The Angels of the House.

'Tis said that ever round our path 'Tis said that ever round our path
The unseen angels stray,
That give us blissful dreams by night,
And guard our steps by day.
But there san angel in the house,
Meek, watchful and sincere,
That whispers words of hope to us
When none beside are near:
It is the one, the chosen one,
That's linked to us for life,
The sagel of the happy home.

The angel of the happy home, The faithful, trusting wife.

'Tis said that angels walk the earth-I'm sure it must be so-When round our path, scarce seen by us,
Such bright things come and go.
Are there not beings by our side
As fair as angels are?
As pure, as stainless, as the forms
That dwell beyond the star?

Yes! there are angels of the earth, Pure, innocent and mild, The angels of our hearts and home. Each loved and loving child.

# MISCELLANY.

GIRL OF THE PINE WOODS.

THE AMERICA CHAPTER VII. One of the young ladies in the plot, had a brother residing in New York, of some considerable respectability, and the plan was to circulate a report in the village, that Sophia had purchased her father's liberty at the expense of her virtue: for what else could induce a stranger like Mr. Jackson to be so free with his money. That he never meant to marry the girl was beyond all question. He might decoy her to New-York by specious promises of mar-riage, to facilitate their intercourse, but when that was done, she would, after awhile, find herself abandoned by him, like a thousand romantic girls before her.

Every one who knows the world, has not yet to learn how ready most people are to imbibe suspicion, and when that is excited, how easy it is to gain credulity over to the belief of reports the most scandalous and the most absurd. Suffice it to say, that in less than ten days after the departure of Mr. Jackson, poor Sophia's character was all in tatters among the gossips of the village, without her knowing or feeling the slightest motion of the breeze that was blowing away her reputation.

The girl before mentioned then wrote to her brother in New York that Sophia had been seduced by a stranger, and her character had been totally ruined—that Col. Jackson, too, had been there, and, not knowing her infamous. conduct, had been taken with her beauty, and she believed actually intended marriage-reesenting the stranger and Col. Jackson to be two distinct persons, and that the seduction of Sophia was antecedent to his short acquaintance with her-that it was his duty, and she urged him by all means to acquaint so respectable a gentleman as Col. Jackson, with the But she was soon to be relieved from this painnot rest on her assertion alone, she enclosed a After the certificate signed by several respectable persons, requested her brother to present to Col. Jack-son, stating that the high respect which they entertained for his reputation had alone induced them to disclose the matter.

This letter reached the brother, and he took the earliest opportunity of divulging the whole ntents of the budget confided to his care.

Col. Jackson was far from being too credulous, and he, for awhile, suspected it was all false and malicions; but he could see no motive for raising such a report against a harmless and defenceless female. The letter, too, and the documents accompanying it, were signed by respectable names, as he learned from the nan who presented them. What, then, could it all mean? He could not think that so many people of respectability would combine together to ruin a girl for no cause whatever. The young gentleman assured him that he be- ficate, and exclaimed, "O what villainy-what lieved it, and this young gentleman was no cruelty-what rascality! But Jackson is not mean character. He thought upon itupon it—dreamed of it—accused himself of being weak—easily dupod—love sick, and everything else. He finally concluded to write to her father, of whom he had obtained consent.

He could utter no more—threw the papers to his wife, and to his daughter, who had caught a glimpse of hope from the last words which her father pronounced—"Jackson is not He did write-tore up his letter-wrote again; blame-he is innocent." But on reading the it over and over-scaled it-where was his quity," and declared the resolution of Mr. Jackusual decision?—it must be done—at last he son to be fixed on a final separation, Sophia's sent it to the post office, and was sorry he had fortitude entirely forsook her, and she gave done so five minutes afterwards-but the mail | vent to the swelling agonies of her soul by a was just going-it was gone!!

This letter informed Mr. Thompson of his resolution to withdraw his hand from his daughter forever, enclosing the letter and certificate before mentioned, as the cause of his taking this painful step—stating that every thing which he had engaged to do for him would still be done—excepting that it would be better for him to remain where he was: he had settled all his debts, and he might draw on a house in New York as he wanted it, to the amount of the sum first offered. He presumed that Mr. the sum first offered. He presumed that Mr. Thompson was innocent, although his daughter might be criminal without his knowledge.

