

FREE PRESS. TWO DOLLARS AND FIFTY CENTS PER ANNUM.

The following graphic sketch of the Virginia Convention, is from the pen of H. B. Gassaway, Esq., the late Editor of the Norfolk Beacon.

THE VIRGINIA CONVENTION OF 1829-30.

Five years will this day elapse, since the Convention, which framed the present Constitution of Virginia, commenced its session in the Capitol. We can scarcely bring ourselves to believe that so many precious years have passed in apparently so short a time.

tion in his native State, when he compared the comparative obscurity of Mr. Leigh with the celebrity of some of his brethren, who had shone in the national councils, quoted the result to demonstrate the ignorance of the people, who generally sent their worst men abroad and kept their best at home!

In looking over the list of names, which were called over and over again, day after day and month after month, till every one became disgusted with the sound of his own name, some awful blanks appear. Nearly one fifth of the original members are in the grave! Now we would infer a priori that such a body, composed mostly of elderly men, would soon pass away. But, as if human anticipations were set at naught, those have died, who for the most part, were strong and active, and who had a fair prospect of attaining a healthy old age.

The mortality is greater in kind and extent than ordinary calculations would have allowed; and it seems to us almost startling. And the wonder is not diminished, when we consider the mortality of the members of the Virginia convention of '88. The number of that body, as returned from the eyes and noses on the ratification of the Federal Constitution, was for that instrument 89, and against it 79; which makes the whole number to be 168. Now, with our knowledge of the names of the survivors, we can recognize only three living; viz: Mr. Madison, Judge Marshall, and General Coxe.

permitted to hold the office fifteen or eighteen months, without ever making a return to the Department, absconded with the ayails of the office in his pocket; and the Department has permitted the claim against the sureties to lie without suit, until they are released from their responsibility. The committee, it appears, inquired into the causes of the removal of Safford and of the appointment of Berron, his successor. The Postmaster General refused to give the information, and the Government paper joins the Postmaster General in assailing the committee for asking it.

The Globe makes much ado because the U. S. Bank buys the mint certificates of gold deposited for coinage. What would the Globe say if the Bank had refused to buy them? It is an odd charge to bring against the Bank, that when the depositors of gold prefer the bills of the Bank to the coin, the Bank accommodates them. The Globe seems to think it a very wicked business to do any thing with the gold except juggle it about at elections. Some people have other uses for their money.—Your Cor.

The Baltimore papers contain the Eighth Annual Report of the Baltimore and Ohio Railroad Company. From the American we copy a few paragraphs, giving an abstract of important portions of the Report. It seems we were not quite mistaken in stating that the track to Harpers-Ferry will be laid by the middle of November.

The Report informs us that the agreement between the Canal and Rail Road Companies, for the extension of the Rail Road by the long contested ground, the Point of Rocks to Harper's Ferry, has been carried out with a friendly, liberal and accommodating spirit. The work between those points is so far advanced towards completion that it is expected a continuous Rail Road communication from Baltimore to Harper's Ferry will be opened in the course of the ensuing month.

From the Martinsburg Gazette.

PUBLIC MEETING.

At a public meeting of the citizens of Berkeley County, opposed to the present administration of the general government, held at the Court House in Martinsburg, on Monday the 13th inst. for the purpose of appointing delegates to a District Convention for the nomination of a candidate for Congress, on motion of Dr. Thomas Davis, Isaac S. Lauer, Esq., was called to the chair, and Amos L. Starns appointed Secretary.

The following gentlemen were appointed a committee to report such resolutions or other business as were proper for the consideration of the meeting: Edmund P. Hunter, Dr. Thomas Davis, Jacob Weaver, Levi Henshaw, Thomas Patten, Edward Colston, John Jamison, Ylleton Frye, and Jacob Van Doren, who having retired for a short time, returned and reported the following preamble and resolutions, which were unanimously adopted.

Resolved, That four persons be appointed to attend the proposed convention as Delegates from the county of Berkeley: Levi Henshaw, Edmund P. Hunter, Jacob Van Doren, and Dr. Thomas Davis.

From the Frederickburg Arena, Oct. 14.

BALLOON ASCENSION.

The great topic of conversation for the last week in our community was the promised ascension of Mr. PARKER on Saturday last. The day came, and a finer one, for the purpose, could not have been desired. The gates of the enclosure were opened about 1 o'clock, and even at that early hour a considerable number of persons repaired to the spot.

From the Washington Globe, Oct. 14.

PENSION FRAUDS.

Several shocking cases of frauds on the Pension Office have been discovered within the present year. An Attorney in Kentucky, who had held a respectable station in society, is now in confinement upon such and other charges. A number of persons in Virginia have been detected, among whom are individuals of high standing, and one a member of the Legislature.

