Electric Washing Fluid. FINIS is the only genuine article to be found in and possesses double the power of any thing ever descreted for washing clothes, at a triffing excepte doing away with washboards at

oace. In fact, a mems to be the long sought Phikemphre's broke or universal solvent; seeming a magical preparation, its operation being of the most astonishing character. A common sized washing may be dine with a gill of this Floid, in less than two hours. It solens and removes the dirt, leaving the articles of the most brilliant whiteness. It being as harmose in its operations as pure water, and clothing will want much longer than when rubbed to pieces by the common method of washing.

This Fluid is appropriate agent, to be used in all cases where supply required, particularly for cleansing windows and paint, couring floors, in short, it is beyond, precipient, as its use is universal in the washing with

POETRY. BRIGHTER HOURS.

BY G. BENNEY. Though dark the present hour may seem, With sorrow, care, and strike; Though Gladness may not shed her beam Upon thy sky of life:

Yet fear not, for amidst the gloom One hope is ever curs-That joy may vet our lot illume, And bring us brighter hours Droop not, but nobly struggle still, For others look to thee; And they would cease to strive with iil. If thou should'st conquered be. In darkest nights some star appears,— In Winter's hand, some flowers;

So shines for us, in adverse years, The hope of bright r hours!" With fearless spirit still press on,-Act thine allolied part!. Life's high rewards pere never won By faint and coward heart! Keep on thy course and faiter not. Though the dread tempest lowers,

But still however sad tuy lot, Hope on for brighter hours ! Cares may be round thee, doubts and fears Thy trembling soul oppress-Mourner! look upward through thy tears, Thy God is near to bless ! E'en if Hope's earthly ray grows dim, A better light is ours, Which leads us on to trust in Him

LOVE IN A COTTAGE.

Who gives us brighter hours!

A BEAUTIFUL SKETCH. " Tell me. Charley, who is that fascinating creature in blue, that waltzes so divinely? asked young Frank Belmot of his friend Charles Hastings, as they stood 'playing wall flower' for a moment at a military ball. " Miss Julia Heathcote," answered Charles with a half sigh, "an old flame of mine. I

proposed, but she refused me." " On what ground ?" "Simply because I had a comfortable in- lia, "who is that man-that loafer?" come. Her head is full of romantic notions, and she dreams of nothing but love in a cot- smiling. tage. She contends that poverty is essential to happiness-and money is its bane." " Have you given up all hopes of her?

" Entirely-in fact I'm engaged." "Then you have no objections to my addressing this dear romantic angel?" -excuse me-I must walk through the next quadrille with her."

Frank Belmot was a stranger in Boston -a New Yorker-immensely rich and fashiona- room in the attic. ble, but his reputation had not preceded him, and Charles Hastings was the only individprocured an introduction to the beauty from | well here. There's a broken pane of glass one of the managers, and soon danced himself into her good graces. In fact it was a clear case of love at first sight on both sides. There and to be a good many rats here, but The enamoured pair were sitting apart enoying a most delightful tete a tete. Sudden-

ly Belmot heaved a deep sigh. "Alas! yes," replied Belmot, gloomily; notions. "but fate does not permit me to mingle ha

What right have I to be borrowed suit," answered the bride, redden-"What fiend do you allude to?" asked Miss Heathcote, with increasing interest. " A fiend hardly presentable in good soci-

name of this fiend is Poverty." "Are you poor ?"

"Yes, madame. I am poor, and when I would fain render myself agreeable in the eyes-of beauty-in the eyes of one I could you have nothing to offer her but love in a refined circle. I hope you will not love me

"Mr. Belmot," said Julia, with sparkling eyes and a voice of unusual animation, "although there are sordid souls in this world who only judge of the merits of an individual by his pecuniary possessions, I am not one of that number. I respect poverty, there is something highly poetical about it, and I imagine that happiness is oftener found in living with the greatest fortitude and resig- and during his brief stay in that city admin-

Belmot appeared enchanted with this encouraging avowal. The next day, after cautioning his friend Charley to say nothing of his actual circumstances, he called on the widow Heathcote and her fair daughter in the character of the "poor gentleman."-The widow had very different notions from her offspring, and when Belmot candidly confessed his poverty when requesting to address Julia he was very politely requested to change the subject and never mention it

The result of all this manouvreing was an elopement, the belle of the ball jumping out of a chamber window on a shed, and coming down a fight of steps to reach her lover, for the sake of being romantic, when she might just as well have walked out of the

The happy couple passed a day in New York city, and then Frank took his beloved to his "cottage"

An Irish hack conveyed them to a miserable shanty in the environs of New York, where they alighted, and Frank escorti the bride into the apartment which served for parlor, kitchen and drawing room, and was papered nor carpeted, introduced her to his mother, much in the way Claude Melnotte presents Pauline. The old woman who was pealing potatoes, hastily wiped her hands and face with a greasy apron, and saluted her "darter" as she called her, on both

"Can it be possible," thought Julia, " that this vulgar old creature is my Belmot's mether ?

" Frank!" screamed the old woman, " you'd better go right up stairs and pull off them clothes-for the boy's been sent arter 'em mere'n fifty times. Prank borrowed them clothes, ma'an," she added to Julia, by way of explanation, " to look smart when he went down east."

