MONDAY, MAY 14.

In the House of Representatives, after the reception of a few petitions and reports, Mr. J. Q. Adams moved a resolution requesting the President of the United States to communicate to this House copies of the several instructions to the Charge d'Affaires at the Court of Denmark, under which the late Treaty of Indemnity was negotiated...

On motion of Mr. Stanberry, after considerable intermediate proceedings, a resolution was adopted for appointing a committee, with power to send for persons and papers, to examine into the allegation of intended fraud in the distribution of the supply of rations to the Indians, in the year 1830.

In the Senate, Mr. King, from the Committee on Public Lands, to which was referred the bill reported by the Committee on Manufactures, to appropriate for a limited time, the proceeds of the lands, made a voluminous report, which was read. It condemns the bill reported by the Committee on Manufactures, and exhibits a great variety of alleged errors of reasoning and of calculation in the report of that committee; and recommends a reduction of prices, and acceleration of sales.

In the Senate, Mr. Grundy, from the committee on the post office and post roads, to which was referred the bill abolishing postage on newspapers, made a report thereon, concluding with a resolution for the indefinite postponement of the bill.

Mr. Stanberry, of Ohio, Mr. Drayton, of South Carolina, Mr. Everett, of Massachusetts, Mr. Wayne, of Georgia, Mr. Mullenburg, of Pennsylvania, Mr. White, of Louisiana, Mr. Hubbard, of New Hampshire.

On motion of Mr. Ewing, the Senate then proceeded to consider the resolution offered some time since by Mr. Benton, to print a copy of the report of the Bank Committee, and a copy of the documents accompanying the same.

On motion of Mr. Tipton, with the assent of the Senate, introduced a bill to authorize the purchase of the stock of the Louisville and Portland Canal, which was read, and ordered to a second reading.

LATE FROM ENGLAND.

The Reform Bill was brought up for a second reading in the House of Lords on the 9th April. It was supposed that the question would have been taken before the close of the sitting of the 10th, as Earl Grey had issued a circular, requesting a full attendance of the friends of the bill that evening.

Lord Wharnclicke made an able speech in favor of allowing the bill to be read a second time, and sent to a committee of the whole. It could then be amended, or perhaps got rid of altogether.

The debates were very animated, and, at times, much more personal than have been usual in the House of Lords.

The Morning Chronicle speaks doubtfully as to the result, but is rather inclined to believe that the bill will be ordered to a second reading by a very small majority.

Cholera in England.—The report made to the Board of Health on the 10th, announces 39 new cases and 28 deaths in London, and 54 new cases, 28 deaths in the country.

The Cholera in Paris.—Paris papers were to the 8th of April, inclusive. The cholera was advancing with fearful progression, and has become a formidable pestilence in the capital.

The Chamber of Deputies of France has voted the Budget of the Minister of Finances, without amendment. The Cholera seems to have cured them of the capricious disposition they have hitherto shown.

The commercial letters from Havre say that the Cholera in Paris, had produced a stagnation in trade, without, however, any material decline in the price of the chief articles.

A letter from Paris, under date of 9th March, published in the New York Journal of Commerce, quotes the following pointed definition given of the Cholera by one of the most celebrated Physicians of France: "Those who are attacked, become cadaverous in a few moments; this word says more than all descriptions. It is a complete cessation of life, as if it were separated from the body by him who has the power of giving it."

A Paris paper of March 29th announces the death of the celebrated Goethe. He died at Weimar on the 29th of March. His death took place while he was seated in his own chair, and without any appearance of pain.

A Havre paper of the 6th of April, says:—"Mr. Washington Irving, one of the most distinguished writers of the United States, is arrived in this town. He will leave here for New York in the first American packet ship which sails."

FIFTY or sixty pounds of good live FEATHERS, wanted at this office, in exchange for donations of the "Loyal" paper, or for cash. April 26, 1832.

INDIAN HOSTILITIES.

