

THE LEGISLATURE.

relative to a reduction of duty on imported iron, presented a report which he moved should be printed. The several amendments added by the Finance Committee of the Senate, to the General Appropriation bill, with the others consequent on the motion of Mr. Tazewell, severally adopted by the Senate as a Committee of the Whole, were again considered by the Senate. The amendment proposed by Mr. Webster, to substitute a Charge of the State for the Charge of the State, was adopted. The bill from the House of Representatives for the payment of the claims of James Mosborne, passed the Senate, to-day, and required only the signature of the President to become a law. The bill appropriating upwards of 100,000 dollars to continue the Cumberland Road through the States of Ohio, Indiana, and Illinois, has also passed both Houses.

On Tuesday, the subject was resumed at 12 o'clock. Mr. Leigh continuing his argument, and gave a very clear and comprehensive history of the judiciary of the State, and of several other States. He contended that an efficient system could not be established upon the principle of a single judge to each district, charged with both law and chancery jurisdiction. He believed that not only the prosperity of the State, but the existence of republican government itself, depended upon a faithful and independent administration of justice. For it was of little consequence from what source oppressions sprung, whether from one despot or from a hundred. It made no difference to the citizen, if he was not secure in the enjoyment of his property, by a wise and salutary administration of justice, whether the insecurity or oppression proceeded from his neighbor or from a stranger. He pointed out the good results which would flow from the certainty of justice, by having two judges, and contended that the expense ought not to weigh a feather. All the people wanted, was a prompt, certain, and efficient judiciary—and that they must have, let the expense be what it may. In the course of his remarks, he paid a handsome compliment to the clear head, and quick and discriminating mind, of Chief Justice Marshall. He said the Roman and Grecian republics had fallen, by permitting the administration of justice to become corrupt and inefficient—and what was fatal to Roman or Grecian would prove equally so to Virginia or American. In this subject, Mr. Leigh seemed to take a deep and intense interest—and he declared he would stick to the system proposed, as long as he had power to raise his voice. His remarks were ordered his voice, but he begged not to be interrupted. When his argument was concluded, the question was taken on Mr. Christian's substitute, and last—aye 40, noes 69. Various amendments were then proposed by Mr. Leigh, and adopted, whereupon the committee rose, and reported the bill and amendments to the House. They were then laid on the table.

To-day, (Wednesday), the Judiciary Bill was not considered; the whole day being spent upon two other subjects, namely, a question in reference to the reduction of tolls upon Mayo's bridge, (across James River, between Richmond and Manchester), and the Petersburg Rail Road bill. Both topics elicited much able debate; but as the former is a local matter, I will not trouble your readers with any further notice of it. The Rail Road bill (which proposes a subscription of \$160,000 by the State) was earnestly and ably advocated by Mr. Eppes of Sussex, and by Messrs. Shell and Gholson of Brunswick; and was opposed with much ability, ingenuity and good humor, by Mr. Maxwell, of the "good old borough of Norfolk," (to use his own favorite phrase). The discussion was enlivened by several very happy allusions, and exhibited a feeling of rivalry between the Petersburg and the Norfolk interests. Mr. Maxwell, whose imagination is always teeming with brilliant and poetical images, in one of his allusions to the city of New York and her commerce, peculiarly favored as she is by Providence, said "she looks like a Queen upon the waves, looking out upon the Ocean, every billow of which wafted new treasures into her bosom." He said, Norfolk, almost equally favored by the God of Nature, might emulate, if she could not equal, New York, under a wise legislative policy. Mr. Gholson, a gentleman of fine mind, and of bland and pleasant manners, also introduced some very agreeable similes. He said, it was far from his wish to injure Norfolk, which had been poetically termed "the mourning bride of the Ocean;" his object was to accommodate the interests of a large portion of the planters of the State, (\$40,000 of whom were deeply interested in the rail-road improvement,) by obviating the difficulties and dangers which Albemarle Sound presented to the citizens upon the Roanoke, who passed through that channel to Norfolk. The House adjourned without taking the question, which will be still further debated by Mr. Macfarland of Petersburg, and several other gentlemen. It is impossible at this time to foresee the end of the session, although most of the members seem anxious to wend their way homewards. Perhaps

the middle of the month may exhibit the greater part of the important business finished, though much yet remains to do.

FROM OUR CORRESPONDENT.

RICHMOND, MARCH 3. The House has at length entered upon the great business of the session. On Monday, the judiciary bill, being the order of the day, was taken up in committee of the whole. Mr. Christian of Buckingham, moved a substitute to the first section, proposing to divide the State into three judicial circuits, with one judge allotted to each, and invested with common law and equity powers—instead of 12 circuits, with a law judge and chancellor in each, to act together or singly as circumstances may require. This amendment was briefly supported by Mr. Christian and by Mr. Jones of Elizabeth City. Mr. Bayly of Accomack, Mr. Brodnax of Dinwiddie, and Mr. Leigh, opposed it. The latter did not finish his argument. The committee rose, and will leave to sit again.