The bridegroom retired on this hint and soon re-appeared in a pair of faded nankeen pantaloens, reaching to about the calf of the leg, a very shabby black coat, out at the elbows, a ragged black vest, and in place of him oncehis varnished leather boots a pair of immense cowhide brogaus.

Julia's heart swelled so that she could not utter a word. " Dearest," said Frank, I think you told me you had no objection to smoking?" " None in the least," said the bride. " I

rather like the flavor of a cigar." " O, a eigar !" replied Belmot, that would never do for a poor man." And, O, horror ! he produced an old clay rpipe, and filling it from an old newspaper parcel of tobacco, began to smoke with a keen

"Dinner! dinner! he exclaimed at length. "Ah ! thank you, mother, I'm as hungry as a bear. Cedfish and potatoes, Julia-not very tempting fare-but what of that? our aliment is love !" "Yes and by way of treat," added the

old woman . " I've been and gone and bought a whole pint of Albany ale and three cream cakes from the candy shop next block." Poor Julia pleaded indisposition, and could not eat a mouthful. Before Belmot. however, the codfisa and potatoes and the ale and cream cakes disappeared with a very unromantic and unlover like velocity. At the close of the meal, a thundering double knock

"Come in !" cried Belmot. A low-browed man, in a green waistcoat

was heard at the door.

" Now. Misther Belmet, he exclaimed, in a strong Hibernian accent, are you ready to go to work ? By the powers ! if I don't see yez saited to morrow on the shop board, I'll discharge you without a character-and ye shall starve on the top of that." "To morrow morning, Mr. Malony," re-

plied Belmot, meekly, "I'll be at my post." "And it will be mighty healthy for you to do that same," replied the man as he re-"Beluret-speak-tell me-" gasped Ju-

THE CAPITOL AT WASHINGTON.

Mr. THOMAS U. WALTER, architect of the Girard College, has been selected by the President to superfatend the new structures for the Senate and House of Representatives at Washington. These Halls are to be at the North and South of the present building, but so constructed as not to spoil the architectural beauty of the main edifice. It is to be .hoped the accommodations for the public, in the Senate at least, will be ample. The present building is very defective in this respect.

A memorial is in circulation at Washington, urging apon the President the propriety of giving out the work by the day, under proper superintendents, instead of by contract, as better calculated to benefit the greatest number of persons. We have always been decidedly opposed to the contract system. It puts large sums of money into the pockets of a few persons, whilst the great body of workmen are not benefitted, and then the work is always of

THE COALITION IN MASSACHUSETTS.

Whilst we find frequent allusions in the Demo eratic papers to the Abolition feelings of certain prominent Whigs in the Union, we do not hear a whisper about the coul doings in Massachusetts between the Democrats and Free Soilers. Boutwell, Rantonl and Sumber, have been placed in leading positions by the Coalition, yet the Democratic organ at Washington has not uttered a word of complaint or reproach for months.

It is now stated that the Free Soilers have become so bold in their aspitations, that Palfrey is to be put up for the next Governor of Massachusetts. But think we have not misinterpreted the signs of the hind to mourn their irreparable loss, the good citiwe look for a total and glorious redemption of the times, which point to Mr. Fillmore as the choice of zens of Lynchburg old Bay State at the heat election.

MR. BEDINGER IN PREDERICK.

This gentleman addressed the people of Fredcrick county on Friday last. Not baring been present, we make the following extract of his remarks from our neighbor of the Spiril :-

"The greater part of his speeca was devoted to a consideration of the principles embodied in the Compromise of the last Congress, his opinions as connected therewith, and a triumphant vindication from the aspersions which had been circulated throughout the district as to discriminan, a.c. He dered that the South had been badly coented in the measures of "Adjustment," that she had sur-tendered every thing, and the North nothing, and had he been in Congress would have contemied to the bitter end for some more fair and equitable arrangement. Yet these measures had been passed into laws by those whose province it was to past upon them, and he now felt himself under every biligation as a cirizen of Virginia and a friend of the Union to sand by the Adjustment measures, so long as they could preserve the honor of the one or

ine peace of the other. As to the right of Secession, under possible circumstances, he most ably and satisfactoring demonstrated to every unprejudiced mind who heard bim. And though he considered that no reason now existed for the exercise of this right, and were he in South Carolina he should implore them to desist rom so sad an alternative for the wrongs respunitted, yet as to the right itself existing, be it called "Secession" or "Revolution," peaceable or other-wise, he should forever contend, as had done the

most illustrious of Virginia's Statesmen before nim. We shall publish hereafter extracts from some the "most illustrious of Virginias Statesmen" to see how far Mr. B. agrees with them uppe the

right of "Secession" or "Revolution."] We also copy from the Virginian the following

notice of Mr. B.'s speech : Pursuant to announcement, Mr. Bedinger spoke at the Court-House in this town on Friday fast .-He was listened to very respectfully and quietly by a large audience ; but his remarks were unexpectedrief, not occupying over thirty minutes. Most of that time was employed in proving that excession might be peaceably effected,-inat Virginia, if she were to take it in her head, might step as calmly out of the Federal conclave as a man who was annoyed by a dull and disgusting entertainment might put on his hat and leave. He referred for examples of peaceable revolution to the division of the twelve thes of Israel, their choosing Saul for king, and the French revolution of 1848. In those cases there was no bloodshed to speak of; and so, he thought, it would be in the case of the United States. It appears to us that we do not know enough about the Israelites, and we know too much about the French. to place the action of either in the line of safe precedents. It is pleasant, however, to feel that if we break the American Union into fragments without killing any body, we shall be doing for ourselves what has already been done for the son of Kish and Louis Napoleon.

