ILLUSTRIOUS BUT ALARMING SCENE.

The wonder and astonishment of many were raised on a exciting pilot, yesterday morning, while before day-light, by a meteoric phenomenon without parallel in this region. It seemed as if all the flames of heaven had fallen from their high chandeliers, and descended in showers to the earth. The spectacle was visible for half an hour, and many persons describe it as brilliant beyond conception. It was observed by all early risers for miles around. Not having been fortunate enough to gaze upon and witness at this shower of fire, we cannot impart a proper and glowing impression of it to those who were equally unfortunate; but we find it has caused great, though unnecessary alarm. Smaller phenomena have been noticed in various parts of France, during the past year, and those who were for a while struck with the idea that the stars were falling, may readily account for the whole matter, by supposing the late splat of warm weather, which had concentrated a mass of electric matter, which the cool morning air dispersed in golden streams and particles.

THE JEFFERSON JOCKEY CLUB RACES.

The weather being fine, and the course in good order, great gratification was experienced by the lovers of good racing. There never had appeared on the turf, in this region, such a collection of animals of superior blood and action; and several of the contests, both as to time and interest, would have done honor to any field.

On the first day, it was generally admitted that Mr. Strider's fine horse Tyrant would work no competitor who could put him to work in earnest; but Messrs. Spodgrass and Harbaugh, recollecting the old adage, "Nothing venturing, nothing winning," and remembering that in racing as in every thing else, uncertainty always hangs over unexpected events, very properly determined that there should be a race, and that no Tyrant should walk over our fair fields without opposition. They accordingly put in Velocity and Major Jack Downing to keep him busy for a season. Velocity lost the first heat, Tyrant close at her heels, and Jack Downing leisurely bringing up the rear. Thus they traversed the ground for three miles, when Tyrant, in the fourth, despite of his rider, passed ahead under a stiff pull, and took the heat, while Jack Downing brushed up to remind him that he was ready for another contest. The race was a pretty one, though it was generally acknowledged that Tyrant was not put to his metal. It will be remembered that on the Central Course, Baltimore, he was only second in two heats with the celebrated mare Trifle—now the undisputed mistress of the turf. In the second heat, Velocity was withdrawn, and Tyrant and Jack Downing covered round very handsomely for three miles. Mr. Flood's Betty Nelson two heats. Mr. F. deserves credit for entering his mare in a contest which was known to be unequal on so heavy a course—all other competitors having been abashed by Tyrant—a horse of acknowledged power and speed. The race, though not fast, was a very pretty one; about two minutes each heat.

A deficit in the revenue of the Post Office Department, for the present year, is acknowledged to exist; and several discontinuances of mail facilities, are talked of, as a remedy.

THE NEW COURT-HOUSE.

FOR THE FAIR COUNTRY.

To the Gentlemen Justices of Jefferson County. Will you permit two, or three, or four, or more, humble individuals, your fellow-citizens, and we would fain hope, good men and true—respectfully to address a few plain remarks to your Worship, upon a subject interesting at this time, not merely to yourselves, in your public capacity as magistrates composing the Court of Jefferson County, but to the people of the county generally. It is well understood, we believe, that the county court of Jefferson, has contemplated the creation of a new Court-House; and with that view, provision has been gradually made, by levying money from year to year. It is a point contested, too, by almost every one, that the building at present used, is totally inadequate for the purposes of a court-house. The people themselves, who are in fact the true parties concerned, are not only willing, but anxious, that a new court-house should be provided—one indeed, not merely more suitable for the public business, but in every way more worthy of the county. A committee was appointed at a court during the past summer, with directions to select a suitable site, and to report a plan. That committee reported, an order was made, directing the Sheriff to summon the acting Justices to appear and determine finally in regard to the proposed site, and the question will be definitively settled upon at the ensuing quarterly term. The committee selected a lot, which, however eligible it may be for the purpose intended, does not, nevertheless, concentrate upon it general unanimity; many objections exist against its adoption. In short, there are difficulties in the way which seem to be insuperable. In the first place, an act of assembly would be requisite to sanction the step; which, however feasible in itself, would nevertheless produce delay, and probably some vexation too. In the second place, the price at which the lot is held (\$600), although it may not be deemed too high, yet would be withdrawing that amount from the fund supplied for the building; which expenditure may be, and certainly ought to be, prevented. But the most serious objection, and one which in the nature of things cannot, I apprehend, be removed, is this: The lot, or grounds, upon which the public building now are, were conveyed by the grantor, in trust, for the purpose of erecting upon them a court-house, &c. There is no question as to the intention of the grantor; he intended them for the public use, and for no other. But the words of the deed are conclusive in relation to this. Now, a legal question arises, whether the lot and court-house, when they cease to be used for the public purpose, revert to the grantor, or the original grantor, and thenceforth become totally void out of the court. One of the objects had in view by the committee, was the sale of the present lot and court-house, and appropriate the purchase money to the building fund. But who would purchase property with such a cloud hanging over the title? The house and lot together, under such circumstances, would not bring \$600, the sum proposed to be given for the lot. But permit us now to show, in what manner

