Wholesale Watch & Jewelry Store. L. H. MILLER & CO.,

IMPORTERS, Manufacturers and Jobbers of WATCHES, JEWELRY AND FANCY GOODS, have leased the Old Stand, formerly occopied by Messis, Canfield, Brother & Co., Southeast corner of Charles and Baltimore Streets, (No. 227.) which they are putting in complete order for the WHOLESALE WATCH AND JEWELRY tion to all business entrusted to his care. In calling the attention of the trade to the new concern, we mention the fact that we are associated with one of the most extensive Jewellar Manufac-TERING ESTABLISHMENTS in the country, which must give a decided advantage over all others in this market, for supplying deliers with Jewelry at manufacturers' prices, a feature in this branch of trade long since needed, between Baltimore and the Southern

and Western Merchants. We desire to call particular attention to the Watch department, which will at all times be supplied with a great a sortment from the most celebrated manufacturers, and kept in perfect running order, so that purchasers may at once take them, with a written guarantee that they will perform cor-

This branch of the business will receive the especial attention of one of the firm, whose extensive and practical knowledge of the business, will, we hope, give us a place in the confidence of buyers. We respectfully invite you to call upon us when you next visit our city, confidently believing that an examination of cut Goods will prove to you, that they are better styles and cheaper than you have ever seen in this market, and assure you that no effort shall be wanting on our part to make the acquaintance one of mutual ben

WINTER TO THE POOR. BY MRS. E. C. KINNEY. Stormy Winter comes again.

Bringing snow, and hail, and rain, Beating 'gainst the window pane-Rudely knecking at the door. Boreas holds to-night a rout, See the shutters bolted stout, Fasten all the doors about, Stormy Winter is without-

God have mercy on the poor. On the poor, half clad in shreds, Through whose low and leaky shede Snows beat down on aching heads, Pillowed on the naked floo?

He that looks may there behold Side by side the young and old, Shrivelled arms the babe enfold. Oh, how dreadful is the cold-God have mercy on the poor, Iron-hearted Winter comes:

Knocks in vain at costly domes, But he searches through the homes Seattered on the frozen moor. There no shutters bolted tight, Fasten out the stormy night, There no hearth is blazing bright, Oh, how desolate the sight-

God have mercy on the poor. See, the famished infant press'd To the fond, but empty breast, While the mother bends distressed. Dropping tears upon the floor; THOU who hear'st the raven's cry, Here look down with pitying eye-Send them manna from the sky,

Or, let birds their bread supply-Go have mercy on the poor ! Heart's, that all encased in gold, Self-enriching have grown old, Who have never felt the cold, Once unbar your bosom's door, Let Compassion now go forth,

Learn, what ye to learn were loth,

That no luxury of earth Half true bounty's joy is worth-Oh, have mercy on the poor! Hark! the storm is raging yet:-Who beside his fire can sit, And the sufferers forget Shivering on the frozen moor ? Ye, who downy pillows press,

Pity and relieve distress!-Oh, the storm is pitiless-God have mercy on the poor! CONTROL OF THE PROPERTY OF THE PARTY OF THE MISCELLANY.

MR. FILLMORE. The more we reflect upon the character and course of the present administration, the greater is our admiration of the eminent statesman at its head. It deserves to be called the Administration of Common Sanse. Without aiming to be brilliant, or making pretansions to grand and striking qualities, But even while the glad cry was issuing it has proved itself as wise and as safe an administration as this country has enjoyed since the days of Washington. There is no surer mode of knowing a man than by his acts. The tree is known by its fruits. And the fruits borne by this administra.