Upon the nomination he scarcely bestowed a word; merely remarking, in substance, that it was not for him to look behind and overhaul the proceedings of his friends. Upon the question of the Compromise, he showed, at the outset of his address, a distinct perception of the sentiment of the democracy of Frederick, and he did homage to it by steering a point or two nearer the headland of "acquiescence" he did at Front Royal. On this subject, indeed we are informed, he rather astonished some of his ultra friends, who were not prepared to find him so well satisfied with things as they are. THE RUNNING START.

The friends the Hon, HENRY BEINGER having taken the run ing start upon the balance of their party, and heis their Convention, entrench themselves behind that bulwork, which they now deem impregnable, and make all sorts of grimaces at them. Their motto is, having taken the lead, "The Devil take the hindmost." In an article upon another Conversion, and the action of some of the people of Page, the Spirit takes the bit in its mouth, and sends firth the following:

"The 18th og July has been recommended by the meeting in Page, as the day for the assembling of the Convention . And what a meeting, to undertake to speak forth the sentiment of any county ! In addition to the actionals heretofore given through our paper, as to the overwhelming rebuke which the people administred both to its participants and its specific" objects, the last number of the Valley Democrat, whose ecitor was in the county, turnishes the following

"The meeting parporting to have been held on Monday in the Dougt-house of Page, did not occur as stated, but a fittle private clique assembled in a private place on " jesday night in Luray, and passof the resolutions and appointed the delegates to the Winchester Conversion.

And why was it not held in the Court house, and

in the Court-day of the county, when the people were out in they fall strength? The "specific object couldn't be attained, if the propie were left free to decide. Was there ever anything more absurd and ridiculous | We can hardly imagine that the delegates appointed by this meeting, many of whom we know personally, and cheerfully bear evidence to their superior intelligence and high moral worth, can so fae bring themselves into ridicule before the Districts as to pretend to organize a second Convention uncer the circumstances by which they have been delegated. As it is in Page, so as to the other counties of the District, with the exception perhaps of Frederics. In no one county, save Frederick, can delegates be appointed, if the question is left to the people. True, those who are opposed to Mr. Bedinger, and in the action of the 3d of April Convention, have a perfect right to organize as many Conventions is they may think proper, but surely common justice will demand that they undertake to speak, not for the District, but alone for those who know the right, yet still the wrong pursue." And f even this Convertion is held, what good can be effected thereby ? The friends of Mr. Bedinger, without comprotting their self-respect, will certainly not suffer it to influence their action in any manner, knowing as they do that its organization is in opposition to the wish of the District, and the best interests of the Democratic party."

As our neighber ridicules the number of the dissentients in Page pechaps the people of Page would be pleased to leagn the magnitude of the meeting at the Charlestown precinct which sent the delegates to the late Winghester Convention to bind, hand and foot the independent Democracy of Jefferson. Well, now, they is numbered thirteen, all told. The number in Page who sign the call for the Convention in July is fifty-one. Harpers-Ferry did not send delegates to the Convention. For the mere review of the course of a public servant who had (to say the least) misrepresented his constituents, (of whom the editor was one) he is assailed through the columns of another journal, and afterwards assaulted personally in the streets whereby he was either to submit to the most humiliating personal chastisement, or take the life of his assailant. He very properly pursued the latter course, and while he achieved his purplise, he at the same time sacrificed his own life. This is truly one of the most distress ing cases which the history of these disjointed times discloses. But perhaps it is the part of wisdom, as the deed is done, that a veil should be thrown over the circumstances. The party who provoked it is now the greates, sufferer, and needs, as we doubt

VIRGINIA CONVENTION.

The last week has been occupied almost exclusively by discussions relative to the organization of the County Courts, or a substitute therefor. The following embrace its most iraportant provisions, as decided by the Convention in Committee of the

Whole on Thursday : Each county is to be divided into not less than two districts, and the magistrates for each district are to be elected by the qualified voters thereof for a terra of four years. Not less than three nor more than five justices to constitute a court, except in certain special eases. The court to have the jurisdiction now exercised by the county courts, with such modifications as the Legislature may bereafter prescribe. The sheriff to be elected by the qualified voters for two years, the commonwealth's attofney for four, the surveyor for five years, com-missioners of the revenue for two, and overseers of

Mr. Hopkins moved an amendment to make the Sheriff re-eligible after two terms. Rejected-ayes

The Virginia Convention continues in much tribulation about the publication of its "supplement" of debates. They propose to discontinue its publication, as the people are tired of it, and compromise with Mr. Gallaber, the printer, calling in umpires on both sides to assess damages. This was the state of the case on faturday.

The Convention, on Monday, laid the supplement subject on the table. The report upon the subject of western land titles, was rejected, and the cated on the Who of this month. It has been frescoed report of the committee on education taken up .- by Wernet of Baltimore. A marble pulpit has Instructions from a meeting in Rappahannock to been substituted for the old one, and the Churci has Mr. Chilton, to oppose the compromise, he declared been painted throughout. When finished it will his intention not to obey.

