article going the rounds of the news-papers in relation to the mysterious death of Mrs. Alston, the daughter of Col. Auron Burr, taken from the Ala ma Journal.

This article, although true in many particulars, nevertheless contains several errors. I suppose it grew out of a casual conversation I held in Mr. Smith's Book Store in Mobile, some six months since, and as Mr. Smith was very busy at the moment, several errors he il gentlemen being in the store, he probably misunderstood me in my statement,—lst as to time, and 2ndly as to the receiving the confessions of the pirate, either personally or as a physi-cian. The article was also wrong in many points, as the statement itself will I do not charge any one with wilful exaggeration or mistatement, for nothing is more liable to occur, than for a story to undergo trivival modifi-

It is well known under what circumstances Mrs. Alston left South Carolina. Whether she was the only daugh der of Col. Rurr. I know not: but one thing was evident, never did a father love a daughter or a daughter a parent, with more ferver and devotion than they did. She quit Carolina and embarked at Charleston, with all her effects consisting principally of plate, to join him in New York. She sailed, and was heard of no more for years.

It is said, her loss afflicted her father

WARRENTON, N. C. JULY 28th,

Gentlemen—I have just arrived here, and learned the particulars of one-of the most bloody fights that ever took place in this peaceable village. About six or eight weeks ago, Charles P. Green, Editor of the Boydton Va. Expositor, published under the editorial head of his paper, a real phillipic against John Bragg, Esq., thun a visitor to West Point, and previously a member of the Assembly from this county. Green came costs and passed through here on his way to Shocco Springs. John Bragg, with his brother, Thomas Bragg, with his sister to England, and being of an eccentric turn, and pesuriops, he received a letter from Coutt's bank, stating that his sister was dead, and that Ent,000 were deposited in their hands, arising out of a legacy left him by her. He was so much affected at the loss of his sister was dead, and that Ent,000 were deposited in their hands, arising out of a legacy left him by her. He was so much affected at the loss of his sister to England, and bear of turned to his employment in Malta.

Two years afterwards, he received a letter from Coutt's bank, stating that his sister was dead, and that Ent,000 were deposited in their hands, arising out of a legacy left him by her. Bragg, turned, and entered the body of Robert Somervell, a remarkably clever and high minded young one time he made a pair of shoes; and contleman who was honestly endeavoring to separate them. Bragg quick-ly renewed his assault with his heavy propensities, he made them too large, to allow for his growing, and, as he observed, because they would not wear out so soon. He spent a great part of his time at churches, and ordnarily ly renewed his assault with his heavy cane, while his brother Thomas attempted to seize Green, who then drew his dirk and fought with the despiration of a Tiger. He cut Thomas Bragg's lip nearly and gave him a deep wound in the arm, while John Bragg fell like

SINGULAR NARRATIVE. We have obtained permission, says the London Patriot of January 7th, to lay before our readers the following extract from a private letter, containing a narrative which borders upon the interest of romance.

A child named Carlo Francingo, ar rived in Malta twenty-four years ago, then being about three years old, with a Trieste woman and another boy, both of whom she said were her sons. She came in search of her husband, a master of a trading vessel, from whom she was subsequently separated. She took up her residence in Malta, and kept a tolerably respectable school, and was enabled by that means to obtain a comenabled by that means to obtain a com-petency for herself and the two hoys, and to pay for their education. Carlo became a great proficient in languages, and at an early age understood Maltese, Italian, German, Spanish, French and English. He was engaged by Mr. R. here as a clerk, and being rather an able correspondent, became amanuen-sis for several of the Maltese merchants, not so highly gifted. Among them, an know how he came there. The government made every inquiry, and commu-municated the replies to the Ambas-sador whose sabsequent correspon-dence with our governor induced the Marchioness of Hastings, when her husband was governor, to offer him an appointment under government, which Carlo declined. A short time after, Carlo received a letter from the bank at Munich, stating that £7,000 was laid in at his discool. at his disposal. Carlo drew for £6000, and the bank failing afterward, that was all he got of it. Such a variety

of curious events induced him to ask his supposed mother who he was. She said she did not know; he was not her son, but he was put in her charge in Scotland when a few months old: the tics themselves, who may not be aware of the tendency of their labors.

[Nat. Int. other boy was her own son. Some time after this, Carlo received a letter Chicago.—During the recent land sales at Chicago, and in consequence of the great influx of speculators to attend them, there was almost a famine in that place, and the region cound about. As an evidence of the effect on the price of provisions, it may be stated

This mode of warfare continued until about ten o'clock, when fearing that the guard would be overcome, were supplied with muskets and ammunition. The heart sickens at the scene that angued. Discharges from the muskets became frequent, sometimes over the heads of the crowd, and occasionally amongst it. Whilst this scene was passing in front of north Calvert street, a body of the of north Caivert street, a body of the assailants passed around in north Charles street, attacked the house of Mr. Glenn, destroyed the windows, doors,&c. and demolished and threw the furniture into the streets, but no dispo-

Thus was the property of four citizens des troyed, and three others, we are told, have been prescribed by the mob, viz: Jesse Hunt (Mayor,) Hugh McEldery, and, we think Dr. Bond. THE individuals composing the "Potomac Rifle Company," with the Shepherdstown Band, having determined upon making an excursion, before the expiration of the summer, in their military character, have concluded to make the City of Richmond the point d'appui of their campaign, visiting Georgebown, City of Washington, Alexandria, Fort Washington, Mount Vernoh, Fortress Monroe, Norfolk and Portsmouth, on the route, and return by the way of Baltimore. With the exception of the short distance upon the rail-road from Baltimore to Harpers-Ferry, the whole excursion will be performed upon water at a very moderate expense. Such have been our experience and observation of the innocence, mildness, and efficacy of this composition, that from the most disinterested principles of benevolence we must recommend them to the afflicted who have tried many things in vain.