GENERAL INTELLIGENCE.

The Attorney General.—We understand that Mr. D. has declined the appointment of Attorney General of the United States, which has been tendered to him by the President. We were not aware, at the time we penned our former article on this subject, that Mr. D. had already declined the appointment by a letter addressed to Washington two days previously to his visiting that city. We well know, that in the determination which this gentleman has felt himself constrained to adopt, he has been influenced by no want of confidence in the venerable Chief Magistrate of the U. States—nor by the absence of any desire to sustain an Administration, or the success of which he believes, are depending the best, the vital interests of the Republic. But Mr. D., in the decision he has formed, has acted upon considerations arising from his own peculiar relations, and such as he has not deemed himself at liberty to disregard. [R. Exp. Adv. 8.]

Mr. Buchanan.—The New York Commercial Advertiser says: "The great news announced that Mr. Buchanan, our Minister to the Court of St. Petersburg, is on his way to the United States, on a visit. We suspect the visit will be a long one. All his baggage—the goods and chattels of his household—has arrived in this port, in advance of the Minister. The truth is, Mr. Buchanan is a Russian Capital for good. Young Mr. Clay is again left as Charge, and there will now be another opportunity for the President to give a snug job to some other favorite, who has grown weary of living upon his wits, or some other 'moderate competence'."

Mr. Clay.—The New York Commercial Advertiser says: "We learn that Mr. Clay is to leave Boston, on his return to the South, this day—crossing over the country via Worcester, Northampton, Pittsfield, &c. to Troy, and Albany; and thence descending the river by the city of New York, and Albany, to the mouth of the Hudson, where he is to be met by the Western Statesman, and we are glad he has accepted it."

Ex-President John Quincy Adams arrived in this city on Saturday afternoon, on his way to Washington, and took lodgings at the Indian Queen and Baltimore House. [Balt. Adv.]

Rhode Island Senator.—We mentioned yesterday that the Hon. Elihu H. Potter, was chosen a Senator in Congress, on the 1st inst. by the Rhode Island Legislature. It appears that Mr. Potter, was supported by the union party, composed of the paper states of the Jackson men and the Anti-Masons. A resolution was, in the first instance, brought forward in the General Assembly, declaring the election of Asher Robbins to the U. S. Senate, in January last, to be void. After long debates, as to the regularity of the proceedings in the case of Mr. Robbins, the resolution was affirmed by a vote of 43 to 37. Mr. Potter was then elected without opposition. [Balt. Pat.]

SERIOUS RAIL-ROAD ACCIDENT.