During the sitting of the Virginia Convention on Wednesday, a man in the galleries, wishing to hear and not being able to do so owing to the noise and confusion' on the floor, called out, 'order.' He was forthwith ejected by the sergeant at arms. We really think he deserved any thing but expulsion. Mr. Carlile was speaking about 11 o'clock, when nearly the whole body rose en masse, and went to the window to gaze upon the Menagerie when it passed. Some member, in common charity, should have moved for a recess of five minutes for this purpose. A division was called on some question, and nearly every member being standing, of course the Chair took the vote as decidedly affirmative.

[Alex. Gazette. [From the Baltimore Clipper.] THIRD AUDITOR'S OFFICE.

John S. Gallaher, Esq., the accomplished Third Auditor of the Treasury, has communicated to the President the condition of affairs in his office, and truly he enjoys no sinecure. When he took charge of the bereau, there were unsettled nearly 3.000 large accounts; and under two acts of Congress alone, there were presented and renewed nearly 10,000 claims for expenses of raising volunteers, &c., to all of which he has to give a careful examination. There are now 25 clerks engaged in making out certificates of service in the war with England and several Indian wars, and since the first of November last, at least 20,000 of these claims extract from Mr. Gallaher's letter:

et; for upon every adverse report there is an effort a re-examination, upon new testimony, or upon an | error, some of them not having been sick at all, oth payment will satisfy claimants or their attorneys; I disease, but not one over having been stung by a lo and not even that in many cases, for there are freand consequently requiring very careful examination. Never, perhaps, in the whole history of the government, have there been such persevering and bold attempts to get into the national treasury unlawfully as at present.

I am daily besieged by clamorous agents in person, and assailed by vituperation and threats in every form; but I have thus far endeavored to preserve the equanimity and patience necessary to a faithful and honest discharge-of duty.

With those who are disposed to observe the usual courtesies of life, I have no difficulty whatever. It is my habit not to be outdone in the civilities proper to be extended by public officers to all classes of people, and I am gratified to find that I enjoy the kind consideration and respect of all whose good opinion is worth having. I am at all times ready for the most searching scrutiny into my official conduct, and have more than once invited members of Congress (some of whom deem it a part of their privilege to abuse public efficers) to institute an investigation into the management of this bureau, fearing nothing but the errors incident to a fallible judgment-

The practice of attempting to browbeat and overawe subordinate public officers by appeals to the appointing power has become a matter of serious import. An auditor is in some respects a judicial officer, but he is by no means under the same protection against outrage and wrong. He is daily subject to personal annovances and to written denunciation and insult. I do not expect to be exempt from the penalties or cares incident to my ardous position. It is my fate to fill an office which brings me into constant conflict with the interests and passions of men, and am very naturally an object of dislike and prejudice to many of them. I donot feel myself called upon in every instance to defend my motives and official acts against every vindictive and disappointed man who finds me an obstacle to his entrance into the treasury. But when the appeal is to you, sir, I feel myself justified

The late act of Congress giving bounty land to officers and soldiers has added largely to the duties of this bureau. I now have twenty-five clerks employed in making out certificates of service in the war with England and several Indian wars and have reported upon at least twenty thousand of these since the first of November last. I send to the Pension office an average of two hundred and fifty daily. Pardon this prolixity. I have thought the occasion not inappropriate to advise you of the true condition of affairs, and respectfully ask your attention to the ourried statement now presented.

marks from the Baltimore American relative to

Mr. Webster's speech at Buffalo says: We echo the language of the American. "There | The Republic says: is no occasion to talk of concessions." We claim nothing but our rights under the Constitution, and these Mr. Webster pledges himself, by the most solemn adjurations, to protect and defend. He has given in his Buffalo speech a clear and masterly outline of principles, which, if strenuously sustained and enforced by the whole North, would leave the South without the shadow of a pretext for complaint. He is trank, honest and open-avoids all temporizing and mystification-avows his dislike of slavery, and will grant nothing beyond the requisitions of the organic law; but he consults that instrument, and finds therein the recognition of slavery, and the plainly expressed acknowledgement of the master's right to recover his slave, wherever the fugitive may have obtained a shelter. There is no going behind or around this mandate, and Mr Webster will give all his energies to the maintenance of the legislation enacted in pursuance of it. Those privileges and powers vested in the South by the Constitution he is ready at all times to advocate, and we of the South neither ask for nor can reasonably expect more.

The oftener we read this magnificent speech, the more intense is our admiration of the honesty, the independence and the sturdy, unshaken manliness of the mighty orator. For the purpose that animates it; for the glow of patiotic feeling with which it is inspired; for completeness of structure; for the eloquence of thought and motive, as well as imagery and diction, we deem it unsurpassed by the loftiest productions of the master spirits of our country. And this we say, without endorsing more of that speech than the emphatic assertion of the speaker's unflinching adhesion to the Constitution, and his inflexible determination to stand by it through weal or wo.

