

The Free Press

Thursday Morning, October 7

THE CABINET—The Washington Globe of Saturday evening states that the Hon. John C. Spencer, of New York, has been appointed Secretary of War. Mr. S. now fills the office of Secretary of State of New York.

A letter from Lexington, Kentucky, of the 21st inst., published in the Standard, says: "Gov. Wood has now in this city. He will accept the seat in the Cabinet tendered him by the President, and will depart for Washington in a fortnight."

The New-York American is glad that Judge McLean declines the appointment of Secretary of War, and gives good reasons therefor. "The cause (says the American) we hold that the bench of the Supreme Court of the United States should be deemed sacred from the temptations and corruptions of political ambition; and whoever attains to that eminence, should train himself to think, and by his example teach others to believe, that he is set apart for a pure and lofty administration, with which the prizes of the political world have nothing in common, and can have nothing in real grandeur and importance to compare."

CASE OF McLEOD—The Court by which the famous individual to be tried in New York in session at Utica, New-York. This week, it is supposed that the trial will take place. A great mass of testimony on both sides, and very contradictory, has been collected. His counsel anticipate his triumphant acquittal, and the general opinion is in accordance with this anticipation.

THE WINCHESTER PRESBYTERY will hold its Fall Session in the Presbyterian Church in Frederickburg, commencing on Friday the 20th inst. And the Synod of Virginia will meet in the First Presbyterian Church in Richmond, on Wednesday the 27th inst.

Major General WHEELER SCOTT has returned to his Headquarters in Washington, from his visit to the North.

Mr. WARREN, Secretary of State, has gone on a visit to the north.

President of the U. S. is expected through this week, on his way to Williamsburg.

THE MARYLAND ELECTIONS for Governor and Members of the Legislature took place yesterday. Wm. Cost Johnson (Whig) and Francis Thomas (Opposition) are the candidates for Governor.

IMPORTANT ARREST—The regu who, under the name of Charles, recently committed a forgery upon the Bank of America, and who had obtained the large amount of \$50,000, and for the recovery of which a reward of \$10,000 was offered, has been arrested in Philadelphia, and \$43,000 of the money found in his possession.

We have not yet heard the result of the election which is to be held in Allegheny county on Monday, for a delegate to the Legislature, to supply the vacancy occasioned by the death of Mr. Coles.

A negro man was hung at Norfolk, Va., on Friday last, for a recent attempt to murder two white women on a public road near that place. The woman acknowledged the justice of his sentence, and the execution was accordingly postponed to the commission of the act for the next day.

The Fall Term of the Superior Court of Law and Chancery for Jefferson county will commence on Monday next.

From the Frontier. The Baltimore and Ohio Railroad Notes.

The notes of this company, forming a large portion of the circulating medium in Winchester, as well as elsewhere, having fallen some 10 per cent under par in Baltimore, the citizens of Winchester held a meeting on Monday, at the town hall, to consider the propriety of continuing any longer the circulation of said notes, when a committee was appointed to obtain full information on the subject of their real value, and make report to an adjourned meeting, to be held on Friday next. At that meeting some definite measure, we presume, will be adopted, until which time it was agreed that said notes should be taken at a discount not exceeding 10 per cent. As to the notes themselves we are at a loss to say what they should fall at all below par, if there be no shuffling, either by the company in Baltimore or from some other quarter. The Baltimore City Stock in which they are to be redeemed, and the interest on which is to be paid quarterly, certainly should and must retain its par value, and the only chance for fraud, is in the company issuing more than the city authorities are allowed to redeem in stock, but which they have publicly declared has not been done. As to the propriety of their circulating among us, however good, there ought to be but one opinion. The community never should have sanctioned them, unless the small notes for fifty, twenty-five, and twelve and a-half cents, which have imperceptibly gone into circulation, contrary to all law and propriety.

The following are the resolutions adopted at the meeting above referred to: Resolved, That a committee of five be appointed to correspond with citizens of Baltimore, and solicit information as to the value of the notes of the Baltimore and Ohio Railroad Company, and report at an adjourned meeting to be held in the Town Hall on Friday next, at 4 o'clock, P. M.

Resolved, That a committee of five be appointed to ascertain if the Bankers in Winchester cannot, under the present laws of the Commonwealth, furnish a small note currency sufficient for the business purposes of the neighborhood.