There has been no mail from Washington since Saturday, and the Baltimore mail of Tuesday failed to reach Harpers Ferry in time for our rain. Whether these failures have been caused by the snow-storm we have not learned, but presame they were, although our cars have not

been prevented by the same agency from making their usual time. In the regularity of trips, as well as in the entire freedom from serious accidents, we have had occasion to notice for a long time past that our Rail oud stands pre-eminent. We cannot remember an accident for the present year, while we can instance several upon neighboring

routes. Has this happened by chance or by superior management? We attribute it to the Take, for instance, the accident that occurred last thanksgiving day on the Baltimore and Ohio Railford. The cars were running around the short bends a little distance above Ellicott's Mills, at the rate of thirty miles per hour, and, as a natural consequence, the tender was thrown off the track, the first passenger car was precipitated over a precipice, turned completely upside down and the bottom staved completely out, and the other cars sustained serious damage. Fertunately, no one was killed. This accident was entirely a result of the irregular speed run upon that road. The distance from Baltimore to Harpers Ferry is about eighty three miles, and it is made in between four and five hours, or at an average of eighteen miles per hour. The distance from Harpers-Ferry to this place is thirtytwo miles, and it is passed over in less than two hours, or at an average of about eighteen miles per hour, including the several stoprages made. The secret of salety on our road lies in the uniform rate of speed, and, as the whole distance is performed in the same time by this mode, it is infinitely preferable. When we add to this the considerations of constant vigilance and care, superior cars, more comfortable arrangements for adies, and the polite and prompt attention paid

to passengers, the balance struck is largely in favor of our road. In ingland, where the roads are wider, the cars of heavier build, the flange of the wheels deeper, and where every precaution is taken to pr vent hinderances or accidents of any kind on the read, thirty and even forty miles per hour are considered an average speed, but it is unwise to attempt this rate in this country, until we pay the same attention to the construction of our roads and cars We have excelled the English in steamers and sailing craft, and the only reas son why we have not surpassed them in railways is that we have not made a special effort to

By an arrangement which our worthy and efficient President, Mr. Clarke, has made, flour will be heregiter transported over this road for the Baltimore market at a cost of eighteen cents, inclusive of depot charges. Our merchants will be enabled; therefore, to put three cents more into the wallet of the farmer for every barrel of flour he hauls to town .- Winchester Republican,

JANUARY 8, 1852. THE PAST YEAR.

The past year has been one of the most evention to the history of our country. The republic has journal, but had concluded that, more fortunate passed through some of the most trying scenes to I than ourselves, he was probably absent from town | age, be found recorded by the faithful pen of the histori- and participating in the lestivities of Christians in an :-- and even now the angry billows of excessive the country. It is impossible for us to describe our party-spirit and misguided patriotism which have semations when we learned that he was dead! We only been subsided for a time, are apparently re- cannot even now realize it. We seem to see him eruiting their forces and gathering new strength to test the sea-worthiness of the Ship of State.

As individuals, it becomes us at the opening of the new year to examine ourselves and review the circle of our acquaintance. Oh, rain and deeting history of the past, so with nations it may be both | world! Men speak with compassion of the poor useful and instructive to take a retrospective view mariner, who traverses the seas with but a thin of their past policy, with regard to internal affairs | plank between him and death. Alas! what are we and also with reference to their observance of international law.

It may not be improper then, in consideration of the responsible office we hold as public Journalists, professing to have the interest of our beloved country at heart, to glance at the principal events of the past twelve months.

The agitation of the subject of disunion and sccession in some of the confederated states of this Republic is undoubtedly the most momentous occurrence of all. At no other period of our history have Messrs. Cowarden & Davis, converted it into a preached with all the enthusiasm of the Crusaders of the olden time, and sowing broadcast as it were, throughout the length and breadth of our widely extended and happy land, the destructive, peaceis doubly aggravated when we remember that the Compromise measures were already adopted by Congress, and that the people by their Representatives in Congress assembled, had thus virtually rebuked this foul spirit of asti-lawism.