I have been anxious to elicit the truth in this matter. I have not taken all this labor to satisfy myself, for I knew it to be impossible for the insect t inflict any injury upon any man or child. All insects that really have " a sting" afford very convincing points of this fact very promptly; the humblebee and the honey bee will speedily convince any one that doubts, on the slightest examination. The Locusts are now doing all the injury they are capable of by depositing their eggs in the branches of trees and shrubbery. They will all have disappeared by the 25th of June. After the process of de positing their eggs is completed they fly about for a day or two and then die; being then no longer proper food for any thing, they will be found dead upon the ground in every direction. I would be glad if the newspapers generally would copy this article or notice the facts stated, that this error in natural history may not go to our successors in the official form it has now for the first time assumed by obtaining the sanction of the Board of

CALIFORNIA SEWS.

Arrival of the Steamship Alabama - Tremeadous Conflagration! San Francisco in Rains :- Loss Fifteen Millions of Dol-

New OBLEANS, June 13. The steamblip Alabama has just arrived with two weeks later news from California. She came by the way of Acapelloo. Her news is of great importar et. A terrible fire had o curred in San Francisco, laving in ashes, property to the amount of

fifteen millions of dollars. Among the buildings destroyed are the Custom House, the Union, Parker's, the National, New y, Delmonica's, and the Exchange Hotels; alsp. Rose's building and the effices of the Steamship Company,

The fire ispread to the shipping, constiming a large number of vessels which were lying at the wharves, it was first discovered in Clair street. and ran through one dozen blocks, quickly spreading to other parts of the city, a greater part of which lies in a heap of ruins Hunter, George, Main, Centre and El Dorado storets are completely gutted. The atmost consternation prevailed during the fire, and thousands were turned out of house and home, having lost their all. Measures were about being adepted to relieve the distress of the suffereds. It is feared a number of lives have been lost -Business was entirely last sight of. San Francisco presents a sorrowing and heart sickening picture.

TRAGEDY IN KENTUCKY.

ryakis celebrated watering place having been Leased for a term of years by the undersigned, was the last season put in complete repair, as to its Cabins, Basis, Bawling Saloon, Boats, etc., and will be again opened for the reception of company on the 10th of June. They are situated on an emineace, on the east

bank of the Shenandoah, five miles south of Charles. town, in a bealthy and delightful region. The reputation of the water is so well established, that it is deemed scarrely necessary to mention its qualities. It is sent for and taken to New York. Charleston, and other distant places. The analysis of the late i)r. DeButts, in 1821, classed the principai fountain, with the saline chalybrates, a combination of the most valuable description, in the whole range of mineral waters, and closely resembling those of the celebrated Bedford, in composition, operation, and efficacy. There is also a highly valuable Sulphur Spring in the vicinity. Apart from the merits of the waters, Shannondale is remarkable for the sublime and beautiful natural scenery which is said to surpass Bath and Bristol in Eq gland, and that of Saratoga and Baliston in New York. They are within eight hours travel from Washington and Baltimore. Coaches will be in daily attendance at the Railroad Depot, at Charlestown, to convey passengers to the Springs. The proprietors pledge themselves that their Table and Bar shall compare favorably with those of any watering place in Virginia. They have procured the best Band of Music, and most capable servants that can be found without regard to price. Terms: 510 for the first week, 59 for the second

Jefferson Farm for Sale. THE undersigned is authorized to sell a very raisable Trust of Land, in Jeff. rson County, Va ; containing

387 1-9 Acres. situated 3; miles South of Charlestown, the County

seat of said County-adjoining the lands of Wm. N. Craighill, Roger Chew and others, on the Shenandoah River, and now occupied by Mr. J. Tave-This land lies in a healthy neighborhood-is in a good state of cultivation, and for fertility and preductiveness is surpassed by few farms of the county. The quality of the soil is Limestone, and very improvable. It is one of the best watered farms in the county, (a great consideration in this region of country.) having several large and unfailing springs, and a fine stream dowing through it. It is very accessible to market, being within 34 miles of the Win. & Pot. R. Road, and a shorter distance from several Merchant Mills. The improvements consist of a Stone Dwelling

with kitchen attachet, and out buildings, such as stabling, corn-crib, daity, &c. Persons disposed to purchase tray expect a bargain in the land, and would do well to examine the premises. The undersigned, at Charlestown, or Mr. Tave-

ner, on the premises, will take pleasure in furnishing any further description or information which may be desired. For terms of sale, apply to the undersigned.

N. S. WHITE. Valuable Mill Property, IN MARKET.

THE undersigned, as Executors of William F. Lock, dec'd., offer at private sale, the VALUABLE MILL PROPERTY. belonging to the heirs of said deceased, situated in the suburbs of Charlestown, on Ebberi's Run.— This Mill is located in the very centre of one of the finest wheat growing counties in the State of Virginia, in sight of the Winchester and Potomac Railroad, and but five miles from the Baltimore and Ohio Railroad, or eight from the Chesapeake Canal. The mill is built of stone, three stories high, with a wing of extensive capacity, used at present for the storage of barrels, &c., but designed when erected for a Woolen or Cotton Factory .-The Mill is now in complete repair, having three run of Burrs, and capable of manufacturing five

thousand barrels of flour per annum, and machinery for grinding 200 tons of Plaster, which can be easily manufactured and sold. There is attached, and will be sold with the Mill, 6 OR 8 ACRES OF LAND, on which there is a comfortable

