### POETRY. alt falities

GENTLENESS BY MRS. HEMINS. If thou hast crushed a flower,

The root may not be blighted; If thou hast quenched a lamp, Once more it may be lighted; But on thy harp or on thy lute, The string which thou hast broken, Shall never in sweet sound again Give to thy touch a token !

If thou hast loosed a bird, Whose voice of song could cheer thee, Still, stil he may be won From the skies to warble near thee ; But if upon the troubled sea Thou hast thrown a gem unheeded. Hope not that the wind or wave shall bring

The areasure back when needed ! If thou hast bruised a vine, The summer's breath is healing, And its cluster yet may glow Thro' the leaves their bloom revealing, But if thou hast a cup o'erthrown,

With a bright draught filled-oh, never Shall earth give back that lavished wealth To cool thy parched lip's fever ! The heart is like that cup If thou waste the love it bore thee,

And like that jewel gone, ----Which the deep will not restore thee ; And like that string of harp or lute Whence the sweet sound is scattered-Gently, oh, gently touch the cords, So soon for ever shattered !

## A TOUCHING STORY.

PUBLISHED WEEKLY.

THURSDAY MORNING, FEBRUARY 15, 1849.

Hm. A. H. Stephens, of Ga., in a recent address at a meeting in Alexandria, for the benefit of the Orphan Asylum and Free School of that city, related the following anecdote:

"A poor little boy in a cold night in June, with no home or roof to shelter his head, no paternal or maternal guardian or guide to protect and direct him, on his way, reached at nightfall the house of a rich planter, who took him in, fed, lodged, and sent him on his way, with his blessing. Those kind attentions cheered his heart and inspired him with fresh courage to battle with the obstacles of life. Years rolled round; Providence led him on ; he had reached the legal profession ; his host had died ; the cormorants that prey on the substance of man had formed a conspiracy to get from the widow her estates. She sent for the nearest counsel to commit her cause to him, and that counsel proved to be the orphan boy years before welcomed and entertained by her deceased husband. The stimulus of a warm and tenacious gratitude was now added to the ordinary motives connected with the profession. He undertook her cause with a will not easily to be resisted ; he gained it ; the widow's estates were secured to her in perpetuity and Mr. Stephens added, with an emphasis of emotion that sent its electric thrill throughout the house, "that orphan boy stunds before

THE DAHLIAS OF MEXICO AND THE GOLD OF OPHIR.

The New York correspondent of the National Intelligencer indulges in some curious speculations in reference to the identity of California and the ancient Ophir, where the gold diggers of old obtained the immense quantities of gold in the construction of the

temple. The writer says : The London Magazine of Science, of last month, says that in the Travels of Lord Lindsay it is stated, that during his wanderings in Egypt he discovered a mummy, which the hieroglyphics upon it proved to be more than two thousand years old. In one of its closed hands he found a bulbous root, which he carried home and deposited in a sunny soil -In a few weeks it sprouted, grew, and finally blossomed into a beautiful dahlia. As the dablia had usually been considered a native only in Mexico and South America, this solitary blossom from the hand of the Egyptian raise another monument, in the centre that the inhabitants of the Old World (as it Western Continent. And granting that question settled in the affirmative, another still lies behind it more difficult perhaps, of ferred from Mexico to Egypt, or from Egypt to Mexico? The presumption is, that as his spirit, one may ascend the hill of attain-Mexico has been the accredited home of the ment, and with something else beside the

As a collateral item in reference to the will illustrate his genius and nobleness to the idea of ancient communication between the old world and the new, an argument is raised humn we will place our benefactor and friend to show that "the gold of Ophir," of Scrip-ture celebrity, came from California. Ma-cution of Christianity-the ncble and illusjor Noah, in his last "Sunday Times," goes | trious William Penn. (Applause.) And the into the argument to considerable extent, heart of the Indian will swell as he views it, and infers, from the vast amount of the gold as mine leaps with joy at the bare mention of of Ophir used in the construction and orna- his name. Should we be so fortunate as to get in office" said the hopeful heir of honor -t was California gold that so wonderfuily and magnificently enriched the famous temple of antiquity. The Major states the cost of the temple at upwards of four hundred and fifty millions of pounds sterling-a sum hardly to be compared with any single financial account on record, except the national debt of Great Britain. The ships sent by Solomon and Hiram of Tyre, for the gold treasures of Ophir, required three years to the same angel who nursed me in the woods, make the voyage, and as the locality of Ophir may guide and shield me while I live. has not been ascertained, and as the length

### ALLEGED CURE FOR CHOLERA.

Dr. John W. Moore states in a Mobile paper that he cured one hundred or more extreme cases of Cholera, not losing one, by the use of tobacco. He administered it in the form of an enema of the strength of one drachm to a pint.

He first tried it upon a negro' whose pulse was gone, his tongue cold. and his muscles so rigid that he rested only on his head and heels. In five minutes he was relieved, and the cure was perfected by drinking a decortion of senna. In his own case, Dr. Moore took into his stomach a spoonful of the decoction, with perfect relief from cramp and diarrhost. He has no doubt that cholera may be as easily managed as the fevers of our country.

