

GENERAL INTELLIGENCE

The New York Courier of Saturday has the following article:
MARK OFFER STATE.—We are happy to be able to state on unquestionable authority, that Messrs. Brown, Alsop and Jackson, acting as agents for the Bank of the United States, have been authorized to conclude on behalf of that institution, a loan for upwards of one million of pounds sterling, with the wealthy and influential house of J. Morrison and Son of that city.

The Philadelphia Sentinel says that letters by the steamship Columbia confirm the news of loans negotiated by the agents of the U. S. Bank, with various parties, to the extent of one million and sixty thousand pounds sterling, or fully five millions of dollars.

RAIL ROAD SMALL NOSE BILL.—It will be seen, by our letter from Annapolis, that the bill to authorize the Bank to issue and receive the notes of the Baltimore and Ohio Railroad Company, passed the Senate on Monday. Having previously passed the House, it now stands ready for the President's signature.

FLORIDA.—A letter has been received at Ft. Clinch, stating that thirty-three Indians had come in at that post.

TIGER TAIL had also come in and was going to Tampa. It is thought that in all about six hundred Indians have presented themselves at various posts along the coast on the Gulf side.

A party of the enemy lately attacked Fort Walker, killing two or three negroes and wounding one white woman. Fort Walker is between Mico and Newnanville.

A SPLENDID CAKE.—A splendid Pound Cake has been prepared, at the Bakery of our townsmen, Mr. William Sprater, to be used on the occasion of President Harrison's tour through our town, on his way to Washington.

The cake weighs 112 lbs.—in pyramidal monument form—the base forming an oblong square of 15 by 18 inches—the column round, 2 feet high, 1 1/2 inches diameter at base and 8 at top—surmounted by a ball 15 inches in diameter, marked O. K. On one side of the base is the word LIBERTY, surmounted by an eagle and thence encircled by stars on the opposite side, Bank, Cornucopia and the word PLENTY.—On the other side, encircled by 26 stars, representing the 26 States—on the opposite side a representation of the White House at Washington, which the People have determined shall soon occupy. The whole tastefully capped, capped and wreathed and festooned with greenery and artificialia.

The Ohio State Journal says that the annual report of the auditor discloses the astounding fact, that the collectors of tolls upon the Ohio State Canal, at Newark, Massillon, Dresden and Chillicothe, were detailed in the State for money received by them, in the aggregate sum of \$41,550 73.

The bull of Dr. Shannan, charged with the robbery of the mail near Uniontown, Pennsylvania, whose arrest we noticed a few days since, has been fixed by Judge Lavina at 100,000 dollars—650,000 in his own part, and two sorrelies at \$25,000 each.

A shocking accident occurred on Thursday night of last week at Alford, New Hampshire. The train was very heavily loaded, and the steam much exhausted. A young lady, by the name of Hannah Murphy, was riding in company with a gentleman to a ball at Paper Mill Village, the vehicle, either in consequence of the slippery descent of the road bordering on the stream, or the giving way of a portion of the bridge, was precipitated into the water. The gentleman and horse were carried some distance, but we believe escaped without injury. Miss M. however, was borne down the stream, went over three dams, and was taken up at a distance of three miles from the spot at which the accident occurred, a mangled corpse.

A HONORABLE EXEMPTION.—The following we find in the Mayville Eagle.—It is related of Mr. Chadwick, a member of the Kentucky Senate from the counties of Harlan and Meade; who had been making a speech on the Bank question: "Sir, said Mr. C. what I have said here to-day has been said in a rough way, and if it has wounded any Senator, I hope he will attribute it to no unkind feelings, but to my want of the point of education.—Sir, your Superintendent of Common Schools has said, that there are many members of this Commonwealth, who can neither read nor write, and it is but too true; my own marriage bond has my mark to it, and my son, who now sits in the other House, has a mark by which he learned to read."

Mr. C. is now not only a respectable Senator, but a good lawyer. What more need be said in his praise?—The Bridgeport (O.) Chronicle wishes to keep it before the People, that, at this season of the year, persons of all descriptions, and particularly those who follow the printing business are more than ever in want of money.

"Going the Whole Hog!"—P. Mosley, of Madison county, New York, is on his way to Washington, with a pig of his own raising and fattening, which weighs 1250 pounds—a present for General Harrison.

"Stop that pig!"—A man killed by a Bear.—A St. Alban's Vt. correspondent of the Boston Mail writes that two men, John C. Clark and John C. Owen; while chopping wood about six miles from St. Alban's, were attacked by four large bears. Mr. Owen was squashed to death by one of them. Mr. Clark escaped uninjured, after having dispatched two weighing about 500 pounds each.

BRIEF PROCEEDINGS

In speaking of the responsibility of a newspaper, the following was said by the Hon. J. M. Mason, in a speech at the State Convention of the Whigs, on the 10th inst. "The responsibility of a newspaper is a heavy one, and it is one which should not be undertaken lightly. It is a responsibility which should be undertaken only by those who are prepared to bear the consequences of their actions. It is a responsibility which should be undertaken only by those who are prepared to bear the consequences of their actions. It is a responsibility which should be undertaken only by those who are prepared to bear the consequences of their actions."

On the return of the case, the case was to be argued before the Chancellor, a man of eminent for legal abilities, as he ever has been for enter, and the excellent qualities of his heart. He thought the case a curious one, with some embarrassing circumstances, if not legal difficulties, and he heard the particulars in his wife, who, in a summary manner, said, "My dear, I hope you won't take that child from its mother." "Tut, tut," said he playfully, "my dear, don't attempt to influence the Chancellor—nor decide the case without a hearing—that's contempt of court."—The hint, however, was not lost upon him.

When the day arrived, he repaired to his chambers, and there he found the mother, the child, the mother-in-law, the clergyman, several friends, and legal gentlemen of the highest eminence, with piles of law books and bundles of papers laid out on the table, and all the preparations of a protracted debate. After some preliminary remarks, the mother-in-law, the little girl to him—placed her on his knee—played with her hair and patted her cheeks, until the child felt quite at ease, and sociable. "What is your name?" "My name is Maria," said the child. "And how old are you?" "Seven years, air."—Well, my dear, tell me, when you would like to live with— "With my mother, and the child." The Chancellor, taking her from his knee, and setting her on her feet, exclaimed, "there my child, go to your mother. Gentlemen, the case is decided; the child prefers remaining with her mother."

THE MARYHON COFFIN.—The remains of Napoleon at St. Helena, and which was exchanged for the shroud brought from France, was cut up by the British and sent to the United States, and distributed in pieces to the officers and members of the Belle Poule and Favorite. Several pieces were deposited by the Sailors, on their arrival in France, at from 300 to 500 francs each.