VALUABLE FARM. IN MARKETS

DETERMINED on emigrating South, I shall offer for sale at Public Auction, on the premises, on the 3rd day of JULY next | us. During the month of June there will be drawn THE FARM

upon which I now reside. This tract lies adjacent to the town limits of Lexington, on the North River, at the head of the North River Canal, containing by actual survey

313 1-2 Acres: 96 acres of which is choice forest timber. On one corner of the tract free of timber, 13; acres embracing a building site, will be reserved from sale .-The improvements are comfortable, the land is choice, productive and in good cultivation; capable of heavy yields of tobacco, wheat, corn, rye, &c. The plank road running through its midst, the canal on its border, with a deep expanded basin of pure water, extending along the one entire side, presents superior facilities for transportation to market. Its proximity to the Military Institute, Washington College, the Primary Schools, and various Denominational Churches in Lexington, present superior advantages for educational and religious instruction, and the enjoyment of the highest social

privileges. Persons desirous to purchase are requested to give the premises a personal examination. A well drawn map of the farm, is in the hands of my friend John Latcher, now in the Convention in Richmond, who will take pleasure in exhibiting the same and giving all desirable information on the subject. In the mean time prior to the 3rd of July, private proposals will be received and acted upon. TERMS.—One half in hand, and the balance in one and two years. WM. H. CARUTHERS.

Rockbridge, Va., May 23, 1851-1m. 140 Acres of Valuable Land,

At Private Sale. TILL be sold at private sale, 110 Acres of the Wevery first quality of Jefferson Land, lying adjacent to Charlestown. This Land is in a high state of cultivation, and has upon it a comfortable DWELLING HOUSE, a first quality Barn, Granary, Sheds, Stabling, &c. There are 90 Acres of cleared land, which is divided into seven fields, all having an outlet to running water. In the yard of the House, there is a never-failing well of water. The timber land, 29 acres, is of good quality, and so convenient to fown as to make it very desirable. Terms can be arranged pretty much to suit purchasers.

May 23, 1851-tf. Trust Sale OF VALUABLE LAND.

BY virtue of a Deed of Trust executed to me by Henry St. George Tucker, dec'd, and his wife, and of record in Jefferson and Berkeley counties, I shall proceed. On Saturday, the 19th of July; to sell on the premises, at or near the stone house standing thereon, at public auction to the highestbidder, the Undivided half of that large and well-

known Tract of Land lying partly in the two counties aforesaid, containing

1.000 Acres; more or less, the whole being now in possession of Benjamin Boley, Esq. The land is so well known as to require but little description. A large part of it is in timber; and the cleared land, partly limestone and partly slate, is most favorable for the growth of the staples of the State. On one side of the farm is the Opequon and through the other a good stream of running water. It will be set up for sale in two parcels each of 500 Acres, more or less. Mrs. Anne E. Tucker, who is the owner of the other undivided half, will sell her interest at the same sale, so as to convey a title to the entire tract. TERMS OF SALE .- A liberal credit will be given

Among the numerous discoveries Science has made in this generation to facilitate the business of life-increase its enjoyment, and even prolong the term of human clistence, note can be named of more real value to mankind, than this contribution of Chemistry to the Healing Att. A vist trisl of its virtues throughout this broad country, has proven beyond a doubt, that no medicine of combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the langs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer further enquiry to the circular which the Agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these facts. For the Removal and Permanent Care of all NERVOUS DISEASES, And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM. This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most raluable medicinal discovery

DR. CHRISTIE'S GALVANIC BELT

MAGNETIC FLUID, s used with the most perfect and certain success in all cases

GENERAL DEBILITY Strengthening the weakened body, giving tone to the various organs and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDI-CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDI-GESTION, RHEUMATISM, ACUTE and CHRONIC, GOUT, EPILEPSY, LUMBAGO, BEAFNESS, NERVOUS TRE-MORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KID-NEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely. arise from one simple cause-namely, A Derangement of the Nervous System.

(In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, clasticity and vigor. The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists in the fact that they arrest and cure disease by out-ward application, in place of the usual mode of drugging and phsicking the patient, till exhausted Nature sinks hopelessly They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

75,000 Persons including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND FERMANENTLY CURED, when all hope of relief had been given up, and every thing else been tried in vain!
To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that hane of civilization, PYSPETSIA, or any other Chronic or Vervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach afford temperary rehet, but which leave the patient in a lower state, and with in-jured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspentic sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive than keeping an according to Calvanic again to the positive, thus keeping up a continuous Galvanic cases of DYSPEPS!A are PERMANENTLY CURED. CURE OF Rheumatism, Bronchitis and Dyspepsia. REV. DR. LANDIS, A CLERGYMAN

of New Jersey, of distinguished attainments and exalted reputation :-Sidney, New Jersey, July 12, 1848.