On Tuesday, the subject was resumed at 12 o'clock. Mr. Leigh continuing his argument, and gave a very clear and comprehensive history of the judiciary of the State, and of several other States. On Friday, Mr. Morris of Hanover, chairman of the committee of privileges and elections, stated that the committee would be enabled to report a bill concerning the general election law, earlier than next week; and as the people were in doubt as to the time of holding the next election, he moved the appointment of a select committee, with leave to sit forthwith, for the purpose of preparing a bill, informing the public that the elections for this year would not be held in the month of April. The committee was accordingly appointed, and in a short time reported a bill on this subject, which was passed through its several readings and sent to the Senate.

Remarkable change in the Channel of the Mississippi.—By the Steamer Brandywine, we have (says the New Orleans Mer. Advertiser) the confirmation of a long expected cut off in this river. At the well known curve opposite the mouth of Red River, the current burst across the neck of land by the aid of Capt. Shreve, and has made a channel four hundred yards wide, and about four fathoms deep already. Flat boats and rafts have descended through it with tremendous velocity—and the Brandywine would have done the same but for business on the other route. The distance between this and Natchez is thus shortened about thirty miles by one small cut off—and should the same thing occur at the Tunica Bend, (which is extremely probable,) the distance will be lessened one hundred miles!

Melancholy Accident.—Mr. John Willard, Sen. of Burketville, in this county, a worthy and valuable citizen, was suddenly killed on Thursday the 17th ult. He was engaged in the woods with his son and a servant, cutting timber, when one of the trees falling struck another, and one of the limbs striking the neck of Mr. Willard on the head and fractured his skull.—He died instantly. [Fredericktown (Md.) Examiner.

Sheep escaped from Sursum.—We informed that Mr. Samuel Lyon, of Sawpit, in the State of New York, had four sheep on Great Captain's island at the commencement of the great snow storm, which were taken out of a snow bank alive on Friday, the 18th ult. having been confined by the snow nineteen days without food.—[Sentinel.

As an agreeable termination of the day's labor, (after a session of five hours,) I can not, that the bill authorizing a subscription to the stock of the Smithfield, Charlestown, and Harpers Ferry Turnpike Company, was put upon its final passage, and carried by a handsome majority. Upon the Senate, now rest the hopes of the State.

ITEMS.

Valley Rail Road.—We are now sanguine in the belief that a rail-road will be speedily constructed from Harpers Ferry to Port Republic, a distance of about 130 miles, and at a cost of a million and a half. And we should not be disappointed to see the unaided enterprise of the valley effect it. An enlightened and patriotic spirit prevails there on this momentous project; and a recent meeting in Staunton demonstrated that there were thousands for a rail-way, but not a cent for a mud-pike. They have, therefore, wisely determined to construct a rail road that will intersect the Baltimore railway. Hence, unless an arm be extended from Richmond, the great mart of Western Virginia will be found north of the Potomac—the State virtually divided—and the region of her glory sung throughout the east. [Charlottesville Advocate.

Arrival Extraordinary.—A boat from Pattonsburg, Botetourt County, arrived in Richmond on Sunday, with a full load of Tennessee Cotton. It had been transported to Pattonsburg in waggon, and there bartered, we understand, for Virginia Iron, &c. [Richmond Whig.

Messrs. Peterson & Bolls have just put in operation a machine for preparing flooring boards, which will be of great utility to the carpenters of this place. The boards, after being cut to the proper width by a circular saw, are placed in the machine, and come out planed, sanded, and planed to a uniform thickness. The machine and saw are propelled by a steam engine, and will do as much work in a day as twenty men can in the old way. This is the first machine of the kind, we understand, that has been erected West of the mountains. [Wheeling Gazette.

Commercial.—The Siamese youths, Chang Eng & Co. are about returning to this country from England, whither they went on business, last summer. Though their house of clay is not a very extensive concern, they have nevertheless, it is stated, realized a fortune. They constitute a very rich and prosperous firm; and as things proceed so successfully in their present junction, we feel assured there will not be any dissolution of their partnership. THE FREE PRESS. THURSDAY, MARCH 10, 1831.

GEN. JACKSON AND MR. CALHOUN.

During the last fall and winter, the newspapers were filled with rumors of a rupture between the President and Vice President of the U. States, and of a correspondence carried on between them of no very friendly character.