But let us turn to the brighter side of the picture, for dark as it is, there is some sunshine to be found, reflected too from the summer-clad fields of the sunny South. Notwithstanding the efforts at the prevention of the execution of the Fugitive Slave Law at the North, mauger the Boston, Syracuse and Christiana outrages against the feelings of the South, where not only property was at stake, but even life itself was offered to this Molock of fanaticism ; -- yea, in the face of all these circumstances, so well calculated to goad the South to desperation, the Union party was eminently triumphant. In this result, there is the foundation of hope that all such attempts will hereafter meet with the same rebuke by that great lever of republican institutions, the ballot-lox.

The Culan invasion is another item in the chapter of events. This affair stands out in bold relief, without a parrabell in the past, as a most unblushagainst its government. Rebellion at home, and anent was in the hands of one who well knew his responsibility and acted so as to deserve the gratitude of his Countrymen.

Glear of this danger, we have another in the shape of the Ex-Governor of Hungary and others. who, arrived on our shores, are stirring up our sympathies in behalf of the oppressed of all nations. The same spirit of intervention, aye, armed intervention if it need be, is openly proclaimed by those Apostles of liberty. It is sought to involve this nation in the intestine broils of Europe, for the purpose of aiding the progress of democratic principles in Germany, Hungary and other countries. The doctrines so taithfully inculcated in Washington's farewell address, seem slumbering with their immortal proclaimer in the grave, and their spirit seems as powerless for good, as the cold hand of him who ever pointed out a path to us clear from foreign influence and foreign broils,

But we have unwillingly lengthened what was intended to be, but a short article. The end of these things is not yet. We most devoutly pray that the beautiful sunshine we are now enjoying atter the rigorous inclemency of the past, may be the type of that change for the better, that Providence has in store for us!

KOSSUTH IN PHILADELPHIA.

At the Citizens' Binquet in Philadelphia, Kossuth distinctly and emphatically disclaimed any interference with the domestic questions of this country. Hc says :-

"I avail myself of this opportunity to declare once more, that I never did, nor will do, any thing which in the remotest way could interfere with the matter alluded to, [slavery,] nor with whatever other domestic question of your United Republic, or of a single State of it."

He continues: " What is the grownd upon which I stand before the mighty tribunal of the public opinion of the United States ! It is, the sovereign right of every nation to dispose of its own demestic concerns. What is it I humbly ask of the United States? It is, that they may generously be pieased to protect this sovereign right of every nation against the encroaching violence of Russia."

Kassath considers the outbreak in France as but the beginning of the great Revolution about to commence in Europe. He makes light of Louis Napoleon's Usurpation-and deems it but a surprise, as act in December, 1851. He thinks it would be "the greatest mistake to believe, that because the stroke by surprise did succeed, the people are beaten, and the victory of ridiculous ambition achieved. No. its defeat is insured." He thinks, further, that it but not of the nation-the majority of the people (he predicts,) have not voted.

"It appears (he says) that there is a mournful tatality is the destinies of freedom to be baptised in

One thing must now be apparent to M. Kossu h -that however much the sympathies of our people may run with Hungary-as they do with people all over the world struggling for freedom-still, there can be to national interpention against Russia or any other power in Europe. We are not prepared for a measure of such momentous import, and we are not fools enough to undertake a Quixotic enterprise, even in the cause of feeedom.

We may remark that every Whig paper in Virginia that has deemed | that he possesses all the elements essential to his eldelegate from the Old Dominion.

EXPORTATION OF SPECIE.

The shipments of specie from the port of New York alone, during the last year, amount to \$43,-740,318. 'Total from all ports, not less than fortyave millions. No wonder silver bears a premium. The supply of gold from California is the only barrier to a universal pressure in the money market.

FEMALE PHYSICIANS.

There is a Medical College in Philadelphia for the instruction of Females as Physicians. At the late Cotamencement, there were 8 graduates. The class now attending is composed principally of ladies from Pennsylvania, though there are ten from other States, and one from Virginia.

If the persons graduating possess the right sor of mines and nerves, we think their qualification for the healing art altogether commendable. There s an obvious propriety in having female physicians in man; diseases to which the ser are liable. COUNTING-HOUSE CALANDER.

