

THE SOUTH. ADDRESS TO THE PEOPLE OF THE UNITED STATES BY SOUTH CAROLINA.

changed for under the protecting system. It is no less evident, that the value of that crop is diminished by the protecting system very nearly, if not precisely, to the extent that the aggregate quantity of manufactures which can be obtained for the cotton and rice annually produced by the industry of the State, is the precise measure of their aggregate value.

We, the People of South Carolina, assembled in Convention, do hereby solemnly declare, in our paramount sovereign capacity, that the act of Congress approved the 19th day of May, 1832, and the act approved the 14th July, 1833, altering and amending the several acts imposing duties on imports, are unconstitutional, and therefore absolutely void, and of no binding force within the limits of this State; and, for the purpose of carrying this declaration into full and complete effect, we have invested the Legislature with ample powers, and made it the duty of all the functionaries and all the citizens of the State, on their allegiance, to cooperate in enforcing the aforesaid declaration.

In coming to this important measure, to which we have been impelled by the most sacred of all duties which a free people can owe either to the memory of their ancestors or to the claims of their posterity, we feel that it is due to the intimate political relation which exists between South Carolina and the United States, to state, as briefly as possible, the grounds on which we have acted, and of the causes by which we have been reluctantly constrained to assume this attitude of sovereign resistance in relation to the usurpations of the Federal Government.

For this purpose it will be necessary to state, briefly, what we conceive to be the relation created by the Federal Constitution, between the States and the General Government; and also what we conceive to be the true character and practical operation of the system of protecting duties, as it affects our rights, our interests, and our liberties.

We hold, that the separation from the crown of Great Britain, the several Colonies became free and independent States, each enjoying the separate and independent right of self-government; and that no authority can be exercised over them, or within their limits, but by their consent, respectively.

The Constitution of the United States is a compact formed between the several States, acting as sovereign communities; that the government created by it is a joint agency of the States, appointed to execute the powers enumerated and granted by that instrument; and that the authority of such government is, of themselves essentially null and void, and that the States have the right, in the same sovereign capacity in which they adopted the Federal Constitution, to pronounce, in the last resort, authoritative judgment on the usurpations of the Federal Government, and to resist such usurpations, until they shall be necessary and expedient to arrest the operation of the unconstitutional acts of that government.

It is true, that in ratifying the Federal Constitution, the States placed a large and important portion of their rights, and of their sovereign power, under the joint protection of all the States, with a view to their more effectual security; but it is not less true, that they have reserved a portion still larger, and not less important, under their own immediate guardianship, and in relation to which their original obligation to protect their citizens, and to preserve the rights of justice, remains unchanged and undiminished.

But clear and undoubted, as we regard the right, and sacred as we regard the duty of the States to interpose their sovereign power for the purpose of protecting their citizens from the unconstitutional and oppressive acts of the Federal Government, and as we are as clearly of the opinion that nothing short of that high moral and political necessity which results from acts of usurpation, subversive of the rights and liberties of the people, should induce a member of this confederacy to resort to this interposition. Such, however, is the melancholy and painful necessity under which we have declared the acts of Congress imposing protecting duties null and void within the limits of South Carolina. The spirit and the principles which animated your ancestors and ours in the councils and in the fields of their common glory, forbid us to submit any longer to a system of legislation under which we have declared the acts of Congress imposing protecting duties null and void within the limits of South Carolina.

Under a system of free trade, the aggregate value of South Carolina could be exchanged for a larger quantity of manufactures, by at least one third, than it can be now exchanged for under the protecting system.

al citizens, to the Federal Government, we have seen a gigantic system of restrictions gradually reared up, and at length brought to a fatal maturity, of which it is the avowed object, and must be the inevitable result, to diminish the value of our staple crops, and to deprive our people of the means of subsistence. Even the States most deeply interested in the maintenance of the protecting system, will admit, that it is the interest of S. Carolina to carry on a commerce of exchanges with foreign countries, free from restrictions, and to enjoy the benefits of a free market.

Even the States most deeply interested in the maintenance of the protecting system, will admit, that it is the interest of S. Carolina to carry on a commerce of exchanges with foreign countries, free from restrictions, and to enjoy the benefits of a free market.