Mr. Jackson had told him at parting, to call apon him immediately on his arrival, at a num-

ber designated in a certain street, and Mr. Thompson lost no time in going to the place. But how was he astonished on being told that color, and payment exacted accordingly.

Col. Jackson, three days before, had left the city for the southward, and was not expected to return until the lapse of a year. How mys-

They took lodgings, at a boarding house, and Mr. Thompson went in search constantly for two or three days in succession, to see if he Cash being indispensable in the renewal of our business, we may nevertheless state that we shall consider a payment made within the month of September as a compliance with our terms of subscription. Friends, send in your names at once, so that settle some business of importance in relation to his father's estate, and was not expected back short of a year.

Mr. Thompson at length came across the young gentleman to whom the letter and cirtificate had been sent impeaching the character of Sophia. They had been somewhat acquainted, and Mr. Tompson ventured to open a few slight details of his concerns, and found that the young man he seemed to know more than he was willing to tell about it. This alarmed Mr. Thompson still greater; but he could not decypher the enigma.

Poor Sophia was in tortues. So much trouble can "envy, hatred, and malice" make the most innocent people living, in a very short time. Set the tongue of slander agoing, and we shall soon find that "It is an unruly evil, all of dedly poison"-that it "setteth on fire the course of nature, and is set on fire of hell." They were all willing to think the best of

their friend and benefactor; yet to leave them in such a situation could not be justified, even by the plea of necessity, however imperious. There must be some weighty cause for such unaccountable behavior. What it could be was the great desideratum. Perhaps he went off in great haste, and would still write back an explanation. They concluded to wait awhile longer before they settled on any course to take. looking over an old book, and found the following lines, which she took the pains to trans-

Let no one pretend to believe that Sophia had no great reason to be so extremely wretched as is described. Her mind was in suspense and those who are skilled in the arts of lovewho have been taught in the school of sad experience, tell us, that,

Sophia almost fainted, although she was not one of the fainting kind of ladies. In thoughtless haste, she was just going to take the letter from the boy, who exclaimed, "not you, but father."

The old gentleman took it, broke the seal, cast his eye to the bottom, and said with some animation, "it is from Mr. Jackson, sure enough." Sophia looked all colors at once, if

Before this letter reached the village, where Mr. Thompson resided, he had started with his family for New York, and arrived there totally ignorant of what had been transacted.

Mr. Jackson had told him at parting to sail. ly, "the light that shone upon you when in prison—the light of joy, the gift of God's goodness, which shone around you, when he sent that angel of pity, Mr. Jackson, to release you, and to minister so bountifully to your wants.

Mr. Thompson was instantly struck with a sense of the impropriety of his ill-timed wit' if wit it could be called, and became tranquil and pensive I Sophia, too listened to her mother with composure, and began to reflect, that things were not so bad as they might be. She had found out her enemies, and knew the force of their weapons. Her character might yet be cleared up, and in all probability, Mr. Jackson was yet alive. She again thought of her little song which she had just copied, and half per-suaded herself to entertain the hope, that there might be something prophetic of future good in her finding painted in it the figure of a dove. Still a year was a long-long time, and Mr. Jackson might find some other fair one. There was the rub. She, however, bore her pangs of uncasiness with silent fortitude, as well as the sensibility of her nature would permit, and the injuries which she had received with as much patience as could be expected. There is nothing, however, which wounds the feeling heart so deeply as the convenimed dagger of stander. To a soul concious of innocence, it brings an

But Sophia had the consolation of knowing he was fierce for starting off forthwith to village; to bring her enemics to the bar of tice immediately. "His lady, however, persuaded him not to be too precipitate, but to take some legal advice in the first place, where he who was well acquainted with the whole familly, and with Col. Jackson likewise to whom ne made known the whole affair, with all the ing law, from the village you mention; perhaps he can be of some service to us both," and he called him instantly;—when behold! it proved to be the very young man who had delivered the papers to Col. Jackson. He was going to introduce Mr. Thompson to him, but perceived they were acquainted. The attorney and client both began to question him concerning the infamous libel which appeared in their hands, and he finally confessed that his sister had sent the papers to him, and that he had delivered them to Mr. Jackson, believing what was stated in them to be true. "A more nefarious, libel," said Mr. B.—"was never uttered. Sophia Thompson was taught in the same school with two of my daughters. I have known her from an infant, and have every reason to believe that of her character must retract what they have said-must atone for their outrageous proceedings against an innocent young lady, or the law must be put in full force against them all." The Habit of Exageration.