THE LATE WM. C. CARRINGTON, ESQ.

The Richmond Times of Wednesday morning anpopules the death from pneumonia, on Monday night week, of its late respected Ecilor, Withham C. CARRINGTON, Esq. The intelligence of his death, which was widely circulated through the city on the previous day, produced a drep and painful sensation. It fell upon our own ears with startling effect. "The civilization of the Indians within the territory of the United States is a cherished object of the Government. It undoubtedly merits all the consideration bestowed upon it, and the employment of all the means necessary for its accomplishment. There are not wanting those, who, judging from the appatended the instrumentalities employed, doubt the practicability of the measure. It should be remembered, however, that to change a savage people from their barbarous habits to those of civilized life, is, in its nature, a work of time, and the results already attained, as evinced in the improved condition of several of our tribes, are sufficient to silence the most skeptical, and warrant the assurance that perseverance in the cause will achieve success. That his interiority is a necessity of his nature, is neither taught by philosophy, nor attested by experience. Prejudice against him, originating in error of opinion on this subject, has doubtless been a formidable obstacle in the way of his improvement; while, on the other hand, it is equally certain that his progress has been retarded by ill conceived and misdirected efforts to hasten his advance. It is even questionable whether the immense amounts paid to them in the way of annuities have not been, and are not now, all things considered, a curse to them rather than a blessing. Certain it is, there has not at all times been the most wise and teneficial application of their funds. WASHINGTON CORRESPONDENCE.

LETTER NO. IXI. 8 per cent, upon its operations the last year, after President's Levee -- Secretaries, Sec., Se., Kossuth, &c .- His reception is the Senate - Democratic Association - Affair at Brown's-Georgetown Affairs, &c., &c. MR. EDITOR :- The 1st of January, though pre-

cended by stormy and disagreeable weather, opened with smiles and sanshine worthy of an April day, much to the discomfiture of sun iry Hackmen of the metropoliz, who doubtless anticipated the demand for their services would cause them to secure a harvest of dimes.

As usual, the Foreign Ministers called on the Executive from 10 till 12. After their reception the immense crowd of all ages, sexes and conditions was admitted, from the millionaire who arrived in his splendid and luxurious carriage, to the poorest plebian who could raise a Picayune to pay the omnibus fare. The most richly dressed ladies blazing with a profusion of jewelry, and the modest fair ones of the under crust of society, alike were there, to greet the President of the Republic upon this festive occasion, the opening of the New Year. This is decidedly one of, if not the greatest day, in the Washington Calendar. In the midst of his remarks he was interrupted by the outery of one of the audience, who louldy protested that he had been robbed. Whereupon the door was closed; and every man in the room had to submit to the unpleasant alternative of having his pockets "turned inside out." The following is Mr. Clav's letter of resignation, which was read in the Kentucky Legislature, on the 23d. It will be seer that he has resigned his seat in the Senate, to take effect on the first Monday of September next :

Washington, 17th Dec., 1851. To the General Assembly of Kentucky: When you did me the honor to confer on me the appointment of a Senator from Kentucky,

which a now hold, in accepting it I did not intend or expect to serve the entire term of six years. I had previously retired finally, as I supposed, from that body. But out of the territorial acquisitions, resulting from the war with blexico, momentous questions arose, seriously menacing the harmony and peace, if not the integrity of the Union. I felt it to be my duty to return again to the Senate, and to contribute my humble aid, by an amicable settlement of those questions, to avert the calamities with which we were threatened. Such a settlement was attempted during the last Congress, is now in progress of execution, and I trust and hope will accomplish all the good that could be expected from any great measure, adopted to heal national divisions and animosities, which had risen to such

an alayming beight. On the approach of the present Congress, i was with much hesitation, proceeding partly from new feeble state of health, that I conclude to return, for the last time, to the Senate. But I have no thought of ever again taking a seat in that body, after the close of the present session. Having come to this determination. I consider it incumpent on me to place it in the power of the General Assembly to appoint my successor during the present session.