Caution is the Parent of Safety. How often do we see persons atilicted with a slight Cough and Cold, who go on neglecting it until it settles on their lungs, and brings on AN AT-TACK of PULMONARY CONSUMPTION, which may eventually cause their death , when, if they had procured a boltle of

Hance's Compound Svrup of Hoarhound,

in the beginning, they never would have experienced any ill results from their cough, but have been cured of it immediately Therefore, all those who are troubled with a slight cough, will recollect that delays are dangerous ; for what may appear trivial in the beginning, may lead to the most dreadful consequences. Hance's Compound Syrup of Hoarhound may be used by person in the most delicate state of health, with perfect safety as its effect on the system, although certain, is ver mild. Let not the patients frighten themselves with the idea that they are too weak to take much medicine ; but bear in mind that this mildly operating medicine cuts not weakness into the frame, but most certainly draws weakness out, leaves streng h in its place, and by g ving composed sleep at night, and an appet to to relish any food, re-an-imates the whole frame with vigorous action, clearing

the miad and improving the sight In cases of Jaundice, Asthima, Liver Complaints, Tic Doloreux, Rh-umatism or Rheumatic Gout, Dr. Sweets-ers's Panacea cannot be too highly extolled ; it searches out the very root of the disease, and by removing it from the Blood makes a cure certain and permanent. For diseases of the Bladder and Kidneys, Strictures, Gravel Stone, Piles, Fistula, Urinary Obstructions and Extreme Costiveness, Dr. Sweetser's Panacea is the best remedy ever tried ; it removes all those acrimonious humors from the blood, which give rise to the above diseases, a d by keeping the blood in a pure condition insures health

For Dropsy, Falling of the Bowels, Impurities of the Blood, Mercutial Taint, Weakness of the Spine, Flow of Blood to the Head, Galdiness, Singing or Buzzing Noise in the Head and Ears, Dr. Sweetser's Panacea will give certain relief ; in all severe and chronic cases the patient cannot be too often reminded that LARGER DOSES and PERSEVERANCE will effect a cure, In chills and Fevers, Billors Fever, Affections of the Eyes and Ears, Spongy and Bleeding Gums, Bronchitis and recent Coughs and Colds, Dr. Sweetser's Panace will be found perfectly sure and certain in its effects. DR. SWEETSER'S PANACEA.

For the Ladies. TITE respectfully ask a visit from the Ladies of

rom a variety of circumstances, and especially from the fact that all our tribes of Indians, bearing the strongest marks of Asiatic origin, are identified with the Israelites by religious rites.

1. Their belief in one God. 2. In their computation of time by their ceremonies of the new moon. 3. In their division of the year into four seasons. 4. In their erection of a temple, having an ark of the covenant, and also in their crection of altars. 5. By the division of the nation into tribes, with a -chief or general sachem at their head. 6. By their laws of sacrifices, ablations, marriages, ceremonies in war and in peace, prohibition of eating certain things by traditions, history, character, appearance, affinity of their language to the Hebrew, and finally by that everlasting covenant of friendship exhibited in a perpetual transmission of its seal in their flesh, a custom only of late relin-

quished. The Phoenicians (Canaanites) had discovered the continent 500 years previous to the migration of the Israelites, and were, it is assumed, the builders of the pyramids of Mex-Cholula, Otumba, Tlascala, and other cities of which the ruins now excite our astonishment; and also the introducers of hieroglyph ics, plenisphenes, zodiacs, temples, military roads, viaducts and bridges from Egypt, Tyre, Babylon and Carthage. In the apoeryphal book of Edras. of great antiquity, it is said: "Whereas, thou sawest another peaceable multitude; these are the ten tribes, which were carried away prisoners out of their own land, in the time of Osca, whom Salmanazer, King of Assyria, led away captive, and he carried them over the waters; so they came

unto another land. "They took this counse" among themselves that they would leave the multitude of the heathen, and go into a further country, wherein never mankind dwelt, that they might keep their statues, which they never kept in their own land, (Assyria) and there was a great way to go, namely, a year and a half"

According to Major Noah's theory, they marched towards the northeast coast of Asia -some remained in Tartary, and many went into China, where they have been 1,600 years, and are numerous at this day. The main body crossed at Bhering's Straites to our continent, the most hardy keeping to the north, Hudson's Bay and Greenland; the more caltivated passed down on the shores of the Pacific, through California to Mexico Central America and Poru, where they met their ancient enemies, the Canaanites (Phœnicians) whom, as once before, they dispossessed of the country. Furthermore, it is contended that they resided in California when the ships of Solomon made their three years voyage, and furnished the gold of Ophir to build the temple ; also, that they are the settlers and proprietors of Mexico, Peru and the whole American continent, and have been there centuries before the advent of Christianity, and patiently await the promi-

ses of redemption. William Penn, writing of the Indians, said

"I found them with like countenances to the Hebrew race. I consider these people under a dark night, yet they believe in God and immortality, without the aid of metaphisics. They reckon by moons-they offer feast of tabernacles-they are said to my their altars with twelve stones-they mourn a year, and observe the Mosaic law with re-

privations of his boyhood. The rudiments of ais education were acquired at what they call in Georgia an old field school. At an early age he was transferred to the Acade-