Information has been received from the Head Quarters of Gen. Atkinson, dated the 27th of April, stating:—"That the conduct of Black Hawk and his associates, renders it necessary that he should at once take the field, and, as far as possible, prevent them from doing any mischief; that Mr. Grant, Indian Agent, has just arrived from the Prophet Village. Black Hawk and his party were there. Yesterday they set out, in company with the Prophet's band, for the purpose of taking a position on Rock River, some 15 or 20 miles above Osage's, now Dixon's ferry, where they are determined to hold out in defiance of any force that can be sent against them.

They have the British flag hoisted, under which the War Dance is constantly exhibited. They must be checked at once, or the whole frontier will be in a flame."

Another Steamboat Arrives.—The steamboat Freedom took fire at the wharf at Savannah on the night of the 8th instant, and was destroyed, together with a cargo of cotton on board. She had arrived from Darien about nine at night, and at two in the morning the fire broke out. The passengers and crew had barely time to escape with their lives.

The body of one of the passengers of the steamboat Brandywine was picked up afloat in the Mississippi, near Memphis, on the 1st instant. The sum of \$1200 in bank notes was found on his person.

The Lockport Balance of the 17th inst. says:—"At the Circuit Court held in this village last week, Hon. Addison Gardner presiding, Eli Bruce was found guilty on an indictment for a misdemeanor in refusing to be sworn as a witness at the special circuit held by Judge Mar. 22, 1832, and sentenced to imprisonment by the Court to 60 days' imprisonment, and to pay a fine of \$250. John Whitney, who was found guilty at the last term of a misdemeanor in the same office, was also sentenced to a like term of imprisonment, and to pay a fine of \$100."

The Lynchburg Virginian states that Charles M. Jones, who shot Ed. win Sayre, and had been bound in the sum of \$1000 to answer the charge of homicide, at the spring term of the Bedford Superior Court, failed to appear. Messrs. Chapman Johnson, and B. W. Leigh were on their way to court to defend him, but on learning at Lynchburg that Jones had gone, returned home.

Horrible.—At Pymatuning, (Pa.) about the 1st inst., Mrs. Pettit, who was subject to fits, was sitting by the fire, with her infant in her arms, when she fell, and before assistance arrived, the child was taken out a corpse, and herself only survived a few hours.

Colonization Society.—Sailed on the 14th inst. from Hampton Road, the ship Jupiter, Capt. William Peters, for Monrovia, in Africa, having on board about 170 emigrants, of which number 94 were slaves transferred to the American Colonization Society for the express purpose of being sent to Liberia.

We understand from the Agent at this place, that there have been upwards of 500 applications from free persons of color for passage to Liberia, and that the number which can be obtained is limited only by the want of funds to transport them.

Colonization.—The Managers of the State Colonization Fund have entered upon the active discharge of their duties, and have taken an office at the corner of St. Paul's and Fayette sts, where one of them will be in attendance every day, from eleven till 12 o'clock. Editors of country papers would aid the important object in view, by noticing this fact.

Appointments by the Post Master General.—ANDREW LOGAN, Editor of the Beaver Republican, to be Post Master at Beaver, Pa. vice James Alexander, deceased.

The Arkansas Advocate announced in terms of indignation surprise, the removal of James Woodson Bates, Esq. from the bench of that territory, to a room for a son of Senator Bibb, and a punishment for opposing the election of Mr. Revier to Congress. It asks, "will the people stand every thing? The Advocate is a Jackson paper."

Another Red Ink Article.

We last week published a Card of Thomas D. Arnold, a member of Congress from Tennessee, in which he gives notice of his intention, to sit in the street. The following is the original, as it appears in the "wring" Mr. A. The reader will judge, by the strict notice below, of the propriety of time and place selected for the exhibition.

From the Globe.

Mr. Blair.—I observed in the Intelligencer of this morning, a Card from Thomas D. Arnold, of Tennessee, purporting to detail a conversation between that man and myself, near Brown's hotel, on yesterday.

I am no newspaper warrior, Mr. Editor, and should not thus notice this pitiful effusion of the honorable gentleman, but that some of the misrepresentations and some insinuations contained in that card, might, if not corrected, operate as they were evidently designed to do, to the prejudice of an individual now placed in duress before the House of Representatives, and who, as far as his own agency is concerned, has nothing to do with this matter.

