you has been more than mere friendship. You admire a manly frankness, and I will here sectore in sight of the enfranchisement of the negro. The peo- heaven, that I love you, mally love you, and ple demand the restoration of the ballot to the white man, but they were unalterably opposed to enfranchising the blacks. At this point Mr. Davis yielded to a motion to adjourn.

It seemed a new word was needed to exp. ss her charms. She was but eighteen, thou a in manner fully thirty. It was evident her nature was buoyant, but her deportment was subdued, sweet, retrospective and comported with her angelic features and countenance.

Frank Hawley had been a well-received visitor for six months. Having a rare perwould like to know how they could be desirable. He was a relief to the gloom incident to a family of but one sex.

Soon she was placed in a den of infamy by this same seducer. Being young, ignorant of ife, and intimidated by debt and its surroundings, she, against her instinct, suffered the grominy, until relieved by benevolence .-She is now well situated, is pure, and has an assumed name. Her case is known to but four individuals. She is learning some business, is truly religious, and really an ornament to the world. Now, father, what shall I say

to my friend?" "Frank, tell your friend that your father. Hamlin Hawley, says marry her. She was victimized, and went not astray voluntarily. I say marry her, marry her, by all means.-That is principle."

"Frank, you know we often hate the effect of our own legislation; but, hang it -as I am so beautifully outgeneraled, I will give my consent, and feel that the spirit of your dead

mother approves it." There was soon a wedding, followed by holy conjugal felicity, and a brilliant career .-Mrs. Jannett Hawley far exceded the expectation's of her true friends, and Hawley senior declares that the world may croak at pleasure. but that during the remnant of his pilgrimage foolish pride shall ever yield to the mandate of a righteous principle.

SPICY.-There was a knot of sea captains in a store at Honolulu, the keeper of which had just bought a barrel of black pepper .- king them useful members of society. Old Captain ---, of Salem, came in, and seeing the pepper, took up a handful of it. "What did you buy such stuff as that for ?" said he to the storekeeper, "it's half peas." "Peas!" replied the storekeeper, "there

isn't a pea in it." Taking up a handful as he spoke, he appealed to the company. They all looked at it, and plunged their hands into the barrel, and bit a kernel or so, and then gave it as their universal opinion that there wasn't a pea in it. "I tell ye there is," said the old captain, again scooping up a handful, "and I'll bet a dollar on it.

> IMPROVED WRITING INK. In the multiplicity of ink and writing fluids of various shades and colors, the inquiry is frequently made for some of the oldfashioned recipes, known to our fathers, by which an ink could be obtained, indestructible in its nature and jet black when first used. Our readers may thank us for a recipe, which is said to fulfill the above mentioned conditions: Threefourths of a pound of bruised nutualls are to be placed in a stoneware jar containing a gallon of soft water, and the next day six ounces of gum-arabic and a few drops of kreosote or carbolic acid are to be added .-The bottle in which the liquid is placed is then to be corked and left for two or three weeks, being shaken up once or twice every day. After being allowed then to stand for a few days undisturbed, the clear liquid is

poured off and is ready for use. WHO ARE HAPPY ?- Lord Byron, said: The mechanics and workingmen who can maintain their families are, in my opinion the happiest body of men. The editor of the Winchester Times has recently paid a visit to Richmond and gives an interesting account of the work of the Virginia Legislature. Among the things not vet done is the granting of a charter to the Winchester and Luray Valley Railroad. It is referred to in the following extract :-

own affairs. It was a long step in the direc-tion of consolidation. If the Flick amend-ment were divided so that the vote could be taken separately upon the propositions to give the ballot to the disfranchised white man and to the black man, he would vote to submit both propositions to the people. But in its present shape, he could not support it.