The Philadelphia Inquirer of Saturday last, states that a very serious rail-road accident occurred on the rail-road 17 miles the other side of Bordentown, on Friday. The Philadelphia Gazette states, that as the train of cars was passing along the road, at the rate of more than twenty miles an hour, the axle of one of the foremost cars gave way, either by the heat of friction, or the pressure upon it, and the whole train was immediately arrested. The second car, containing the engine, was overturned with great violence; and twelve of the passengers more or less injured. One of their number, Mr. James C. Stedman, of Raleigh, N. C. was instantly killed. The prostrate car, with its load, was dragged nearly forty yards.

We gather from the statements already published, that a Mr. Adams, of New Lebanon, probably in Ohio, was abjectly mangled, so much so that he could not be removed. Mrs. Bartlett, of Washington, D. A Valuable Tannery, &c.

FOR SALE.

THE very valuable and eligible real property belonging to the estate of Townsend Beckham, dec'd, situated on the upper part of the Island of Virginia, at Harpers-Ferry, is now in the market, at private sale.

The premises consist of a TANNING ESTABLISHMENT, with water works to grind bark, a large number of Vats, Shops, Bark Houses, and every other appurtenance required to carry on the business on the most extensive scale.

An excellent Oil Mill,

TWO COMMODIOUS DWELLING HOUSES.

The yards and garden of one of them highly improved—together with several out-buildings of different kinds.

A further description of said property is deemed inexpedient, as the purchaser will of course view it for himself. It is confidently believed, however, that the various uses and advantages arising from its proximity to the two great works of internal improvement, the abundant supply of country hides from the Harpers-Ferry market, the water power, &c. combine to render it the most eligible property of the kind, for a person or company with a good capital, to be found in the country.

The property, being unsuited to the occupation and management of a widow and young children, will be disposed of on very reasonable terms, both as to price and extension of credit.

For further particulars, apply either to John Frame, at Harpers-Ferry, or to Andrew Hunter, in Charlestown, Va.

Interest in a Splendid Farm, FOR SALE.

THE undersigned is disposed to sell his interest in the well-known and beautiful estate of

MILLS-GROVE,

In Jefferson County, Virginia.

Not a word need be said of the quality of the soil, or the eligibility of the premises, as every person disposed to purchase, will at once see its value by the most casual examination.

A division of this estate will probably be made in the Spring, and perhaps a second interest may be obtained. In such case, the two, together, will make a pretty little farm, (150 or 200 acres).

For terms, &c. apply to the subscriber, at present residing near Wickliffe Church.

By virtue of a Decree of the Circuit Superior Court of Law and Chancery, for Frederick County, Va., pronounced on the 4th day of July, 1833, in a case in which Sarah Bedinger, Executrix of Daniel Bedinger, deceased, is complainant, and Wm. Herbert, administrator of Ferdinand Fairfax, dec'd, and the heirs of said deceased are defendants, I shall, as special commissioner, on Monday the 24 day of September next, expose to sale, at public auction, to the highest bidder, at the office of the Shenandoah river, immediately in sight of the premises, all that

TRACT OF LAND,

How to Catch Crows.

Wilson, in his American Ornithology, says that crows have been employed to catch crows, by the following stratagem:—A live crow is pinned by the wings down to the ground on his back, by means of two sharp forked sticks. Thus situated, his cries are loud and incessant, particularly if any other crows are within view. These, sweeping down about him, are instantly grappled and held fast by the prostrate prisoner, with the same instinctive impulse that urges a drowning man to grasp at everything within his reach.

Lord Mansfield and a Jew.

"Mr. Abraham," said Lord Mansfield, "this is your son and cannot go in the hall-bond." "He is not my son, my Lord." "Why, Abraham, here are twenty in court will prove it." "I will shew you, my Lord, he is not." "Take care, Abraham, or I will send you to the King's Bench." "My Lord, if your Lordship please, I will tell you the truth." "Well, I shall be glad to hear the truth from a Jew." "My Lord, I was in Amsterdam two years and three quarters; when I came home I find his lad; now, the lad obliges me to maintain him; and, consequently, my Lord, he is not my son." "Well, Moses," rejoined Lord Mansfield, "there is no definition of a son-in-law I ever heard of."
