EFFECT OF THE TARIFF. -- From a table in Hunt's Merchants' Magazine, furnished from the Treasury Department, it appears that the amount of specie imported into the United States in the year 1843 was \$23,742,634. Of this amount \$17,-254,470 were in gold, and \$6,032.075 in silver. This is greater, by about \$6,000 000, than the imports of any year since 1821. The amount exported in 1843 was \$3,118,399. This table shows a gratifying increase of the precious metals in the country, which will tend still further to give stability to our currency.

> PERFORMANCES AND THOSE OF HIS GET. " SKYLARK is in splendid health, order and condition, and will no doubt please your country better than any horse they ever had, saw, or can see.

He is a rich bay, beautiful, gay, of very superior action and power, strong enough for a Dray, and is to-day the next horse to Priam, if not fully his e-qual. Many of our best Judges think Skylark's colts in this country are the finest they have ever seen in size, bone and appearance, except perhaps Fylde's colts; indeed, for size, color, game and stoutness, his colts are nearly all unequaled.-He has had three colts to start in America-all are winners and some of them several times .- Of their runnings and winnings in Ireland and England, I cannot say enough; last year his colts won 9 out of 16 KINGS PLATES in ireland, more than half of all run for, and against the get of Sir Hercules.
