Devillry .-- A great many queer stories re told of the feats and necromantic tricks of the Herr Alexander, who is now outting all magicians in the shade. One was related to us last night by a lady from New York, which struck us as being more wonderful than any we had before heard of. The performer desired a number of gentlemen of the audience to loan him their handkerchiefs, and proceeded to collect some dozen or fourteen of them, which he plunged into a bowl of clear water, standing in full view of the whole company. Many of the handkerchiefs were not exactly suited for exhibition to a fastidious assembly, as two at least of the owners of the same used snuff, but this did not appear to trouble the magician at all; he put them all in the water togethor, and stirred them around with the air of one determined to make them white as snow. He then took them from the water and held them up to view, with the fluid streaming from them-a mass of wet rags. He then proceeded to ram and jam them, wet as they were, into the mouth of a blunderbuss, which being done he fired off the piece over the heads Compassion is an emotion of which we walked up to the bed, kissed the sick la- of the audience. Wednesday. WILLIAM SMITH, Esq., cf Fangnier, (commonly called "Extra,") was nominated by Mr. Davis of Orange, and supported by Messrs, Brawner, Daniel of Prince George, Parks, Cow-

an, and Godwin. Mr. Shepard of Matthews and Middlesex. moved a postponement of the election, on the ground that he did not know Mr. Smith's opinions upon the subject of the basis of representation in the Convention. He was against any man who was for the white basis, and in this only represented the views of his constituents Mr. S. had gone into the Caucus, a novice in such matters, and might be deemed bound by its acts, but he considered his duty to his constituents above that to any other power; and he could stand the taunts and sneers of the Caucus in such a case.

Mr. Jones, of Gloucester, expressed similar views, and felt himself bound to oppose the nomination

Though these young members stood up gallantly for their views, they met with support only from Mr. Banks of Madison, who denied the influence ascribed to the nominee, whose vaunted services in the two great political campaigns had been confined particularly to the decided Democratic Counties, where large majorities already existed.

Mr. Lyons deprecated the election of Mr. Smith, mainly on the ground of his extreme radical notions, one of which was that corporations were null and void-and he warned the Internal Improvement men against the elevation of a man whose views, if carried out, would stop every improvement in Virginia. Mr. L. also made some happy illustrations of the operations of the Caucus system, as in the case of Mr. Harvie of Amelia, who had just expressed his sympathy with Mr. Shepard, being himself the victim of the Caucus, whose will in this case, (under his notions of the obligation upon a mumber who had gone into it.) was between him and his constituents. Mr. Harvie had been in but two of these conclaves in his life, and resolved this should be the last, being determined to war against the system uncompromisingly, per point. henceforth, and during his whole life. The difference between himself and Mr. Lyons, he stated to be, that he, Mr H , had encountered the Caucus, and acknowledged himself beaten, whilst Mr. L. had been also vanquished by the same machinery of his own party, but would not ac-

Here was a power admitted to exist, more potent than the country itself, and its interests.

The debate closed with some pleasant hits between Messrs Lyons and Harvie, and the vote was called.

MR. STEWART'S SPEECH. The Speech delivered in the House of Representatives, on Tuesday week, by Mr. Stewart, of Pa, on the Tariff question, was an excellent one-and it was a pointed one, too. He read from Mr. Polk's present sentiments upon the Tariff question several passages, and condemned the doctrine. He then read extracts from Gen. Jackson's second message, advocating the constitutionality of a protective tariff, and from some of his other papers, in favor of its utility, and warmly approved of the doctrines thus laid down. The doctrines in Jackson's message, from which he read, emanated, he presumed, from one of the soundest constitutional lawyers ston. He read extracts from Mr. Walker's Report in favor of free trade, and ridiculed the many times its author had used in it the term 'poor men" and "poor people." He thought it very large proportion of the voters of the country "poor men," of course the Secretary would gain his election .- His system is well calculated

to manufacture "poor men." - Alex. Gazette. SOUTHERN LITERARY MESSENGER.