Some people's tongues are continually emulating the frog in the old fable and always straining int an ox. There are those who never experience a moderate degree of pain! but they speak of it, as a "splitting" headache, "awful" spasm, or "dread-ful" torture. If they meet with a slight incision of the skin, they have "out their finger to the bone;" a common cold is mentioned seriously as "a most violent influenza," and a week or two of fever is re-corded as a "severe and frightful illness." The "Superlative" is the reigning mood with them: "superb," "exquisite," "wonderful," "glorious," horrible," "astonishing," and such extreme adjectives, teem on their lips as plentifully as conjunctions, and we often wonder, while guaging the narrow caliber of brain, whence the big terrents issue-how such large furniture could be found in

such a small house.

Let these people repeat a story or circumstance, and you can hardly detect the original, they see everything through a magnifying glass and kalideo scope blended. Talk of painting in veritable colors the foreground and outlines, often given in merc words, beat the pre-Raphælites by notches; a Dutch write immediately to the persons who signed the certificate, urging and threatening them to garden all tulips and peacocks, or a summer sunset all purple and gold, are soft- and unimposing compared to the limning power of one of these fluent a few weeks. A Lover Lost by a Kiss.

An Austrian nobleman, one of the handsom est and most accomplished young men in Vienna, was passionately in love with a young girl of almost peerless beauty. She was the daughter of a man of great rank and influence at court, and on these considerations, as well as in court, and on these considerations, as well as in regard to her charms, she was followed by a multitude of suiters. She was lovely and amiable, and treated them with an affability which still kept them in her train, although it was generally known that she had avowed a predilection for the count, and that preparations were making for their nuptials. The count was of a refined mind and delicate sensibility; he loved her for herself alone—for the virtues which he her for herself alone—for the virtues which he believed dwelt in a beautiful form. Like a lover of such perfections he approached her with timidity, and when he touched her a fire shot thro' his veins, that warned him not to invade the sanctuary of her lips. Such were his feelings, when one night at the house of his intended father-in-law, a party of young people were met to celebrate a certain festival. Several of the young lady's rejected suitors were present.—
Forfeits were one of the pastimes, and all went on with the greatest merriment, till the count was commanded by some one to redeem his glove by saluting the check of his intended bride.

bride.

The count blushed—trembled—advanced to his mistress—retreated—advanced again—and at last, with a tremor that shook every fibre of his frame, with a modest grace he put to his lips the soft ringlet that played upon her cheek, and in evident confusion retired to demand his redeemed pledge. His mistress gaily smiled, and the game went on. One of her rejected suitors, who was of a merry, unthinking disposition, was adjudged by the same indiscreet crier of forfeits, "as his last treat before he hanged himself," to snatch a kiss from the object of his recent vows. A lively contest ensued between, the lady and the gentleman,—it ed between the lady and the gentleman,—it lasted for a minute, when the lady yielded, though in the midst of a convulsive laugh; and the count had the mortification, the agony, to see the lips, which his delicate love would not allow him to touch, kissed with roughness and repetition by another man, and one whom he despised. Without a word, he rose from his chair-left the room, and the house,-and by that good-natured kiss the fair boast of Vinna lost her husband and her lover. # Prison Cells.

By some accident the second page of the ar ticle last week on the subject of abolishing the dark prison cells of the State Penitentiary was laid, and therefore omitted. It is now in-

The law was so modified as to require but a few days incarceration in the solitary cells at the beginning, and the same number at the end of the term ; and even this could be dispense with by the Superintendent upon evidence of good conduct. Solitary confinement in a cell above ground every night, and from Saturday evening at sunset until Monday morning, with the exception of an hour and a half at preaching on Sunday, was deemed sufficient to allow the culprits, with their bibles, to reflect upon the hard ways of the transgressor.