BY virtue of a Deed of Trust from W. L. Webb and wife, to the undersigned, dated 27th of September, 1850, and recorded in Jefferson County Court, I will offer, at public sale, to the highest bidder, at Daniel Entler's Hotel, in Sherherdstown, Jefferson county, Va., on

Wednesday, January 28th, 1852, two very valuable Tracts of first-rate Land, the property of the said Webb, lying near to the said town of Shepherdstown, formerly part of the estate of Thos. V. Swearingen, dec'd: one containing about 154 Acres, the other about 153 Acres. These Tracts adjoin each ather. One is under rent for the ensuing year; of the other, possession can be given immediately, excepting a small field, now in wheat, which the former tenant will have the privilege of cutting and taking away. Of course persons wanting to buy will examine

the property. It is only necessary to say here, that the land is of the best quality—in one of the most fertile sections of the county of Jefferson, and very convenient to the thriving town of Shepherdstown and its large mills, and to the Chesapeake and Ohio Canal, and Baltimore and Ohio Railroad. TERMS: The Deed requires a sale for ready money, but this can be departed from, with the consent of the parties interested, by the purchaser paying one-third in eash; and for the residue, bonds with good security, in equal payments at one and two years, with interest from day of sale, and further secured by deed of trust on the premises; or, by assuming for a part of the deferred payment a debt in the Bank of the Valley, at Charlestown; on which, if made satisfactory to the Bank, 1 and 2 | States and Canadas. PHILLES, BILES, GENE-RAL DEBILITY, &c. This preparation has now borne the test of over 14 years experience, since its first introduction to public favor, during which time numerous imita-

tions have sprung into existence, founding their claims to the confidence of the community on the curative powers contained in Sarsaparilla Root, the great reputation and extended use of which has been mainly attributable to the many wonderful cures effected by the use of this preparation. While Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the care of disease depends. Other preparations imitate it in the style of putting up, and in tearing the name of one of its ingredien s, and here ends their resemblance to it. Those needing a remedy and publier like this, are requested to note where this difference exists, and in making choice of what they will use, not to take any other but that one entitled to their confidence, from the long list of cores itshas-effected on living witnesses, whose testimodials and residences have been published, and who are still bearing daily testimony to its

worth. LIVER COMPLAINT AND SALT RHEUM. NEW YORK, July 27, 1849. MESSES A. B. & D. SANDS, - Gentlemen: Words can but feebly express my feelings, in conveying the pleasing intelligence that my wife is restored to perfect health by the use of your invaluable Sarsaparilla. She was afflicted with a severe cutaneous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor; the head, face and body, were covered with scales like those of a fish; the hair fell out in large quantities, and walking caused the most exeruciating agonies, as it atfected the joints more severely than any other part. prostration of the nervous system. Physicians, both in Europe and America, had exhausted the usual remedies, without effecting a cure, or scarcely affording relief; and the best medical skill was anavailing, until she happily used your Sarsaparilla. The disease was pronounced salt rheum, but her whole system, internally and externally, was altogether deranged; but so complete has been the cure, after using the Sarsaparilla for six weeks, and taking in all less than one dozen bottles, that she now enjoys better health than for years previous to taking the Sarsaparilla. My object in making this communication is, that all who have suffered as the has may know where and to whom to apply for relief, (and that not in vain,) as a complete cure will be the result. My wife unites with me in heartfelt thanks; and believe me, gentlemen.

Yours sincerely, FERRIER NAZER. City and County of New York, ss .- Ferrier Nazer being daly sworn, doth depose and ray, that the foregoing statement, to which he has subscribed his name, is true and accurate, to the best of his knowledge and belief. Sworn and subscribed this 27th day of July, 1849, before me, C. S. WOODHULL, Mayor.