Unanimously resolved, That the members of this meeting will continue, and they recommend to the business men of Winchester not to present the notes of the Baltimore and Ohio Railroad Company at a discount of more than 10 per cent until further proceedings shall be adopted at the meeting of the citizens of Winchester on Friday next.

We learn from the Baltimore American of Monday, that a driving of the plank of other citizens of Baltimore, was held on Thursday the 20th ult. in relation to the discount on the Baltimore and Ohio Railroad notes, when a committee was appointed to report on the subject at an adjourned meeting, and the following resolutions were adopted:

Resolved, That the citizens of Baltimore hereafter receive the issues of no individual or institution which are payable in railroad orders.

Resolved, That we do again meet on Friday evening next, 5th October, at half past seven o'clock, at Monument Square.

to carry further into effect the object of this meeting. That we will take, until the next meeting, all railroad notes at par, and that we will use our utmost exertions to uphold the credit of the Baltimore and Ohio Railroad Company.

NOBLE COMPLIMENT—The Standard says: "We understand that the citizens of Woodford have purchased the fine farm in that county, on which the Hon. John J. Cassin was born, and made him a present of it. The price paid was sixteen thousand dollars."

From the Richmond Whig. Some of the Locofoco papers begin to think they have sacrificed their game of deception towards Mr. Tyler far enough. And they are now speaking out, as all of them will do soon. The New York Evening Post has the following:

MR. TYLER AND HIS CABINET.—It is not our business to defend Mr. Tyler. He is a Whig in gram, was elected as such, has surrounded himself by a Whig Cabinet, has removed all the Democrats from office, and has approved of the repeal of the sub-Treasury. He has therefore no claim upon us.

The leading Locofoco Journal in Alabama thus discourses:

"The President has approved the distribution of the public lands, and has authorized an act to be passed to give his bank note full credit, and to give sufficient force for dropping his signature on the bills of the Democratic party, which his bank note had already killed him with the Whigs. As he is a very confident predictor of his own success, we would advise him to be as confident in his own success as he is in the success of his Cabinet. The corporate guard of Abstraction will hardly suffer. They have no strength sufficient to carry, or to govern."

All of them will follow suit, except the Whigs. That prior to the meeting with admiration and love of Mr. Tyler, and the Whig journal, that it will sink or swim with him.

The Hartford Patriot is not far from right when it declares the main political question among the Whigs to be, "whether John Tyler or Henry Clay is President of the U. S."

This is a plain and conciliatory expression of the "official organ." No true Whig could present a sentiment and a sentiment which might be well supposed to occur.

THE LATE OUTRAGE ON THE FRONTIER.—The brutal and forcible arrest of Col. Grogan, an American citizen, by a party of Canadian soldiers, and the too well known facts of the destruction of American lands, is exciting a deep and universal feeling of indignation against the perpetrators of the outrage. Should the arrest be justified by the Colonial authorities, it is difficult to conjecture what the eventual consequences may be. Such an outrage cannot pass unnoticed. Every feeling of patriotic indignation rises for such a violation of our rights. But we sincerely trust that the Canadian authorities will disavow the act—restore Col. Grogan to his family and friends, and severely punish his abductors, and those who instigated the act. Nothing short of that will satisfy the outraged feelings of our countrymen.

The editor of the New York American states that he has seen a letter from an officer of the U. S. Army, who had reported to Albany, Vermont, and there ascertained that the outrage of the seizure of Grogan was committed by volunteers and not regulars, and that the price offered for his abduction was \$10,000. The New York American states that the case of Grogan has already been made the subject of a communication by the American Government to the British Minister at Washington.

From the Pittsburg Chronicle, Sept. 25. MYSTERIOUS OCCURRENCE.—A valuable carriage, worth probably five or six hundred dollars, was three or four days since discovered among the bushes near the farm of Mr. Bussard, a noted several miles out on the Brownsville road. It was entirely empty; there were no horses attached to it or found in the vicinity, and nothing was seen which might lead to the discovery of who was the owner, when it was left, or by what means it was abandoned. The name of the manufacturer, which we did not learn; and the place where it was manufactured; Richmond, Va. The desertion of a valuable piece of property in the midst of a peaceful community, without apparent cause, leads to the suspicion that there has been foul play with the owner, whoever he may have been. The horses being gone tends to confirm this suspicion.

