

WEDNESDAY MORNING, NOVEMBER 24, 1847.

GEN. ZACH. TAYLOR.

Taylor State Convention.

It now seems to be generally understood that Electoral Tickets favorable to Gen. Taylor for the Presidency will be formed during the approaching winter...

It is a matter of but little moment as to how the Electors shall be appointed, whether by a Convention in which the whole State shall be represented...

There is a wide difference between such an expression of the people's will, and a caucus, gotten up by a few interested and designing persons.

Let it be rounded about that the admirers of old ROUGH AND READY are to have a convention, and such an uprising among the people will be witnessed...

Such a movement would be no mere party movement. It would proceed upon the basis of Gen. Taylor's own avowals, and would emanate from the great body of the People.

From the Winchester Republican.