my, and by the aid of some benevolent friends who had been attracted by his remarkable development of talent of the highest order, he was enabled to enter Franklin College, where he graduated with honor, fully realizing the higest expectations of those who now watched his career with growing interest. It was expected that he would devote himself to the ministry; but it was ulimately determined otherwise. Young Stephens aimed at independence for himself and family. He entered a law office, and in short time, before he was yet out of his misority, was admitted to practice in the courts, by a special act of the Legislature of Georgia. A few years found him in the first rank of his profession, and one of his

first uses of his good fortune was to return, with interest, the favor he had received when in adversity. An ardent Whig, he was elee ed to represent his county in the State

rid tive in bath branchas of which h there was a vacancy to be filled in the Congressional delegation, and the Whig party, as usual, were called upon to nominate their candidate. Owing to the signal defeat of their party in the general election, which hal taken place the previous year, there was an evident reluctance on the part of the prominent men of the party to enter the canvass, and it was doubtless owing to this fact that Mr. Stephens was selected as the candidate. Little hope was entertained of his election, owing to the large democratic majority which was known to exist in the upper section of the State, called the Cherokee country, and his friends consoled themselves in advance with the reflection that it could not hurt a new man to be beaten for Con-

gress. But Mr. STEPHENS determined not to be beaten, if it was in his power to prevent such a disaster. He immediately set off alone for the Cherokee country, canvassing every counand addressing the people at every Court fouse. His opponents, taking the alarm from the accounts which reached them of the uccess of his efforts, hastened upon his track. One after another of their most popular speakers encountered him, only to be discomfited, and to retire, overwhelmed with mortification at his triumph. The people followed him with enthusiasm-men, women and children thronged to hear "the little wire grass boy," as they called him, and lost their devotion to democracy as they listened to his convincing arguments and impassioned appeals. Many laughable anecdotes are told of his meetings with the hardy mountaineers of upper Georgia. On one occasion an old ady, who had come a great distance to hear him, and had listened to the well-directed eloquence of the boy, as she supposed, until she could restrain her admiration no longer, sprang from her seat, and exclaimed-"Gracious goodness me ! if I could only have a boy like that I'd be willin' to die right now !" On another occasion, the democrats, seeing that their speaker was getting the worst of the conflict, endeavored to break up the

meeting, and several of them, with canes in their hands, advanced towards the stand where Mr. STEPHE s was then speaking .-"Stop !" shouted an old mountaineer who had been standing by, resting on his double-barrelled buck gun, looking up with a broad

of the voyage would seem to correspond very well with the distance to California, Major Noah, therefore, concludes that ancient Ophir and modern California are one and the same place The conclusion does not exact-

ly amount to a geometrical demonstration, but it affords material for curious speculation worth placing by the side of Lord Lindsay's dahlia.

PROSPECTS FOR 1849-INFLUENCE

A new and remarkable element has made ts appearance, to excite speculation and stimulate that desire for enterprise which has long lain dormant. We allude to the gold liscoveries in the Californian regions. This then estimated at \$5,000,000 per annum -Gradually, however, hopes failed to be real-

they were worked the business was found in the long run less profitable than others .-been realised from those mines. The new excitement in California is sustained by official reports, and by the arrival

of considerable quantities of gold in this city of great purity, say 22 carats fine. A "carat" is a weight of four grains, used in weighing diamonds, but used in reference to gold, the mass is supposed to weigh 24 carats, 12 grains each, and "22 carats fine" means there are 22 carats of pure gold and 2 carats of alloy, and this 22 carats is about the fineness of our gold coin; or, as expressed in the mint term, 22 carats is 917 thousandths fine.

A SINGULAR MISTAKE.

Burying a Wife and Finding Her Alive. A most singular circumstance occurred in

this city last week, towards the close, that has been the subject of remark among the Ligh officials at the court house, and in several of the churches. The story runs thus :--A young married woman called on the Hon.

udge Saffin of the Court of Common pital, which was, through his kindness, immediately obtained. After remaining there a few days, Mr. Doolittle, the very efficient Steward of the institution, called upon the Judge, stating that the woman for whom he had obtained admission into the Hospital was dead, and said he was seeking information respectng the won an's husband, stating, at the same ime, that the woman was a foreigner, and was expecting her husband here; during her watching for him she became sick and destitute and applied as above. Judge Saffin took the trouble to advertise in one of the German

papers for the person, and the advertisement had the effect of finding the man early next California. Persons from all quarters crowd- day, and the sad news of his wife's death was ed into those regions, and the product was told him. The husband lost no time in repairing to the place where the corpse laid. He kissed her cold lips "that laid death sold in ized. Although the mines became richer as clay," to use the very impressive line of an old nursery ballad, and did the necessary burial, after taking the body to the church, and Hands were withdrawn to cotton fields .--- doing all the necessary ceremonies peculiar Companies dissolved, and the work was con- to his belief and duty in such cases The corpse was interred in a respectable burial place, and the husband returned to the Hospital to inquire if there were charges, for

which he in honor stood bound. On his return, instead of going to the " Dead Room," as he did in the first instance, he was shown to the "Convalescent Department." What was his astonishment and delight-how his heart leaped with joy-in there finding his

wife, into whose arms he fell with a wild joyousness, not to be described in a paragraph, or exhibited in a drama! The body that the kind and sad husband had interred, by mistake, was that of an unknown and friendless female. The whole world may be canvassed for a more singular incident in vain, and the works of the fictional drama present nothing to rival

is by no means the first gold excitement to which our markets have been exposed. In the year 1803, a negro found in North Carolina a lump of gold weighing 27 lbs., worth some \$3.000, and since that time many mines have been discovered and worked in Virginia, North Carolinia, South Carolinia, Georgia, Alabama and Louisiana. In 1830, nearly as great an excitement prevailed in relation to them, as does now in reference to

### SERIOUS LOSS BY FIRE.

Dirginia Free Press. THURSDAY MORSING. FEBRUARY 15, 1819.