Mr. Arnold met Mr. Arnold on Pennsylvania Avenue, and accosted him as he stated, but he does not report the conversation correctly.

I said to him, you have wantonly assailed and abused General Houston—he is a friend of mine—his hands are tied, and he cannot defend himself; if, therefore, you give out an account of this, at a proper time, on a proper occasion, and at a proper place, I will make you account for it; I intend to whip you, but not now; I am armed, I presume you are not; I wish no advantage of you, and therefore put you on your guard. This is the whole of the conversation, I believe, literally, as it passed; except that Mr. Arnold demanded, in a hurried and agitated manner and tone—who are you? I replied, my name is Heard, and believe added Major Heard, having borne that commission in the armies of my country, and being usually so called; I thought it probable he would know me by that name.

Mr. Arnold's remarks upon my ruffian appearance are too contemptible to deserve a reply, unless they are intended by way of subterfuge, to refer to my standing in society; if so, I only have to say, that is the paltry evasion of every cowardly heart; if he really wishes information on this subject, however, I am ready to refer him to the Hon. Mr. Johnston and Senator Bibb, of Kentucky.

As to his remarks on the paleness of my countenance, quivering lips, &c. I will only remark, that the blanch of the cheek, and agitation of nerve, were all on the other side; Mr. Arnold, however, may have judged in this matter, as men under the influence of intoxication frequently do; a drunken man is almost sure to see every man he meets, reeling as much as himself.

Mr. Arnold's attempt to connect this trifling affair with the trial of Gen. Houston, pending before the House, with the evident design to bear upon the result of that trial, is most reprehensible indeed, and only shows the utter recklessness of the man's character; but lest it might influence the minds of some honest men, I will refer all those who may have received such impressions to all the gentlemen who sat on the trial of Gen. Arnold, (no kin to Thomas D.) Gen. Terrell, Dr. Davis, and the Sergeant-at-Arms, who all have heard him to his own conversation, at the time, was altogether accidental, unpremeditated, the effect of a momentary excitement produced by Mr. Arnold's presence, and contrary to the express injunctions of Gen. Houston.

The John Johnston letter, forged by the said Thomas D. Arnold, to justify his pretended "plot discovered," whilst General Houston was a candidate for Governor of Tennessee, will readily explain his vulgar and wanton attack upon Gen. Houston when accused before the House of Representatives, where he talks of "measuring arms with Gen. Houston."

From the Washington Globe, May 15.

We learn, just as our paper is going to press, that an attack has been made by Morgan A. Heard, upon Thomas D. Arnold, of the House of Representatives. The public have seen the Cards which led to this affair in the newspapers. In the course of the affray, the latter drew a sword, and Heard fired a pistol shot, which grazed Arnold's arm. Heard, it is said, was much beaten.

We trust the civil authorities of the city will take prompt steps to put a stop to outrages so disgraceful to the country. For General Houston there was an apology, in the wanton attack made upon him by Stanberry; but for this act there is no palliation. It requires the interposition of some tribunal which has power to inflict a punishment more formidable than a reprimand."

From the U. S. Telegraph, May 15. ATTEMPT AT ASSASSINATION.

After the House of Representatives had adjourned yesterday, Mr. Arnold, of Tennessee, being in advance of the other members, was passing home; as he was descending the steps of the terrace to the street west of the capitol, he was assailed by Morgan A. Heard, who aimed a blow at his head with a large stick. Mr. Arnold dodged the blow, and struck the stick from his adversary's hands; whereupon Heard drew a large duelling pistol, cut down to about eight inches in the barrel, carrying an ounce ball, with the words "New York" engraved on the barrel; and, after a deliberate aim, fired the ball passing through the sleeve of the right arm, just above the elbow, ranging up to the shoulder; carrying away the under part of coat and shirt, and lacerating the arm. Mr. Arnold finding Heard armed with a pistol, followed up his blows with a light sword cane until the scabbard flew off, and having several times knocked him down, was in the attitude of piercing him with sword, when his arm was arrested by General Duncan, of Illinois.