In a single year thereafter the improvement in health and industry was conspicuous amor the prisoners, and the friends of this amelioration of punishment had the satisfaction of witnessing good results, both in the moral and financial condition of the institution.

# Visit of the President.

Mr. Charles Palmer, one of the committee of ci zens appointed to invite the President of the United States to visit Richmond, has reported the result of his mission. He says he was very kindly received, having been introduced by Secretary Seward; that the invitation gave the President leasure, and he expressed both the desire and in ntion to visit Virginia, as also his native, good old North State, when his public duties will admit of it. These two States especially, he said, should have emained in the Union, and were not fairly carried

The correspondent of the New York Herald is mistaken in classing Presidents Harrison and Tayfor among those who were never in Richmond as Presidents. President Harrison was there in February 1841, and was entertained with a large company at the house of his friend, Gen. Bernard Pey President Taylor was in Richmond in February, 1850, at the inauguration of the Washington Equestrian Statue, and was entertained at the Executive Mansion by Gov. Floyd, where he gave audience to a large number of ladies and gentlemen. He was also entertained handsomely at Fredericksburg, where it was admitted on all hands that he met a greater bevy of handsome women, old and young, than could be produced, in the same number, in any part of the world.

# Confiscation.

The Richmond Republic issues Supplement containing 32 columns of advertisements, notifying the most prominent men of Richmond & vicinity, well known to us, of decrees of forfeiture, by the District Court of the United States for the District of Virginia, of shares of capital stock in the several rail-roads connected with Richmond, and in the James River and Kanawha Canal. The parties are notified that the several causes will stand for trial on the 12th day of October next.

The President, we believe, has already decided that his pardon places the delinquent statu quo, as before the war; and further, that there can be no confiscation of property until after trial and conviction for treason. This is good

logic and good law. Many of the parties whose property has been libelled for confiscation have already been pardoned, and will therefore be enabled to save their property; but in the meanwhile the district attorney, the marshal, the clerk, and the printer, have fat pickings. "It is an ill-wind that blows nobody good."

# Winchester and Potomac Railroad.

We have reason to believe that the War Department is about to turn over to the company or to the Treasury Department, the above Railroad: and that an arrangement will be made with the Baltimore and Ohio Railroad Company for its efficient management in the future. The prospect of an active business in travel and freight never was better than at present. States shall guarantee to every State in the Union a republican form of Government." NEWBERN, September 5.—Mrs. Robinson, a loyal widow lady living in Beaufort, N. C., made application for back rent of a building occupied by the Government, and a decision St. recently arrived adverse to her claim, on the ground that Beaufort was a captured city, and therefore all property, including personal, in the town, is a lawful priez of war.

We understand a similar decision was mad on the claim for rent of a lady of Winchester We cannot believe, however, that such a deci sion will be adhered to as a permanent rule of action. The ladies referred to had no agency in producing the trouble, and therefore a just government will scarcely hold them responsible for uncontrollable circumstances.

Governor Peirpont has issued a proclama tion requiring the commissioners of election for each county and corporation of the Commo wealth to open a poll at the several places of voting, on the second Tuesday in October, 1865, to take and record the vote upon the proposition, "Shall the next General Assembly be clothed with power to alter or amend the third article of the constitution of Virginia."

Frouble in the Methodist Episcopal

A difficulty of a most unpleasant nature ocurred in the Methodist Episcopal Church, in this place, on Sunday week. The Rev. Mr. Norval Wilson has for many years past been the fficiating clergymen, and is much beloved by his congregation. On Sunday last, when about to commence the usual morning worship, he ecame aware that another minister was present, assigned to the church by the Baltimor ference. Mr. Wilson objected to surrender ng the church, alleging as a reason that they had no connection whatever with the Baltimo Conference. Mr. Lanahan, the new Presiding Elder, also appointed by the Baltimore Conference, insisted that Mr. Wilson withdraw, but he proceeded with his discourse, and announced to the congregation that he would preach in

the evening. At the usual hour the church was filled. when it was made apparent Mr. Wilson would not be permitted to proceed, whereupon most of the cogregation left. This state of things is much to be regretted, and will result most likely in breaking up the congregation. We are not sufficiently acquainted with the claims of the two gentlemen to make any comments, but we really think in the present state of public feeling in the South, the Conference is manifesting rather indecent haste in forcing upon the people obnoxious ministers .- Winchester