### AN EXTRA SESSION OF CONGRESS.

The Administration party are using their very best efforts to stave off the bills providing for govenuments in California and New Mexico, in order to torce Gen. Taylor to call an extra session of Congress ; but we trust, that, if such be the design, they will be unerly foiled. The Administration party seem determined to keep open theslavery question in order to throw the responsibility of its final settiement on Gen. Tarios. Well, be it so-they may repent their folly, when they find he is as great a paciacator as he is a general. He asks no favors, and shrinks from no responsibilities: Yet, at the same time, he, nor his friends will bear the responsibility of an extra session, if the present Administration force such a measure. It will not embarrans him : The Mexican leaders could not; and the "little fish" in power at this time, shough they may have the will, scarce have the hardihood to attempt such fullt.

No extra session should be held to pass acts which could be readily passed during the present session, if the disposition existed. Were Congress to be called together in May or June next, there would probably he a continuous session of nearly twelve months; for an adjournment would hardly take place much before the next regular time of mating.

# GEN. TAYLOR'S ROUTE.

The President elect arrived in Louisville on the morning of the 14th. He came up the river in a steamboat, which was crowded with passengers. A correspondent states that the General looks well-is enjoying fine health, and looks calm, collected, and unaffected by the pomp and ceremony surrounding him. It was his purpose to remain until Thursday, (to-day.) and then leave for Frankfort. He designs stopping only a few hours at Cincinnati during Friflay, and will then proceed direct to Pittsburg where he will remain a short time, and leave probably on Monday, en route for Washington.

Should the President leave Wheeling on Monday, he will pass Harpers-Ferry some day early in the next week. We shall doubtless be apprised of his arrival in Cumberland, by telegraph, and know to a certainty, the day he will pass through Jefferson. The nopular enthusiasm aroused by Gen. Taylor's presence, sectas to know no bounds, and entirely overleaps all distinctions of party. Whig and Democrat old and young, men, women and children. are carried away by a perfect torrent of enthusiasm, as they hail the glorious old chief whose heroic virtues have made his name immortal, but whose modesty has hitherto led him to avoid the public eye and cling to the retirement of his home.

There is a profound admiration, confidence and

# The fine large Barn on the farm of GROADE W.

Tursen, Esq., about seren miles from Charlestown, was destroyed by fire on Tuesday night last. Some three or four hundred bushels of wheat, together with Wheat Fans and other agricultural implements were destroyed. The barn was one of the finest in the county, and the loss is estimated at between two and three thousand dollars. It was doubtless the work of an incendiary, as the fire occurred about 10 o'clock at night., It was seen distinctly in town, setting him aside, and averal gentlemen repaired to the place with all

possible haste. The insurance policy on this property expired on the 25th of December, so that it is a total loss to Mr. are all very well in their place, but then, says the T. Those who are negligent, or think it of little consequence to insure their property, should improve on this loss, and take speedy measures for securing themselves against the devouring element. Mr. J. J. MILLER acts as Agent for one of the most reliable insurance Companies in the Union, and those having property will do well to pay a small percent., in order to indemnify themselves against all possible loss in this way.

### THE TAX BILL.

The new provision engrafted by the House, to tax h usehold furniture not otherwise taxed, for the purpose of extending the right of suffrage, was struck out of the Tax Bill in the Senate.

# MR. THOMSON'S SPEECH.

The speech delivered in the House of Delegates by Joun A. Thomson, Esq., on the Virginia Resolutions in regard to slavery, will be published next week.

### FROM THE GOLD REGION.

Advices have been received up to the 25th of December from San Francisco. Mr. Folsom, in his letter, ropresents society in a most horrid state, t e e being frequent murders and robberies. The gold mines, he says, continue to be as rich as before, although the rainy season has caused many to suspend operations. It is estimated that \$1,000,000 of gold have been taken from the mines, Another writer, under date of the 6th November says :

"Many of the gold diggers are returning from the mines, sick and exhausted, owing to their irregular modes of living. Some are deprived of the ordinary comforts of life, while they make use of their hard earnings for their pillows, done up in dirty rags of from one to ten pounds each. Some die in this way; two died yesterday, and two more to-day. If I should live to get home again I will give vot an account of the trauble and veration I have had with runaway sailors and soldiers,"

# THE EXTRA SESSION.

The Senate, after some debate, adopted the Resolution from the House, for an Extra Session, to be commenced on the 28th of May. The subject was very maturely considered, and it was agreed that it was impossible to transact the ordinary business of the regular session, and finish the Revision of the

#### CONGRESSIONAL CANDIDATES. RICHMOND CORRESPONDENCE.

# GILES COOKE, Esq., of Warren, and James P. Rimar, Esq., of Winchester, are spoken of in com-munications in the "Spirit of Jefferson," in connection with a seat in Congress from this District.