Mr. Brannon said it was his purpose and duty to aim at practical results. He had con-

eistently and carnestly opposed pegro suffrage, but in spite of his opposition the negro was a voter. In this view, there was but one end to be accomplished by the Flick Amendment, and that was the enfranchisement of the white man. That was all there was of it. It did not give the ballot to the negro. Rightfully or wrongfully, he had it already, and no power that could be available for many years would take it from him. He had had no part in the negro's enfranchisement, and if the matter depended upon his vote there would be no negro suffrage. But he could not shut his eyes to facts and wander after abstractions, while the rights of thousands of his white fellow-citizens were at stake. He saw in the Flick amendment only a proposition to restore to them their rights. It answered affirmatively the only question now left, shall the white man vote? He would therefore sup-

Mr. Hervey heartily concurred with the gentleman from Lewis. He was not troubled about his record. He had voted against negro suffrage when it was an issue, and now that it had been settled, he proposed to fight on living questions, not on dead ones. If the Democratic party would succeed it must turn its face to the future and cease struggling against questions that are fixed and past. He suported the Flick amendment.

Mr. Smith discussed the method in which the disfranchising clause of the State Constitution was adopted, and showed that because thousands were disfranchised to secure its adoption that adoption was questionable.— Besides this, that clause being an ex post facto law, was contrary to the Constitution of the United States. Of the two propositions be-fore the House, he preferred the Davis sub-

Mr. Pierpoint succeeded in getting away, but Mr. Wheat was intercepted and turned back by the Sergeant-at-Arms, who then barred the egress of other members The Davis substitute was rejected by a vote of 16 to 34.

The question recurred on the original reso lution of Mr. Flick. Mr. Sturgiss moved to strike out of the resolution all after the word "namely" and insert the following: "The male citizens of the State shall be

entitled to vote at all elections held within the election districts in which they respectively reside, but no person who is a minor, or person of unsound mind, or a pauper, or who is under conviction of treason, felony or bribery in an election, or who has not been a resident of the State for one year and of the county in which he offers to vote, for thirty days, next preceeding such offer, shall be permitted to vote while such disability continues. A pure and powerful tonic is therefore especially needed as a safeguard against the diseases most common in the spi ing, and Hostetter's Stomach Bitters' being the most wholesome and potent medicine of the class at present known, a course of it is particularly advisable at this period of the year. The stomach will thereby be toned and strengthened, the liver and bowels regulated, the nervous system braced up, and nature put in a state of active defence against the miasma which superinduces intermittent and consittent fevers, rheumatisms, nervous debility, headache, hypochondria and other complaints which are apt to assail the unitoned and unfortified organizations. oThe life of the flesh is in the Blood, is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many discuses, and like many popular epinieus this of had blood is founded in truth.

The aymptoms of bad blood are usually quite plam—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tangue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in toughness of the skin, then in known was an outernary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one fifth of the human family are affected with scrofula in some form. when the Blood is pure, you are not so liable to any disease. DISEASES OF THE KIDNEYS AND BLADDER. Persons unacquainted with the structure and functions of the Kidneys, cannot estimate the Im-portance of their Healthy Action. Regular and sufficient action of the Kidneys is as important, nav, even more so, then regularity of the bowels. The Kidneys remove from the Blood these effete matters which, if permitted to remain, would speedily destroy life. A total supension of the urinary discharges will occasion death in from the urinary discharges with occasion death in from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinsta more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled withor delayed, but Markov should be taken at once to remedy the of the back, it should not be trifled withor delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys the Urine being imperfectly secreted in the Kidneys, prope irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

Meets with GREAT SUCCESS in the CURE of Diseases of the Nervous System.

Almost nine tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to day with broken down nervous systems, and, unfortunately, tobacco, sloohof, late hours, over work, (mental and physical), are causing diseases of the nervous system to increase at a

fearful ratio.
The symtoms to which diseases of the Bervaus system give rise, may be stated as follows : A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head. Confusion of Ideas, Temporary Loss of Memory, Dejection of Spirits. Starting during Sleep, Bad. Decams, Hesitation in Answering Questions. Duliness of Hear-ing, Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

OUR INTERESTS .- Newspaper controverties do not always prove very edifying to the mass of readers, and our columns are too unch pressed with matter of more importance, or us longer to banter words with our neighbors of the Free Press. We have no doubt, however, that a "manufacturing site" in "mid air" would be about as valuable as some me wot of, in their present condition; and as we have none to sell, and are pecuniarily interested in none, we have only written our arti-cles in what we believed to be the interests of the community. As to "masked batteries," we may not have as many as some other journals not a thousand miles distant.