ing quack gorges us with pills, pills, pills. To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock, and the great Boerhave, assertained that five-eights of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration. This is none other than the used up particle of the blood, and other juices giving place to the new and fresh ones. To check this therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body .-Men's, Boy's and Youths' thick Pegged And even when this is the case, the blood is of so active a principle, that it determines those particles and other spots. By a sudden transition from heat to cold, the nores

are stopped, the perspiration ceases, and disease be-gins at once to develope itself. Hence a stoppage of de do extra sizes, this flow of the juices originates so many com-It is by stopping the pores, that overwhelms maxkind with coughs, colds and consumptions. Nine tenths of the world die from diseases induced by a seems the most ressonable to pursue, to unstop the thing that would do this upon the surface, where the clagging actually is? Would not this be common sense ? And yet I know of no physician who makes any external application to effect it; the reason I as-sign is, that no medicine within their knowledge is capable of doing it. Under these circumstances I present to physicians and all others, a pr paration that has this power in its fullest extent. It is Me-Mister's All-Healing Ointment, or the World's

Salve. It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely. It has POWER to cause all external sores, scrofalss, humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them. Consumption .- It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But we say once for all, that this Ointment will reach the lungs quicker than any medicine that can be given interfind it to their advantage to examine the above nally. Thus, if placed upon the chest, it penetrates named Goods, as they are all fresh from the directly to the lungs, separates the poisonous partisons of Consumption continually, although se set told it is foolishaess. I care not what is said, so long as I can cure several thousand persons yearly.

> who had it regularly every week, so that vomiting often took place. Deafness and Ear Ache are helped with the like success, as also Ague in the Face. COLD FEET - Consumption Liver complaint, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet. It is a sure sign of disease in the system to have cold feet.

HEAD ACHE -The Salve has cured

persons of the Head Ache of 12 years standing, and

The Salve will restore the Insensible Perspiration and thus cure every case. In Scrofula, Erysipelas, Salt Rheum, Piles, Asthma, running Sore Throat, Bronchittis, Dyspepsia, Liver Complaint, Broken or sore Breast, sore Nipples, Chopped hands, Swellings, Inflammations, Fevers, Nervous Diseases, and Spinal Complaints, the world never saw so great a remedy. For Burns it

Sore Eyes .- The inflammation & disease always lies back of the ball of the eye in the socket. Hence the virtue of any medicine must reach the sest of the inflammation or it will do litand black wadding, by the wholesale or retail. the go d. The Salve, if rubbed on the temples, will penetrate directly into the socket. The pores will be opened, a proper perspiration will be created and the disease will soon pass off to the surface.

PIMPLES ON THE FACE, MASCULINE Skin, Gross Surface, Old Sores, Scald Head, this Ointment makes clean work of them all. Worms .- If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially mercurial 'lozenges,' pills, &c. The truth is, no one can tell, inveriably, when the worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestige of them away. There is probably no Medicine on the face of the earth at once so sure and so safe in the expulsion of worms. It would be cruel, nay wicked, to give internal, doubtful medi-

cines, so long as a harmless external one could be ToiLET .- Although I have said little about it as a hair restorative, yet I will stake it a-gainst the world! They may bring their Oils far

and near, and mine will restore the hair two eases to DISEASES IN CHILDREN .- How many thousands are swept off by giving internal medicines, when the young bodies and tender framesare unable to bear up against them ! Whole armies are thus sent to their graves merely from pouring into their weak stomachs powerful drugs and physics ! Such cases as Croup, Cholie, Cholera Infantum, Worms, and all Summer Complaints, by which so many children die, the Uintment will remove so speedily and surely, that a physician will never be needed. Mothers! throughout all this land, we now solemnly and sacredly declare to you that the All-Healing Ointment will save your children from an early grave if you will use it. Knowing as we do that vast bodies of infants and children die early, which is supposed to be inevitable and impossible to prevent, we hold up our warning voice, and declare in the face of the whole world, CHILDREN NEED NOT DIE MORE THAN OTHERS!! RHEUMATISM -It removes almost im-

pain of course ceases. FEMALE COMPLAINTS .- Inflammation of the kidneys, of the womb, and its falling down, weakness, and irregularity, find ready and permaneut relief. We have had aged ladies tell us they could not live six months without it. But to females about to become mothers, if used some weeks antecedent to their confinement, very few of those pains and convulsions which attend them at that period will be felt. This fact ought to be known to the

Corns -People need never be troubled with them if they use it.
