MESSRS. EDITORS :- The time being at hand when it will be necessary to select candidates for the Legistature, and without disparagement to our highly respectable delegates, or to the very entitled worthy gentlemen named in your last paper, permit me to call attention to Capt. JOHN REED, a gentleman of good sense of sound discriminating judgement, and a mechanic, a working man, one of the much neglected class of citizens, who have always stoo ! firm in every emergency, have supported your nominees without regard to their calling, whether of the learned professions, agricultural or mercantile class, and who oft called the bone and sinew of the land, and very jusily too, for they have always been, and I trust always will be, ready at their country's call, character, entitled when their services are required, and are they not worthy of a seat in our Legislature? Would it not be wisdom to nominate one of that class, to bind the party more closely? In this our opponents show more wisdom than we in nominating gentleman mechanics to unite all the party ; and as a second candidate permit me to name An-THONY KENNEDY, Esq , one who needs no enco-mium from me ; his services are well known to you all. A Whig and friend to rotation in office.