CIRCUIT COURT .- His Honor, Judge Joseph A. Chapline, held a special term of our Circuit Court on Tuesday and Wednesday last. The Lawyers Test Oath having been rcpealed at the present session of the legislature, the following gentlemen, upon motion of Judge Thos. Van Swearingen and Judge J. W. Kennedy, were permitted to qualify as practicing attorneys in this county, upon their taking the oath to support the constitution of the United States and of this State, and to konestly demean themselves in the practice of law, &c. :- E. I. Lee, E. E. Cook, Andrew E. Kennedy, W. H. Travers, John Reed, D. B. Lucas, Andrew Hunter, T. C. Green.

The Court ordered that Andrew Hunter, Judge Thos. Van Swearingen, J. N. Wisner, C. E. Stubbs, and W. H. Travers be appointed a committee to prepare and report to the Court a system of Rules of Practices to govern in the 6th Judicial circuit of West Va., when sanctioned by the court, and said committee are requested to report the same at the next term of the Berkeley Circuit Court.

RAILROAD ELECTION .- We are extremely sorry that the county of Jefferson, through her Board of Supervisors, whilst appropriating thousands of dollars for unnecessary purposes, is too poor to pay for advertising the notice for an election on the Shenandoah Valley Railroad subscription, in all the papers of the county. Pecuniarily, this is not a matter of very great importance, but we do think it but a simple act of justice, that a paper which has advanced and advocated this great project as the Spirit of Jefferson has, should at least have a share of the benefits, if any are to be reaped. However, notwithstanding the illiberality of the Board of Supervisors, (for the benefit of the people of the county, as this is a matter in which all are interested,) we suppose we can afford to insert the notice gratuitously. It will be found in our advertising columns.

A NEW DODGE .- From the Frederick

(Md.) Examiner we clip the following :-On Wednesday, the 9th instant, a young man about twenty-one years of age, giving his name as David Landers, and representing himself as a farmer in Rockingham county, Va., went to the Clerk of our Court and asked for a marriage license, but as he did not have four dollars and a half, the price charged for the license, the clerk declined the request .-Mr. Landers then returned to Harper's Ferry, where he had left the young lady he intended marrying, until he came here for the license. A few days after Mr. Mantz received a letter from Mr. Landers, requesting him to send the license to Harper's Ferry by Adams Express, marked C. O. D., which he did. In due time the license reached Harper's Ferry, when Landers was informed of it, but instead of getting the license out of the Express Office, and making good his promise to the young lady, whom, in the mean-time, he had grossly imposed upon, he aban-doned her and left for parts unknown, not leaving her a cent to pay her board at the hotel, or to get home with. Darssmaking. There are many ladies who would prefer to make their own and their children's dresses, but for the difficulty in cutting and fitting hem properly-the ordinary charts being very high priced, and at the same time, so complicated as to oe available only to professional dressmakers, after long practice. An emineut mediate of Paris has recently issued "THE UNIVERSAL GUIDE IN DRESS-MAKING," which evercomes this difficulty entirely. It contains a superior mode of measuring, perfectly exact, yet so easy that it can be applied by any one in itself worth more than the price of the whole from the largest adult to the smallest child. Toher with printed Rules and Explanations, by means of which any lady can make her own and her children's dresses in the best style. To dressmakers it is invaluable. And the low price at which it is offered (only ONE DOLLAR) places it within the reach of all.