Extract from a leiter received from a Phy-

sician in Maryland. Cambridge, Md., Oct. 5th 1850. MESSES. SANDS,-Gentlemen: My little daughter was afflicted for a long time with Sore Head and Eyes, and by using your Sarsaparilla, was perteetly cured, other medicines and Sarsaparillas having failed to relieve her. Having used it and tested its efficacy, I now confidently recommend it in preference to any other, as it seems to possess properties not contained in any other preparation; and I find that purchasers after they have used it, invariably want the same article again, whenever they require a medicine for which this is recomthey require a medicine mended. Respectfully yours.

they are at liberty to make use of my hame in the sup-port of the good effects of Dr. Hampton's Vegetable Thethre, as it has cured in the live vecks, of a Chronic Inflammatory Rheumatism, contrained under tropical climates, and of seven years' periodical duration. I have only used three bottles, and find that even the deformed parts of my hands are fast returning to their former outural appearance. I have been under the treatment of several physicians in London and Paris, without any apparent benefit; also, while in New York, having tried the Thompso-

nin and Hemopathic remedies, after having been tor-mented with galvanic batteries, cold and aromatic baths, and hundreds of internal and external medicines, sil to no effect. I am, so far, cured by this Hampton's Vegetable Tincture only. Therefore, my dear sir, accept of the assurance of my gratitude, and believe me

More Home Testimony. Wonderful and permanent cure of one of our most ighly respectable citizens. Baltimore, June 24th, 1851 Messrs Mortimer & Mowbray : Gentlemen-A sense f gratuude, and a desire that those suffering under disase be induced to try HAMPTON'S VEGETABLE TINCruar, has influenced me in making the following statement of facts of my case—
On the 14th of November, 1836. I was attacked with what is called Inflammatory Rheumatism; my pains were so intense that, for three could s, I could not rest night or day. I lost all desire for fond, and became ery weak. At this stage of my disease my physician d a consultation with one of the most eminent of the profession in Baltimore. They gave me a large mount med cine, none of which had any good effect on me. my sufferings every day becoming more intense, my pains continuing night and day, aleers forming on my ght arm, right knee and left knee. from each of which plinters of bone came out. After years of suffering my physician pronounced my disease deeply seated and ble. My pains at this juncture were so great that had not one moment's relief from them, units sunder

he influence of an opiate. Many of my friends knoweg my sufferings, and kindly sympathising with me, rsnaded me to try the Thompsonian Sweats; also, After this I also tried a large number of Panaceas and iniaments, all represented as certain cure all's, but from which I derived no benefit, in ther growing weaker every day, suffering, if possible, more after every ew remedy I tried. In the early part of August, 1812, you first introduced by Hampton's Tincture to me. Well do I remember hat morning; it was after a sleep ess knight of great offering. By your advice I commenced, as a last reort, to try Hampton's Veretable! Circuire, and I am ap y to say, before I had taken the bottle, my pains w less, my appetite increased. Hope began to spring

I continued taking the Tincture, and was soon enoled to eat any kind of food, they by gaining strength very hour. In the space of a few months my pains me, the ulcers in my arms and legs were entirely ed, and I was enabled to lay aside my crutches; ad when August, 1843, came around, it found me witht pain, and in the enjoyment of health, which, for is before, I was a stranger to. I am giad to say now, though inearly eight years ave clapsed, that the cure in my case was made with e blessing of Providence and by the use of Hampton's Vegetable Tincture. A large unmber of my relatives and friends can testify to the trathfulness of the above neagre statement of my sufferings, as well as my relief Wishing you every success in bringing this valuable

medicine before the public, and h ping that the afflict-ed may receive the same benefit I have from it. I re-JARRETT PLUMMER, We have hundreds of other certificates from some of the best men in our country. We ask the public to call and get pamphlets and see letters, and have references numbers of our most respectable citizens who have used this wonderful Toncture. Its success in caring discase is astonishing. Never were such prompt cures made before by other medicine. This reinedy is offered to the community with the confidence we teel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so momerous the cases of its cures, that almost every section of the country abounds in persons, public y known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried, its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate. And not only in the formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hourseness, &c., and for Children it is the pleasantest and safest medicine that can be obtained. No family should be without it, and those who have used it, never