On the 14th of July, 1862, at Springfield, Mass., ELAZABETH CROWL, of Harper's Ferry, aged 74

At Camp Chase, Ohio, on the 5th of March, 1865, WALTER BURWELL, son of Dr. J. J. and Orra S. Janney, of Clarke County, in the 21st year of his age. In this sad bereavement his widowed mother has lost a devoted and dutiful son; his little brothers and sisters a protector and advisor, and his young associates a true friend. He was an example in all his walks; his Bible was his daily companion, and in it he found the river of life. Reconciled to God's will, he expressed a willingness to die if he could but see his dear mother, and his little orphan brothers and sisters bequeathed to him by a dying father. When his mother was looking for him among the exchanged, the sad intelligence of his death came—the eldest son, the mother's hope! Who could portray the anguish of that mother's heart! He was a volunteer in the Clarke County Cavalry at the breaking out of the war, then in his 17th year, [COMMUNICATED] the breaking out of the war, then in his 17th year, was ever conspicuous for gallantry, and died as he had lived—fearless, brave and true.

On 18th of Nov. 1862, ESTELLE, daughter of Dr. J. I. and Orra S. Janney, of Scarlet Fever. Flower! Sweet Flower!—blossomed but to fade and die! In four brief years this afflicted parent laid in the grave, Husband, Paughter and Son.

COMMUNICATED. To add, Mr. Editor, one more melancholy tribute to your record of departed dead, permit the writer to name the demise on the 10th day of February, 1864, of MARY CATHARINE MYERS, in the 17th year of her age. She was the youngest daughter of Nathaniel and Margaret Myers, of this town; and as she seemed to unite in her person all that was lovely and beautiful in life, so was severed in death the heart's strongest ligaments and most endearing affections, of devoted parents, fond relatives, and ardently attached schoolmates, and associates. Peace to the memory of the loved and affectionate

PERSONAL.

We do not desire, nor do we intend, to force the "Old Family Journal" upon any onenor is it our expectation to please everybody We have felt a little surprised, however, that many who formerly patronized!-by their names, but not by payment-should now hold back. We are not in a condition-just rising from the ashes—to furnish the paper without compensation. that very desirable Property upon the south bank of the Potomac, one mile below Shep-herdstown, known as the "POTOMAC MILLS,"

including the Mill Lot of about FIFTEEN ACRES and all its Valuable Appurtenances.

The Water Power belonging to this Property is one of the most extensive in the State, comprising as it does the full force of the Potomac river by means of a dam some seven hundred feet in length, built against a ledge of rock, which extends at right angles across the bed of the River, constituting thereby an indestructable natural dam of itself and affording the best possible foundation for such a superstructure.

THE HYDRAULIC CEMENT QUARRIES upon the premises are convenient to the kilns and capable of supplying an unlimited amount of that Mineral of the very best quality.

Although the buildings have nearly all been destroyed during the recent war—the Merchant

Mill, Cement Factory, Saw Mill, &c., having been burnt by Massachusetts troops in the summer of 1861—the walls of the principle part of them remain without material injury, being of the most substantial character, those, for inthe most substantial character, those, for in-stance of the Merchant Mill being one hundred feet long by fifty wide, three stories high of brick, three feet thick at their base, and eight-teen inches at top, resting upon a limestone foundation six feet thick, built upon arches sprung on solid rock.

By means of the Chesapeake and Ohio Canal and the Baltimore and Ohio Rail-road every facility is afforded for transportation to and from this Property, which from its situation in the fertile Valley or the Shenandoah, is admirably located in every respect for the establishment of a Manufacturing village and is well worthy the attention of enterprising capitalists.