The Alexandria Gazette says—Some weeks ago two of the negro slaves of Dr. Rust, of Fauquier county, (Va.) ran off, taking with them their carriage and horses. It is supposed from the description, that the carriage found near the Brownsville road in Pennsylvania, (an account which has been published recently in this paper) is the property of Dr. Rust, abandoned there by the runaways.

VERY MODEST.—A Convention of Abolitionists was held in Hartford, Connecticut, last week, at which candidates for State officers were nominated. Among the resolutions passed, was the demand, requesting the President of the U. S. to emancipate his slaves. (Ball. Sun.)

THE MURDER OF MR. ADAMS.—The last New York mail furnishes but little in addition to the details given yesterday morning. The coroner's inquest, which held its sittings on Sunday evening, resulted in a verdict that the body was that of Mr. Adams, and that he came to his death by the hands of J. C. Colt. Mr. C. was then fully committed for trial. The evidence was most direct in every particular, and the inhuman murderer can expect nothing less than to suffer a murderer's deserved fate.

The case of Nathaniel Buckmaster, of the State of Illinois, was tried in the Madison Circuit Court on Tuesday last, and a verdict of \$500 rendered for the plaintiff. Mr. Buckmaster claimed \$1500 damages for the construction of the Alton and Shelbyville railroad over his farm in the vicinity of Alton.

The jury decided, as did their predecessors, that, inasmuch as he was one of the plaintiffs, and that the location of the railroad where it is, of which he now complains, he should not be allowed any more than nominal damages.

GENERAL JACKSON. This gentleman has succeeded to give publicity to his views respecting the question of the re-issuance of the public lands, and will still retain the reputation of the character in all his former life. He has given a qualified communication to the President, and has been invited to submit himself to the feelings of the President. So far from this, he has a very different opinion, and has written Mr. Van Buren, the suffering patient, who has written all the papers and the newspapers. The following is his letter, addressed to the President of the United States, Sept. 11th, 1841.

Sir: I enclose herewith the 25th ult. with its enclosure, the resolutions of the Democratic Republican Mass Convention, held in the 9th Ward of the city of New York, on the 24th of the same month, have been duly received and are acknowledged with sentiments of profound gratitude for the honor they confer upon me.

The state of my health, which is now much disordered by an attack of fever, does not allow me to express at length the reflections excited in my mind by the patriotic views embodied in the resolutions. I cannot refrain, however, from saying, that they meet generally with my concurrence, and particularly with my approval of the repeal of the sub-Treasury. It is to be regretted that the position he has assumed against this great reform of Federalism, this deadly foe to the principles of our government, the designs of that party, in other respects, will be less difficult to counteract; for the ship of State, relieved of the corrupt influence of the "Bank of America," will be enabled to sail more safely and more rapidly.

It is to be regretted that the position he has assumed against this great reform of Federalism, this deadly foe to the principles of our government, the designs of that party, in other respects, will be less difficult to counteract; for the ship of State, relieved of the corrupt influence of the "Bank of America," will be enabled to sail more safely and more rapidly.

for your instructions, that the appointment to, and continuance in the office of postmaster, of any one editing a political newspaper, is in the highest degree objectionable. It involves not only the question of the propriety of such a political appointment to the post office, but it also involves the question of the propriety of such a political appointment to the post office, but it also involves the question of the propriety of such a political appointment to the post office.

THE PRINCE DE JOUVILLE. The Prince de Jouville, who left Washington on Friday last, for Norfolk, Va., was received by the President, and was accompanied by the Hon. John Tyler, Jr., and Commodore Nicholson, and was received with the most cordial and respectful attention.

CONFLICTING INTERESTS.—The North and South.—A North Carolina paper has recently a good paragraph in reference to what are called the "conflicting interests of the North and South." It shows that there was not a production of the Southern States, which had some very valuable manufactures, and commercial enterprises of the North was continuing to add directly or indirectly to the wealth of the Southern States.

It shows that there was not a production of the Southern States, which had some very valuable manufactures, and commercial enterprises of the North was continuing to add directly or indirectly to the wealth of the Southern States.