GREAT CURE FOR DYSPEPSIA! DR. J. S. HOUGHTON'S

PEPSIN. THE TRUE DICESTIVE FLUID,

GASTRIC JUICE. DREPARED from RENNET, or the fourth

STOMACH OF THE OX, after directions of Baron Lienig, the great Physiological Chemist by J. S. HOUGHTON, M. D., Philadelphia, Pa. This is a truly wonderful remedy for Indigestion Dyspepsia, Jaundice, Liver Conplaint, Constipation and Debility, Curing after Nature's own method, by Nature's own Agent,

the Gastric Juice. Half a teaspoontul of Persin, infused in water. will digest or dissolve, Five Pounds of Roast Beel n about two hours, out of the stomach. PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice-the Solvent of the Food, the Pacifying, Preserving, and Stimulating Agent for the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect institute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility Emaciation, Nervous Decline, and Dyspeptic Con sumption, supposed to be on the verge of the grave The Scientific Evidence upon which it is based, is n the highest degree curious and remarkable.

SCHENTIFIC EVIDENCE, BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the sto mach of the Calf, in which various articles of food as meat and eggs, will be softened, changed, and igested, just in the same manner as they would be n the human stomach." Dr. PEREIRA, in his famous treatise on "Food and Diet," published by Flowers & Wells, New

York, page 35, states the same great fact, and de-

ribes the method of preparation. There are few righer authorities than Dr. Pereira. Dr. COMBE, in his valuable writings on the "Poysiology of Digestion," observes that a "dimi nution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia; and he states that "a distinguished professor o medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful." Dr. GRAHAM, author of the famous works on Vegetable Diet," says: "It is a remarkable fact in hysiology, that the stomachs of animals, macerated water, impart to the fluid the property of disolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process." Professor Dunglison, of the Jefferson College, Philadelphia in his great work on Human Physilogy, devotes more than fifty pages to an examinaof this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the iving human stomach, and from animals, are well own. "In all cases," he says, "digestion occur-

WHEAT PARS.

THE WHEAT FAN, known as the "Genessee very other Fan in the State of New York and other Wheat growing States. It is adapted to cleaning every description of seed, and as a Clover Seed or Timothy cleaner has no superior. This Fan has been most fully tested, and every where elicited the highest commendation. It has taken the premium at several of the best Northern exhibitions, and for superiority of construction, capacity for working, and economy of price, stands unrivalled. The following certificates from some of the most intelligent and successful agriculturists in the Valley of Virginia, attest its merits wherever tried. This list, were those offered not deemed sufficient for all reasonable men, could be extended to an indefinite JAMES RUNYAN.

Charlestown, Nov. 13, 1951. Mr. James Runyan's Fan has been used and tried gainst another celebrated Fan on the farm of the ate Mr. John Myers this season with entire satisfaction. So far as my experience enables me to judge, it has no superior in speed or excellence of JOHN J. H. STRAITH.

This is to certify that I have tried one of Mr. Jas. Runvan's Fans and I have no hesitation in saying it is the best I have ever used, and I have no hesitaion in recommending it to farmers. JNO. H. McENDREE.

This is to certify that I have tried one of Mr. James Runvan's Wheat Fans and I have no hesitation in saving that it cleans better than any one I have used since I have been farming, and a number of my neighbors were present when I used it and all concurred with me in its superiority over any fans used by them. RICH'D DUFFIELD. Nov. 8, 1851. I have purchased one of Mr. Runyan's Wheat

Fans and consider it the best I have ever used on

H. L. OPIE

I have tried one of James Runyan's Wheat Fans and it is the best that I have ever used, and I would recommend it to all the farmers. JAS. G. HURST. Nov. 6, 1851. I have tried one of James Runyan's Wheat Fane