Du. A. H. Christie-Dear Sir. Yan wish to know of me what has been the result in my own case, of the application of THE GALVANIC SELT AND NECKLACE. My reply is as follows: as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms become worse, nor could I obtain permanent relief from any course of medical treatment whatever About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. Farther: in the winer of '45 and '46, in consequence of presching a great deal in my own and various other chu ches in this region, I was attacked by the Bronchitis which core heaveners. tis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system was now thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rhematic affection—thus evin-cing that these disorders were connected with each other through the medium of the Nervous system. In the whole phar copona there seemed to be no remedial agent which could reach and recuperate my Nervous System; everything that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC ELUID. This was in June 1846. To start the second of the contraction of the Calling that the property of the contraction of the Calling This was in June 1846. To start the contraction of the Calling This was in June 1846. FLUID. This was in June 1846. To MY GREAT ASTONISHMENT, IN TWO DAYS MY DESPEPSIA 44AD GONE; IN EIGHT DATS I WAS ENABLED TO RESUME MY PASTORAL LABORS; NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION HAS ENTIRELY CRASED TO TROUBLE ME. Such is the Wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They

have tried them, WITH HAPPY RESULTS, I BELIEVE, IN EVERY I am, dear sir, very respectfully yours, ROBERT W. LANDIS.

To Mothers and Married Ladies. In all cases of Female Diseases, the Galvanic Belt is of inestimable value. It would take many columns, were we to give the numerous testimonials which have been received from the highest and most respectable Ladies in all parts of the Union. Weakness Irregulatiles, Low Spirits, Pain in the Breast and Side, Chlorosis, Fluor Albus, Prolapsus Uteri or Falling of the Womb, Costiveness, Obstructed or Difficult Menstruation, General Prostration of the System, and all affections of similar character, are immediately and permanently relieved by this simple and beau-tiful invention. The enervating nature of our climate renders some natural stimulant necessary for the preservation of Female health, and surely nothing can be so safe or effica-cious at the stimulant which Nature aerself has provided. This is Galcanism, and its application by the Galcanism, and its application by the Galcanism and agreeable. No inconvenience attends its use, and the most feeble and delicate can wear it with entire ease and safety.

DR. CHRISTIE'S GALVANIC NECKLACE Is used for all complaints affer ing the Throat or Head, such as Bronchitis, Inflammation of the Throat, Nervous and Sick Headsche, Dizziness of the Head. Neuralgia in the Face, Buzzing or Rosring in the Ears, Deafness, which is generally Nervous, and that distressing complaint called Tic Doloreux. Palsy and Paralysis.

All physicians acknowledge that these terrible diseases are caused by a deficiency of Nervous Energy in the affected limbs. Dr. Christie's Galvanic Articles will supply this deficient power, and a complete and entire cure is thus affected.

1000 Cases of Palsy and Paralysis have been reported to Dn Christie and his Agents within the last two years, which have been entirely restored. the last two years, which have been entirely restored.

(13) Cap. Annaew J. F. Tomes of Brooklyn, N. V., had not been able to walk a step for near four years, and was so helpless that he had to be fed. The most celebrated physicians gave him up. In five days after he commenced wearing the Galvanic Belt. Necklace and Fracklers, he walked across the room, and in three weeks he had perfectly recovered his health. Captain Tomes is seventy years of age.

Severe Deafness Cured.

The following is an extract from a letter lately received from a distinguished physician in the State of Virginia:

"A. H. Christie, M. D.—Bear Sir: One of my patients, anknown to me, obtained your Galvenic Belt and Necklace, with the Magnetic Fluid, for a serious affection of Deafness. The case was that of a lady whose Nervous system was much disoidered, and her general health poor Much was done previously to the application of the Belt, but with very little success, and I feel it only right to tell you, that since she commenced wearing the Belt, and using the Fluid, but a few weeks age, she has ENTIRELY RECOVERED HER HEARIN and her general health is better than for several years." Severe Deafness Cured. several years.

(G) Every case of Deafness, if it be Nervous, as it generally is, can be cured by this wonderful remedy.

DR CHRISTIE'S GALVANIC BRACELETS Are found of vast service in cases of Convulsions or Vits, Spasmodic Complaints, and general Nervous Affections of the Head and upper extremities. Also in Palsy and Faralysis, and all diseases caused by a deviciency of power or Nervous Energy in the limbs or other organs of the body.

Tic Doloreux and Neuralgia. These dreadful and agonizing complaints are immediately reliceed by the application of the Garvanic Bully, Nackhack and Fluid. The Belt diffuses the Electricity through the system; the Necklace has a local effect, and the Fluid acts directly upon the affected nerves. In these distressing afflictions the application NEVER FAILS. the No trouble or inconvenience attends the use of DR. CHRISTIE'S GALL/ANIC ARTICLES and they may be worn by the most feeble and delicate, with perfect case and saiety. In many cases the sensation attending their use is highly pleasant and carried. They can be sent to any is highly pleasant and agreeable. They can be sent to any part of the country.

BULL'S SARSAPARILLA. TT IS PUT UP IN FULL QUART BOT-I TLES, and contains the strength of six rimes

as much pere Hondurus Sarsaparilla as any similar preparation in America. Price one dollar per bettle or six bottles for five dollars.

It has been a well established fact for years past that Sarsaparilla, when pure and properly prepared, was the only true panacea. It all diseases originating from an impure state of the blood, the use of mercury, intoxica-ting drinks, evil habits in youth, barrenness, etc. We boldly assert that John Bull's Fluid Extract of Sarsapboldly assert that John Bull's Fluid Extract of Salsaparilla is the only preparation before the public that is prepared on strictly scientific principles and of uniform strongth. The Sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests and its genuineness ascertained before being used!

Good Testimony.

