

Illegal Voting.—The Washington Standard says that F. P. Blair, the editor of the Globe, at the recent election in this State, voted in Montgomery county, Md. It states further that Blair, not long since, ran as a candidate for some city office in Washington. The following is a paragraph of the Standard's article: "Mr. Blair claims to own a farm out in Montgomery county, where he stops during some of the summer months, but what has this to do with his voting in the Maryland election? He is a citizen of this city, lives here, and is sometimes a candidate for office here, and yet, screaming and bawling at the top of his lungs, through his pipes and toadies in the Globe, against 'Whig pilfering' in Maryland, he deliberately goes to the polls in that State and casts his own spurious vote!" (Ball. Patriot.)

English Duties on American Wheat.—At the last dates, by the Caledonia, (says the New York American) wheat was selling for about 45s. sterling the quarter. In consequence of this low price, in conformity with law, the rate of duty on the importation of foreign wheat had been raised to 20s. per quarter, or 2s. 6d. sterling (equal to fifty cents per bushel), as sometimes told that but for our oppressive Tariff they could send their wheat to England, where, as appears above, the present duty is about equal to an ad valorem rate of 67 per cent.

Reduction of Tolls.—It will be seen by the advertisement of the Superintendent of Transportation of the Baltimore and Ohio Railroad Company, that the charge for the transportation of Flour from Harpers-Ferry, Frederick, and all points east of those places, has been materially reduced. From Harpers-Ferry the charge will hereafter be twenty-five cents per barrel, and from Frederick and the Monocacy, the rate is reduced to twenty cents. We are heartily glad that this measure has been adopted, and we have no doubt that in due time it will prove itself to be both wise and profitable.—Ball. Amer.

Appointment by the President.—FRANKLIN ELLIS, of Missouri, to be Charge d'Affaires of the United States to the Republic of Venezuela, in place of Allen A. Hall.

The Whigs of Eastern Mississippi and of the adjacent counties in Alabama held a very enthusiastic meeting at the White Sulphur Springs on the 20th ult. From three to four thousand persons were present in attendance. The editor of the New Orleans Bee, alluded to the spirit manifested at this "gathering," says he has strong hopes that Mississippi will cast her vote for CLAY and FREELINGHUYSEN.

A Good One.—A friend from the interior of this State, (Carbon county), informs us that, in order to show the Locofocers by their own papers, that Mr. Polk and the party, as a party, were opposed to the protective policy and to the present tariff, he subscribed for the Richmond Enquirer, but that paper not having Folk and Dallas at its head, is denied to be a Loco paper, and the Locos of that county, and even one who has been a member of the House of Representatives and of the Senate of this State, insists that it is a *Whig paper!* What will your Ritchie say to this?—Phil. U. Gazette.

The land is also highly productive of Hemp and Tobacco.

The Potato Crop.—We mentioned a day or two ago the apprehended deficiency of the potato crop, owing to disease of the plant.

Few of our readers, however, are probably aware of the enormous growth of potatoes in this country, or of the serious loss—pecuniary or otherwise—that would result from a general failure thereof.

According to the census of '40, the potato crop of the United States, exceeds one hundred and eight million bushels—equal, in value, at 25 cents a bushel, to \$27,000,000.

Of this quantity, there were produced in New York, 13,133,614 bushels, Maine, 10,335,520 " Pennsylvania, 9,535,693 " Vermont, 8,869,731 " New Hampshire, 6,206,696 "

Gambling for Death.—A pugilist named Shelton, after a day's pleasure at Hamstead, England, gambled away his money and clothes, and then tossed with his companion to see which should hang himself; the lot again fell upon Shelton, who actually borrowed sixpence to purchase the halter, and then fulfilled his engagement.

A woman came on at the moment, and cut him loose, for which service the poor fellow was knocked down by Shelton in the excess of his indignation for the interference.

Benefits of Advertising.—We have seen many instances of the advantages of advertising recorded, but the following one, which is vouched for on the authority of the N. Y. Morning Post, deserves to be re-printed.

A wealthy merchant of this city, (says the Post), who has given more advertising to his business than any other merchant here, once told the editor of this paper that he commenced business with a determination to expend in advertising all his profits for the first two years, but that he soon found it impossible to do so—the faster he paid it out, the more he received; and could he have monopolized all the advertising columns of all the papers in the city, he would have been repaid tenfold.

For all Parents as well as Children.—No human being, however exalted his rank and fortune, however enlarged and cultivated his understanding, can long be happy without a pursuit. Life is a ladder, on which we climb from hope to hope, and, by expectation, strive to ascend to enjoyment; but he who fancies he has reached his highest hope in miserable indeed, or who enjoys the utmost of his wishes; for many who have been most successful in their respective undertakings, have given their gloomiest description of the pleasures of human life.

The Last Dog.—A Yankee who lost a yellow dog in the boat, approached a wood-chopper, and thus addressed him: "Mister," says he, "have you seen a yaller dog goin' along here, about a year, a year and a half, or two years old? 'Yes," replied the chopper, supposing the yankee was quizzing him—'Yes, I've seen a yeller dog goin' along here, about a year, a year and a half, or two years old. 'I was about an hour, an hour and a half, or two hours ago, and you'll find him about a mile, a mile and a half, or two miles ahead, with a tail about an inch and a half, or two inches long!'

Baltimore Medical Institute, FOR PRIVATE PUPILS.

The object is as far as possible to base all instruction on the sure foundation of demonstration.

A brief statement will be given of the advantages offered to the Student. The Institution, located in a central part of the city, comprehends an Anatomical Museum, Lecture Rooms, well stored with illustrations of the various branches of Medicine.

