

THE FREE PRESS.

THURSDAY, FEBRUARY 5, 1835.

Mr. Lison is elected Senator of the U. States to serve for six years after the 4th of March next. The members are given in the letter from our Richmond Correspondent. All the accounts that we see represent the scenes of the election to have been characterized by peculiar interest. The speech of Mr. Brown, of Petersburg, is said to have been transcendently great. The Whig expressed the opinion that it was the highest effort of intellect made in the councils of the State within the present generation. A resolution was at once adopted, by many members of the Assembly, to publish 50,000 copies of Mr. B.'s speech.

Mr. DANIEL, it will be perceived, is defeated. Mr. McFARRLAND of Norfolk having been chosen Councillor. The President's life attempted. In another column will be found the particulars of an outrageous attempt to take away the life of the President. The assassin was well prepared to execute his scheme—having two well-loaded pistols with poisonous fuses. Both of them were aimed at the President; but, although the caps exploded, the charge was not ignited. Such a circumstance (the failure of the powder to take fire from the explosion of the top) is extraordinary—unprecedented we could almost venture to assert. We at least never heard of a similar circumstance; and without admitting that there was any salutary influence exerted on the occasion, we must acknowledge that it does "seem out of the way."

Men of all parties cannot but experience the same emotions in view of such an enterprise, and all must alike rejoice that the President remains unharmed. We have received the first number of a new daily paper, to be published in Richmond, under the name of the "Richmond Evening Courier." It is intended to be a cheap family newspaper, embracing all topics of interest (except partisan politics). The editorials are excellent, and we can, with great cordiality, recommend it to the public as worthy of patronage. The price of the Courier, daily, is 46 per annum, payable quarterly in advance. Twice a week, 34 in advance.

THE MAILS. The arrivals and departures of the mail, at and from the Post Office, Charlestown, are as follows: The Eastern Mail, from Harpers-Ferry, arrives on Tuesdays, Thursdays, and Saturdays, at 5 o'clock, A. M.; and departs immediately for Winchester, via Millington and Brimstone. Returning from Winchester, it arrives on Wednesdays, Fridays, and Sundays, at 5 o'clock, P. M.; and departs immediately for Harpers-Ferry. The mail from Shepherdstown, via Leetown, arrives on Mondays and Fridays at 6 o'clock, A. M.; and departs immediately for Leetown. Returning, it arrives on Tuesdays and Saturdays at 2 o'clock, P. M.; and departs immediately for Shepherdstown.

Between Harpers-Ferry and Winchester, the mail is carried by stage-coach, and is as follows: On Wednesdays, Fridays, and Sundays, at 5 o'clock, P. M.; and departs immediately for Harpers-Ferry. The mail from Shepherdstown, via Leetown, arrives on Mondays and Fridays at 6 o'clock, A. M.; and departs immediately for Leetown. Returning, it arrives on Tuesdays and Saturdays at 2 o'clock, P. M.; and departs immediately for Shepherdstown.

We have received, in pamphlet form, a Report made to the late Baltimore Convention, with respect to the probable revenue of the Chesapeake and Ohio Canal. This Report states that some of the coal banks through which the canal will pass have a vein from ten to twenty feet in thickness; and, to show the abundant resources of that region to which the friends of the canal are now endeavoring to extend it, it is stated that if the coal were transported from the Savage Coal Mines at the rate of five hundred tons per day, it would require four hundred years to exhaust one square mile of that vein. At a place where a tunnel is proposed to be cut for a short distance, indications are given on both sides of the ridge of the existence of coal; and the opinion is entertained that the tunnel would pass through a continuous vein fifteen or twenty feet in thickness. If so, the coal would more than compensate for the expense of the excavation; and thus this part of the improvement would not only cost nothing, but less than nothing.

It is shown in this Report, that if the Canal were finished no farther than to Cumberland, and if the coal were to be brought 7 1/2 miles from the mines by a rail road, it could, even then, be furnished at Washington, Georgetown, and Alexandria, at 1 1/2 cents per bushel. The present price is 25 cents, at those places, as well as at Baltimore and Philadelphia. At Baltimore, when the canal is completed to Cumberland, the coal will be reduced to 10 cents per bushel, and at Philadelphia to 17 1/2 cents. At Boston it would cost 19 cents, whereas the present price in that city is 32 cents. Thus would all the principal Atlantic Cities be immensely benefited by extending the canal to the mineral treasures now reposing in the bowels of the Alleghany Mountains. Why, then, is there so much opposition to the canal? The canal has already reached within a short distance of the inexhaustible mines, why is there such a disposition to fold the arms, and disregard the immense wealth that is almost within our grasp? If ever this part of the country and the Atlantic Cities are to enjoy the advantage of the Alleghany Coal Mines, it must be by means of the Canal. The Baltimore and Ohio Rail Road Company cannot extend their road any farther up the Potomac until the completion of the canal, to Cumberland. They are prohibited by contract. To the Canal, then, must we look for a conveyance to that grand reservoir of fuel destined some day to serve us in the place of our forests, which are so rapidly disappearing.