CONFLICTING INTERESTS.—The North and South.—A North Carolina paper has recently a good paragraph in reference to what are called the "conflicting interests of the North and South." It shows that there was not a production of the Southern States, which had some very valuable manufactures, and commercial enterprises of the North was continuing to add directly or indirectly to the wealth of the Southern States.

CONFLICTING INTERESTS

We learn from the Galena Gazette that an important Indian treaty has recently been concluded by Governor Dorr, on the part of the General Government, and the State of Indiana. It provides for the purchase of all the country south of the St. Peter's River and east of a line due south from its course, containing about 35,000 acres. The State reserves some 500,000 or 600,000 acres upon which they are to settle, in different tracts, and so which they are to cultivate the soil. The Government furnishes them with farmers to instruct them. On this purchase land is to be settled some 52,000 or more of other Indians from the east of the Mississippi, and to form an "Indian Territory." The Governor is appointed by the General Government, and to select men to a council to make laws for their own government.

Three forts are to be established within the district, to preserve peace among them, and to protect them from foreign invasion. Probably the most of the purchase area will be settled by the whites; but that portion of it which lies north of the State will be occupied as above described.

The Governor has discovered bituminous coal and copper on the St. Peter's River, and has caused them to be surveyed. This arrangement (adds the Galena Gazette) will throw a large body of Indians upon our immediate frontier; but the effort that will be made to civilize them is deemed a sufficient guarantee of their peaceable deportment.

The remains of Commodore Perry were removed yesterday afternoon from the grave where they have remained these many years, and were brought to their new and final resting place, at the side of the Monument, which is to be at once completed, under the direction of a Committee of the State.

The outside coffin was almost entirely decayed, leaving the leaden case exposed to view. — *Newport Herald of the Times.*

We regret to learn that a gentleman named THOMAS ARMSTRONG, formerly of New Orleans, put an end to his existence yesterday morning at Barren's City Hotel, by shooting himself with a pistol. Mr. Armstrong possessed considerable property and had in his possession a large sum of money at the time of his death. It is supposed that he had been performing with great deliberation, as the deceased previously prepared his will and left several memoranda as to the disposition of his effects. He also left a letter to a gentleman in this city, in which he stated that the act which he contemplated committing was long since determined on, but assigned no reason therefor. — *Baltimore American.*

DOINGS IN TEXAS.—More Wholesale Larceny.—A week or two ago, says the Natchitoches Herald, we gave account of the trial of one Jackson in Harrison county, Texas, for murder; of the manner in which he was tried; how he was acquitted, and how he and some of his friends then seized the county judge, McHenry, and brought him into Natchitoches, where he is now in jail, awaiting his trial, under a writ of habeas corpus. It is stated that Jackson returned to Texas, he was arrested and killed by four of his friends of McHenry; and they, in their turn, have been hung, without any ceremony, by the friends of Jackson. Where is this bloody tragedy to end?

ROBBERY OF THE HERKIMER COUNTY BANK.—We have to add another to the catalogue of bank robberies, which are adding to the dismay of the country, and shaking the confidence of the community in the integrity of mankind in general. — On Saturday evening, at about 8 o'clock, Mr. Anson C. Brown, a young man aged 21, book-keeper of the Herkimer County Bank, at the village of Little Falls, went to the Herkimer County Bank for the purpose of making out a check to enable him to cash a couple of checks for merchants of the village, who wanted the funds before the bank would open on Monday, (this morning.) Having attended to this business, the clerk returned the key to the cashier, and all appeared to be right.

A Trip to Europe.—We yesterday had a visit from an old and esteemed friend, who had just returned from a visit to Europe. He has been absent for some months, and has returned with a large amount of information. He visited all the principal cities of Europe, and has returned with a large amount of information. He visited all the principal cities of Europe, and has returned with a large amount of information.

At her residence, on the 16th ult., of scintilla, Mrs. Cecelia, in the context of John W. Owen, of Woodland, Clarke county, Va., and eldest daughter of the late Henry T. Washington, Esq., of King George county, Va. She was a native of England, and was a member of the Christian Church. She was a devoted wife and mother, and was highly respected by all who knew her.

The Philadelphia Inquirer remarks that the great iron steamer now being built at Bristol, Eng., will be the largest ever constructed. It is to be 400 feet long, and will carry 5000 tons of iron. It is to be the largest ever constructed, and will be the largest ever constructed.