Physiology, Pathology, Midwifery and Surgery, will be illustrated by the remarkable models of Professor Auzan, Doctor Thibaut and M. Guy, of Paris. These models have received the highest testimonials of the Medical Faculty of the city, and are the property of the real subject, most valuable plates and casts, are also contained in the Museum for the use of Pupils, as also a very full collection of instruments and apparatus for performing all the operations of Surgery.

Chemistry, Materia Medica, Pharmacy and Botany, will be illustrated by appropriate apparatus, by a superior collection of specimens of the vegetable, mineral and animal kingdoms, and of several thousand medicinal native and foreign plants.

A large and well selected library of between two and three thousand volumes, is accessible to the Student, to whom also lectures are delivered through the greater part of the year. The city of Baltimore, from its two Medical Schools, its Hospitals, Infirmary, Alms House and Dispensary, affords great facilities for the study of the Hospital and Surgical practice, and it is celebrated for offering unparalleled advantages in the study of Practical Anatomy. Its health, society, and moderate expense of tuition, are also claims to the attention of the Student.

And the judicious parent, who considers the great responsibility of the profession and the conscientious duty, to enable his son to enjoy important advantages of the study of Medicine in a city. The subscriber, from an experience of many years in practice, a part of the time as a Professor, Hospital Surgeon, and Lecturer, feels authorized in offering the Student important advantages in his preparatory course. A limited number of additional pupils only can be received, and will make application during the months of September and October. Any one wishing additional information, can obtain it, by addressing to the undersigned, J. M. D. B. M. D., M. D., Late Prof. of Surgery, in the Washington University of Baltimore.

Attention, Friends! THE subscriber, thankful for the favor that has been extended to him for several years, by a liberal company, who ever form old friends and new, that he is now, as former, has the pleasure to announce that he has returned to his profession. To say that he will not, nor cannot, be beat in any description of Boots & Shoes, either in price or quality, is but expressing what every one who has heretofore purchased of him, will readily admit. His materials are of the best quality—his workmen excelled by none in the county—and his effort directed to please the public. Whilst he is willing, when requested, to follow the fashions of the day, and to give his attention to the mutations that so frequently occur, and is prepared to serve at the shortest notice, those who desire the "best tip." Remember, his prices can't be beat, more especially when the cash is made to mingle in his ear.

His shop is at the old stand, near David Humphreys' store, where he is always glad to see his old friends, and as many new ones as this country produce taken in exchange for work at the market price.

From the Rev. Zachariah H. Tippett. Mr. C. Herston—Dear Sir—I willingly comply with your request, to furnish a statement of my case, in which your medicine named Drs. Dresbach, Kuhn & Pryor's Dyspeptic Cordial, I found highly recommended for cholera, spasms, or cramp in the stomach.

CRAMP CHOLIC. Frederick county, Md. Sept. 1840. Mr. Herston—My wife, a few weeks ago, had a violent attack of cramp cholice. She thought she would have died—I was alarmed. NOTICE. A PETITION will be presented to the next General Assembly of Virginia, to exempt the Smithfield, Charlestown, and other Turnpike Companies, from keeping the road in repair within the limits of the town of Charlestown.

CABINET-MAKING ESTABLISHMENT. THE undersigned would respectfully announce to the citizens of Shepherdstown and vicinity, that he has opened a Cabinet-Making Business. His shop is a few doors below Entler's Hotel, on the opposite side, adjoining the Grocery Store of Bilyear & Co., where he has on hand a large assortment of a good supply of FURNITURE, of various kinds, and of the best quality, which he will sell on liberal terms, and take in exchange all kinds of country produce at market prices.

WOOLLEN FACTORY. The Tariff Reduced to Twenty per cent. Keep it Before the People. THE subscribers would respectfully inform the Farmers, Merchants, and others, of Jefferson, Clarke, and Loudoun counties, that they have at their Factory, one mile above the Shenandoale Springs, a fine assortment of LINSEYS, both full and plaid, Cassimeres, Flannels, Carpeting of good quality, which they are very anxious to dispose of for coal. This establishment being capable of manufacturing a large quantity, and with a disposition on our part to keep moving, we will offer greater inducements than ever. It is unnecessary for us to state our prices, as we are determined to bring them down to once to their lowest standard. Persons having Wool to exchange for goods of any description in our line, may rest assured that we will give them the best stock on hand, which is a liberal fair price of good quality and low price.

RIOTS! MOB LAWS! ALL was quiet at the last accounts we had from Philadelphia; we had heard of no riotous proceedings, and well-reputed stocks of Fancy Goods, Fruit, Confectionary, &c., just received and for sale at the lowest prices.

Dr. Dresbach, Kuhn & Pryor's Dyspeptic Cordial.

THE Proprietor of this preparation deems it proper to premise that nothing is farther from his purpose than to offer it to the public as a universal medicine, or cure-all. It is adapted to a few diseases only, for which it is confidently recommended as one of the most agreeable as well as most certain remedies which have at any time appeared in public attention.

Dyspepsia, sick or nervous headache, cholic, cramp or spasms in the stomach, cholera morbus, hysteria and nervous diseases generally, chronic dysentery, diarrhoea or purging, sea sickness, bilious flatulency, rheumatism, chronic liver complaints, female irregularities of a chronic character, attended with cold, pain in the back, limbs, &c. It is also particularly recommended to those who are suffering under debility, languor, depression of spirits, with irregular or defective appetite, restlessness at night, with unusual or disturbed sleep. In these cases the cordial will be found an admirable remedy.