This case presents a remarkable interposition of Divine Providence.—The House had just adjourned; there were near an hundred members of Congress in the range of the ball, which passed near Mr. Taney's head, and yet Mr. Arnold was the only person injured! The readers of the Telegraph will recollect that this Maj. Heard is the individual, who a few days since, published a bulletin in the Globe, announcing his intention to assault Mr. Arnold for what he had said on the floor of the House, relative to Houston. We will give this document to the public to-morrow.

We learn that the partisans of the President will endeavor to prove that Mr. Heard is deranged! Yet they, to-day, refused to permit an investigation of the charge, that he used language tending to stigmatize assaults upon members for words used in debate! How will such partisans explain the bulletin published in the official paper, announcing in advance his intention to commit the assault?

We have no space for the comment which these facts call for. They are a fit commentary upon the proceedings in Houston's case, and afford much scope for reflection.

"We do not recollect," say the editors of the National Intelligencer, "that any thing has occurred in this city for many years past, to produce as great a sensation as the outrage, hastily noticed in our last, of an assault on the person of Mr. Arnold, the Representative from Tennessee, by M. A. Heard, who, we learn, was formerly of the Army. There seems to be but one opinion in relation to it. Even the official paper, which apologizes for the previous assault upon Mr. Stanberry, calls this last assault "an outrage disgraceful to the country." The circumstances that Mr. Arnold had, but an hour before, declared in his speech his opinion that no man was safe from violence who expressed his opinions freely on that floor, greatly added to the public mind to the effect of this outrage. The offender against the public peace in this case, has, we understand, been taken in custody of the civil authority, and is now in confinement; therefore, to be dealt with in due course of law.

THE GLOBE'S APOLOGY.

From a long article in the Globe, on the subject of the attack upon Mr. Arnold, we extract the following apology for Major Heard.

"Mr. Heard, being a personal friend to Governor Houston, resolved to resent an insult offered to him, whilst under duress, by Mr. Arnold. Of this intention he admonished Mr. Arnold, in a casual meeting in the street. The latter resented this through a Card in the Intelligencer, intimating that Heard was retained from the trial of Gen. Houston, through this print. We understand that a member of the House, and several others, friends of the administration, united with Gen. Houston in exhorting a promise from Heard to content himself with his paper defiance. They urged upon him the mischief it would do Houston himself—the purpose to which it would be applied by the opposition, and every other prudential consideration that could be suggested. He at last pledged himself to give up his intention to attack Arnold—but, unluckily, becoming insubordinated before he went to the Capitol, he resolved, it seems, to punish Arnold for the new affronts, which he supposed that individual intended to offer him, in his speech on that day, by exclaiming against assassins, whom he described as hanging about the lobbies of the House. Heard, laboring under previous excitement, and driven quite beside himself by the affronts with which he was goaded, brought on the encounter in which he was severely wounded. Fortunately, Mr. Arnold escaped unhurt, the arm being only slightly bruised."

From the National Intelligencer.

Now, we shall not attempt, as the Globe does, to interfere with the course of justice in the case, to which its strictures relate. It is for the paper which represents the dignity of the Executive, to apologize for, and all but justify, the use of clubs and pistols as fit means of correction of erroneous opinions entertained by Members of Congress. Our object in noticing this subject at all, under present circumstances, is to mark the fact that the government paper informs us, as if authoritatively, that the assault upon Mr. Arnold was made to "punish" him for having, in a speech delivered perhaps an hour before, "exclaimed against assassins." We hope, that it will not be maintained, after this, that the freedom of debate in the House of Representatives has not been invaded. We venture one more remark: Did any body ever hear, during the last "mad and mischievous" administration, as Mr. Ritchie used to be fond of calling it, of any Member of Congress being way-laid on leaving the Capitol, and assaulted with bludgeon, pistol, and dirk, for vindicating his right to freedom of debate?

Bills of Indictment have been found by the Grand Jury for the county of Washington, now sitting, against SAMUEL HOUSTON and MORGAN A. HEARD, for ASSAULTING WM. STANBERRY, and THOMAS D. ARNOLD, with intent to kill.
