ECHO-SUNG.

BY FRANCIS S. DEGOOD.

Hush! hark! how Echo soft repeats-

For one it loves how "wildly well!"

I know the noble heart that beats

I only know for whom it beats,

I know a voice that falters low,

Full well that little name I know, But that I'll ne'er betray!

Ne'er betray !

But I must never tell!

Ah! never tell

Mutterings of an Approaching Storm.

We find the following article in last Tuesday's Philadelphia Sentinel, an old and consistent, and, if we may add without prejudice to it, always decorous and respectable Democratic journal. The Sentinel says for itself, and truly, that it "has labored faithfully thirty years for the Democratic party." Coming from such a source, whose political orthodox cannot be questioned, the article certainly points out no small amount of error in the Administration of its choice .- Nat. Int.

lass stoppers; Castors, with cut and pressed THE preceding figure is given to represent the INSENSIBLE PERSPIRATION. It is soldies—very cheap. With a variety of other articles too tedious to mention, all of which he oledges himself to sell to Country Merebants and thers, upon terms as favorable as can be had in that this perspiration flows uninterruptedly when we any other market, and with goods equal if not are in health, but ceases when we are sick. Life superior to what can be usually met with. Pura cannot be sustained without it; it is thrown off from the charges are requested to call and examine Ware the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The blood by this means only works itself pure .-Alexandria Canal and Chesapeake and Ohio Ca- The language of Scripture is "in the BLOOD is the nal, will have their goods del vered at the Life." If it ever becomes impure it may be traced Whatves or Canal Basin, free of any charge directly to the stoppage of the INSENSIBLE PERSEI-RATION. It never requires any internal medicines to cleanse it, as it always purifies itself by its own heat and action, and throws off all the offending humors, through the Insensible Perspiration. Thus we see, all that is necessary when the blend is stagnant or infected, is to open the pores and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface.— Thus we see the folly of taking so much internal remedies. The Thompsonian for instance steams,

To give some idea of the amount of the Insensi-ble Perspiration, we will state that the learned Dr. Lewenhock, and the great Boerhauve, ascertained that five-eights of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate

This is none other than the used up particle of the blood, and other juices giving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body .-And even when this is the case, the blood is of so active a principle, that it determines those particles to the skin, where they form scabs, pimples, ulcers and other spots. By a sudden transition from heat to cold, the pores

are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence a stoppage of this flow of the juices originates so many com-It is by stopping the pores, that overwhelms man. kind with coughs, colds and consumptions. Nine tenths of the world die from diseases induced by a stoppage of the Insensible Perspiration. Let me ask now every candid mind, what course

seems the most reasonable to pursue, to unstop the pores after they are closed. Would you give physie to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? Would not this be common sense? And yet I know of no physician who makes any external application to effect it; the reason I assign is, that no medicine within their knowledge is capable of doing it. Under these circumstances 1 present to physicians and all others, a preparation that has this power in its fullest extent. It is Me-Allister's All-Healing Ointment, or the World's Salve. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely.

It has POWER to cause all external sores, scrofulas, humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them. Consumption .- It can hardly be credited that a salve can have any effect upon the lungs, scated as they are within the system, But we say once for all, that this Ointment will reach the lungs quicket than any medicine that can be given inter-nally. Thus, if placed upon the chest, it penetrates directly to the lungs, separates the poisonous partieles that are consuming them, and expels them from the system. I need not say that it is curing persons of Consumption continually, although we are told it is foolishness. I care not what is said, so ong as I can cure several thousand persons yearly. HEAD ACHE -The Salve has cured ersons of the Head Ache of 12 years standing, and

who had it regularly every week, so that vomiting Deafness and Ear Ache are helped with the like success, as also Ague in the Face. COLD FEET .- Consumption Liver complaint, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet. It is a sure sign of disease in the system to have cold feet. The Salve will restore the Insensible Perspiration and thus cure every case.

In Scrofula, Erysipelas, Salt Rheum, Piles, Asthma, running Sore Throat, Bronchittis, Dyspepsia, Liver Complaint, Broken or sore Breast, sore Nip-ples, Chopped hands, Swellings, Inflammations, Fe-vers, Nervous Diseases, and Spinal Complaints, the world never saw so great a remedy. For Burns it has no equal in the world. Sore Eyes .- The inflammation & disease always lies back of the ball of the eye in the socket. Hence the virtue of any medicine must

reach the seat of the inflammation or it will do little go d. The Salve, if rubbed on the temples, will penetrate directly into the socket. The pores will be opened, a proper perspiration will be created and the disease will soon pass off to the surface. PIMPLES ON THE FACE. MASCULINE Skin, Gross Surface, Old Sores, Scald Head, this Ointment makes clean work of them all. Workis .- If parents knew how fatal

mercurial 'lozenges,' pills, &c. The truth is, no one can tell, invariably, when the worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestige of them away. There is probably no Medicine on the face of the earth at once so sure and so safe in the expulsion of worms. It would be cruel, nay wicked, to give internal, doubtful medicines, so long as a harmless external one could be .Toilet .- Although I have said little

most medicines were to children taken inwardly.

they would be slow to resort to them. Especially

about it as a hair restorative, yet I will stake it against the world! They may bring their Oils far and near, and mine will restore the hair two cases to DISEASES IN CHILDREN - How many Merchants and other purchasers, that we have to housands are swept off by giving internal mediines, when the young bodies and tender frames are mable to bear up against them ! Whole armies are hus sent to their graves merely from pouring into their weak stomachs powerful drugs and physical Such cases as Croup, Cholie, Cholera Infantum, Worms, and all Summer Complaints, by which so many children die the Ointment will remove so speedily and surely, that a physician will never be needed. Mothers! throughout all this land, we

now solemnly and sacredly declare to you that the All-Healing Ointment will save your children from an early grave if you will use it Knowing as we do that vast bodies of infants and children die early, which is supposed to be inevitable and impossi-RHEUMATISM -It removes almost imediately the inflammation and swelling, when the FEMALE COMPLAINTS .- Inflammation f the kidneys, of the womb, and its falling down, of the kidneys, or the womn, and its falling down, weakness, and irregularity, find ready and permanent relief. We have had aged ladies tell us they could not live six months without it. But to females

about to become mothers, if used some weeks antecellent to their confinement, very few of those pains and convulsions which attend them at that period will be felt. This feet ought to be known to the world over. Corns -People need never be trous

bled with them if they use it.