The Convention of the Democracy will ricet at Winchester on the 22d, and decide on the favorite. Mr. Bedinger has all the chances of receiving the nomination, though his opponents are arming themselves to the teeth with arguments and reasons for Dr. C. McCormics of Clarke, and Richard Byrn.

Esq., of Frederick, are Mr. Bedinger's most formidable adversaries. The votes of Warren and Page friends of other aspirants, they have no business with a member of Congress : They have to man to fill such a station. In point of fact, the Democracy of Warren and Page, are, to Jefferson, mere "hewers of wood and drawers of water." The Young Democracy of Jefferson pat them on the back all the while, and cry brave, to the meaial-like support they give their candidate, but they must ne ver be seized with the delusive notion that they have a man among their own mountain fastnesses qualified to take a scat in the halls of the national legis-

We observe a communication in the "Spirit."nominating R. HUME BUTCHER, Esq., as a Denceratic candidate for a seat in the House of Delegates .-Mr. B. is a handsome speaker, ready debater, and withal, a most agreeable gentleman, but the Whigs of Jefferson have those of their own "kith and kin," in political matters, to represent them abroad.

The Whigs have an evidence aiready, of the movements of their opponents, and it behooves them to move cautiously and unitedly in making their nominations for the House of Delegates. h is generally understood that Mr. WORTHINGTON will consent again to represent the people of Jefferson. From Mr. THOMSON, we have no advices. In accordance with the usages of the party, a Whig County Convention will doubtless be held

### MR. FAULENER'S REPORT.

We regret that the length of this document, with other matter pressing upon our columns, precludes its insertion at this time.

The Report contains-a recital of the Constitutional provisions on the subject-the law of Congress-decisions of the Supreme Court-and the legislation of some of the Northern States, adverse to the rights of the Slaveholding States. It is remarked, in the mild but expressive language of the chief justice of the United States, "the act of Congress of 1793 scarcely deserves the name of a remedy." The Committee suggest certain amendments to

the law of 1793, and conclude their Report by recommending the following resolutions:

Resolved by the General Assembly of Virginia, That the Senators and Representatives of this State in the Congress of the United States, be requested to use their earnest and persevering efforts to have owners in the South, the rights guarantied to them by the 3d clause, 2d section and 4th article of the Constitution of the United States.

Resolved, That the Governor of this commonwealth be, and he is hereby requested to forward to each of our Senators and Representatives in the Congress of the United States, and also to the Governors of the several States of the Union, a copy of this report and resolutions.

MR. THOMSON'S REVILERS.

We referred last week to the eagerness with which the "Spirit of Jefferson," professing "esteem," too, transferred to its columns a miserable carricature of Mr. Thomson and his speech on the subject of the Wilmot Proviso Resolutions, from the Richmond F caminer-a carricature which the speech itself shows exhibited more of taalignity than wit. It is habitual with the Examiner to attempt ridicule when it is at a loss for argument.

That our readers may see how little value is to be placed upon the opinions of that paper, and how reckless it is in the business of disparagement, we copy from a late number the following specimen of wholesale and unprovoked detraction. In an article upon the advantages of a Rail Road to the South West, the Examiner orges that it is necessary to keep the State together, and wantonly assumes that the people of the "North West and Central West" are disloyal--that they are, in short, a mongrel race, and not descended from the great families al the State, as the people of the South West arefrom "the Prestons, the McDowells the Campbells, the Floyds, the Kents, the Cloyds, the Edmondsons, the Crocketts, the Triggs, the McGavocks, and the Bowers." It was, we suppose, because Mr. Thomson is not descended from any of these, and because he was in a small minority, uttering his sentiments as a freeman, that he was maligned, and the abase echoed by the "Spirit,"

But we give the extract itself, and ask our readers to say whether their delegate can lose respect with them, in consequence of disparagement from such a source.

"But (says the Examiner) the great excellence and beauty of the Southwestern road will be that it will bind together forever Eastern and Western Vir minia. In the northwest of the State there is a deep ly seated and widely pervading desire to separate trom our venerable Com nonwealth, and to form a with grief. free State of the portion west of the Blue Ridge .-Those who have not visited that country of late have little idea of the extent of this feeling. The feeling is natural and easily accounted for. The people of the northwest and central-west are emigrants and descendants of emigrants from Pennsylvania and other northern States-Germany and a thousand other regions. They are a population hardy, industrious and valuable indeed, but heterogeneous, having no State pride, none of the old Vitginia spirit, no feelings or sympathies in common with our southern people. (There are many glori ous exceptions to the general remark of course-w speak of the mass of the population.) And if the same were true of the Southwestern people, a division of the State, if no channel of commerce be opered, would soon result as a matter of course if -of all that country South of the James and West of the Ridge as well as Rockbridge and Augusta, are our own people-bone of our bone and flesh of our flesh. They are our kinsmen-the descendants of our uncestors-whose progenitors were soldiers of Washington-many of them his nearest and most trusted friends." P S. The Examiner, finding the whole North West in ignant at the unjust and illiberal aspersions in the foregoing paragraph, has made an apology for the insult, which makes the matter worse. I says the article was not written by the Editor, but by a correspondent, and was adopted as editorial, withrepresentative. At home, among his neigh-bors, he was greatly beloved-and if human out even examining the proof ' We suppose if the same reuson existed for the disclaimer, Mr. Thomson would receive an apology too-but he is in a minority-is a Whig-and therefore, there is no anotive for doing him junice. "The "Spirit" may rest assured, however, that the shafts arened at Mr. Thave done him no harm among his fellow mem bers-ser has its repetition of the insult injured tim among his constituents.