As many of our subscribers read no other paper, and inasmuch as the divisions of the public party must be interesting to every one, whatever may be its political creed, we deem it proper to give as briefly as possible a sketch of the controversy.

It is well known that about the time of, or soon after, the election of Mr. Adams to the presidency, Mr. Calhoun united himself to the Jackson party, and exerted all his influence to secure the election of the present chief magistrate.

Between these two high officers there existed apparently a warm friendship, until recently. Some time in May last, a letter from William H. Crawford to Mr. Forsyth, of Georgia, was placed in the hands of Gen. Jackson, containing a statement of the part which Mr. Calhoun took in the cabinet council called by Mr. Monroe.

On the 10th of March, 1831, the following public sale will be held at the residence of the subscriber, at the residence of the subscriber, at the residence of the subscriber, at the residence of the subscriber.

JOSEPH E. DUST, March 8, 1831.

PUBLIC SALE.

PUBLIC SALE.

Will be sold, at public sale, on Saturday the 12th inst. (March) residence in Bolivar, all my household and kitchen furniture, consisting in part of chairs, tables, a tea-table, &c.

THOMAS JINKINS, March 8, 1831.

Just named gentlemen, he addressed to Mr. Calhoun a bitter letter, not confined to his own defence, but containing many accusations against the Vice President.

After the publication of the pamphlet, various copies appeared in the two "Officials" at Washington, the Telegraph and the Globe.

Mr. Van Buren has come out, declaring that he was in no way concerned in producing the rupture, and had no motive to injure Mr. Calhoun.

Mr. Hamilton has published a vindication of his conduct in this affair. He alleges that on his voyage from Nashville to New Orleans, in the winter of 1827 '28, in company with Gen. Jackson and his wife, there was much conversation on the subject of the charge made against the General.

Mr. Hamilton further says, that when the President (Jackson) expressed a wish to see Mr. Crawford's statement, he yielded after obtaining the consent of the writer to do so.

But we are not told how or by whom Gen. Jackson was informed of the existence of Mr. Crawford's statement in the possession of Mr. Hamilton.

Another publication has been made by the Vice President, since the appearance of Mr. Hamilton's vindication, by which it appears amongst other things, that a confidential letter from Mr. Monroe to Mr. Calhoun, was published from the latter, he knows not how or when, and came into the possession of the President.

Mr. Calhoun addressed another letter to the President, of a tone and character very different from his first note, and contends that it was impossible the General could have been ignorant that he (Mr. C.) differed from the General in his construction of the orders under which the Seminole campaign was conducted; and to prove this, refers to Mr. Monroe's letter to Gen. Jackson of 20th Oct. 1818, by which he was informed of Mr. Calhoun's opinions, and in conclusion, indignantlly repels the accusation of concealment and duplicity.

In addition to the facts disclosed by these letters, there are others which appear in a subsequent stage of the correspondence, going to show the manner in which the matter disclosed by Mr. Crawford's first letter, came to the knowledge of the President.

In the month of June, the Vice President addressed another letter to Gen. Jackson, informing him of Mr. Forsyth's statement that the information was procured from Mr. Crawford at General Jackson's request, and insisting upon his right to know who was at the bottom of this affair.

By a reference to the letters of our Richmond correspondent, on the preceding page, it will be seen that the bill authorizing the Board of Public Works to subscribe to the stock of the Smithfield, Charlottesville, and Harpers-Ferry Turnpike Company, has passed the House of Delegates.

BALTIMORE, SATURDAY, MARCH 5. FLOUR.—The wagon price on Monday and Tuesday was \$4 75 to 5 75.

ALEXANDRIA, SATURDAY, MARCH 5. FLOUR.—It ranges from \$4 00 to 6 10. 6 00 most current. Some lots were sold at 6 12 to 6 20 during the week.

GRAIN AND FLOUR.—There appears to be very little doubt but the averages will continue to rise, and as our supplies cannot be heavy until the Spring, good prices may be expected to rule in this market for some time to come.

WE are authorized to announce WILLIAM ARMSTRONG, Esq. as a candidate to represent the district composed of the counties of Jefferson, Berkeley, Hampshire, Morgan and Hardy, in the 22d Congress of the United States.

Rev. SEPTIMUS TUSTON will preach in the Free Church at Harpers-Ferry, on next Sabbath, at 11 o'clock.

MARRIED. On Tuesday last, by the Rev. Mr. Hutchison, Mr. GEORGE MORSE, to Miss SALLY BURLEN, daughter of Mr. William Butler, all of this county.

DIED. On Saturday last, Mrs. MARGARET HANSEN, wife of Mr. Peter Hansen of this town, in the 74th year of her age.

On Sunday last, after a lingering illness, Miss CLARA STRESON, of this county, aged about 24 years.