On our first page will be found the proceedings of the Jackson Meeting lately held at Winchester. The chair was occupied by the Rev. George Reed. The Convention for nominating a candidate for Congress, is proposed to be held at Winchester, on Thursday next, the 12th inst.

Another State Legislative Nomination.—At a meeting of the "Democratic" Members of the Legislature of the State of Missouri, on or about the 8th of this month, MARTIN VAN BUREK was nominated as a candidate for the Presidency, and THOS. H. BENTON, for the Vice-Presidency, subject to the nomination of the Baltimore Convention, to which Convention, at the same time, Delegates were appointed.

Mr. Gayarre has been elected a Senator of the United States from the State of Louisiana, for six years from the 3d of March next. This gentleman is, we understand, friendly to the present administration; though there is a Whig majority of six votes on joint ballot of the Legislature by which he has been chosen. Of the causes of this result we are not sufficiently informed to speak.—[Nat. Int.]

It is anticipated that the Whig members of Congress will recommend, unanimously, to the People, some candidate as the successor of President Jackson, before or about the end of the present session. Their recommendation would go far to produce unanimity elsewhere.—[Nat. Gaz.]

Mr. Adams's Eulogy on Lafayette.—With a view of supplying the wholesale demand for a cheap edition of this Oration, there will be forthwith put to press, at the Office of the National Intelligencer, an Edition of the Oration, printed on 32 pages Brevier Royal Octavo, which they will furnish at four dollars the hundred copies.

NAVAL.—Extract of a letter from an officer of the Navy to his friend in Baltimore, dated NORFOLK, JAN. 26, 1835. The Constellation frigate is ordered to be got ready for sea immediately, and also the ship of the line North Carolina—and to the north, the Constitution, United States, and three sloops of war.

AN HIAD IN A NUT-SHELL. The following sentence is the whole history of Gen. Jackson's French War. Mr. Rives, to impress his countrymen with a high idea of his diplomacy, says: "An arrangement which, amid many difficulties, has secured for claims of our citizens, (prosecuted in vain for the last twenty years and a large portion; if not the whole of which has been considered as desperate) a sum sufficient, in all probability, to pay every cent justly due, and nearly treble the amount pronounced to be due by the Commission charged with their examination here, &c."

WHOLE FISHERY. The Nantucket Inquirer contains a tabular statement of the Whole Fishery of the United States, from which we call the following facts: The whole number of ships engaged in whaling is 273; of these 237 are new ships. The number of crews and navigators employed is about 9,000, and the cost of the entire fleet, equipped for a voyage of three years' duration, will, it is supposed, cost more than six millions of dollars. The quantity of sperm oil imported into the United States during the year 1834, amounted to about 128,000 barrels.

A statement is given on our first page, of the murder of two Missionaries on the Island of Sumatra. Further accounts say that they were not only killed, but eaten by the natives!

A destructive fire occurred at Louisville on the 25th ult. The loss has been estimated at \$50,000; of which not more than one fifth was covered by insurance.

The Winchester papers state that R. W. HARVY, Esq. will not be a candidate for the Legislature at the next election.

LEGAL MEMORANDA. Sale of real estate, by J. R. Douglas, trustee for J. R. Douglas, at 12 o'clock, Saturday next, of land by J. T. Daugherty, trustee of John O'Bannon, at Carter's Hotel, to-morrow week. Sale of the late Dr. Briscoe's property at his farm, on Wednesday next.

THE BOUNDARY. A member of the Maryland Legislature, in a letter to the National Intelligencer, writes as follows: We have been engaged to-day, (Jan. 25th), upon the Resolutions relative to the Southern and Western Boundaries between Maryland and Virginia; and the following Resolutions were adopted. I can have no idea what will be their fate in the Senate.

Resolved by the General Assembly of Maryland, That Resolutions No. 89, passed at December Session, 1833, in relation to the Southern and Western Boundaries of this State, and the controversy on that subject with the State of Virginia, be and the same are hereby repealed; and the Attorney General of this State is hereby directed to discontinue all proceedings under the same.

Resolved, That the Governor be and he is hereby authorized and requested to transmit a copy of the above Resolution without unnecessary delay, to His Excellency the Governor of Virginia, and also to communicate to the Government of Virginia the earnest desire of the State of Maryland to close, and finally adjust, this long pending question by amicable negotiation.

Nomination of Daniel Webster.—We have the honor to inform Mr. Webster of the Boston Mechanics Reading Room, dated Wednesday evening, 10 o'clock, and addressed to Robert E. Hudson, Esq., which says, "The Legislature of this State, in Caucus assembled, have unanimously nominated the Hon. DANIEL WEBSTER as a candidate for the next Presidency. Three hundred and fifteen votes were counted; but there must have been more.—The Representative Chamber was filled to overflowing. A Committee of 13, consisting of one from each County, was chosen to obtain the signatures of the members, favorable, in order to the publication of the name. A Grand Central Committee was also nominated. The Caucus has not yet adjourned (9 o'clock). The Hon. Benjamin T. Pickman, President of the Senate, was in the chair."—[N. Y. Jour. Com.]