A NEW TURNPIKE.

Mr. White, one of the efficient 'Delegates from Loudoun, has had a bill reporte I by the Committee of Roads to the House of Delegates for incorporating a company to construct a Turnpike Road from Hillsborough to Harpers-Ferry. Such a road would prove very important to a large portion of the pecple of Loudonn. We therefore trust the Legislature will not only grant an act for the construction of the Road, but also subscribe to it liberally.

The news from Paris is highly important. The question as to the dissolution of the French National Assembly has been put to the test, and carried, and that body is declared to be dissolved.

The country, however, is quiet, though the future is looked to with fear and trembling by many of her far-seeing citizens.

Intelligence reached Liverpool on the 11th. that several steamers were preparing at Touion, with orders to sail without a moment's delay to Brussels and Chesbourg. Rumor ascribes these demonstrations as indicating an armed intervention in favor of the Pope. The steamers were adapted to carry from 7,000 to 10,000 men. At the latest moment no orders for their sailing bad been received. An uncasy state of feeling had grown out of this matter. Forty thousand muskets had been ordered from the manufacturers at St.

Etienne. The red republicans were making great preparations at Lyons, and were engaged in: casting musket balls and providing gun powder for a stand up fight in their resistance to the revolutionary party in the Assembly.

Having filled the blanks in the bill, he was asked by Mr. Cook of Roanoke to let it lie on the table until the next day, but Mr. T. declined to accede to the proposition, preferring to make his statement at that time.

Suddenly, after speaking a few minutes, he sunk in his chair, with his head on his desk, and called for water. This was instantly brought, but he could not swallow it-and,

The bill introduced by Mr. Faulkner in the House of Delegates, is highly commended for its ability and legal clearness. The Richmond correspondent of Fredericksburg News writes under date of the 6th, as follows :

To-day, Mr. F's Report on the subject of fugitive slaves-a most powerful paper, and one that ought to be circulated from one end of this Republic to the other, and read and pondered on by every sincere friend of the Union,-to-day Mr. F's report came up as the order of the day, when its distinguished author, in vindication of its positions, made an exposition of his subject, and addressed an appeal to the House, which ought to have sunk deep into the heart of every man who has a Southern sympathy, or who venerates the Constitution of his country, and truly loves the Union. After hearing him could not but deeply regret that Mr. F. had not expressed his views on the occasion of the discussion of the Wilmot Proviso Resolutions. I shall not attempt even a sketch of his eloquent and noble speech, hoping that Mr. F. will mmediable weing it out and famithind on his margats

### CONGRESSIONAL PROCEEDINGS.

The President sent a Message into Concress on the 8th, in reply to the call for the secret h story of the Mexican Treaty and the Protocol. The message was read and ordered to be printed. It is a petty logging argument to show that the Protoco', which the President admits was drawn, signed and transmitted to him, had no bearing at all upon the Treaty that it did not change or alter it, and consequently that he did not deem it necessary to transmit the paper, a mere memorandum of a convention which took place between our Commissioners and the Meican Minister of Foreign Affairs, to the Sendte! RETURNED.

Mr. RICHARD D. DOBAN, a merchant of Harpers-Ferry, whose mysterious disappearance some few years since has been a matter of newspaper comment, returned to his former home on Saturday last. He has been spending most of his time in Glasgow, Scotland. It is a singular case, and will produce some strange judicial proceedings. Supposing that he had either died, or been murdered in Philadelphia, his estate, being a very considerable one, had passed into the hands of Admin istrators, and we presame entirely settled so far as the agents of the Court were concerned, leaving a large surplus just in process of distribution among his legal representatives.- Spirit.

of the Company as they may deem practicable. SECT. 4. They shall have power to pass on all claims and demands, and draw on the Treasurer for all sums of money that may be necessary to defray the Company's expenses, and ensure its welfare and prosperity. SECT. 5. The Board of Directors shall determine

upon the civil and military operations of the Com-

SECT. 6. The orders and decisions of the Board of Directors shall be announced by the President, if in civil service, and by the 1st Commander, if under military duty. SECT. 7. The Board is vested with full power to

detail members as teamsters, and make such appointments for other service as may be required.

SECT. 8. If the Company determine to return with their funds uncoined, the Board of Directors, together with the Treasurer, or such as shall be appointed a Committee by them, shall proceed with the same to the United States Mint at Philadelphia, and after it shall have been coined, they shall convey the same to the town of Charlestown, Jefferson county, Virginiz, and appoint a day for the distribution of the same, in such proportions as may be due to each member of the Company.

ARTICLE XIV. Of the Funds.