AVE fully demonstrated their adaptation to the soil and climate of the South. Yield 100 to 150 bushels to the zerd. No lodging or rusting. Are heartily endorsed by brominent planters in every Southern State. Those wisting to participate in the profits of the sale of this seed next year should order at once, enough for a few zeres. Every one will want it next year. J. L. Divine, Chattanooga, Tenn., raised 753 tushels on 5 acres last year. The increased value of the straw will pay cost of seed twice over. A few planters have already bought, and there is a chance for a few more.

Caution.—Counterfeit seed is being extensively offered in the South, and we caution the public against imposition. See that our trade-mark is produced before you buy. HOMESTEAD AND PRE-EMPTION HAVE compiled a full, concise and co I HAVE compiled a full, concise and complete statement, plainly printed, for the information of persons intending to take up a Homestead or Pre-emption in this portion of the West, embracing Iowa, Dakota and Nebraska—and other metions.—It explains how to proceed and secure one hundred and sixty acres of rich farming lands for soth as aix months before you leave your home, in this six months before you leave your home, in this healthy clamate. In short procuding just such formation as is needed by those intending to make a home and fortune on the free lands of the West. I will send one of these printed catalogues to any person sending me 25 cents. The information alone which it gives, is worth five dollars to anyhody.—Men who came here two or three years ago and took up a farm are to-day independent.

TO YOUNG MEN.

To Young Men.

This country is being crossed with numerous railroads, reaching from every direction to Sionx City. Iowa. Six railroads will be completed to this city within one year. One is already in operation, connecting us with Chicago and the U.P. railroad, and two more will be completed before spring, connecting us with Dubuque and McGregory direct. Three more will be completed within a year, connecting direct with St. Paul, Minnesota, Yankton, Dakota, and Columbus, Nebraska, on the U.P. railroad.—The Missouri river gives access to mountain trade. Thus it will be seen that no section of the country offers such unprecedented advantages for business, and for making a fortune. For the country is being p. pulated, and towns and cities are being built, and fortunes made almost beyond belief. Every man who takes a homestead now, will have railroad market at his own door. And any enterprising young man with a small capital, can establish humself in a permanent and paying business if he selects the right location and right branch of trade. Eighteen years residence in the western country and a large portion of the time employed as a Mercantile Agent in this country, has made me familiar with all the branches of business, and the best locations in this country. For one dollar remitted to me, I will give truthful and definite answers to all quantions on this subject, desired by such person. Tell them the best place to locate and what business overcrowded and what branches are neglected.

THE BEST IN THE WORLD THE SCIENTIFIC AMERICAN \$1,500 Cash. Tor 1870. \$1.500 Cash.

A Valuable Premium for all. HIS splendidly illustrated weekly journal of Popular Science, Mechanics, Invention, Engineering. Chemistry, Architecture Agriculture, and kindred arts, enters its Twenty Fifth Year on the first of January next, having a circulation far exceeding that of any similar journal now pub-The Editorial Department of the Scientific Amer-

ican is very ably conducted, and some of the most popular writers in this Country and Europe are contributors. Every number has 16 imperial pages, embellished with fine Engravings of Machinery, New Inventions, Tools for the Workshop, Farm & Household, Engineering Works, Dwelling Houses, A journal of so much intrinsic value, at the low price of \$3 a year, ought to have, in this thriving country, A Million Readers. Whoever reads the Scientific American is enter-

tained and instructed, without being bothered with hard words or dry details. TO INVENTORS AND MECHANICS this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading American and Euro-pean Inventions. The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequalled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and spien-

did Steel Engraving by John Sartain of Philadelphia, entitled: "Men of Progress--- American Inventors," the plate costing nearly \$4,000 to engrave, and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art. Single pictures, printed on heavy paper, will be sold at \$10, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of \$10. The picture is also offered as a premium for

clubs of subscribers. 61.500 CASH PRIZES. In addition to the above premium, the Publishers will pay \$1.500 in Cash Prizes for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names. Terms of Scientific American, one year, \$3.00; six months, \$1.50; four months, \$1.00.