But the most shocking case is in Vermont. The guilty person was Robert Temple, Esq., formerly Pension Agent, President of the Bank of Rutland, and a man of great wealth and the first character in that part of the country. Alarmed at the prospect of publication of the disclosures made by the Washington, and attempted to bribe a Clerk in the office to alter the books and make out false lists for the printer, so as to conceal his frauds. The Clerk succeeded in drawing from him a list of about sixty cases in which he desired alterations to be made or the names omitted.

The Clerk who made the disclosure was now despatched, with a companion, to Vermont, to secure the arrest of Temple and investigate the cases there. After his departure, a letter directed to him from New York was taken out of the Post Office, enclosing a fifty dollar note, and promising a liberal reward if he would accomplish the object. It was from Temple, under a fictitious name.

The messengers from Washington arrived in the vicinity of Rutland, where the United States court was sitting, on Friday. Some delay occurred in consequence of the District Attorney being occupied in a criminal case, and they did not enter the village until night fall on Monday, and then found that Temple had committed suicide.

It appears that he had observed in the Post Office the letter to the District Attorney enclosing his own anonymous letter with the \$50 note, and induced the Postmaster to give it to him, under pretence that he would deliver it. As undoubtedly opened it, and as soon as he saw its contents, went to his house, took his gun, retired to his stable, and shot himself through the heart.

From the Philadelphia U. S. Gazette of the 14th.

THE RIOT IN MOYAMENING.

We mentioned, yesterday morning, that there had been, on the previous night, a dreadful riot in Moyamensing. We did not then deem it politic to enter into the particulars of the lamentable occurrence. The minds of our fellow citizens were yet under the excitement of the election contest; and the details of such a scene might have produced further violence.

From the Philadelphia U. S. Gazette of the 14th.

ed fixed on a few old men of exalted talents and public worth, to hold some lease of these venerable men of the past age. We anticipate, however, a little. On the last day of the session, it was early rumored that Mr. Randolph would present the usual resolution of thanks to the chair; and this tended to heighten the animation of the scene.

Our calculation may not be mathematically correct; but we give our data, which will enable any one to form his own calculations.

From the Williamsport Examiner.

The Postmaster General has positively refused to furnish the Senate Committee, now in session at Washington, with information touching some of the abuses in his Department, and has published his answer to the Committee by way of appeal to the people.

In the case in which the Postmaster General has expressly refused the information sought for, and which he has made the subject of his appeal—that of the removal of the Postmaster at Putnam, in Ohio—it was one which had attracted much public notice, and was within the legitimate scope of inquiry and competency of the Committee.

ed, of the road under contract. Except the viaduct over the Patapsco, the bridges and masonry along the whole line are completed—in a simple style of workmanship, but in the most substantial and durable manner. The material employed in all the principal structures is the Patapsco granite. The Patapsco Viaduct is an immense undertaking; it comprises eight arches of fifty-eight feet span each, over which the Road will pass at an elevation of sixty-six feet above the water and ravine beneath.

The subject of the further extension of the Road beyond Harpers-Ferry has not been lost sight of by the Board, although, for the reasons stated, no action on it at the present time is contemplated. The Report unequivocally announces the opinion that in the completion of the Chesapeake and Ohio Canal to Cumberland, the Rail Road Company, the city of Baltimore, and the State of Maryland, all have an immediate interest.

The following paragraph gives notice of an arrangement which will be of great interest to all concerned.

Arrangements are in progress with the proprietors of the property at Harpers-Ferry, by which a connexion, it is expected, can be effected with the Winchester and Potomac Road, by the time that road will be completed.

The FINEST PATRIOT has been transferred to Dr. Lewis Shanks, who promises to enlarge and improve it.

Accordingly, a little after sunset, Mr. Parker took his seat in the Car, and the balloon having gained sufficient ascensive power was held, for a minute or two, above the heads of the audience, when the cord being cut, it shot upward with great rapidity. Its course was nearly northwardly, and there being little air stirring, the Balloon was for some time immediately over the town. Though the spectators were, by this time, nearly enveloped in the shades of night, the Balloon had attained an elevation which intercepted the rays of the sun, its illuminated disc resembling a star. Indeed it was, at length, difficult to distinguish it from the luminaries among which it seemed to hold its way.

The reader may imagine what a magnificent spectacle was thus presented. Having no inducement to prolong his aerial voyage, Mr. Parker made arrangements to descend, and, seeing a cart and horse in the road, alighted, with safety in the vicinity, on the farm of Mr. Limbrick, about five miles from Town. His Balloon was conveyed to Falmouth, and he, himself, arrived at the Farmer's Hotel, about 11 o'clock.

Thus had been made, in a most beautiful manner, the first ascension South of the Potomac. We never witnessed more universal and high gratification. Every one seemed delighted with the composure and presence of mind of the Aeronaut, and all the thrilling accessories of the ascension.

Mr. PARKER was about two hours in the air, and the greatest elevation he attained, he supposes, was about two miles. He was at one time immediately over the Potomac, though he descended not far from the Rappahannock. He saw both rivers at once, reflected in the light of the Moon.