SECT. 1. No funds shall be drawn from the Treastury, either in its mineral or other state, by any member of the Company, until the application for the same shall have passed the Board of Directors,

the same shall have passed the Board of Directors, and an order given on the Treasurer. SECT. 2. It is hereby enacted, that a book shall be kept by the Treasurer, in which the name of each member of the Company shall be registered, imme-diately opposite which shall be placed the name or names of these who may have advanced such mem-

Neither the bulletins of the Mexican battles, nor the reports of the gold discoveries in California. produced half the excitement in this city that has been, caused by the "great prize fight." The crowds around the Sun, Herald, and Police Ga-zette offices lingered till late last night, in the hope of learning how the strile had sped, and at the earliest hour this forenoon, when it was possible any intelligence could be received, Nassau street and Fulton street were blocked up at their point of intersection, by from fitteen hundred to two thousand persons.

When the news was published, the friends of both the champions became almost frantic. Full one thousand persons gathered in and about Sulli-van's drinking "crib," at 9 Chatham street, and a quarrel ensuing, two amateurs in fisticuties ad-journed to the pugilist's back yard, where they lought 37 rounds, and nearly killing each other. The news-boys, who were all in favor of Sullivan. were greivously disappointed, and refuse to he-lieve the "extras," which they are filling their pockets by selling. Jack Harrison, Sullivan's principal basker, who

was " pardoned out" from the Penitentiary just in time to see the fight, is said to be a very heavy loser. Report says his losses will be in the neigh-borhood of \$10,000. Sullivan had bet every cent he had in the world.

Agricably to notice, the citizens of Harpers-Fer-ry met at the United States Hotel on the 10th inst, when, on motion, Major J. B. Wassen was appoint-ed President, W. J. STREFMENS and HOGE GULLECE ed President, W. J. STREPHENS and HUGH GULLECE Vice Fresidents, and HENRY WARD Secretary. The object of the meeting having been stated by the President, on motion, Messics, Ellis, Stephens, and Gutshaw, were repointed a committee to draft resolutions, who, after a short time, reported the fol-awing, which were unanimously adopted : *Reselved*, That situated as Harpers-Ferry is, at the ogtiet of the great valley of the Shenandoah, we cannot feel indifferent to any of the great avenues connecting us with the inhabitants and the vast weath, business, and resources of the valley. *Reselved*, That among the several avenues thmo-

Resoluted, That among the several avenues thus important to us, and to the great mass of the community in the Valley, the improvement of the Na-vigation of the Shenandouh River stands pre-eminently forward, as one designed by nature to be come most valuable and useful, most cheaply constructed, and when well constructed, most permanent in its character and benefits-requiring but little outlay for its occasional repairs, and that its capacity for usefulness will be perpetual, through all time, to all coming generations.

Resolved, That in view of the vast agricultural and mineral wealth of the Valley, of which this must be the great thoroughfare of transition, and of the return commerce of the Valley, we believe the intestment of capital in a judicious improvement, Ly dams, locks and canals, will yield adequate and even lucrative returns when the works shall have once been completed ; that, th refore, we recommend In the Legislature of our State to grant it the must liberal aid ; and that it also commends itself to the attention of capitalists as g safe and permanent invest-

Realard, As the opir ion of this meeting, That in its beneficial effects upon the section of the State through which it passes, and contiguous thereto, we believe that the entire cost of its construction will Le more than quadrupled in the enhanced value of the real estate and its products of homber and min-erals,-developing wealth and resources hitherto lying dormant and unknown.

Resolved, That we recommend meetings of citizens to be held at every available position along the Valley in the vicinity of the contemplated improviments, to express the general and unanimous sentiment of the community in its behalf, and to awaken the whole to the great value and importance of the enterprise ; and to stimulate them to an effective use of their means.

Resolved. That we have full and entire confidence in the skill, judgment and fidelity, of the principal and assistant engineers, and recommend that their plans, based as they will be upon the most accurate survey and scientific investigation, should be fully sarriel out, and the work constructed in accordance

there with. Residred, That we as individuals will render the Navigation Company all the encouragement and aid in our power.

**Restred**, That a copy of the proceedings of this meeting be furnished the publishers of papers in this county and in Richmond for publication; and a copy thereof be sent to each of the Representatives from this County and the Senator from this District. ### Parson's Universal Plough Cultivator and Seeder,

For Corn, Sagar Cane, Potatoes and Tebacco. THE undersigned begs leave to inform the agri-L cultural community generally, that he has pur chased the sole right of making and vending the above Plough, which can be metamorphosed into a great variety of shapes, by the transposition of its shares, which consists of a giving and logt and l be arranged to suit any desirable width.

Thus, any man and horse can plough eight or ten acres in a day, and perform the work in the most admirable manner.

This Celebrated Plough and Culturator Combines the qualifications of performing double work in all branches of Agriculture for which it is recommended with ease to the horse, and almost with out any effort to the operator, by the adaptation of the shafts and the application of two or three shares at a time, thus giving it the self-sustaining principle, which greatly recommend it to an enlightened public, seeking the advancement of the

usual arts Its different modes of application are thus described : In furrowing, the ploughs can be applied for making two rows at a time. Then, in cross-furrowing, they can be arranged to cover one row and forrow the next. The first and second ploughing of corn. &c., the Ploughs can be arranged to plough both rows, and throw the dirt either to or from them. The proprietor could, if it were necessary, procure a host of the most indubitable evidences from the most prominent Farmers of the States of Indiana, Ohio, Kentucky, Western Penrsylvania, Illinois, Iowa, Michigan and Wisconsin. But of what avail are such testimonials to practical demonstra-