The Louisville Courier thus speaks of Bull's Sarsapa-We have been shown by Mr. John Bull, proprietor of that world-renowned preparation, 'Bull's Fluid Extract Sarsaparilla,' an original, genuine, and beautifu! letter addressed to him by the accomplished lady of one of the most eminent old physicians in the West, giving a detailed account of one of the most astonishing cures on record, performed alone by the use of " Bull's Sar-

saparilla." This most excellent and charming lady had long suffered from prolapsus uteri, fluor albus, piles, and chron-ic diseases of the stomach and digestive organs, and deraugement of the whole system, attended with distressing cutaneous ereption, sick headache, and violent attacks of cramp. After exhausting all of her has-band's skill, and applying to many celebrated medical gentlemen, both at home and abroad, and also using great quantities of Townsend's Sarsaparilla, without the slightest relief, she was induced to use John Bull's Sarsaparilla, and what was the happy result? After the use of a few bottles, a perfect and wonderful cure— the lady restored to perfect health and to her usus flow

Such letters as the one we speak of must afford Mr. Bull more real gratification than could the possession of countless wealth. And whether he accumulates wealth or not by the sale of his truly valuable medicine. being its author is glory and honor enough, and he can say to the world, without fear of contradiction; "I have in my poverty relieved more human suffering than did Stephen Girard or John Jacob Astor with their

Rhenmalism Cured!

Let all who are suffering under the agonizing toctures of Rheumatism read the following, and see what may be done for them, if they will use the infallible remedy: UNIONTOWN, KY., May 12, 1848. Ma. John Buat - Detr Sir : For the last three years I have been afflicted with rheumatism of the severes: ease, but found no permanent relief until I was induced to use your preparation of Sarsaparilla, which has entirely cured me of rheumatism, and greatly improved my generalhealth more than any medicine I ever used.

I have been free of pain for several months, and have

no doubt the cure is permanent, and I recommend it as the best medicine in use for rheumatism.

ISHAM PRIDGES

It is useless to produce further testimony in favor of this great remedy. It has only to be tried and proved to convince the public of its superior efficacy. NOTICE TO FEMALES. John Bull's Sarsaparilla is one of the greatest female medicines now in existence. In these numerous cases "where the constitution is debilitated, the nervous engrgy is lessened, when the efforts of nature are weak and deficient, or are profuse and overwrought, when the face is pale and colorless, the strength feeble and yielding, the spirit troubled and depressed, the health bro-ken, used shaken, and consequently the happiness de-stroyed—then Bull's Sarsaparilla is a sovereign remedy. It assists nature in the performance of her duty; braces the whole system, renews permaneafly the natural energies, removes obstructions, checks excesses, creates pure and healthy blood, and imparts health and happiness. Were ladies generally to adopt the use of this medicine, we would see far less suffering, d sease and unhappiness among them than now exists, health would take the pl ce of disease, the rosy check would succeed the pallid face; we should have smiles instead of tears, and perhaps a happy long life instead of one cut short by disease, or made miserable by continued suffering and affliction. At that critical period termed the term

Bull's Sarsaparilla is found to exert a most beneficial effect. All ladies approaching this crisis should be apprised of this fact, and avail themselves of this valua-

of life," which is often attended with so much danger,

A Beautiful Clear Skin. How we all admire a clear, beautiful white skin, and a rosy colored cheek. How often do we see persons, not possessing this " desideratem so devoutly to be wished," resorting to cosmetics, lotions, washes, paints and coloring materials to restore to them a semblance of what disease has deprived them of, and that, too, with great injury to the skin. Bull's Sarsi arilla is the best Cosmetic known. It beautifies the skin, by removing every particle of morbid and diseased matter from the blood, making it pure, healthy, and vigetous, giving activity to every minute vessel, and changing the yellow and dark countenance to the bloem and freshness of youth. Ladies, abandon the use of paints and mixtures, and use Bull's Sarsaparilla, the only effeetual remedy. A word to the wise is sufficient, and

a hint is enough for the Ladies. Better Testimony Than was ever offered in favor of any Medicine-Read the testimony of Dr. Moore! " Mr. JOHN BULL : I have no hesitation in saying that -I believe your Sarsaparilla to be the best article ever manufactured for the cure of Scrofula. Syphilis, and many other Cutaneous or Glanular Affections having used it with entire success in numbers of the above JAS. M. MOORE.

Louisville, Dec 26, 1847.

More Testimony from Dr. More. Mr. John Bull: I am using your Sarsaparille in several new cases of Scrofula, and with happy cheet. 1 am now confident it is one of the most efficacious medicines that can be made for that disease. Yours, Winchester, Ky., Feb. 1, '48. J. M. MOORE. From Dr. L. P. Yandell, Professor of Chemistry in Louisville Medical College.

I have looked over the list of ingredients composing

John Bull's Compound Extract of Sarsaparilla, and

have no hesitation in saying that they form a safe com-

pound, and one that promises well in chronic diseases, to which it is applicable. L. P. YANDELL, M.D. conclusion they were not embraced in the call, ! Louis ville, June 6, 1843. From Dr. Pyles, Physician by appointment to the Louisville Marine Hospital Louisville, March 20, 1849. I have examined the preparation of the prescription of John Bell's Sarsaparilla, and believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use. M. PYLES, M. D.