Farmers and Mechanics: to satisfy yourselves that it is no humbug, but practical reality, asdemoastrative as the many advantages derived from the aid of steam power, the power loom, or the press, come and examine with your own eyes, and handle with your own hands, and you will most assuredly it that meed of praise which thousands before you have bestowed upon it, as being the cheapest, implest, and most general agricultural implement in its various application now extant. The aforesaid Plough will hereafter be manufactured and sold by JAMES M. HESSEY, in the following counties : Jefferson, Berkeley, Frederick and Shenandoah, He is engaged in making them at Shepherdstown, where he will be prompt in filling all orders, either by forwarding or delivering the Plough. FACTURING COMPANY. For the Va. Free Press and Spirit of J ferson, Messrs. Editors : It is known to you, and through your columns to your readers, that the above named Company were retarded last year through the entire season for constructing suildings by the decease of one of the proprietors of the Striderian property, of one of the proprietors of the Striderian property, on which they purposed to locate, and thus prevent-ed from completing the purchase and obtaining a title. This object now being accomplished, and a Deed for two lots of ground, each 300 feet in itempth to 110 and 150 because will aid in the Literary Depart-ment. by 140 and 150 fect on depth, one for dwellings and one for factory, with a liberal grant of water for 125 horse-power, and the right of more if desired, the main obstacle now seems removed, and with a

moderate enlargement of capital, the company will be able togo on with a Paper Factory one-third larger than was at first contemplated. The plans now drawn (and which the great demand upon the company, for the supply of paper seems to justify as the lowest capacity of the Facto-

ry.) are for a three-story stone building, 80 feet by 100, to contain 20 rag engines carrying 200 fbs. each, and a Machine room 50 by 103 feet-with six 62inch machines-(3 cylinder and 3 Fondineer,)-capable of Manufacturing upwards of 10 600 lbs. of paper per day. Besides the lots and water-power, apwards of \$22 000 of the stock has been subscribed and pledged, provided the other amounts are raised. so as to have the Factory entirely free of deut when it is completed, and ready to commence the manufacture of paper. This object (to keep the company entirely free from debt) seems so desirable, that large as their demand for paper is, it will still be manifestly the interest of the company to purchase only a part of the machinery stated, until the required amount of stock is taken, rather than incur a debt; and yet a regular cash market is already secured for all the paper which the mill, with its largest capacity, cen manufacture. Having the lots, water-power, cost of buildings, and of a part of the machinery secured, the object would seem so much easier attainable, to secure a sum for the balance of the machinery, and the profits to accrue so much greater, that we feel justified, and colident in the attempt to increase the subscriptions to capital

stock some 10 or 12 000 dollars for that object. The full capacity of the mill would manufacture over \$300,000 worth of paper per annum; which, allowing but ten per cent. profit, would give dividends of \$30,000 a year-dividends ample as the most avaricious could desire. The plans and estimates will be exhibited at R. T. Buown's Office, at Charlestown, on next Courtday, the 19th inst., and all persons anxious for the improvement of the County, or desiring a lucrative investment, are requested to call and examine them, and to subscribe for such interest therein as they

deem proper. Shares \$50 each. The President of the company will visit Shepherds-town, Martinsburg, Smithheld, Winchester, Berryville, and Leesburg, on the ezrice t and most favorable opportunity, to afford citizens an opportunity to embark, in this valuable enterprise; and will be appy, on these occasions, to afford them any information in his power upon subjects of manufacturing generally, or the operations of this company HIRAM ELLIS, Prest. in particular. ### PURIFICATION.

It is a settled creed in all correct medical jurisprudence, that unless the blood is kept free from impurities, the whole system must inevitably become diseased. When the blood becomes clogged, thick, and moves through the veins and arteries with a sluggish motion, we may rest assured that sickness, with its concomitant train of evils, is about to ensue. The utmost care and greatest precaution are therefore necessary, and the system should be closely watched. Those who generally provide themselves with mild and aperient physic, should give a preference to such as are of a strictly vegetable nature. Brandreth's Vegetable Universal Pills appear to be the universal favorite, as they are composed entirely of Vegetables and co-operate so eftectually-cleansing the system--purifying the blood and removing all undue biliary secretions.

DR. HASTINGS' COMPOUND SYRUP OF NAPTHA ST. JOHNSVILLE, New York, Feb. 5. 1848. Mr. Harrison : Sir-1 will trouble your patience a few minutes by informing you of the great triumph which your Naptha Syrup has obtained in the case of my brother. He increased the dose as you directed, and the result was that he began to raise very freely, and it scented so badly that it was impossible to stay in the room where he was, on the fifth day after the increase of the dose. In a day or so after, he began to get better, and at this present time is quite revived, has good appetite, and don't cough a quarter as much as he did previously. A severe cough and immense ex-pectoration were the prominent symptoms of the dia proyseches and the transformer of the bit that for the kind before. I mention all these particulars, as I am firm in the belief that, had it not been for the Naptha

firm in the belief that, had it not been for the reaping Syrup, he could have expected nothing but a speedy strate, as there was an immense number of tubercles formed on wis lungs, which the medicine took immedi-ate hold of, and in a sew days he threw them up by the quantity, some of them were as large as a bean. If he improves as fast as he has done, I do not think that he will need any more than the six bottles I now send for the large from the send of the send for the send for. Enclosed are five dollars.
